Shoreline Community College does not discriminate on the basis of race, color, national origin, sex, disability, sexual orientation, or age in its programs and activities.

This publication is available in alternate formats by contacting the Office of Special Services at (206) 546-5832 or (206) 546-4520 (TDD).

LIMITATION OF LIABILITY: The College’s total liability for claims arising from a contractual relationship with the student in any way related to classes or programs shall be limited to the tuition and expenses paid by the student to the College for those classes or programs. In no event shall the College be liable for any special, indirect, incidental, or consequential damages, including but not limited to, loss of earnings or profits.
Dear Students:

A college education can open the door to a brighter future. For over 40 years, Shoreline Community College has helped students make decisions about their futures. We give them education to move into the workplace or on to a four-year university with the confidence and skills they need to succeed.

The college has worked hard to develop one of the most successful university transfer programs in the state. Each year, graduates of Shoreline Community College transfer smoothly to public and private four-year colleges and universities. What's more, our graduates generally perform as well as the students who begin their college careers in the four-year schools.

Our professional/technical students graduate with the skills most in demand in today's workplace. Their job placement rate is well over 90 percent. The average entry-level salary is $16 per hour, with many graduates earning much more.

SCC at Lake Forest Park offers a wide array of information technology training, including A+ Service Technician, Network +, Microsoft Certified Systems Engineer and more.

Shoreline provides students with a technology-rich environment with a completely renovated library and 100-seat computer lab. We use technology to provide students with web registration, an online bookstore, and many new distance learning options.

This past year, we saw the economy produce many dislocated workers who began new careers by enrolling at SCC. Many others are preparing to enter the workforce for the first time. To help students prepare for college-level work, the college provides a rich program in basic skills, developmental education and English as a Second Language.

In the friendly, active and diverse environment of Shoreline Community College, every student counts. We invite you to visit our beautifully landscaped campus and learn more about the many exciting opportunities that await you.

With best wishes for your success,

Lee Lambert
President
2008–2009 College Calendar

FALL QUARTER 2008

Advising and Registration by Appointment for New Students ........................................... TBA
Instruction Begins .................................... September 24

Vision, Mission and Strategic Plan

Vision
We will be a world-class leader in student success and community engagement.

Mission
We are dedicated to serving the educational, workforce and cultural needs of our diverse community.

Engagement, Equity and Excellence
Engagement, equity and excellence characterize all our efforts toward the goals outlined in the Plan.

engage·ment (noun): The act of sharing in the activities of a group. A mutual pact, contract, or agreement. Synonyms: participation, involvement.

eq-ui-ty (noun): The state, quality, or ideal of being just, impartial, and fair. Synonyms: fairness, justice.

ex·cel·lence (noun): Of the highest or finest quality; exceptionally good of its kind. Synonyms: worthy, choice, prime, valuable, select, exquisite, admirable.

Strategic Plan
SCC’s strategic plan, the result of internal self-assessment and long discussion, reflects the College’s core values for student success and academic excellence. These values are the foundation that sets the College’s direction for the coming years. The Strategic Plan is comprised of eight critical themes, all of which are important to the future of the institution.
Our goal is to ensure that higher education is accessible, affordable, and relevant to our students as we attempt to increase the numbers of students who engage in learning at the College. We know that our programs transform lives and create opportunities that allow our students to go on to better their earnings potential and their individual lifestyles. These students contribute positively to the welfare of our global society and to the economic well-being of the state of Washington.
Shoreline Community College is ready to meet the challenges of our changing economy and is deeply committed to satisfying the educational needs of our students.
The strategic themes and directions of the College’s strategic plan appear on the following page.
Strategic Themes and Directions

PROGRAM EXCELLENCE
SCC fosters excellence in its educational programs.

- Enhance the quality of our educational programs through innovation and continuous improvement.
- Create and apply standards for assessment of student learning and program effectiveness.
- Create and revise programs based on community needs, economic trends, and college strengths, particularly in science, mathematics, engineering and the liberal arts.

STUDENT SUCCESS
Students find enrichment in a safe environment for personal and professional growth. Students reach their goals through innovative programs of study, support services and a diverse campus life.

- Increase opportunities for success through convenient, student-friendly enrollment services.
- Develop and implement an innovative, proactive advising model.
- Provide high quality pre-college programs and comprehensive learning assistance.
- Recruit, retain, and develop a diverse community of learning.

DIVERSITY, EQUITY AND ACCESS
SCC enables access to educational opportunities for all members of the community by promoting diversity and equity in our working and learning environment.

- Develop a shared language and understanding of diversity and equity.
- Ensure that students from underrepresented groups experience the same levels of access and success in reaching their educational goals as other students.
- Provide high quality pre-college programs and comprehensive learning assistance.
- Recruit, hire, retain, and develop a diverse college workforce.

INFRASTRUCTURE AND TECHNOLOGY
SCC provides state-of-the-art buildings, classrooms and technology in a safe and attractive campus.

- Fund and build an allied health and sciences center.
- Develop a coordinated, comprehensive technology plan.
- Implement a unified plan for the maintenance and improvement of classrooms, buildings and campus grounds.
- Enhance the utility and usability of the college website.

ENVIRONMENTAL STEWARDSHIP AND SUSTAINABILITY
SCC models sustainability in its curriculum and operations that are ecologically sound, socially just and economically viable.

- Provide services centered around sustainability and community.
- Operate the college in an environmentally responsible way.
- Develop a curriculum that reflects our commitment to environmental stewardship.

MULTICULTURAL AND GLOBAL COMPETENCE
SCC supports and educates all members of the campus community in their development as multiculturally and globally competent citizens.

- Offer innovative approaches to promoting global citizenship through service learning, international programs, and partnerships.
- Integrate our international students into the campus community.
- Develop multicultural competence among all members of the campus community through curriculum, professional development, and social interaction.

COMMUNITY ENGAGEMENT
SCC is the learning, entertainment and gathering hub of the community.

- Engage the community in planning for capital projects and infrastructure.
- Create and market programs to attract and engage our community.
- Build community partnerships with business, government agencies and organizations.
- Expand and strengthen the relationship between the Foundation and the college.

CAMPUS CULTURE
We value and respect each others’ diverse contributions to our collective goals.

- Provide opportunities and encouragement for all campus employees to enhance their skills through professional development.
- Promote managerial and administrative excellence through accountability and succession planning.
- Develop a culture of assessment and collaborative planning.
- Encourage participation and investment in an equitable campus governance system.
THE COLLEGE

Shoreline Community College offers excellent academic, professional/technical and work force training programs to meet the lifelong learning needs of its community. Dedicated faculty and staff are committed to the educational success of all students.

Located 10 miles north of downtown Seattle, Shoreline is one of the most strikingly beautiful college campuses in Washington. Nestled among native evergreens, the campus is a brilliant sea of colors during spring, summer and fall, when many flowering plants are in bloom. The scenic surrounding area is nationally known for its recreational and cultural opportunities, which richly complement academic life. Twenty-six buildings constitute the 83-acre campus. These include an award-winning automotive training center, a visual arts building, computer centers, laboratories, a student center, a theater, a well-equipped gymnasium that includes an exercise room and racquetball courts, a child care center, a sophisticated multimedia center and the Ray W. Howard Library/Technology Center.

Established in 1964, Shoreline operates under the regulations of the State Board for Community and Technical Colleges and is governed by the Board of Trustees of Shoreline Community College, District Number Seven.

The college is a member of the American Association of Community Colleges and the Association of Community College Trustees.

Shoreline’s satellite campus, SCC at Lake Forest Park, provides academic transfer courses and computer certificate programs as well as customized training. The Center, located in Lake Forest Park Towne Centre, features state-of-the-art technology labs and newly furnished classrooms.

SCC AT LAKE FOREST PARK
Lake Forest Park Towne Centre
17171 Bothell Way NE, Suite A220
Lake Forest Park, WA

Shoreline Community College at Lake Forest Park is an extension campus offering educational opportunities to the local community. The campus was established in 1990 to serve the eastern portion of the College’s district. The campus has seven classrooms and computer labs upstairs and a Work Skills Assessment Center and conference room on the 1st floor. In addition to offering a variety of credit course offerings, the campus is home to the Center for Business & Continuing Education.

The Center’s mission is to meet the lifelong learning and workforce development needs of its diverse community. The Center provides classes for over 3,500 community service, professional, and information technology students at locations throughout Shoreline and Lake Forest Park. The Center develops customized training solutions for business and industry and also features a Small Business Accelerator program. The Accelerator provides small businesses and entrepreneurs with consulting, training and networking services.

RAY W. HOWARD LIBRARY

The Library/Technology Center plays an influential role in providing instruction and instructional support to students and faculty across all college programs. The recently renovated building provides a variety of individual and group study areas including a state-of-the-art information and research classroom/lab and a 100+ seat open computer lab. The various service areas and reading rooms house a collection of more than 75,000 books, periodicals, videos, DVD/CDs and other non-print media. Equipment, furnishings and study areas provide students with a building well suited for research and learning in the 21st century.

Technology is featured on the first of the building’s three floors. The student computer lab is open seven days a week during the fall, winter and spring quarters and contains current versions of standard and specialized software installed on 100+ new computers and is equipped with a scanner, laser and color printers. A television/ITV studio is also available for video production and editing. The interactive television service provides a two-way, full motion video/audio capability that enables the college to be linked to other colleges, government agencies and businesses in the United States and around the world. A video editing lab for students is adjacent to the television/ITV studio.

The second and third floors of the Library/Technology Center house library and media collections and services. The Library features many full text periodical and reference databases, a home page (www.shoreline.edu/library) with reviewed web sites, online reference services, research tutorials and links to other libraries. In addition to quiet, comfortable reading/study areas, there is an information/research and media classroom, 24 public access computer terminals,
copy machines, group study rooms equipped with media playback units and distributed data jacks for connection to the campus network. Additional Internet connectivity is available through the building’s wireless network. High-end multimedia computers available for playback or video production, digital cameras and other media equipment are available for student use.

Friendly faculty and staff are available throughout the building to assist you with your research, information and technology questions. Our librarians and media coordinator provide both general and subject-specific information as well as research and media literacy instruction for students and faculty. Look for courses offered by this division under Informatics and Library in the course description section of this catalog. Information about the various services and collections of the Library/Technology Center may be obtained by calling (206) 546-4556.

SCC WEBSITE - WWW.SHORELINE.EDU
The official website address of the College is www.shoreline.edu. The website contains information that is helpful to students and should be consulted often. The College uses the website to deliver online classes, post grades, register students, sell books, and more.

Announcements regarding changes to polices and programs, publicity for events on campus, and more are posted on a regular basis.

ACREDITATION
Shoreline Community College is accredited by:

Northwest Commission on Colleges and Universities
8060 165th Avenue North East, Suite 100
Redmond, WA  98052

Specific programs are accredited by the National League for Nursing Accrediting Commission, the American Dental Association, the American Dietetic Association, Commission on Accreditation of Health Informatics and Information Management Education and the National Accrediting Agency for Clinical Laboratory Sciences. The Automotive Program is accredited by the National Automobile Technicians Education Foundation.

COLLEGE AND COMMUNITY
Shoreline Community College is dedicated to meeting the post-secondary educational needs of its community. The college serves more than 8,000 credit students per quarter. Individuals may take, on a credit or an audit basis, any class for which they meet the requirements.

The college is here to serve its community and regularly offers continuing education classes to more than 1,200 people each quarter. Suggestions for workshops and classes are welcome at (206) 533-6716. Schedules listing continuing education classes are issued quarterly.

INSTRUCTIONAL DIVISIONS
Shoreline Community College is organized into the following instructional divisions: Business, Intra-American Studies and Social Science; Health Occupations and Physical Education; Humanities; Library, Technology and Distance Learning; Science, Math, Automotive, Cosmetology, Manufacturing and Engineering. Extended Learning constitutes another division, which offers non-credit courses and contract training. Courses offered by the college generally fall under one of these units. Each unit cooperates in the planning and administration of the instructional programs offered by the college.

ACADEMIC CALENDAR
Shoreline Community College operates a year-round academic calendar comprised of three (3) 11-week quarters during fall, winter, and spring, and one (1) 8-week quarter during the summer. Courses are also offered in the evenings and weekends. Class schedules are published each quarter listing the date, times, and locations of classes. These schedules are available approximately four weeks prior to the start of registration.

GENERAL PROGRAMS OF STUDY
Shoreline Community College is a comprehensive college that offers courses in a variety of areas to meet the demands of local and regional communities.

University Transfer
College courses at the freshman and sophomore levels are offered. These courses have been designed to prepare students for upper-division work at a four-year college or university. The curriculum at Shoreline is rigorous and challenging. Instructors focus on preparing students for the high caliber of study at the four-year universities.

The Honors Program
The Honors Program at Shoreline Community College is designed to offer a challenging curriculum for students planning to transfer to four-year institutions of higher learning or who simply wish to deepen their college experience. Students have the opportunity to work on in-depth projects in specific academic disciplines and to create a community of scholars with whom to share their ideas. The Honors Program encourages students to work closely with faculty in seminars and colloquia to develop a research agenda. Graduation from the Honors Program provides students with an accomplishment that could lead to greater scholarship possibilities and admission to more selective colleges and universities.

For detailed, up-to-date information about Shoreline’s Honors Program, please visit www.shoreline.edu/honors.
Career Training
Professional/Technical and Workforce Training
These programs are designed to prepare students for gainful employment upon completing a course of study at the college. More than 50 career training programs are now available at Shoreline Community College. Details may be found in the Professional/Technical Degree Programs section of this catalog.

Worker Retraining Program
The Worker Retraining Program is a partnership between community and technical colleges and the Employment Security Department. The program provides funding and other resources to enable unemployed individuals to acquire the skills needed to return to work. This could mean a short-term skills upgrade, or a new career path and enrollment in a professional-technical program.

The WorkFirst Program
The WorkFirst Program provides free job training as well as free tuition and books for parents who are receiving cash assistance (TANF) or are considered low-income. Currently, the program offers a variety of options and services including a Customized Jobs Skills Training, which prepares participants for employment with an employer partner. The College, through partnerships with local industry, develops short-term (22 weeks or less) training programs designed to give students specific job skills. In addition, WorkFirst provides funding for tuition assistance for working parents to continue their education in SCC’s professional/technical programs. For more information, please call (206) 546-6927.

Study Abroad
(206) 533-6676
Shoreline Community College is a regional leader in providing short and long-term study abroad programs for two-year college students. In addition to 10-week (one academic quarter) programs sponsored in association with the Washington State Community College Consortium for Study Abroad (WCCCCSA), Shoreline offers unique three- and four-week International Summer Institute study abroad programs around the world. Recent opportunities have included programs in Argentina, England, France, Guatemala, Italy, Japan, South Africa, Namibia, Mexico, China, Greece, Turkey, Honduras and Thailand.

Shoreline sponsored study-abroad programs cover a variety of instructional disciplines and feature credit-bearing courses that are transferable to four-year colleges and universities. Financial aid resources apply to Shoreline sponsored study-abroad programs.

Please contact International Programs to learn more about current study-abroad offerings at (206) 533-6676.

Parent Education Program
(206) 546-4593; (206) 546-4540
The Parent Education Program encourages parents to develop child guidance skills and a personal philosophy of family relations. Child development, parenting roles in home and society and family communications are studied in a supportive environment. Parents enroll in the following courses: Parent Education 114, 115, 116, 124, 125, 126, 127, 128, 129, 134, 135, 136, 144, 145, 146 and 154, 155, 156. All of these are college credit courses. Up to 6 credits of Parent Education courses may be accepted towards degree requirements at transfer institutions. Topics explored in these courses include:

Child Development
- Social, emotional, physical and cognitive development
- Language and literacy development
- Multicultural perspective

Nutrition and Health
- Early intervention and preventive measures
- The impact of diet on children’s health
- Dental health care
- Accident prevention for children
- Available resources

Parenting Skills
- Child guidance strategies
- Effective communication
- Developing self esteem
- Values structuring
- Impact of mass media pressures

Family Relationships
- Single parents/blended family issues
- Family communication
- Changing adult roles and lifestyles in the family
- Parenting in our diverse society
- Impact of culture

Cooperative preschools are located throughout the college district. These programs are affiliates of the college and have varying hours depending on the number of participants. Each preschool is a separate corporation, with responsibility for the financing and operation of their cooperative preschool. The college provides the instructors for the parent education courses. The seven affiliated Parent Education Cooperative Preschools serve parents of children from infants through age 5. For information on the schedules of these affiliated preschools, please call (206) 546-4593. To enroll, contact the cooperative preschool directly.
State Training and Registry System (S.T.A.R.S)
(206) 546-4565
Shoreline Community College provides training and professional development opportunities for family childcare providers, childcare center staff, school-age directors and staff, program supervisors, site supervisors and lead teachers. This training and instructional development is in accordance with the Department of Social and Health Services' licensure requirements. In addition, the curriculum is based on the guidelines of the Washington Association of Education of Young Children (W.A.E.Y.C.). Instructors who conduct this training have been approved as S.T.A.R.S. trainers.

Childcare providers can acquire the required 20 hours of basic training during the first six months of DSHS licensing or the first six months of employment in childcare by enrolling in EDUC 291. The additional 10 hours of training that is required annually by DSHS can be acquired by enrolling in EDUC 291. These courses are offered on a quarterly basis through our Education program and students earn college credit for these courses. Tuition costs for this required training is reimbursed through W.A.E.Y.C.

HIGH SCHOOL PROGRAMS

High School Completion Program
Shoreline's High School Completion Program helps students earn a high school diploma. Adults age 18 or older may be able to earn a high school diploma by attending classes at the college. Full-time high school students may be able to earn a high school diploma from a high school by attending classes at the college and transferring the credits to that high school. For more information, call (206) 546-4591.

GED Program
Shoreline Community College offers tuition-free General Education Development (GED) preparation courses to help students preparing to take the GED test. Successful completion of the test results in the awarding of a General Educational Development Certificate. Areas of instruction include math, spelling, punctuation, grammar and vocabulary. In addition, the course concentrates on reading skills in social studies, natural sciences and literary interpretation. The GED test is given at various times during fall, winter and spring quarters. For additional information about GED classes, call (206) 546-4602. For information on GED testing, please call (206) 546-4608.

Career Education Options (CEO)
The Career Education Options (CEO) Program offers out-of-school youth a chance to go back to school for the education and training needed to succeed in the world of work. The program is available to 16- to 21-year-olds who left high school without earning a diploma.

Through CEO, students enhance life skills, receive job training and learn effective job search strategies. The program also provides assistance with placement into internships and employment. While in the program, students may pursue a college degree or certificate in a professional/technical field. Many students also simultaneously work toward a GED certificate.

The CEO Program provides continuous support services to help students achieve their educational and career goals. Funded in partnership with the Office of the Superintendent of Public Instruction, the program provides tuition, books, supplies, transportation assistance and tutoring to qualifying students. Additional support services may be available on an individual basis. For information on enrolling in CEO, please call (206) 546-7844 or drop by the CEO office, Rm. 5222 in the 5000 (FOSS) Building.

Running Start
High school juniors and seniors may qualify to participate in the Shoreline Community College Running Start Program and earn college credit while simultaneously completing their high school graduation requirements. To qualify for the program, high school students must take the COMPASS placement test and qualify for English& 101. Students must qualify for Math& 141 and English& 101 if they wish to take any math courses or any science courses for which math is a prerequisite.

To receive a free COMPASS testing appointment, submit an admission application and an official copy of your high school transcript directly to the Running Start Office in the 5000 (FOSS) Building. For additional information on the Running Start Program, call (206) 546-6906.

Tech Prep
The Tech Prep Program offers high school students the opportunity to prepare for Professional/Technical degrees and to complete college equivalent classes while still in high school. An agreement is prepared between the high school and college faculty that ensures that credits taken in high school and college are transferable between programs. If you enter this program, you will get a solid start on a community/technical college certificate or degree, earning college credit while completing your high school requirement.

Students who complete a Tech Prep class while attending high school with a grade of "B" or better and have submitted a Tech Prep application to the College Credit and Careers Network will receive a college transcript from either Shoreline Community College or another College Credit and Careers Network member college: Bellevue CC, Cascadia CC and Lake Washington Technical College. For additional information, call (206) 546-7852, or go to www.netechprep.org.
COMMUNITY EDUCATION PROGRAMS

Adult Basic Education (ABE)
Tuition-free courses in reading, writing, study skills and mathematics are designed to help students improve their skills for work-related or personal reasons, or to prepare to enter degree programs or professional/technical training. These courses, along with student support services, provide orientation and guidance to help students discover their interests and abilities and prepare for success in their college courses. Call (206) 546-4602 for more information.

English as a Second Language (ESL)
Tuition-free classes are offered to help students improve their English skills in speaking, listening, reading, writing and grammar. These classes are offered morning, afternoons and evenings. Call (206) 546-4602 for more information.

Extended Learning
The Extended Learning Department sponsors a wide variety of professional development and personal enrichment courses designed to upgrade and strengthen job skills. These courses may include computer technology, management, biotechnology and education. Courses on foreign language, dance, exercise, art, music, writing and other areas of interest are also offered. Most courses are held evenings or on Saturdays. Credits are granted for some Extended Learning classes meeting the requirements of employers and funding agencies supporting skill development activities. These credits are all below the 100 level and are not considered to be college-level. They are not intended by SCC as transferable credits, although some receiving institutions may accept them at their discretion. Extended Learning courses and workshops are offered on the main campus, at SCC@Lake Forest Park and at Shoreline School District locations. For additional information, call (206) 533-6700.

Contract Training
In addition to classes listed each quarter in the college class schedule, customized professional training is available to businesses and organizations through the Center for Business and Continuing Education. Call (206) 533-6700 for more information.

eLearning
Shoreline Community College is committed to providing quality education at times and places most convenient to students. To accomplish this, the college has developed eLearning courses that offer several options to students who cannot attend traditional on-campus courses. These options include video courses, online courses (computer based/Internet) and interactive television (ITV) courses. In addition, several degrees and certificates can be obtained at a distance. For further information, please call (206) 546-6966 or visit www.shoreline.edu/distance on the Web. The Northwest Association of Schools and Colleges accredits Shoreline’s eLearning program.

Video Courses
Video courses make use of videocassettes, DVD’s, textbooks and study guides to deliver content. Cassettes and DVD’s may be rented as a set for the quarter or checked out individually from the Media Center. Contact the checkout desk at (206) 546-4529 or media@shoreline.edu. Students may be required to attend one or more on-campus sessions. Video courses offer flexibility, convenience and challenge in a quality video-, print- or web-based course format.

Online (Internet)
Fully online courses have start and stop dates, regular assignments and project due dates, but because the classroom is online and asynchronous, work can be done at a time and place most convenient for the student. They have been developed with the same learning outcomes as traditional on-campus courses. Because online courses are delivered at a distance, they are reading and writing intensive. Even though attendance is not required at a specific time, students will need to spend time in the online classroom five out of every seven days and plan on a minimum of 12 to 15 hours of class work each week for each course. Using a computer and the Internet, students receive lessons and assignments and return completed course work. Students communicate with their instructor and other class members through e-mail and threaded discussions from their home or work place. For Mostly Online classes, students may be required to test on campus or arrange to have an exam proctored several times during the quarter.

Hybrid
Hybrid courses offer students a mixture of on-campus and online learning experiences, with regular on-campus meetings per week. Why choose a Hybrid class? You get face-to-face, personal interaction with your instructor and other students. Plus, you have anytime/anywhere access to the course, on your own computer or in Shoreline’s computer labs with Internet access. You spend more time learning and less time traveling to campus or looking for a parking space.

Some Internet Content
Most face-to-face courses require some Internet content. These course take place at one of the college’s physical sites. Online resources are used to supplement the on-campus instruction and do not reduce the requirement for on-site classroom attendance. Please check with your instructor for more information.
Interactive Television (ITV)
Shoreline Community College is part of Washington State’s K-20 data/video network which serves all community colleges, universities and K-12 school districts in the state. Shoreline provides high quality interactive courses to students in designated ITV classrooms in remote colleges, universities and school districts around the state. Shoreline’s latest ITV improvement also enables students with high speed Internet access to take ITV classes from their home or office, around the corner or around the world.

WashingtonOnline
WashingtonOnline courses are developed and shared by the Washington State Community and Technical Colleges system and offered as Shoreline courses. These asynchronous online courses are conducted completely on the internet. WAOL courses have start and stop dates, regular assignments and project due dates, but students can work at the time and place most convenient to them. Students must be admitted and enrolled at Shoreline Community College in order to enroll in these courses. Grading and content for these courses are the responsibility of the instructor’s home college. Collections and refunds of tuition and fees are Shoreline’s responsibility.

INTERDISCIPLINARY STUDIES
Shoreline’s Interdisciplinary Studies allow students to discover, explore, and connect. Interdisciplinary Studies courses allow you to fulfill graduation requirements in an alternative way. These courses integrate two or more subjects into one class that focuses on a common theme. Two or more instructors team-teach these Interdisciplinary Studies courses, so students get to explore issues or problems through multiple perspectives. Interdisciplinary Studies courses offer you a unique, challenging, engaging learning experience. The benefits of these studies include having you:

■ Join a community of learners, students and instructors together.
■ Work collaboratively around a common theme.
■ Gain a deeper understanding of subjects by exploring the connections between them.
■ Solve more complex problems.
■ Turn ideas into action and social change.

Interdisciplinary Studies courses come in many forms. Some courses may combine three or more disciplines, giving students a full-time load. Other courses may provide students with ten, eight, or five credits. The following is an example of an IDS course that SCC has offered.

5 Credit course with multiple faculty
The West vs. the Rest: Modern History of the International Political Economy
INTST 295 (Global Issues)
Interested in the causes and effects of violence, conflict, and globalization? This course examines the crucial foundational events of the modern world from the French Revolution to the development of today’s Global Marketplace.

INDIVIDUAL PROJECTS
Guidelines for Individual Projects
Individual project credits are for individualized study. They consist of advanced study in the student’s primary academic or career area of interest under the guidance of the division involved. Students initiate requests for individual projects with an appropriate faculty member. Students planning to participate in individual project credits must have completed a basic course in the relevant discipline.

Individual project credits may not be used to satisfy general or distribution degree requirements. Students should consult with their advisors and check with the elective degree requirements of their transfer institution to determine the applicability of individual project credits.

Individual project credits:
For 3 credits: Students must complete 99 project hours and enroll before the end of the second week (10th day) of the quarter.
For 2 credits: Students must complete 66 project hours and enroll before the end of the third week of the quarter.
For 1 credit: Students must complete 33 project hours and enroll before the end of the fifth week of the quarter.

Faculty offering individual project credits submit to the division dean a written contract, including details of the nature of the project, the resources to be used, the materials to be produced or activities to be completed by the student and the method of evaluation and grading that is to be used by the instructor.

Shoreline’s academic regulations are an ongoing concern of the Faculty Senate and the college governance structure. As such, any of the following requirements are subject to periodic review and possible change.
Shoreline Community College is in compliance with Title IX of the Educational Amendments of 1972. This regulation prohibits discrimination on the basis of sex in employment, educational opportunities and program participation. The college also recognizes that sex discrimination in the form of sexual harassment — defined as the use of one's authority and power to coerce another individual into sexual relations, or to punish the other for his/her refusal — is also a violation of Title IX, as well as Title VII of the Civil Rights Act of 1964.

Shoreline Community College is also in compliance with Title VI of the Civil Rights Act of 1964. All educational programs and services will be administered without regard to race, creed, disability, religion, color, national origin (including minorities with limited English language skills), age, marital status, gender, sexual orientation or status as a Vietnam-era or disabled veteran.

Inquiries regarding compliance with any of these regulations or relevant grievance procedures should be directed to the Vice President for Student Services, (206) 546-4641, 5000 (FOSS) Building, or any administrative unit head.

In accordance with the Rehabilitation Act of 1973, Section 504, all educational programs will be provided without regard to physical status. No otherwise qualified individual with disabling conditions shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program, activity or service administered by the college. Students who would be deemed qualified are those individuals who can perform at an acceptable level of productivity in a vocational education and/or academic setting. Reasonable accommodations will be made unless such accommodations will cause undue hardship on the college. Campus facilities and programs are accessible to individuals with disabling conditions.

Inquiries regarding this policy should be directed to the Vice President for Student Services, (206) 546-4641, 5000 (FOSS) Building.

Shoreline Community College complies with the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment) concerning the information that becomes a part of a student’s permanent educational record and governing the conditions of its disclosure. Procedural guidelines governing compliance with this statute have been developed and are available through the office of the vice president for student services. Any student wishing to have information withheld when inquiries are received must notify the Vice President for Student Services in writing.

DISCLAIMER
The college reserves the option to amend, modify or revise any provision of this catalog for the following reasons, including but not limited to:
1. a lack of funds to operate a program or course;
2. unavailability of instructors;
3. a change in administrative or Board of Trustees’ policy; or
4. a change in the laws, rules or regulations of the state of Washington that govern the operation of community colleges.
POLICIES FOR STUDENTS

SUMMARY OF STUDENT RIGHTS
Student Rights and Responsibilities are protected through policies and procedures adopted by the College’s Board of Trustees. Following are some of the key policies pertaining to students. A full description of the policies and accompanying procedural guidelines can be found in the offices of the VP of Academic Affairs and VP of Student Services or via the college website.

Fair Grades
Students are protected by College policy through orderly procedures against arbitrary or capricious actions or decisions relating to academic evaluations by their instructors. (College Policy 5035 – Student Grievance Procedures)

Confidential Records
The confidentiality of student records is protected by College policy requiring guidelines which are in accordance with the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment) concerning the information that becomes a part of a student’s permanent educational records and governing conditions of its disclosure. (College Policy 5040 – Student Records)

Freedom from Discrimination
It is College policy that illegal discrimination, including sexual harassment of students and by students will not be tolerated. Sexual harassment is defined as unwelcome sexual advances. (College Policy 4113 – Sexual Harassment) If you believe you have been discriminated against because of your race, ethnicity, gender, age, or marital status, please contact the SCCSBA Student Advocate, the Vice President of Student Services, or the Vice President of Human Resources.

Advanced Placement
Students may be placed in an advanced course of a sequence on the basis of their high school achievement or test results. Credit may be granted for the course omitted. (College Policy 5160 – Advanced Placement)

Prior Experiential Learning Assessment
Shoreline Community College awards credit for learning achieved through prior experiences to currently enrolled students. The College offers a variety of methods of assessing your prior learning, Prior Learning Assessment (Portfolio) or Testing. Each process allows you to demonstrate and document the extent of your knowledge and experience to earn college credit. All assessment processes used to evaluate prior learning will be consistent with effective contemporary assessment methodologies in the respective fields using a range of strategies consistent with institutional standards for a given course. Awarded credit shall not exceed 25% of the credits required for the program, certificate or degree. Credits granted for prior experiential learning will transfer as restricted elective credits. These credits will be included in the 15-credit limit for all restricted elective credits. Some colleges and universities may not accept CPEL credits in a transfer situation. Students in transfer programs are encouraged to use the Credit-by-Examination process for challenging courses. Students have earned Prior Learning Assessment credit by matching their college level experience to a wide variety of college courses. Please check with the program or division for a listing of the courses available for Credit for Prior Experiential Learning (CPEL). (College Policy 5162 – Assessment & Awarding of Credit for Prior Experiential Learning)

Credit by Examination
Students currently enrolled at Shoreline may obtain credit for certain courses by satisfactorily passing comprehensive examinations, provided the student has never audited, received college credit for, or failed the challenge course. In addition, a student cannot take a challenge exam for a course if s/he has audited or failed either a required or prerequisite course or another course which assumes knowledge of the course being challenged. (College Policy 5161 – Credit by Examination)

Freedom of Speech
Any recognized student organization, with the knowledge and approval of its advisor, may invite to the campus any speaker the group would like to hear. Although it is the advisor’s responsibility through the inviting group to insure the educational relevance of such programs, all such speakers have complete discretion in the content and manner of their presentation, subject to restraints imposed by federal and/or state constitutions and statutes. Moreover, the appearance of an invited speaker on campus does not involve an endorsement, either implicit or explicit, or his/her views by Shoreline Community College, its faculty, its administration or its Board of Trustees. (College Policy 5255 – Off Campus Student Invited Speakers)

Use of Human Subjects
It is the policy of the Board of Trustees regarding the use of human subjects to protect the rights, well-being, and personal privacy of individuals, to assure a favorable climate for the acquisition of technical skills and the conduct of academic inquiry, and to protect the interest of Shoreline Community College. (College Policy 5329 – Use of Human Subjects)

Appearance and Dress
Educational opportunities at the College may not be granted or denied on the basis of standards of personal appearance unless a student’s appearance disrupts the educational process or constitutes a threat to safety. (College Policy 5215 – Appearance and Dress)

SUMMARY OF STUDENT RESPONSIBILITIES

Student Conduct
Admission to the College carries with it the expectation that students will conduct themselves as responsible members of the academic community. This includes the expectation that students will obey the law; comply with the rules and regulations of the College; maintain high standards of integrity and honesty; respect the rights, privileges and property of other members of the College community, and will not interfere with legitimate College operations.

Student activity or behavior which violates any provision of the College conduct code is not acceptable; yet, an individual who enrolls at the College can rightfully expect that the instructors and administrators will exercise with restraints imposed by federal and/or state constitutions and statutes. Moreover, the appearance of an invited speaker on campus does not involve an endorsement, either implicit or explicit, or his/her views by Shoreline Community College, its faculty, its administration or its Board of Trustees. (College Policy 5255 – Off Campus Student Invited Speakers)

Use of Human Subjects
It is the policy of the Board of Trustees regarding the use of human subjects to protect the rights, well-being, and personal privacy of individuals, to assure a favorable climate for the acquisition of technical skills and the conduct of academic inquiry, and to protect the interest of Shoreline Community College. (College Policy 5329 – Use of Human Subjects)

Appearance and Dress
Educational opportunities at the College may not be granted or denied on the basis of standards of personal appearance unless a student’s appearance disrupts the educational process or constitutes a threat to safety. (College Policy 5215 – Appearance and Dress)
these rules and regulations shall be fair and shall be pursued in accordance with regulations governing student conduct. Sanctions, up to and including expulsion from the College, may be imposed for failure to satisfy the expectations stated above. These sanctions will determine whether, and under what conditions, the violator may continue at the College.

Violations of the Student Conduct Code will lead to disciplinary action; however, nothing herein will be construed to deny students their legally and/or constitutionally protected right(s) to due process. (College Policy 5030 – Student Conduct and Discipline)

Student Grievance
Students shall have recourse against arbitrary and capricious actions or decisions relating to academic evaluations by their instructors through an orderly procedure. (College Policy 5035 – Student Grievance Procedures)

- When a student believes that he/she has a grievance regarding an academic evaluation, he/she should seek out the involved faculty member(s), state the nature of the grievance, and make a serious attempt to mutually resolve the issue. This step shall be initiated no later than the last day of the next regular academic quarter, excluding summer quarter.

- If step a does not produce a satisfactory result for the student, he/she may request a meeting with the division chair (or the immediate supervisor) of the involved faculty member(s) to discuss the grievance within ten (10) instructional days of the conclusion of the discussion conducted under step 4(a). The student shall present a written, signed statement of the nature of the grievance to the division chair, who shall then attempt to achieve a mutually satisfactory resolution of the grievance. If the student chooses, he/she may be accompanied by a representative of the student body association or personal counsel.

Dishonesty in Academics
Each student is expected to exhibit academic integrity. Shoreline Community College does not permit any form of academic dishonesty, such as cheating or plagiarism.

- Academic dishonesty occurs when a student provides unauthorized academic benefits to another student or receives academic benefits he/she did not earn through his/her own efforts, by cheating or plagiarizing.

- Cheating includes, but is not limited to, conferring an unearned benefit to another student, copying another's work on an exam, preparing for an exam by using test questions from a stolen exam, accessing unauthorized materials, or turning in another person's work as one's own.

- Plagiarism is quoting, paraphrasing or summarizing portions of another's work from a published, unpublished or electronic source without acknowledging that source. Consequences of any breach of academic integrity shall be clearly defined in a course syllabus and may include withholding or credit lowering of grade, and/or failure (0.0) for the assignment and/or course, or lesser sanction. Matters involving academic dishonesty may be referred to the Vice President of Student Services for additional disciplinary action(s).

STUDENT RECORDS AND RIGHTS TO PRIVACY
All Students at Shoreline Community College are protected by the Family Educational Rights and Privacy Act (FERPA) of 1974. Your privacy is protected with certain restrictions on the disclosure of your student educational records and information. You have the following rights, protection and privacy of your educational records at Shoreline Community College.

1) The right to inspect and review your student education records within 45 days of the day the college receives a request for access. The student should submit a written request to the Registrar’s Office identifying the records they which to inspect.

2) The right to request the amendment of the student’s education records the student believes are inaccurate.

3) The right to authorize disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. The college will disclose the following information authorized by FERPA on all students:

- Student’s name(s)
- Telephone number
- Major or field of study
- Dates of attendance
- Degrees and awards received

Directory Information can be released by the College unless the Office of the Vice-President for Student Success or the Registrar’s Office has received a written notice signed by the student requesting non-disclosure of all student information. FERPA authorizes disclosure without consent to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement); a person or company with whom the College has contracted (such as an attorney, auditor, collection agent, or verification agency); a person serving on the Board of Trustees; or a student assisting another school official in performing his or her tasks. Upon request, the College may disclose education records without consent to officials of another school in which a student seeks or intends to enroll, and to military recruitment services pursuant to the Solomon Amendment. The College is also required to provide information to the Federal Government regarding students who may be eligible for the Hope Scholarship and Lifetime Learning tax credit programs. The College does not disclose education records to family members without student written consent.

4) Students have the right to file a complaint with the U.S. Department of Education concerning alleged failure by the college to comply with the requirements of FERPA. The name and address of the Office that administers FERPA:

Family Policy Compliance Office
US Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

Contact the Registrar’s Office (206) 546-4613, if you wish to inspect, review or restrict disclosure your student educational records or if you have any questions regarding your rights under the Family Educational Rights and Privacy Act.
Students may begin their college education at Shoreline Community College in fall, winter, spring or summer quarter. To apply for admission, students should submit an application to the Admissions Office. Applications should be submitted as early as possible before the quarter begins. Applicants will receive notification of acceptance and registration information by mail.

Web Admissions
To apply to Shoreline Community College via the Web, access the online admissions application at our college Web site: www.shoreline.edu. Fill out the online admissions application on your computer, then follow instructions to submit it.

ADMISSION ELIGIBILITY
A candidate for admission to Shoreline Community College must be a graduate of an accredited high school, have a General Education Development (GED) certificate or be at least 18 years of age. Upon admission, students may be required to submit any of the following records to the Admissions Office.

1. Assessment Results
Evidence of placement level is required before registration in English composition, reading, math, or "W" courses. Assessment test results are used to assist students with placement in appropriate levels of these classes. They are not used to determine whether a student will be admitted to Shoreline Community College.

Students may submit SAT, ACT, COMPASS or ASSET test scores for English placement. Students may submit COMPASS or ASSET test scores within three years for mathematics placement. COMPASS and ASSET tests are available at Shoreline by appointment.

Before the student’s registration date, the college will send instructions on how to make a test appointment. Test results will be sent automatically to the Admissions Office.

2. College Transcripts
Students who have attended other colleges are required to submit official transcripts from all colleges from which they wish to transfer credit toward their Shoreline Community College degree. Shoreline Community College accepts credits earned at colleges or universities that are recognized by the Northwest Association of Schools and Colleges as regionally accredited. Transcripts of course work from other colleges may also be required to provide evidence of placement level before registration in English composition, reading, math or "W"* courses.

Students receiving federal financial aid or those receiving educational benefits from the Department of Veterans Affairs are required to submit official transcripts from all prior colleges including, in the case of veterans, those attended before, during, and after active duty.

3. High School Transcripts
Students are encouraged to submit final, official high school transcripts to Shoreline’s Admissions Office. High school transcripts assist advisors of students seeking to transfer to four-year institutions to meet those institutions’ admissions and graduation requirements.

*For a description of “W” courses, see page 101.
STUDENTS WHO HAVE NOT GRADUATED FROM HIGH SCHOOL

Applicants who have not graduated from high school must take placement tests before registration. The College recommends that applicants consider the High School Completion Program or the General Education Development Test as an aid to planning the student's program.

High school students attending a day high school full-time or part-time may also take high school completion classes or college credit classes to meet their own high school requirements. The student must have an authorization letter from his or her counselor or vice principal stating that the high school will allow the student to attend the college classes and will accept the credits earned.

The Running Start program allows high school juniors and seniors to take college classes tuition-free. See the Running Start section of this catalog for more information.

Students under the age of 16 must meet special requirements in order to enroll at Shoreline. Contact the Admissions Office at (206) 546-4621 for more information.

AUDIT STUDENTS

An audit student must be registered and have paid required tuition and fees. Class participation will be at the instructor’s discretion. No credit is earned. A student cannot change to or from audit status after the first day of the seventh week of the quarter. The audit grade appears as an “N” and will be permanently posted on the official transcript.

INTERNATIONAL STUDENTS

SCC does NOT require international students to take the TOEFL examination. Instead, each Shoreline student is asked to take an ESL proficiency test upon arrival in the U.S. in order to be placed in the appropriate classes.

In order to apply for admission as an international student, the following items are required:
1. A completed application form.
2. Complete and official high school records (all years), as well as any college or university transcripts.
3. Evidence of financial responsibility.
4. Application fee

Please contact International Programs for an application packet.

PROGRAMS WITH SPECIAL SELECTION PROCEDURES

Admission to the college does not guarantee acceptance into certain programs that have special requirements. Dental Hygiene, Health Information Technology, Medical Laboratory Technology and Nursing fall into this category. Other programs such as Automotive Service Technology have waiting lists due to high demand for such majors. Refer to the Professional/Technical Degree Programs section of this catalog for further information.

TRANSFER CREDITS

Credits earned at colleges or universities that are recognized by the Northwest Commission Colleges and Universities or other regional accrediting agencies are accepted by Shoreline Community College.

REGISTRATION

[206] 546-4611

The registration procedure allows students with the largest number of accumulated credits to register first. This permits students to move up in the priority order each quarter they are in attendance. In-person registration may be by written proxy if a student is unable to report at the scheduled time.

Students are required to obtain their advisor’s signature for courses to be taken each quarter if they have completed fewer than 15 credits at Shoreline Community College. An advisor’s signature is not required, however, for a student who has completed 15 Shoreline credits and:

1. is not enrolled in an English as a Second Language program;
2. is not an international student; or
3. is not enrolled in a selected professional/technical program.

Web Registration

Students who have completed at least 15 credits at Shoreline Community College can register via the Web on or after their scheduled appointment date. Access online registration at the college web address: www.shoreline.edu. See the quarterly Class Schedule for deadlines for tuition payments. Credit card and debit payment is available online.

Automatic Waitlist

Students can put themselves on a waitlist for a full class, or check their position on a waitlist via the web at www.shoreline.edu. Registration into a waitlisted class is automatic when space becomes available until one day prior to the first day of the quarter. The signature of the instructor is required to register after that date.
CHANGE OF REGISTRATION
Web registration is available through the first week of the quarter. It is the student’s responsibility to confirm any schedule changes by adding or dropping classes with the Registration Office. The advisor’s signature is required if the student wishes to take more than 23 credits in one quarter.

Students desiring to change their class schedules during the first five days* of a quarter must fill out a class schedule change form and take it to the Registration Office. No signatures are required except in the case of special-permission classes as indicated in the class schedule.

Changes during the sixth through the 10th day* are made on the same form and require the signature of the instructor.

From the 11th day through the end of the fourth week*, the class schedule change form must be used and requires the signature of the instructor(s) and, for adds only, the division Dean. During this time a grade of “W” will automatically be given for dropped classes. Although advisors’ signatures are not required for these changes, students are encouraged to see advisors for assistance.

It is not possible to add classes after the end of the fourth week* of the quarter. The schedule change form is used for drops only from the first day of the third week to the first day of the seventh week* and requires the signature of the instructor(s). From the second day of the seventh week, the instructor will assign the proper grade on the grade roster (see Grading System section of this catalog). No “W” grades will be issued after the first day of the seventh week*. Although advisors’ signatures are not required for these changes, students are encouraged to see advisors for assistance.

EARLY WITHDRAWAL PROCEDURES (FROM CLASS OR COLLEGE)
From the eleventh day of the quarter through the first day of the seventh week* of the quarter, the procedure for withdrawing from a class is as follows:

Students should fill out an official class schedule change form, obtain the instructor’s signature on the form for each class to be dropped and take the completed form to the Registration Office. During this period, the grade given will be an automatic “W.”

Starting the second class day of the seventh week* through the last day of instruction, the grade will be a I, NC, P, V or Z (if emergency situation is applicable) as the instructor’s judgement dictates. No “W” grade will be issued after the end of the first day of the seventh week.*

DROP FOR NONPAYMENT
Students who fail to pay their tuition in full by the tuition payment deadline will be administratively withdrawn from all classes. Re-registration will not be possible after the fourth week (or summer equivalent.)

SPECIAL BENEFITS REQUIREMENT
Students expecting to receive compensation for full-time programs under the G.I. Bill, Social Security, Railroad Retirement Board or any other outside agency will be required to carry at least 12 credit hours.

RECORDS
(206) 546-4623

CONFIDENTIALITY
Shoreline Community College protects student privacy as required by federal law in the Family Education Rights and Privacy Act (FERPA) of 1974. A student at Shoreline may have all personal information held confidential. The office of the vice president for student services can provide this special service. For more information, call (206) 546-4641.

NAME CHANGES
Continuing or returning students are required to submit legal documentation for a change of name as shown on Shoreline records. Acceptable proof would be a marriage certificate or court order or notarized copy thereof. Picture identification is also required.

STUDENT IDENTIFICATION NUMBER (SID)
Students are issued a randomly assigned student identification number at the time of admission. Disclosure of social security numbers is not mandatory, except for the purposes of financial aid, Federal HOPE Scholarship tax credit, employment in any position at Shoreline including work study, and workforce or unemployment reporting. Voluntary disclosure is authorized for the purposes of academic transcripts and assessment/accountability research. Your social security number is confidential and will be protected under the Family Educational Rights and Privacy Act.

*Summer quarter deadlines differ. Please refer to the Summer class schedule.
STUDENT IDENTIFICATION CARDS
A new I.D. requires valid photo identification (a Washington State driver’s license or passport) and a copy of a class schedule indicating that at least 50% of tuition due has been paid or documentation of funding resource for tuition payment. The first student I.D. card issued is free. If the I.D. card is lost, stolen or mutilated, replacement cards are $15. New I.D. cards issued due to a name change cost $5 and the name change must be completed in the Records Department in Enrollment Services before the new card is issued in the library.

TRANSCRIPT REQUESTS
An official transcript of academic achievement at Shoreline is available for a fee of $5.00 each, plus $1.00 for each additional copy per order. Requests may be made in person, by mail or online. The Transcript Request form is available on the second floor of the 5000 building, or on Shoreline’s web site: www.shoreline.edu. Online requests carry an additional fee of $2.25 per order and must be paid for by credit or debit card. For more information, phone (206) 546-4614. Allow 72 hours for processing after the college receives your request.

OBTAINING INFORMATION
Information kiosks are located in Enrollment Services (5000 Building), Shoreline Bookstore, and the library, where students may view and print an unofficial copy of their records free of charge. This information can also be accessed via the Web at www.shoreline.edu.

HOLDS ON STUDENT RECORDS
Students who have been placed on academic suspension or who are under age 16 must meet with the registrar before being allowed to register. Students who have outstanding debts to the college (such as traffic and parking fines or library fines) will not be allowed to register or make program changes until these have been cleared. Likewise, official transcripts will not be released until debts are cleared. The Registrar’s Office requires up to 24 hours to process the release of a hold on student records.

SCHEDULE OF TUITION AND FEES
As a Washington state public institution, Shoreline Community College is required to comply with all applicable state laws regarding residency classification.

In general, a student is considered a “resident” for tuition and fee purposes under the following conditions:

1. The student is a US citizen, has permanent resident status, or is otherwise permanently residing in the United States under color of law; and
2. The student is financially independent* for the current calendar year and the calendar year prior in which the application is made; and
3. The student is in Washington primarily for reasons other than educational and has officially established Washington as his or her true, fixed and permanent home and place of habitation for a period of at least one year prior to the start of the quarter of enrollment.

*If a student is not financially independent, then his/her residency is based on whether one or both parents/legal guardians have met all residency requirements.

Washington state laws require that new residents of Washington change out-of state driver’s licenses and out-of-state vehicle registrations within 30 days of arrival in this state (references: RCW 46.16.028 and RCW 46.20.021). New residents should also change out-of-state voter registrations.

Students will be initially classified as “resident” or “non-resident” based on the information derived from the Admissions Application. Students who are requesting reclassification from non-resident to resident status will be required to provide proof of meeting the one-year residency requirement by submitting a Residence Questionnaire and supporting documentation.

Other conditions which might qualify a student for resident status are:

1. Members/dependents of the US military or Washington National Guard; or
2. Students who are not US citizens and do not have permanent resident immigration status, but attended a Washington state high school for at least 3 years and have graduated (ref. HB 1079); or

Students should contact the Registrar’s Office for complete details regarding residency classification.
As a Washington state public institution, Shoreline Community College is required to comply with all applicable state laws regarding residency classification.

In general, a student is considered a “resident” for tuition and fee purposes under the following conditions:

1. The student is a U.S. citizen, has permanent resident status, or is otherwise permanently residing in the United States under color of law; and
2. The student is financially independent* for the current calendar year and the calendar year prior in which the application is made; and
3. The student is in Washington primarily for reasons other than educational and has officially established Washington as his or her true, fixed and permanent home and place of habitation for a period of at least one year prior to the start of the quarter of enrollment.

* If a student is not financially independent, then his/her residency is based on whether one or both parents/legal guardians have met all residency requirements.

**NOTES:**

(a) Tuition is subject to change and approval by Legislative or Board of Trustees’ action. Some courses may have additional fees for supplies or other charges.

(b) For purposes of being considered “full time” for funding from federal and state financial aid programs, Veterans Administration, Social Security and most other outside agencies, a student is required to carry at least 12 credits.

(c) The additional operating fee of $64.60, $123.69 and $236.30 per credit hour over eighteen (18) for resident, non-resident citizens and non-resident non-citizen students, respectively, is subject to waiver for required vocational courses.

(d) The additional operating fee of $49.20 and $209.80 per credit hour over eighteen (18) for resident and non-resident students, respectively, is subject to waiver for required vocational courses.

**NOTE:** The tuition prices shown above were accurate as this document went to press. Tuition is subject to change by the State Legislature.

---

A student wishing to change his or her residency classification must petition the college by completing the residency questionnaire form (obtainable in Enrollment Services) and by providing necessary documentation. This should be completed before registration.

### Student Fees

**Audit Fee**

Same as for credit fee.

**Credit by Examination (Challenge)**

Per credit hour: $10. Contact the appropriate instructional division office for more information.

**Methods of Payment**

MasterCard, VISA, cash, debit cards and personal checks are accepted.

**Senior Citizens (60 or Over)**

Tuition is waived for up to two regular college credit classes on a space-available basis for audit only. There is a $5 fee for this service. Senior citizens must pay all applicable college and class fees.

**Special Fees**

Many classes require special fees for equipment, laboratory use, materials or personal instruction. Such fees will be listed in the quarterly class schedule. A special selection process fee will be required when applying to certain programs.

**Student Union Renovation Fee**

$3 per credit up to a maximum of $36 per quarter.

**Technology Fee**

$2.50 per credit up to a maximum of $25 per quarter.

**Transcript Fee**

$5.00 each, plus $1.00 for each additional copy per order. There is a 72-hour processing period.

**Refunding of Fees**

A refund of fees is made either when a student officially withdraws from the college or when there is a partial withdrawal (reduction in credit hours).
Financial aid recipients may be required to repay some or all financial aid upon withdrawal, depending on the type of aid received, the documented last day of attendance and applicable rules and regulations governing financial aid. For refunds for financial aid recipients, see the Financial Aid section of this catalog.

REFUND POLICIES

Refunds are made according to the following schedule:

**Before first week of the quarter:** full refund except for fees listed in the schedule of fees as non-refundable.

**During the first week of classes:** 80 percent of refundable fees. (Summer Quarter: see class schedule.) Withdrawal is not reflected on student transcript.

**Second week of classes:** 50 percent of refundable fees. (Summer Quarter: see class schedule.) Withdrawal is not reflected on student transcript.

**Third and fourth weeks of classes:** 50 percent of refundable fees. (Summer Quarter: see class schedule.) Withdrawal appears as a “W” on student transcript.

**After the fourth week of classes:** No refund will be issued. (Summer Quarter: see class schedule.) Students who withdraw from the college without complying with official withdrawal procedures, and students who are asked to withdraw by the college, do not receive a refund of fees.

**Example 1:** Student A officially withdraws during the first week of the quarter. Whether or not the student attended class, he or she is eligible for an 80-percent refund. The college retains 20 percent of the tuition paid. (See Summer Quarter class schedule for equivalent.)

**Example 2:** Student B withdraws halfway through the fourth week of the quarter. The student is eligible for a 50-percent refund of tuition; the college retains 50 percent. (See Summer Quarter class schedule for equivalent.)

*Note: Financial Aid recipients should refer to the examples in the Financial Aid section, since different regulations and percentages may apply.*

*Note: Student fees for Continuing Education classes are refundable up to two business days before the class begins. Refunds will be made if a class is cancelled by the college.*
ADVISORING

Advising provides students with the necessary information to make sound academic decisions and educational plans. Advisors assist students with information about admission and graduation requirements, course placement and selection, transcript evaluation and registration. Through advising, students make the connection between academic interests, degree requirements and career opportunities.

All full-time faculty and some staff assume responsibility for advising students. Counselors are available to work with students who are undecided and in need of career or personal counseling. Students may request a change of advisor at any time at the Information Desk in the 5000 (FOSS) Building.

Planning guides, course equivalency guides, transfer manuals and many college catalogs are available for reference in the Advising and Counseling Center, Room 5229 (FOSS) Building. The Advising and Counseling Center is open from 8 a.m. to 5 p.m. on Monday, Tuesday, and Thursday; from 8 a.m. to 8 p.m. on Wednesday; and from 8 a.m. to 4:30 p.m. on Friday.

COUNSELING

(206) 546-4559

Counseling Services are located in the Counseling Center, Room 5229 (FOSS) Building. Grounded in human development theories, counselors offer a range of services to help students identify and achieve their personal, academic and career goals. Through personal, educational or career counseling, counselors work closely with students in an effort to promote a positive learning environment and educational experience.

Career counseling is available to help students identify their personal interests and abilities in relation to academic planning and the world of work. Counselors provide both group and individualized career counseling with a variety of assessment and evaluation services offered at a minimal fee.

Shoreline offers short-term personal counseling to help students overcome difficulties that present barriers to success. Issues that may impede academic progress can be addressed through counseling services. Counselors are experienced in handling complex situations that may result in a need for crisis intervention. They also serve as a campus and community referral resource for students, faculty and staff. Counselors are professionally educated, trained and experienced in counseling, psychology and social work. Information shared during the course of personal counseling is confidential.

Faculty teach an array of human development courses such as Career Exploration and Life Planning, Stress Management, Improving Relationships, College Orientation and Student Success. Counselors provide advising assistance, help students in their transition to other institutions and meet new and prospective students to assist with access to college programs and services.

RESOURCES FOR STUDENTS

JOB CONNECTIONS CENTER

(206) 546-4610

The Job Connections Center, located on the second floor of the 5000 (FOSS) building, provides students and the community with resources to find all types of employment - be it a part-time job during school or a professional career after completion of a training program.

The Center posts announcements about current job openings, upcoming job fairs, and companies that are hiring. Students may also use E-Recruiting software - a customized database of local jobs and internships. The Center sponsors an annual career fair for students and the community.

Students who are uncertain about their future choice of career or program of study can access WOIS software - a career assessment tool that includes interest inventories, as well as information about various careers and training programs.

Staff is available to help students use the Center’s computers to access job banks, career information, and labor market information. Staff is also available to critique resumes and provide workshops on job search strategies. Students can learn more about the job search, resume writing, and interviewing by viewing videos or reading books in the Center’s library.

The Job Connections Center also houses the Co-operative Education Program, the Worker Retraining Program, and the Employment Security representative. For information on services call:

EMPLOYMENT SECURITY CO-LOCATION
(206) 546-7842
The Washington State Employment Security Department has a representative on campus at Shoreline Community College to save you the time of traveling to your local office for service. The co-location representative is located in the Job Connections Center and is available Monday-Friday 8:30 a.m.-5 p.m. and offers a full range of support services including, but not limited to:

Unemployment Insurance Benefits Information and Assistance
- Help in understanding and completing Unemployment Insurance paperwork
- Assistance in completing Commissioner Approval for Training (CAT) applications for the Worker Retraining and other training/retraining programs
- Assistance in completing Training Benefits applications for the Worker Retraining and other training/retraining programs
- Liaison between claimant and the Employment Security Telecenter in resolving issues and problems regarding Unemployment Insurance Benefits
- Current Unemployment Insurance information on campus

Employment Information and Job Referral
- Access to Employment Security web site for job listings and job referral: go2worksource.com
- Individual résumé assistance, labor market information, and job referrals

MULTICULTURAL CENTER
(206) 533-6618
The Multicultural Center is a place for people to meet, explore their cultural origins and work toward understanding, respect and appreciation of the diversity within our campus community and society.

The Center provides information and services that support students’ academic, personal and professional success. Students may explore learning strategies for reaching their educational goals and receive information about college and community resources. Students are encouraged share their life experiences and learn from one another during social and cultural gatherings. The Center is open from 8am to 5pm Monday through Thursday and 8am to 4:30pm on Fridays. Summer hours may vary.

The Multicultural Center offers opportunities for skill development through workshops and conferences. The Center also sponsors presentations and performances that highlight aspects of diversity. Resources are available for faculty and staff interested in integrating multicultural theory and perspectives into the curriculum or work settings.

OFFICE OF SPECIAL SERVICES
The Office of Special Services (OSS) is housed in the Student Development Center (5000 Building) room 5229. Programs for students in OSS include Veteran’s Services, Services for Students with Disabilities, the Community Integration Program and support for students working with outside funding sources such as the Department of Vocational Rehabilitation or Labor & Industries.

OSS program staff are committed to providing students with exceptional individualized service. This commitment to student service and satisfaction is demonstrated by service standards which include: attending to students promptly and courteously, maintaining strict confidentiality, making sure that students are referred to appropriate resources as necessary and ensuring that students are treated with dignity, respect and kindness.

Service for Students with Disabilities
(206) 546-4545
All students who qualify as having a disabling condition under section 504 of the Rehabilitation Act of 1973, the Washington Core Services bill or the Americans with Disabilities Act, may request accommodation or assistance from the Office of Special Services. Students with questions about qualification should contact the program office. It is the mission of the SSD program to ensure that these mandates are followed and that all students have access to educational programs, campus services and activities.

Examples of possible accommodations include: testing accommodation, note-taking assistance and referral for tutoring. Other services include referral for personal counseling, academic advising, career assessment, or other assistance as appropriate. Students requesting accommodation should call the OSS office at (206) 546-4545 or (TTY) (206) 546-4520 for information on specific accommodations or to make an appointment for assistance.

Students who are working with outside funding sources such as the Department of Vocational Resources or Labor & Industries may also call (206) 546-4545.

Veterans Services
(206) 546-4645 or (206) 546-4545
Veterans or other students who are planning to attend Shoreline Community College under Educational Benefits offered by the Veterans Administration and who have any questions about applications, credit load requirements, courses acceptable in specific programs, changes of educational goals, etc., can check with the Veteran’s Program Coordinator in the Veteran’s office (FOSS Bldg., Room 5246).
V.A. application deadlines are extremely important, and it is recommended that contact with the college Veterans Office be made as soon as possible. Those who have difficulties or the questions about the V.A. or college programs should the Veterans Coordinator. All persons receiving Veterans benefits are subject to "Standards of Progress" and "Standards of Conduct," statements required by the Veterans Administration. The "Standards of Progress" statement requires maintaining a minimum of a 1.75 grade-point average, reporting changes in attendance or progress to the veteran’s coordinator promptly and completing a course of study in the length of time approved by the Veterans Administration. Any V.A. beneficiary who fails to meet these standards will be placed on probationary status for Veterans benefits for the following quarter.

Students who are placed on probation must complete all subjects for which they are registered with at least a 2.0 GPA, in addition to the requirements listed above. Students who fail to meet the standards for the probationary period will have their certification for Veterans benefits terminated for lack of sufficient progress and will be required to complete counseling before they are allowed to have their benefits reinstated. For further information, see the Veterans Counselor in the Advising and Counseling Center or the Veterans Coordinator. The "Standards of Conduct" statement for veterans is the same as for all students at Shoreline Community College, as indicated under the Student Life section in this catalog.

Shoreline Community College is giving eligible Veterans and National Guard Members a 50% discount on their tuition. To be eligible, the Veteran needs to be a state resident. They need to bring in a copy of their Form DD214, to the Veteran Affairs Office in the 5000 building, room 5246, showing they have served their country on foreign soil, or served in support of those who were serving on foreign soil, or in international waters. The Form DD214 must also show the Veteran had an Honorable Discharge.

Other Veterans and National Guard Members who meet the same criteria, but have not served their country on foreign soil, qualify for a 25% discount on their tuition.

Shoreline Community College will waive 100% for children of a parent who has died or become totally disabled in the line of duty. An income tax form showing the disabled Veteran has not been employed, since declared by VA as 100% disabled, is required.

Shoreline Community College will waive 100% for spouses of a veteran who has died or become totally disabled in the line of duty. An income tax form showing the disabled Veteran has not been employed, since declared by VA as 100% disabled, is required.

Community Integration Program
[206] 546-5823 or [206] 546-4545

The Community Integration Program (CIP) at Shoreline Community College is a grant funded program serving students with developmental disabilities. CIP demonstrates dedication to students with significant disabilities by providing comprehensive individualized services that promote access and success. Students must be registered with and eligible for services through the State of Washington’s Division of Developmental Disabilities (DDD) and/or meet other specific criteria to participate in this program. For information please call (206) 546-5823.

Parent-Child Center

Shoreline Community College Parent Child Center provides high quality childcare for children of the students, state employees and community members. We are licensed by the State of Washington (DSHS) and received our accreditation for the National Association for the Education of Young Children in October of 2004.

The center offers a Parent Education Class for the parents that are enrolled in the center and functions as an instructional laboratory serving as an observational and practicum site for students enrolled in vocational and academic programs. The center serves children from the ages of 3 months through five years of age (not in kindergarten).

The center is open from 7:00 am until 6:00 pm Monday through Friday. We are closed Saturdays and Sunday. The center will close for two weeks after the end of summer quarter and two weeks at the end of December, state holidays and three days per year for staff training. We serve breakfast, lunch and a pm snack. Fee sheets are available in the PCC Office- Bldg 1900.

Scc Foundation
[206] 546-4755 or [206] 533-6783

The Shoreline Community College Foundation is dedicated to increasing student access and success at Shoreline Community College through raising funds, building partnerships, and advocating for students and the college. The SCC Foundation offers a variety of scholarships and also provides emergency financial assistance to students with pressing needs. The SCC Foundation currently manages more than 60 accounts and 20 endowments on behalf of generous donors and SCC departments for the benefit of students. A volunteer board of directors composed of representatives of community leaders, business and industry, alumni, and educators governs the SCC Foundation. Please call the SCC Foundation office or check the website for further information at http://www.shoreline.edu/foundation/.
The Women’s Center reflects the college’s commitment to student success and educational excellence. It supports women and men who are exploring or pursuing educational opportunities by providing an array of services and initiatives that are grounded in principles of equity and inclusiveness.

The Women’s Center is a comfortable place for sharing information and learning about college and community resources. The Center is open from 8 a.m. to 5 p.m., Monday through Thursday, and from 8 a.m. to 4:30 p.m. on Fridays. Summer hours may vary. Students and community members have access to these services:

Information and Resources
Personalized referrals are provided to individuals with questions about housing, legal assistance, child and health care, financial matters, and other concerns. The Women’s Center also has reference materials on topics related to women’s lives and experiences. Information about financial resources for college students is available.

Learning Opportunities
Lectures, performances and exhibits are held each quarter to increase awareness of different issues and perspectives. An array of presenters – educators, artists, writers, performers – is highlighted.

Learning Assistance Centers

Writing and Learning Studio
(206) 546-4101 ext. 4308

The Writing and Learning Studio (TWLS) provides opportunities for students to develop writing, reading and study skills in a friendly lab environment. Services include student success workshops, English lab credit courses, instructional handouts and free tutorial assistance for reading and writing across the curriculum (e.g. essays, reports, research papers, etc.). Walk-ins are always welcome. TWLS is located in Room 1501.

Math Learning Center
(206) 546-5825

The Math Learning Center (MLC), located in the 2200 Building, serves students in math courses from arithmetic through calculus. The MLC provides individual assistance and the opportunity for students to work in groups. Equipped with computers, graphing calculators, videos and printed materials, the MLC provides a supportive environment for students studying math.

English as a Second Language (ESL/GED Computer Lab)
(206) 546-6624

The ESL/GED Computer lab is located in Room 1721 and provides students with additional assistance towards learning English as a second language. The lab is equipped with computers and training modules to enhance the study of the language. Students may drop-in during open lab hours.

International Programs
(206) 546-4697
(206) 546-7854 - Fax
Website: www.international.shoreline.edu

Shoreline Community College currently serves more than 500 international students from over 30 different countries. Our International Programs Office provides comprehensive services to each of our students. International students are a valued part of our campus community and significantly contribute to Shoreline’s multicultural environment.

International students choose Shoreline Community College for many reasons. Its close proximity to downtown Seattle, ease of transfer to a university to obtain a bachelor’s degree, and the quality of the education at an affordable cost.

Shoreline offers a comprehensive ESL program that allows international students to take college classes while completing the higher levels of their ESL training.

Tutoring
(206) 546-7852

The Carl Perkins Support Services program manager and staff located in room 5204 are available in to assist and advocate for students with special needs who are enrolled in a professional/technical program and are also members of a special population such as single parents, re-entry students, limited-English-speaking students, students receiving financial aid and students with disabilities. Services provided may include, but are not limited to, providing access and referral to tutoring, counseling, guidance and other educational services on campus. The staff also advocates on behalf of students who receive supplemental assistance from community and governmental agencies such as Division of Vocational Rehabilitation, Department of Social and Health Services and Employment Security.

Tutoring services are also available in the Transfer Student Tutoring office in Room 5201 for students intending to transfer to a four-year college or university. Students may also find jobs as tutors through either office. Additionally, a number of drop-in centers are also available on campus for academic assistance.
NEW STUDENT ORIENTATION

Shoreline offers a comprehensive orientation and registration program for new students, which includes a packet of orientation materials, small-group discussions and individual advising assistance.

At orientation students are provided with information about Shoreline’s programs, services and degrees. Students are given assistance reading class schedules, placement testing, financial aid and connecting to advisors, counselors and student campus activities. Copies of placement test scores and evaluated transcripts are normally made available to students, provided official transcripts are on file in the Admissions Office before the orientation appointment. Transfer students who need a transcript evaluation after their initial registration should fill out a request form at the Information Desk in the 5000 (FOSS) Building.

Upon completion of the application, students make an appointment for new student orientation and registration. New students who have already earned a bachelor’s degree and do not need advising may go ahead and register at their scheduled time.

Continuing students have first priority in completing their registration based on the total number of completed credits identified on all official college transcripts that are submitted to the Admissions Office. Advising and an advisor’s signature is not required for a continuing student who has completed 15 Shoreline credits and:

1. is not enrolled in an English as a Second Language program;
2. is not an international student; or
3. is not enrolled in a selected professional/technical program.

It is strongly recommended, however, that students seek advising services before registration to ensure progress toward degree and certificate requirements.

ASSESSMENT TESTING/ COURSE PLACEMENT

Shoreline conducts the ASSET and COMPASS placement tests to help students identify their skill levels in reading, writing and math. Test scores are used to help ensure accurate placement in English and math courses. Students who have taken either the SAT or ACT test may submit these scores in lieu of the ASSET or COMPASS test for English placement. Mathematics placement requires ASSET or COMPASS test scores within three years. Information about the assessment program will be provided to new students when they apply for admission and when they receive instructions regarding the registration process. These tests also determine the ability of a student to benefit from instruction at Shoreline Community College.

Placement based on ASSET, COMPASS, SAT or ACT scores is required for the following students:

1. students who declare an intent to pursue a college degree or certificate.
2. students who plan to enroll in a math, English or a "W" designated course or any course with math or English prerequisite. "W" courses include extra writing requirements and are identified in the quarterly class schedule.

Placement testing is waived for transfer students who submit official college transcripts showing successful completion of both college-level math and English composition with a grade of 2.0 (C) or better.

Note: All students who are non-native speakers of English and who have been in the United States less than four years will have their English skills assessed, according to the policies and procedures of the English as a Second Language (ESL) program described elsewhere in this catalog.

FINANCIAL AID

Shoreline offers financial assistance to students enrolled in an eligible degree or certificate program at the college. Eligibility is determined by federal and state regulations based on information students and parents report on the application forms. Students might receive aid in the form of grants, employment or student loans. Students are encouraged to complete the federal FAFSA form as soon as possible after January 1 for the following academic year which starts at Shoreline in summer quarter. Financial aid files complete by April 30, with all the required documents, will be given priority consideration for available funds.

To apply for aid, students must:

1. Complete the FAFSA (Free Application for Federal Student Aid) and submit it to the federal processor. Students may apply using either the paper form or on the Internet. Applications are available in the Financial Aid Office, 5000 Building, and are available at high schools and public libraries. The web application can be located at www.fafsa.ed.gov; students and parents can request a financial aid PIN at www.pin.ed.gov to use to electronically “sign” the FAFSA and for other electronic federal financial aid processes.

2. Complete the Financial Aid Data Sheet for Shoreline

3. Have academic transcripts from prior colleges attended in the last 10 years submitted to the Admissions Office and evaluated for credits that can transfer to
Shoreline; and

4. Submit all additional documents as required by the Financial Aid Office.

5. After a file is complete, eligibility for aid will be determined, and students will be notified by mail. Student loans require an additional application. The Data Sheet and other forms are available on Shoreline’s Financial Aid office web site: [www.shoreline.edu/financialaid/](http://www.shoreline.edu/financialaid/)

**General Eligibility Requirements**

To receive financial aid, federal regulations require that students must:

- be eligible according to federal calculations based on the FAFSA;
- have a high school diploma or GED; or submit a copy of passing scores on the ASSET or COMPASS placement tests for math (numerical), reading, and writing;
- be enrolled in an eligible degree or certificate program;
- be a U.S. citizen or eligible non-citizen;
- have a valid Social Security Number;
- make satisfactory academic progress;
- sign the FAFSA statement certifying that they will use financial aid only for educational purposes;
- not be disqualified based on a conviction for a drug-related offense;
- certify that they are not in default on a federal student loan and do not owe a repayment of a federal grant;
- and
- be registered with the Selective Service, if required;
- not currently enrolled in high school.

Additional eligibility notes:

- Students generally must be enrolled for at least half time (6 credits) to receive aid; students enrolled for less than half time might be eligible for a limited amount of federal Pell grant assistance.
- A student must be an undergraduate to receive grants. Students who have received a bachelor's degree or its equivalent or a first professional degree are not eligible for grants, but they are eligible for student loans.
- As required by federal regulations, this includes unaccredited or foreign schools and schools not accepted or recognized by Shoreline.
- Students cannot receive financial aid from two schools at the same time.
- Shoreline participates in study-abroad programs approved for academic credit. Eligible students may receive financial aid through available grant and loan programs offered at Shoreline.

**Types of Aid Available**

**GRANTS AND WAIVERS**

**Federal Pell Grants**

This federal grant is available to eligible students enrolled at least part-time. In some cases, limited amounts of Pell Grants may be available to students enrolled for less than six credit hours. Grants will be awarded in amounts up to $4,731* for the 2008-09 academic year. Determination of the amount is based on the FAFSA application information submitted by the applicant to the federal processor.

*subject to change

**Supplemental Educational Opportunity Grants (SEOG)**

These federal grants are available to students with exceptional financial need and range from $100 to $1,000 for the year. Priority is given to students with the greatest need who meet the priority deadlines.

**Washington State Need Grants**

These are available for state residents. Students must meet other criteria established by the state.

**Shoreline Grant, Tuition and Fee Waivers**

These are available for state residents enrolled for at least 6 credits. The state permits colleges to award this grant and/or to waive a portion of resident tuition and fees for a limited number of eligible students.

**EMPLOYMENT**

**Federal and State Work-Study**

Work Study is a program in which students are employed and earn money to help pay for their educational expenses. Paychecks are received twice each month for the hours worked. The earnings are partially subsidized by federal and state funding. Jobs are available on and off campus.

**STUDENT LOANS**

Shoreline Community College participates in federal loan programs including the federal Direct Loan (subsidized and unsubsidized), parent PLUS loan and Nursing Loans. Students are encouraged to borrow as little as possible, as cumulative debt by the end of college can be financially difficult.

More information about the federal Direct Loan program is available in the Financial Aid Office and on the Internet at [www.dlsonline.com](http://www.dlsonline.com).
Subsidized Direct Loans
The maximum loan is $3,500 per academic year for first-year students and $4,500 for second-year students (must have completed half of the required credits in their program of study). Eligibility for the subsidized Direct Loan is based on financial need as determined using the federal FAFSA application and the credits completed in their degree program.

Unsubsidized Direct Loans
Unsubsidized Direct Loans are not based on financial need. First-year dependent students may borrow up to a combined maximum of $3,500 in subsidized and unsubsidized Direct Loans. Second-year dependent students with at least half of the required credits completed in their degree program may borrow up to a combined maximum of $4,500. Independent students may borrow up to $4,000 in unsubsidized Direct Loans in addition to the maximum subsidized amounts, depending on need and the cost of attendance (see Estimated Costs of Attendance below).

The interest rate on the Subsidized and Unsubsidized loans is fixed at 6.8%**. Interest is paid by taxpayer funds on the Subsidized loan while students are enrolled at least six credits and during the six-month grace period. Loan Entrance counseling is required for first-time borrowers, and Exit Counseling is required for all students when they leave school. The counseling is completed at www.mapping-your-future.org. To borrow a student loan, students must complete the Master Promissory Note at www.dlenote.ed.gov and submit the Direct Loan Request form to the Financial Aid office which is available in the office or at www.shoreline.edu/financialaid, “Forms.”

If a Direct Loan recipient's enrollment drops below 6 credits during a quarter, the college is required by the U.S. Department of Education to cancel the student's loan. The student is no longer eligible to receive any further funds from the original loan application. The student must be re-approved for the receipt of further loan aid, and must submit a new student loan request form.

Student loan checks are available for each quarter of enrollment in the academic year.

Parent PLUS Loans
Parent PLUS Loans are available for parents of students who have first completed the FAFSA and financial aid application process. Parents must complete the Master Promissory Note at www.dlenote.ed.gov and submit the Direct Loan Request form to the Financial Aid office. The PLUS Loan form is available in the office or at www.shoreline.edu/financialaid, "Forms."

Nursing Loans
Students admitted to the Nursing Program may borrow up to $2,500 a year. These funds are available to those who demonstrate need. These loans must be repaid during a 10-year period after completing the degree program. Interest is paid during the repayment period at 5 percent.

Short-Term/Emergency Loans
Who may borrow? Continuing students with a 2.0 GPA. A cosigner may be required.

Conditions of the loan: Loans are granted for resident tuition, books, and emergencies. The maximum amount a student may borrow is the amount needed for the quarter’s books, or the amount needed to pay resident tuition, or $150 for emergencies.

Service charge and repayment: A service charge of $5 is placed on each loan. To assist as many students as possible with these limited funds, a short-term loan must be repaid within 60 days of the date of the promissory note, and no later than the end of the quarter in which the loan is made.

How to apply: Students must apply in person through the Financial Aid Office. The application may require additional documentation.

SATISFACTORY ACADEMIC PROGRESS FOR FINANCIAL AID RECIPIENTS
Satisfactory academic progress toward a degree or certificate must be maintained to be eligible for financial aid. Students must meet the academic standards of the college and the requirements of the financial aid policy for progress. A complete copy of the policy is available in the Financial Aid Office and is mailed with each initial notification of financial aid. The policy is also available at www.shoreline.edu/financialaid/, under “Forms.”

Academic performance is evaluated each quarter and on an annual basis, according to the Registrar's grade reports and/or an instructor’s report. Each quarter, full-time students are expected to register for and complete a minimum of 12 credits with at least a 2.0 grade point average (GPA). Students must achieve and maintain at least a 2.0 cumulative GPA. Students are also expected to complete at least 75 percent of all credits they attempt.

Grades of 0.0, H, I, N, NC, V, W and Z do not count toward completed credits. At the end of each quarter, full-time students who complete less than 12 credits and at least 6 credits are on financial aid probation. Students on probation must complete all credits for which they enroll (at least 6) with a GPA of 2.0 or higher. If they fail to make progress during a probationary quarter, financial aid is canceled until they have reinstated their eligibility. Students may reinstate eligibility by completing at least 6 credits in a quarter without financial

**Interest rates and other conditions are subject to change, and the federal government pays interest charges for students only on subsidized Direct Loans for students enrolled at least half time.
aid, earning at least a 2.0 g.p.a. for the quarter; and they must also achieve or maintain a cumulative g.p.a. of at least 2.0 and a 75% completion rate. Aid is normally available for 125 percent of the number of credits required for the program of study. All credits attempted, including withdrawals, are counted toward the 125 percent limit.

If unusual circumstances prevent a student from making progress, students may submit a written petition to request that their eligibility for aid be reinstated. Students must attach supporting documentation to their petition.

**ESTIMATED AVERAGE COSTS OF ATTENDANCE FOR FINANCIAL AID**

The following estimated average costs will be used to determine financial aid eligibility for a state resident attending full-time for three quarters (nine months) in the 2008-2009 academic year. The tuition and fee amounts are determined primarily by the State Legislature; the other expenses are estimated averages.

Expenses will vary depending on special program costs, non-resident tuition, daycare and other factors. The student budget is revised annually to reflect current costs.

**QUALIFYING SKILL-BUILDING COURSES**

The following courses are designed to increase the ability of a student to pursue a course of study leading to a certificate or degree offered by Shoreline Community College. Classes acceptable for financial aid will be funded to a maximum of three (3) quarters or 45 credits. (Tutorial and audit classes are not acceptable.) All other provisions of the Satisfactory Academic Progress Policy must be met by financial aid recipients.

Adult Basic Education/English as a Second language courses (050-089) are not eligible for financial aid.

**RIGHTS AND RESPONSIBILITIES**

**Rights**

All financial aid recipients have the right to review their financial aid file for the accuracy of the information contained therein and submit corrections. Confidential information covered under the Privacy Act may not be reviewed without prior approval of the individual concerned.

**Responsibilities**

Students and their families have the primary responsibility for paying for their educational expenses. In addition to expected contributions from parents, students are expected to contribute from their savings and earnings. Federal and state financial aid programs are intended to supplement, not replace, the resources of a student’s family. Students are responsible for:

- knowing when their tuition, fees and other charges are due;
- understanding when and how financial aid funds will be available to help pay expenses;
- ensuring that they have other funds to pay their remaining expenses, if financial aid does not cover all expenses;
- completing all applications clearly and completely, and submitting all additional documentation required by the Financial Aid Office;
- reading and understanding all information mailed to them related to financial aid;
- knowing the financial aid requirements for Satisfactory Academic Progress;
- completing all credits each quarter for which they receive financial aid with at least a 2.0 G.P.A.;
- informing the Financial Aid Office if they will receive agency funding or a scholarship to help pay their expenses at Shoreline;
- notifying the Financial Aid Office immediately when they officially withdraw from classes (or when they withdraw unofficially by stopping attendance in their classes); and
- starting each quarter with their own money to pay for their initial expenses, as financial aid checks are not available until after the first day of the quarter.

**Withdrawal From Classes:** Should it become necessary for a student to withdraw from classes, he or she should obtain a Schedule Change Form from Registration. The form should be completed and returned to Registration so that the Financial Aid Office is notified. Students should indicate their last day of attendance on the Schedule Change Form (add/drop form). If required, students might have to repay a portion of the aid they received (see following).
Withdrawal or Not Completing Credits After Receiving Financial Aid: Requirements for Repayment and Return of Aid

When students receive financial aid, either by picking up a check or by having tuition or other charges paid electronically, they are expected to complete the credits for which they received the aid.

When students officially or unofficially withdraw from Shoreline after they receive financial aid, or if students complete zero credits in any quarter they received financial aid, they might have to repay a portion of the aid they received. Shoreline also might have to return some financial aid funds to federal or state programs.

Shoreline uses the federal "Return of Title IV Funds" requirements to calculate the amount of federal financial aid that must be repaid by students and the amount that must be returned to the federal aid programs by Shoreline. This calculation is based on the withdrawal date.

The federal calculations generally use a student's date of official withdrawal or the last documented date of attendance in class to determine the amount of federal financial aid (Title IV SFA program funds) that the student did not "earn" by remaining enrolled. The amount of Title IV aid funds that the student received in excess of the standard costs of attendance for the time in class must be repaid or returned to the student aid programs.

For the State Need Grant and for the Shoreline Grant, Shoreline's Institutional Refund policy is used to determine the amounts that must be returned to these state aid programs, and to determine the amount of non-institutional expenses for the calculation of state aid that must be repaid by students.

State funds used for institutional charges will be returned after federal Title IV aid funds. The federal and state aid funds will be returned in the following allocation order: Unsubsidized Federal Direct Loan, Subsidized Federal Direct Loan, FFEL PLUS loan, Federal Pell Grant, FSEOG, State Need Grant, and Shoreline Grant (state 3/4% funds).

Students are expected to notify the Financial Aid Office immediately when they withdraw officially (or when they withdraw unofficially by stopping attendance in their classes). If students owe a repayment of financial aid, they will not be eligible to receive aid in the future until they have repaid the full amount owed.

This policy is subject to change, and a complete copy of the current policy for repayment and return of all aid types is available in the financial aid office.

Concurrent Enrollment

Students are allowed to receive financial aid only from one college for the same enrollment period — they are not allowed to receive aid from two colleges at the same time. Students attending two colleges simultaneously (concurrent enrollment) are eligible to receive aid only from the college at which they are seeking a degree or certificate.

Work Based Assistance

Worker Retraining Program

The Worker Retraining Program, located in the Career & Employment Services Center, provides excellent opportunities for skills upgrades or career retraining for dislocated workers and displaced homemakers.

Students can select any one of over 50 professional/technical programs - from a one-quarter skills upgrade to a two-year certificate program. Students receive one quarter of free tuition from the college, plus referrals to on-site funding sources that may provide up to two years of additional funding. Depending on the availability of funds and the student's eligibility, financial assistance for books and funds for placement testing may also be available.

The program targets people who are currently receiving unemployment insurance or who have been on unemployment insurance in the past 24 months. Displaced homemakers may also qualify for the program.

At the Career & Employment Services Center, students have access to on-site representatives from Employment Security and various funding sources. The Worker Retraining Program also coordinates closely with the Financial Aid office at SCC. Worker Retraining students receive priority registration, educational planning, enrollment assistance, and job search assistance.

Orientations with program information are held weekly. To find out about the next orientation session, call (206) 546-4610, email shorecareers@shoreline.edu or visit the Career & Employment Services Center.

WorkFirst

The WorkFirst Program provides job-related training and free tuition and books for clients who are low income parents. For eligibility requirements, call (206) 546-6927.

Available Services Include:

- financial aid and assessment for tuition and books;
- career interest tests;
- COMPASS test for math and English placement;
- career placement assistance;
- internships;
- career and job opportunities — part-time, full-time and seasonal;
- employment preparation — the resume, the interview, job search strategies;
- employer interviews on campus; and
- Internet career assistance.
THE COOPERATIVE EDUCATION INTERNSHIP PROGRAM
(206) 546-7843

The Co-operative Education Program provides students the opportunity to utilize skills learned in the classroom and to gain relevant work experience while receiving college credit. Students participating in a Co-operative Education internship work closely with a faculty advisor to ensure that the internship is a valuable learning experience.

Although several professional-technical departments run their own internship programs, many departments utilize the Co-operative Education program. Located in the Career/Employment Center on the second floor of the Foss Building, Co-op staff can assist students with finding and setting up an internship, writing a resume, interviewing, and processing the Co-op Ed paperwork.

For more information, talk to your faculty advisor or call (206) 546-7843.

OTHER STUDENT SERVICES

BOOKSTORE
(206) 546-4732

The College Bookstore, on the lower level of the 9000 (PUB) Building, stocks textbooks, class required supplies and materials. In addition, the bookstore stocks art, photography and office supplies, software, snacks, gifts, and Shoreline logo clothing. The bookstore is an authorized Apple Store and maintains an online site for Apple computers, which can be purchased by enrolled students at an educational discount.

The bookstore accepts cash, MasterCard and Visa and personal checks with student picture ID.

Fall, winter and spring quarter normal hours are 7:15 am to 6:00 pm, Monday through Thursday, and 7:15 am to 4:00 pm Friday.

The bookstore is open extended hours the first week of the quarter. Hours vary for summer quarter and the time period between the end of summer quarter and Labor Day. Open hours are posted, and are available on the information phone line: (206)546-4731 and on the website www.shorelineccbookstore.com.

Online Bookstore

Students are encouraged to take advantage of the bookstore website which can be accessed directly at http://www.shorelineccbookstore.com or via links from the Shoreline Community College web page. This site is operational 24 hours a day, 7 days a week. Students may purchase textbooks at this site and have the books shipped to their home address or bundled for pickup at the bookstore. Purchases made online must be paid with a MasterCard or Visa. The site provides up-to-date information about textbook availability and pricing, buyback and store hours.

Textbook Buyback

At the end of each quarter during exam week, the bookstore invites a used book wholesaler to conduct a textbook buyback. There are two levels of pricing for books; 50% of the new retail price will be paid for books that the bookstore needs for the upcoming quarter. Need is based on the information the bookstore receives from the instructors and the level of bookstore stock. Books that the bookstore does not need are bought back based on the current national demand. These books are shipped to the wholesalers warehouse for resale. Wholesale prices are approximately 10-30% of the new retail price. Out-of-print books and old editions are not in national demand and therefore may have no buyback value.

CAMPUS SALON

The SCC Campus Salon is located in a brand new facility at 910 N. 160th Street, just a few blocks east of the main campus. The Salon offers a wide array of services at very affordable prices. Services include: haircuts, styles, colors, foils, relaxers, manicures and pedicures. All services are performed by students and supervised by licensed instructors. We are open to the general public, students, faculty and staff.

Call the salon at (206) 542-5056 for an appointment and a schedule of salon hours.
CAMPUS SECURITY
The Shoreline Community College Safety and Security Department provides security 7 days a week, 24 hours a day. The Safety and Security office manages traffic safety, parking, emergency preparedness and response and crime prevention. This office works closely with Shoreline Fire and Police Departments.

The Safety and Security Office is located in the FOSS Building (Building 5000) in room 5102. The business line for the office is (206) 546-4633. For emergencies and/or after hours and weekends, a security officer can be reached by dialing 4499 from any campus or blue light phone, or (206) 235-5860 from a cell phone. To contact Shoreline Police and Fire Departments directly from campus phones dial 9911 or 911 from pay phones or cellular phones.

Contact the Safety and Security Office for:
Emergencies (any fire, medical, or disasters); Crimes on campus, including damage to campus facilities or property, or traffic collisions, disputes, parking or other violations.

DENTAL HYGIENE CLINIC
(206) 546-4711
Shoreline Community College Dental Hygiene Clinic provides a number of dental services to adults and children who would like affordable dental care. The clinic dentists provide dental exams. Dental hygiene students, with supervision of instructing licensed dental hygienists, provide teeth cleaning, x-rays, fluoride treatments, sealants and selected fillings. This is an educational setting so appointment times are restricted to open clinic times.

FOOD SERVICE
(206) 546-6918
Chartwells, a division of the Compass Group, provides all food service on campus. Services include cafeteria dining, deli/espresso, catering services and vending. The majority of these services are provided from the PUB location. Chartwells strives to provide a variety of healthy dining options tailored to the diverse college community.

Food service needs for persons with disabilities should be addressed to the college Americans with Disabilities Act compliance office, located in the Human Resources Office in Building 1000.

HOUSING
Shoreline Community College is designed to serve students who commute to the campus and maintains no dormitories or other housing.

INSURANCE
Student accident/health insurance (and/or other types of insurance) may be required in some programs. International students and study abroad students are required to have accident/health insurance coverage. Students must obtain their own health insurance coverage(s). A Injury and Sickness Insurance Plan brochure as well as Student and Family Dental Plan information request card are located at the Cashier’s Office in the 5000 (FOSS) building.

PARKING AND TRANSPORTATION
Shoreline Community College is designed to serve students who commute to the campus. Parking permits or day passes are required for ALL parking areas at Shoreline’s main campus. Quarterly permits may be purchased at the Cashier’s Office in the FOSS Building. Permits may be purchased at the time of registration. If you do not wish to purchase a quarterly permit, a daily permit may be purchased at one of the gates for $1.00 per day.

For vehicles transporting two or more students, carpool permits are available at the Safety and Security Office. Carpool permits are free of charge and are valid in the Sears and Greenwood lots.

A shuttle bus service is available from the Sears lot (off 160th) to the main campus. For information about other transit service to the college, please call Metro at (206) 553-3000 or visit http://transit.metrokc.gov/bus/bus.htm

Parking fees are subject to change. Parking permits must hang from your vehicle’s rear view mirror as instructions indicate to be valid. Parking areas will be marked and it illegal at all times to park in roadways, fire lanes, bus zones, loading zones, service driveways, on sidewalks, on landscape, in zones with red curbs and “No parking” signs. Parking is not allowed in a reserved space without the appropriate permit or authorization.

Parking in illegal areas will result in fines or having your vehicle impounded. Vehicles will be impounded without warning for blocking a roadway so as to impede the flow of traffic, blocking a fire hydrant or fire lane, creating a safety hazard, blocking another legally parked vehicle, parking in a marked tow away zone, or for outstanding unpaid parking citations.

Campus Safety and Security Officers patrol the campus (including the Sears lot). Officers may initiate vehicle stops for violations of traffic laws, which are applicable on all campus properties. Enforcement action may include a disciplinary referral to the Vice President of Student Services or citation and arrest depending on the specific violation, incident and totality of the circumstances. Enforcement action may be taken to enforce state traffic
laws including, but not limited to, speeding, negligent or reckless driving, failing to obey a traffic control device (stop sign), failing to yield to pedestrians, and all other traffic laws. If stopped by an officer, you are required to identify yourself. Failure to do so can result in disciplinary action and/or arrest, and impoundment of your vehicle.

Individuals may be cited for parking without a permit, parking in an unauthorized area, blocking a roadway, speeding, etc. If a fine is not paid, the college may delay a student’s registration, place a hold on his/her transcripts and/or financial aid, impound the vehicle or turn the fine over to a collection agency.

Fines are payable at the Cashier’s Office. If you believe a ticket was unjustified, you may fill out a citation appeal form at the campus Safety and Security Office (5102). Appeals must be filed within 5 working days of the date on the ticket; after that time you are required to pay the fine and may not appeal.

Suggestions for Easier Parking

- The Greenwood Avenue North lower lot usually has parking available throughout the day.
- Consider taking classes in the afternoon and at night, when parking is readily available in most student lots.
- Parking permits may be purchased at the Cashier’s Office in the 5000 (FOSS) Building.

Please be considerate of our surrounding community by adhering to the speed limits, not parking in residential neighborhoods, and keeping all of our streets free of litter.
Shoreline Community College encourages students to take advantage of our services and facilities, and welcomes student involvement in campus activities and special events. Students are offered many opportunities to become involved in the campus community through attendance at special educational programs offered outside of the classroom, through participation with clubs and organizations that plan these programs, through participation in recreational or intercollegiate sports, and especially through working with the outstanding students, professional staff, and faculty who support these programs. Students can learn valuable skills and develop lifelong friendships by taking leadership roles in campus organizations. Your participation in the extracurricular programs that help define campus life is always valued and will broaden your educational experience at the college.

Shoreline Community College expects students to exercise good judgment when using buildings, equipment or campus grounds, when participating in classroom discussions, assignments or tests, and when interacting with other members of our campus community. A complete list of student standards of conduct, as well as campus rules and procedures, is printed in the college Policy Manual, which is available in the Ray W. Howard Library/Media Center, the Student Leadership Center, the Student Government Office, and other administrative offices. College Policy 5030, the Student Code of Conduct and Discipline, outlines general expectations for student behavior and procedures for resolving issues of student conduct and discipline. College Policy 5033, Dishonesty in Academics, describes behavior that is unacceptable in the classroom and procedures for resolving situations involving academic dishonesty. College Policy 5035, Student Grievance Procedures-Academic Evaluation, provides procedures for resolving disputes that arise between students and faculty members regarding grades.

Shoreline Community College offers students unique educational opportunities for student leadership, co-curricular learning, service learning, social interaction, cultural expression, and recreational experiences. Students are encouraged to explore student clubs and organizations, performing arts, publications, intramural and intercollegiate sports, and college governance opportunities. Many of these programs are organized to supplement classroom learning, while many others are developed in response to student interest. The Student Guide, available at no charge through the Student Leadership Center, provides a description of the more than 70 clubs and organizations available on campus, with contact information on how to become involved. Through participation in campus organizations, students can build lasting friendships, experience unique educational opportunities, and establish support systems of peers, faculty and staff advisors.
Many leadership opportunities are available for students to learn how to conduct meetings, how to recruit members and develop organizations, coordinate events, communicate with diverse groups, manage budgets and promote programs. The Student Leadership Center also offers ongoing leadership training. Students in the Campus Ambassadors Program plan and develop learning and outreach activities.

Many opportunities exist for students to perform as part of the outstanding music department groups, drama, film and video programs available on campus.

Listed on the next page are the organizations currently active on campus. Contact information for club advisors and descriptions of club activities and events are available in the Student Leadership Center.

**STUDENT GOVERNMENT**
Building 9000
(206) 546-4541

The Student Body Association (SBA) serves as the recognized representative of Shoreline Community College students on campus. Student leaders provide a student perspective to the college on campus life and the quality of educational programs and services on campus. Student leaders have the opportunity to address the Board of Trustees, staff members and governance committees on issues they deem important. They serve on faculty appointment review committees and on faculty and administrative hiring committees, and participate in developing the strategic plans, policies and priorities of the college.

Student Government also allocates funds to student clubs and organizations and provides support and advocacy for these groups. Student Government is an active participant in fostering the mission of Shoreline Community College, and it has provided leadership for many innovations on campus, including the creation of the Multicultural Center, the creation of the Student Technology Fee and the renovation of the Pagoda Union Building (PUB).

The SBA manages the Student Services and Activities Fee Budget, the Student Technology Fee Budget, and the PUB Renovation Fee Budget. The SBA also provides recognition of new student clubs and organizations, and serves as a forum for student issues and concerns. Responsibilities of the SBA, including the structure of standing committees on Budget and Finance, Constitution and Bylaws, and Publicity, are outlined in the Student Body Association Constitution, available in the Student Government Office.

The Student Body Association president appoints student representatives to campus governance committees and to faculty Appointment Review Committees. The Student Advocate receives any student complaints and serves as a referral source for resolving these issues. Students are encouraged to visit the Student Leadership Center to inquire about leadership opportunities available through Student Government.

INTERCOLLEGIATE ATHLETICS
(206) 546-4746
The College offers a program of nine intercollegiate sports for student-athletes to participate in varsity competition. Shoreline Community College is a member of the Northwest Athletic Association of Community Colleges (NWAACC) which includes 35 colleges in Washington, Oregon and British Columbia, Canada.

Athletic Department sport offerings are: Men's and Women's Basketball, Men's and Women's Tennis, Men's and Women's Soccer, Men's Baseball and Women's Softball. Shoreline's teams are aligned with the Northern Region of the NWAACC Conference which includes community colleges in the Seattle area and West and North of the city into British Columbia. Teams routinely travel to Eastern Washington, Oregon and other national and regional areas for non-regional play. The Shoreline Volleyball team has taken tours of Peru in the past and the baseball team travels to Arizona each Spring Break for games there.

Academics is very important to Shoreline Athletics and the department has a full-time student-athlete Academic Success Coordinator who oversees study halls and monitors academic progress of student-athletes to ensure they maintain eligibility and are on track to complete a degree or certificate in their chosen field.

The Shoreline sport programs also offer partial scholarships for talented athletes in all intercollegiate sports. NWAACC rules allow up to 65% of tuition per quarter to be paid by the athletic department for some student-athletes and athletes may work athletic funded jobs for up to $1500 per academic year. The NWAACC limits the number of scholarships offered and Shoreline's financial resources only allow a certain number of scholarships to be funded so not all scholarships are funded to the maximum limit.

You can find out more information about the Shoreline Athletic Department on the athletic website at www.shoreline.edu/athletics.

INTRAMURAL AND EXTRAMURAL PROGRAMS
(206) 546-6994
The Shoreline Community College Intramural Department encourages all students to participate in a wide variety of recreational activities. The program features leagues, tournaments, clubs and specialty programs. League and tournament activities are geared towards men and women of all ages and skill levels. Beginners are welcome! Basketball, soccer, racquetball, ping-pong, and badminton are some of the more popular activities. Club activities are less competitive or non-competitive in nature. The purpose of these clubs is to allow people with similar interests to get together and participate in their chosen activity. Ski Club, Fencing Club, and Archery Club are a few examples. Specialty programs include both individual events and year long activities. The annual river rafting trip and the annual spring break ski trip are examples of individual events, while the swimming, yoga, and aerobics programs are examples of year-long activities.

Students are encouraged to become involved and make suggestions for new programs. The Intramural Department works towards providing any activity or program that is of interest to the students of Shoreline Community College. For more information, please call 206-546-6994.
Shoreline’s academic regulations are an ongoing concern of the Faculty Senate and the college governance structure. As such, any of the following requirements are subject to periodic review and possible change.

**GRADING**

**PROCEDURAL GUIDELINES**

1. **Time Frame for Assignment of Possible Grades – Fall, Winter, Spring**

<table>
<thead>
<tr>
<th>WEEK(S)</th>
<th>POSSIBLE GRADES</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 2</td>
<td>None</td>
</tr>
<tr>
<td>3 - first day of seventh week</td>
<td>N or W if early exit procedure is followed.</td>
</tr>
<tr>
<td>7 - last day of instruction</td>
<td>I, NC, P, V, Z if early withdrawal procedure is followed.</td>
</tr>
</tbody>
</table>

2. **Time Frame for Assignment of Summer Quarter Grades**

   The Registrar’s Office will publish the time frame for summer quarter. (See also Academic Calendar.)

3. **Grading System**

   Instructors may report grades from 4.0 to 0.7 in 0.1 increments, and the grade of 0.0. Grades in the range of 0.6 to 0.1 may not be assigned. Numerical grades may be considered equivalent to letter grades as follows:

   - 4.0 - 3.9: A
   - 3.8 - 3.5: A-
   - 3.4 - 3.2: B+
   - 3.1 - 2.9: B
   - 2.8 - 2.5: B-
   - 2.4 - 2.2: C+
   - 2.1 - 1.9: C
   - 1.8 - 1.5: C-
   - 1.4 - 1.2: D+
   - 1.1 - 0.9: D
   - 0.8 - 0.7: D-
   - 0.0: F

   **H:** Hold Grades – Course still in progress after grading deadline has passed. With the approval of the Vice President for Academic Affairs, instructors teaching courses that extend beyond the end of a quarter will award an H grade to all students at the time when grades are normally due. Upon the completion of the course, the instructor will award the final grades that will replace the H grade on each student’s transcript.

   **I:** Incomplete – At a student’s request, a grade of Incomplete may be given when the instructor agrees that the student is unable to complete the requirements of the course during the eleven-week quarter but can successfully complete the course work with no additional instruction.

   The instructor must specify on a standard Incomplete Contract form what requirements the student must fulfill in order to convert the Incomplete grade to an appropriate grade.

   To obtain credit for the course, the student must convert an Incomplete into an appropriate grade by completing the requirements specified in the standard contract within the time limits specified therein, not to exceed one calendar year from the date of the contract.
**N:** Audit – To audit a course, a student must register for the course and pay the required tuition and fees. Class participation will be at the instructor’s discretion. Students may change their registration status to or from audit by completing the appropriate form in the registration office no later than the first class day of the seventh week of the quarter. Ns will appear on the transcript but are not counted in the GPA computation.

**P/NC & P/0.0:** Pass/No Credit & Pass/0.0 – This grade is given when a student successfully completes a course offering a Pass/No Credit (P/NC) option. By assigning a P, the instructor certifies a performance level of at least 2.0. P allows credit for the course, but the grade will not be considered in GPA calculations. In college-level courses (numbered 100 and higher) designated as having the P/0.0 or P/NC option, students who wish to be graded on the Pass/0.0 or Pass/NC option, must submit a Student Option Grading Form signed by their instructor to the registration desk no later than the end of the day which constitutes the midpoint of the course. In pre-college level courses (numbered less than 100), students may request a P/NC or P/0.0 grade option without a Student Option Grading Form at any time during the quarter. Unless a 2.0 performance level is achieved, the student selecting the P/0.0 option will receive no credit and the grade of 0.0, and the student selecting the P/NC option will receive an NC grade. The NC grade will not be considered in the GPA calculation. While some degrees and programs may allow no P credits, no degree or program at Shoreline may include more than thirty P credits.

**V:** Unofficial Withdrawal – To be awarded when a student attends briefly, rarely or not at all and does not withdraw with a W grade. This grade will be considered to be a zero in GPA calculations.

**W:** Official Withdrawal – A W grade will be granted only from the first day of the third week through the first class day of the seventh week of the quarter (or the equivalent date for the summer quarter) provided the student follows the early exit procedure. No Ws will be given after the cut off date. Ws remain on the transcript but are not counted in the GPA computation.

A student may not withdraw to avoid consequences of cheating, plagiarism or other intellectual dishonesty.

**Z:** Hardship Withdrawal – This grade may be given at the student’s written request and the instructor’s agreement that a crisis and/or unusual, extreme circumstance which has interfered or interrupted the student’s ability to attend class and perform course work for the current quarter has occurred. This grade will not be considered in GPA calculations.

4. Early Withdrawal Procedure

Early withdrawal from a course is possible from the sixth day (or the equivalent date for summer quarter) through the last instructional day of any quarter.

a. Student’s Early Withdrawal Procedure

1. The student will initiate the early withdrawal request by securing an official Schedule Change form and filling it out.
2. The student must obtain the instructor’s signature and date on the form. A grade must be assigned starting with the eleventh day (or equivalent date for summer quarter) through the last instructional day.
3. The student will turn in the form to the registration office immediately.

b. Assignment of Early Withdrawal Grades

1. If a properly completed Schedule Change form is turned in to the registration office during the first ten instructional days of a regular quarter (or the summer quarter equivalent), no grade will be assigned and no record of registration will appear on the transcript.
2. Starting with the eleventh instructional day and continuing through the first class day of the seventh week of a regular quarter (or the summer quarter equivalent), the grade given on the Change of Program form must be a W. Registration is recorded on the transcript, as is the W or Z.
3. Starting with the second class day of the seventh week of a regular quarter (or the summer quarter equivalent) through the last day of instruction, the grade given will be a I, NC, P V or Z (if emergency situation is applicable) as the instructor’s judgment dictates.
4. A student may not withdraw to avoid consequences of cheating, plagiarism or other intellectual dishonesty.
c. Early Withdrawal Procedure if Extreme or Unusual Circumstances Apply

This may be invoked when Early Withdrawal Procedures in 4.a. cannot be followed. If the situation is judged to warrant special consideration, the Vice President for Student Services will be responsible to inform the student’s instructor(s) of the circumstances in order that each instructor may award the appropriate grade.

(1) From the beginning of the second week through the first day of the seventh week of each quarter (or the summer quarter equivalent), the instructor, appropriate division dean, or the Vice President for Student Services, if necessary may sign a Schedule Change form to withdraw the student if circumstances do not permit completion of the normal withdrawal procedure. In such cases, if the person signing the withdrawal form is not the instructor, the person signing the form shall notify the instructor(s) of the reason(s) for withdrawal. The W or Z grade will appear on the transcript.

(2) From the second day of the seventh week through the last day of instruction (or the summer quarter equivalent), the instructor, appropriate division dean, or the Vice President for Student Services, if necessary, may sign a Schedule Change form to withdraw the student if circumstances do not permit completion of the normal withdrawal procedure. The grade of I, NC, V or Z will appear on the transcript.

5. Repeating a Course

Courses may be repeated to improve the grade, but credit is applied only once. In no circumstance will any course be repeated more than twice in order to improve a grade; (this is defined as two repeats in addition to the original enrollment). This limit may not apply to all pre-college level courses (numbered less than 100). To repeat a course for the purpose of improving a grade, the student must register for the course, submit a Course Repeat form to the registration office at the time of registration that a course is being repeated, and pay all necessary fees. Only the highest grade for the course will be used in computing grade point average. The lower grade remains on the transcript and is designated with an “R”, and only the highest grade awarded in a repeated course will be used in calculating GPA at Shoreline. Other colleges and universities may not accept a grade earned in a repeated course. If accepted, the grade may be treated differently in the calculation of grade point average.

6. Computation of Grade Point Average (GPA)

The number of credits for each course is multiplied by the numerical grade awarded resulting in the grade points for that course. The GPA is computed by dividing the sum of the grade points earned in courses awarding numerical grades by the total number of credits attempted in those courses. H, I, N, NC, P, W, and Z grades are not assigned weights and are not used in computing GPA. When a student transfers credits from Shoreline Community College to another institution, the grading policy of the receiving institution will be applied to the transcript and the computation of the GPA.

7. Grading Systems

a. Mandatory Numerical Grade: Students will be awarded grades from 4.0 to 0.7 in 0.1 increments, 0.0, H, I, V, W, or Z.

b. Mandatory and Optional Pass/No Credit Systems: Divisional faculty, acting in appropriate disciplinary sub-units, may designate certain courses as Mandatory or Optional Pass/No Credit. Faculty will report any change in designation to the division chair two weeks prior to the submission of the next quarter’s class schedule to the registrar’s office.

(1) Grading in Mandatory Pass/No Credit Courses. The instructor will give only a 0.0, H, I, N, NC, P, V, W or Z grade as defined in section 3.

(2) Grading in Optional Pass/No Credit Courses. Students wishing to be graded on the Pass/0.0 or Pass/NC system must submit a pass option card signed by their instructor to the registration desk no later than the end of the day which constitutes the midpoint of the course. Students selecting this option will receive a 0.0, H, I, N, NC, P, V, W or Z grade as defined in section 3. Students not qualifying for this optional grading system will receive a numerical grade. Courses assigned by faculty to mandatory or optional pass/no credit will be marked on each quarter’s class schedule. All unmarked courses will use only the numerical grading system.
GRADE REPORTS
Grade reports are not be mailed to students. Students may view or print an unofficial transcript of their final grades from Shoreline's web site: www.shoreline.edu.

GRADE CHANGES
Instructors must submit a signed grade change form to the Records Desk in Enrollment Services to change a grade. Grade changes are allowed only within one year of the date the original grade was issued.

SCHOLASTIC REQUIREMENTS
SCHOLASTIC WARNING, PROBATION AND SUSPENSION
A student who earns a quarterly grade-point average of less than 1.75 is placed on academic warning. A student whose quarterly grade-point average is less than 1.75 for a second consecutive quarter receives an academic probation notice. A student who earns a quarterly grade-point average of less than 1.75 for the third consecutive quarter receives academic suspension. Students who have been academically suspended by the college may petition for reinstatement. Contact the Registrar’s Office at (206) 546-5834 for more information.

Transfer students entering the college after having been on probation at or having been dropped from another institution must maintain a minimum cumulative grade-point average of 1.75 after attempting 24 credit hours at Shoreline Community College.

Note: Different criteria and regulations apply to financial aid recipients. See the Financial Aid section earlier in this catalog, or contact the Financial Aid Office.

FRESH START
Students who have not been in attendance at Shoreline Community College or any institution of higher learning for a period of 18 months may request the elimination of their previous Shoreline credits and GPA. The student’s academic record and transcript will continue to show the previous courses taken and grades received, but the grades for previous courses will not be used in the calculation of the student’s Shoreline GPA, and credits earned may not be used to satisfy graduation requirements. If a student transfers to another college or university, the receiving institution may accept credits and recalculate the GPA according to its own policies. Contact the Registrar’s Office at (206) 546-4613 for more information.

HIGH SCHOLARSHIP
PRESIDENT’S LIST
Full-time students (enrolled for at least 12 credits) who have earned at least 30 hours of credit, all of which are used in the computation of the grade-point average*, and who earn a cumulative grade-point average of 3.9 or higher are named to the President’s List.

In addition, students who attain a cumulative grade-point average of 3.9 to 4.0 shall be designated President’s Scholars at graduation.

* Mandatory P/NC/0.0 courses are excluded from this requirement.

VICE PRESIDENT’S LIST
Full-time students (enrolled for at least 12 credits) who have earned at least 30 hours of credit, all of which are used in the computation of the grade-point average*, and who achieve a quarterly grade-point average of 3.9 or higher have their name placed on the Vice President’s List and shall be designated V.P. Scholar.

* Mandatory P/NC/0.0 courses are excluded from this requirement.

HONORS LIST
Full-time students (enrolled for at least 12 credits) who have earned at least 30 hours of credit, all of which are used in the computation of the grade-point average*, and who earn a quarterly grade-point average of 3.6 to 3.89 are named to the Honors List.

Students who attain a grade-point average of 3.6 to 3.89 shall be designated Honors Graduates at graduation.

Eligibility for these lists is determined by the Faculty Senate and the college governance structure. As such, the standards governing eligibility are subject to periodic review and possible change.

* Mandatory P/NC/0.0 are excluded from this requirement.
CREDIT INFORMATION

CREDIT AND CREDIT LOADS

The academic year at Shoreline Community College is divided into three quarters of 10 weeks each and a summer session of eight weeks. In general, a class that meets one hour a week yields 1 hour of credit per quarter; one that meets five hours a week yields 5 credit hours. Laboratory and some other classes may vary from this pattern.

ASSESSMENT AND AWARDING OF CREDIT FOR PRIOR EXPERIENTIAL LEARNING (CPEL)

The College recognizes that as adults you may learn college-level knowledge and acquire skills in a variety of situations: employment, military experiences, internships, independent research, volunteer or civic work and prior course work. To minimize the loss of credit to you and to prevent repeated course work, a process for awarding of credit for prior experiential learning through portfolio assessment, standardized testing, demonstrations, product creation, interviews or other process has been created. As an enrolled student in a professional/technical program, you can earn up twenty-percent of the college credit that you need to graduate from Shoreline Community College. Through this assessment process, you can avoid taking classes in your program that you have already mastered. For the complete policy, please visit: www.shoreline.edu/catpoliciesforstudents.html

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

Credit is generally not allowed for the College Level Examination Program (CLEP) general exams or subject exams. Exceptions can be made by the appropriate division dean.

CREDIT BY EXAMINATION (CHALLENGE)

As a currently enrolled student at Shoreline Community College, you may obtain credit for certain courses by satisfactorily passing comprehensive examinations, provided that you have never received college credit for the challenged course or for another course which assumes knowledge of the course being challenged.

If you are considering the Credit-by-Examination process you must meet with an academic advisor to discuss the feasibility of acquiring credit through this process. This advisor will apprise you of the options available, the steps in the application process, and required documentation to be submitted. The advisor will refer you to the appropriate division dean. The faculty member of the appropriate instructional unit will determine if the course(s) are available for challenge exam considerations. You may not take a challenge exam for a course that you have audited or failed. The faculty member will also apprise you of other restrictions. The grade that you received in the challenged course will appear on your transcript. Please be advised that credit received in courses through Credit-by-Examination with a grade of P/NC may not be accepted by the transfer institution in courses required for a major. You are advised to check with the transfer institution on this and other restrictions on transferring credit earned through challenge exams. The costs for Credit-by-Examination include a processing fee and the faculty assessment fee.

IMPORTANT: See description of “P” grade, especially for students intending to transfer to another college or university.

ADVANCED PLACEMENT

Students who do college-level work in high school can receive appropriate credit or placement or both on the basis of performance in the Advanced Placement Program (A.P.) of the College Board. Credit earned through Advanced Placement will be recorded with a “P” grade. To receive transfer consideration for A.P. exam scores, students must either have the A.P. Testing Service send an official score report to the Shoreline Records Office, or if the high school identifies A.P. exam scores on the high school transcript, alert the Records Office to make note of this.

Advanced Placement scores range from a high of 5 to a low of 1. The various academic areas that offer A.P. credit or placement or both have adopted the same qualifying scores as the corresponding departments at the University of Washington. Where appropriate, A.P. credit may apply toward the general or distribution requirements for the Associate of Arts and Sciences degree (Option A).

The following chart outlines the current Advanced Placement practices of the college:

<table>
<thead>
<tr>
<th>Subject</th>
<th>AP-5</th>
<th>AP-4</th>
<th>AP-3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Art History</td>
<td>Art H X (5 credits max.)</td>
<td>See advisor for credit and placement.</td>
<td></td>
</tr>
<tr>
<td>Biology</td>
<td>Biology Chair for credit and placement. Biol X</td>
<td>(5 credits max.) awarded after conference with Biology Chair.</td>
<td></td>
</tr>
<tr>
<td>Chemistry</td>
<td>No credit will be given.</td>

<tr>
<td>Computer Science</td>
<td>Comp X (5 credits max.) Credits may not be counted toward requirements for a degree in computer science except as elective.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

IMPORTANT: See description of “P” grade, especially for students intending to transfer to another college or university.
**English**

AP-5 Hum X (5 credits max.) May be counted toward AP-4 Humanities distribution for either AP English exam.

**German**

AP-5 GERM& 221, 222, 223 (15 credits)
AP-4 GERM& 221, 222 (10 credits)
AP-3 GERM& 221 (5 credits)

**History**

AMERICAN
HIST& 136 OR HIST& 137 (max. 5 credits)
AP-5
AP-4

EUROPEAN HISTORY
HIST& 117 OR HIST& 118 (max. 5 credits)
AP-5
AP-4

**Mathematics**

AB Exam:
AP-5 Math& 151, 152 (10 credits)
AP-4 Math& 151 (5 credits)
AP-3 Math& 151 (5 credits)

BC Exam:
AP-5 Math& 151, 152 (10 credits)
AP-4 Math& 151, 152 (10 credits)
AP-3 Math& 151 (5 credits)

Statistics:
MATH& 146 or MATH 211 (5 credits max.)
AP-5
AP-4

**Music**

Appreciation: See department advisor for placement and possible credit.
Theory: No credit will be given. See department advisor for placement.

**Physics**

B Exam: No credit will be given.
AP-5 Exemption from PHYS& 121, 122, 123

C Exam: Mechanics: No credit will be given.
AP-5 Exemption from PHYS& 221

C Exam: Electromagnetism: No credit will be given.
AP-5 Exemption from PHYS& 222

**Romance Languages**

AP-5 FRCH& or SPAN& 221, 222, 223 (15 credits)
AP-4 FRCH& or SPAN& 221, 222 (10 credits)
AP-3 FRCH& or SPAN& 221 (5 credits)

See department advisor for information.

Additional information may be obtained from the Advising and Counseling Center in the 5000 (FOSS) Building, (206) 546-4559.

---

**ATTENDANCE**

Students are expected to attend all sessions of classes in which they are enrolled, in accordance with instructor requirements.

**STUDENT CLASSIFICATION**

Students are considered freshmen until they have completed 45 credit hours, at which time they become sophomores.

**FINAL EXAMINATIONS**

Final examinations are held at the end of each quarter. Students are required to take the final examination at the time and date specified in the Quarterly Class Schedule in order to receive credit for a course. Students who have three or more finals in one day or a scheduling conflict may petition a division dean whose courses are involved for a change of examination time. Such a petition must be received in writing at least two weeks before the beginning of the first day of examinations. Division deans will consult with the affected faculty members before approving or disapproving the petition.

Finals for Summer Quarter are given during the last scheduled meeting of the class.

**OFFICIAL TRANSCRIPTS**

An official transcript is a record of the student’s academic grades. It shows courses taken, credits earned, grades received, transfer credits accepted and degrees or certificates received at Shoreline. An official transcript carries the registrar’s signature and the college seal. There is a charge of $5.00 for the first copy, and $1.00 for each additional copy on the same order. Please allow 72 hours for processing.
GRADUATION REGULATIONS

After consultation with the faculty advisor, it is ultimately the student's responsibility to choose and implement his or her program to see that all specific requirements for that program and all general requirements for graduation from the college have been met in an acceptable manner.

To receive a degree or certificate from Shoreline Community College, a student must:

1. Satisfy all specific program and general college requirements as stated in the college catalog that was printed for the academic year that the student began that specific degree/certificate program at Shoreline, provided that the catalog used is not more than 10 years old at the time of the student's graduation. However, for programs that have selective admission (e.g., Dental Hygiene, Health Care Information, Nursing and Automotive), students must satisfy both the prerequisite and program requirements in effect at the time they first attended Shoreline Community College, provided that was within the past 10 years.

2. Achieve at least a 2.0 grade-point-average for all course work used to satisfy degree requirements, including Shoreline Community College course work and courses accepted in transfer from other colleges. Individual courses with grades below 2.0 that are accepted in transfer by the College may not fulfill prerequisite requirements for some Shoreline Community College courses, degrees and certificates. NOTE: Certain Shoreline Community College programs may have different grade and graduation requirements. Please consult with a representative of the particular program for details. Institutions to which students transfer after completing their Shoreline degree may calculate G.P.A. differently and may have higher G.P.A. requirements.

3. Earn from Shoreline at least 25 of the credits being applied toward the degree or certificate.

4. Submit an official transcript to the Shoreline Admissions Office for each college from which transfer credit is to be applied to the Shoreline degree.

5. For a degree, earn at least 60 credits (63 for the AAS Option A Degree) with numerical grades rather than "P" (Pass) grades.

6. Be in attendance at Shoreline at the time final credits toward graduation are earned. However, students who are short no more than 10 credits toward a degree or certificate after leaving Shoreline Community College may be able to arrange, on a case-by-case basis, to transfer those credits back to Shoreline from another accredited institution. Contact the credentials evaluator in Records at (206) 546-5841 for more information.

7. Satisfy all general and specific requirements of the college, including fulfillment of financial obligations and removal of any financial holds on the student's records.

8. File an application for a degree or certificate in the Registrar's Office.

Students who are eligible for a degree may submit a graduation application during their last quarter or the quarter preceding. Degrees will be awarded on a quarterly basis.

GRADUATION CEREMONY (COMMENCEMENT)

Students who have graduated during the previous fall and winter quarters will be invited to participate in the annual spring commencement ceremony, along with all applicants for spring and summer quarter graduation. Participation in the ceremony is not an indication of graduation. In order to be included in the ceremony, graduation applications for spring and summer must be received by the second week of April. For more information on how to apply for graduation and to participate in the annual spring graduation ceremony, call (206) 546-4523.
Shoreline’s General Education curriculum is built on a unique set of outcomes designed to provide our students with the skills, knowledge and awareness they will need to make informed decisions, lead healthy and productive lives, and contribute to the global community as lifelong learners. Through various experiences in many different courses, students learn to place their personal knowledge in a wider framework, to expand their understanding of themselves and others, and to integrate their learning across traditional subject boundaries. The curriculum emphasizes strong skills in communication and analytic thought, as well as broad knowledge in the major areas of human learning: science, social science, arts and humanities.

- **Quantitative Reasoning.** Students will demonstrate college-level skills and knowledge in applying the principles of mathematics and logic.
- **Communication.** Students will read, write, speak in, and listen to college-level English. Effective communication incorporates awareness of the social nature of communication and the effects of ethnicity, age, culture, gender, sexual orientation and ability on sending and receiving oral, non-verbal, and written messages.
- **Multicultural Understanding.** Students will demonstrate understanding of issues related to race, social class, gender, sexual orientation, disabilities and culture and the role these issues play in the distribution of power and privilege in the United States.
- **Information Literacy.** Students will access, use and evaluate information in a variety of formats, keeping in mind social, legal and ethical issues surrounding information access in today’s society.
- **General Intellectual Abilities.** Students will think critically within a discipline, identify connections and relationships among disciplines, and use an integrated approach to analyze new situations.
- **Global Awareness.** Students will demonstrate understanding and awareness of issues related to, and consequences of, the growing global interdependence of diverse societies by integrating knowledge from multiple disciplines. Students will describe how social, cultural, political, and economic values and norms interact.

These General Education outcomes are broad statements of what students should ideally be able to do after completing Shoreline’s Associate in Arts and Sciences or Associate in Science degree. The College is committed to providing each student with the opportunity to attain these outcomes; however, individual attainment within and among the outcome areas will vary according to each student’s ability, readiness and level of commitment. The outcomes are also integrated as appropriate within the degrees and certificates offered through each of the professional/technical programs.

**Listing of Degrees and Certificates**

Provided here are general descriptions of the degrees and certificates available through Shoreline Community College. Detailed course lists and graduation requirements are provided in the Degree Programs sections of this catalog. Planning guides are available near Registration in the 5000 (FOSS) Building or online at www.shoreline.edu/planning.
ASSOCIATE IN ARTS AND SCIENCES
ACADEMIC TRANSFER (AAS)
Candidates for this degree may pursue either the Option A or the Option B plan.

Students pursuing either Option A or Option B must maintain a minimum 2.0 cumulative grade-point average to be eligible to receive this degree.

It is not necessary to complete a degree at Shoreline to be eligible to transfer, but most universities or programs within a university give admission preference to transfer students who have completed the Associate in Arts and Sciences degree or the Associate in Science.

Shoreline Community College and UW Bothell have partnered together to create a dual enrollment pathway. The Dual Enrollment pathway offers students a focused, efficient, and cost-effective plan to earn both an Associate degree and a University of Washington Bachelor’s degree. Those who qualify for Dual Enrollment will be fully recognized as students of both their community college and UW Bothell. Students can dual enroll in the following degree programs: Business, Computing & Software, and Interdisciplinary Arts & Studies. For more information contact Kenneth Lawson (206) 546-4691 or Yvonne L. Terrell-Powell (206) 546-4559. You may also contact an UW Bothell advisor at (425) 352-5000.

Option A
This degree is designed for those students who are interested in earning a general two-year academic degree. This degree is the designated “Direct Transfer Degree” at SCC as it meets the requirements for transfer under the Washington State Direct Transfer Agreement. This 95-credit degree is most often an appropriate goal for students who intend to transfer within Washington to one of the following institutions: Central Washington University, Eastern Washington University, Western Washington University, Washington State University, The Evergreen State College, Pacific Lutheran University, Seattle Pacific University, Seattle University, Northwest College, Whitworth College and the University of Washington branch campuses. The Option A degree transfers as a “package” to the colleges indicated, fulfilling most of their General Education requirements and providing junior status. It does not, however, guarantee admission to a specific major.

This degree may also be a goal for the student planning to transfer to the University of Washington main campus even though this institution has additional admission requirements beyond those of the Option A degree (see your advisor). It is also the degree of choice for students who intend to transfer but who are undecided about which baccalaureate institution they will attend. The degree provides strong academic study and may in itself provide excellent employment preparation for many careers. Requirements for this degree are shown under the Degree Programs: Academic Transfer section of this catalog.

Option B
This degree is called the “pre-professional/specific major” degree or “self-design” degree, and is primarily for those students who are planning to transfer to a four-year institution that does not accept the Option A “package,” or who prefer to follow the curriculum of their future school rather than the Option A. Another purpose of the degree is to prepare for a major, which has many prerequisite courses such as the arts, health professional programs, and others.

Ninety credit hours in transferable courses that satisfy the Shoreline Community College General Education Core Requirements are required to complete this degree.

Students intending to complete the Option B AAS degree should consult the admission and graduation requirements of their intended university and work carefully with their advisor to satisfy both Shoreline and intended transfer institution requirements.

ASSOCIATE IN SCIENCE (AS)
This degree is intended for transfer students who wish to pursue a bachelor’s degree in science, computer science, engineering or certain health professional programs at another college or university after completing their studies at Shoreline. The Associate in Science (AS) degree offers two tracks, one for students who plan to major in astronomy, atmospheric sciences, computer science, engineering or physics, and the other for students planning to major in biological sciences, chemistry, geology, earth science, environmental science, oceanography or prepare for programs such as dentistry, pharmacy and medical school. The focus of this program is on foundation mathematics and science courses, providing the AS graduate with a solid preparation for their future majors. This degree requires a minimum of 90 credits.

Both tracks of the Associate in Science are included in the Associate in Science Transfer Agreement, which applies to all public universities and several private colleges and universities in Washington State. This agreement provides students with some priority for admission at their intended transfer institution and helps ease transferability of AS courses towards major and general education requirements for the bachelor's degree at the receiving transfer institution.
ASSOCIATE IN FINE ARTS DEGREE (AFA)
This degree is intended for students who are interested in earning an academic degree with a concentration of study in the Fine Arts and an emphasis on the development of a strong portfolio of artwork. The Associate in Fine Arts degree meets the requirements of the Washington State Direct Transfer Agreement and, in addition, the emphasis on portfolio development is designed to prepare the student as a candidate for art major status in Bachelor of Art and Bachelor of Fine Art programs. The AFA degree also provides a broad education and involvement in the arts for students who are not currently considering further degrees, providing opportunities for employment in galleries, community centers and museums.

The Associate in Fine Arts degree offers two tracks for study. Students exploring options in visual arts complete the Foundation Studio Track and select an area of concentration in 2D or 3D art. The Photography Track is designed for students who have already determined a focus in photography.

ASSOCIATE OF MUSIC DEGREE
The Associate of Music degree provides several options for students interested in music. The degree may function as a terminal degree or to prepare students for entry into competitive four-year music programs nationwide. Students interested in pursuing the Associate of Music degree should contact a music advisor at the beginning of their program of study.

ASSOCIATE IN APPLIED ARTS AND SCIENCES (AAAS)
Shoreline offers more than 50 specialized programs under the Applied Associate in Arts and Sciences (AAAS) degree. The primary purpose of the AAAS is to provide students with professional skills that will allow them to gain employment in a specific field of work. The minimum number of credits varies for each specialized program, but must be at least 90 credits.

Shoreline regularly updates and revises its curriculum and degrees in these applied areas, working closely with local advisory committees to ensure that students are receiving the skills and knowledge currently in demand by employers in the field.

ASSOCIATE IN APPLIED SCIENCE — TRANSFER (AAS-T)
This degree is intended to provide possible transfer options for students whose immediate goal is professional/technical preparation for employment, but who may later wish to complete a bachelor’s degree related to their technical field of study. Programs currently offering this degree include: Biotechnology Lab Specialist, Dental Hygiene, Manufacturing Engineering and Nursing.

CERTIFICATE OF PROFICIENCY OR COMPLETION
A Certificate of Proficiency or a Certificate of Completion is awarded for the following programs to students who complete the requirements: Accounting, Basic Manufacturing, Business Technology, Child Care Professional, Cosmetology, CAD Drafting, Digital Filmmaking Technology, Entrepreneurship, Graphic/Print Production, In-Home Care Provider, CNC Machinist, Medical Coding and Reimbursement Specialist, Performance Arts/Acting for the Stage and Camera, Purchasing, Speech-Language Pathology Assistant, Web Developer and Writing and Directing for the Camera.

Other programs may offer certificates; please check with faculty advisors.

TRANSFER OF CREDITS
Shoreline Community College endorses the Policy in Inter-College Transfer among Washington State colleges and universities approved by the Higher Education Coordinating Board established in 1970.

Copies of this document are available through all public post-secondary institutions in the state of Washington and in the Registrar’s Officer in Shoreline Community College. Transfer students encountering difficulties are encouraged to contact the Registrar’s Office.

Students who plan to transfer from Shoreline Community College to a baccalaureate college or university are advised to study the following information.

Transferring students will be expected to meet the admission requirements of the baccalaureate institution at the time they transfer. Transferability of courses taken at Shoreline Community College is determined by the institution to which the student transfers. Most Shoreline courses that are designed for transfer do in fact transfer without problems. However, certain institutions may limit the number of credits earned in a Pass system (P/NC or P/0.0) or may have limits on certain classes.

Washington State Community and Technical colleges (CTCs) offer reciprocity to students transferring within the CTC system who are pursuing the Direct Transfer Agreement (DTA) degree to baccalaureate institutions or the Associate of Science-Transfer (AS-T) degree, or any of the Major-Ready Pathways/ Direct Transfer Agreements. Reciprocity Agreement refers to Washington State Community and Technical Colleges (CTCs)’ students transferring within the CTC system who are pursuing the Direct Transfer Agreement (DTA) degree or the Associate in Science-Transfer (AS) degree. Students who have fulfilled a specified course requirement or entire areas of their degree requirements at one college will be considered to have met those same requirements if they plan to
complete the same degree when they transfer to another community or technical college in Washington. These degree requirements include Communications Skills, Quantitative Skills or Distribution Area requirements. Students must initiate the review process and must be prepared to provide all necessary documentation to Shoreline Community College. Students are subject to the Shoreline Community College catalog agreement and must complete the minimum credits required for a Shoreline degree. The Reciprocity Agreement Instructions and Request Form are available in Enrollment Services and are also available online. For complete information, students should contact an advisor.

Continuous Enrollment refers to the option students have to elect to graduate under the provisions of the official catalog in effect at the time they first started at SCC or at the time they apply to graduate, providing ten years have not lapsed and they have remained continuously enrolled at Shoreline Community College.

In general, those courses whose titles contain the word “technical” or “technology” are not transferable to all institutions, but they may transfer to some selected programs at four-year schools. Students should work closely with advisors before attempting to transfer courses that are specialized components of a two-year Professional Technical program.

Students may earn a total of more than 90 academic hours of credit at SCC, but the total number of hours accepted for transfer is determined by the institution to which they transfer. Usually a minimum of 90 additional credits is required at the accepting baccalaureate institution to earn a degree.

An institution to which an official transcript, available at the Enrollment Services and online, is sent may recalculate the grade-point average of the student in accordance with its own requirements and policies.

A student should follow the procedures given to transfer satisfactorily to a baccalaureate institution.

1. Obtain a current catalog of the institution to which the student wishes to transfer and study its admission requirements and its suggested freshman and sophomore-level courses in the major field of interest. Institutions differ in treatment of credits received.

2. Confer with a Shoreline Community College advisor about transfer issues. Many curriculum planning guides for transfer to baccalaureate institutions are supplied by the college.

3. Confer, by letter or personal interview, with an admissions officer at the baccalaureate institution for further information about curriculum and transfer regulations.

4. Check carefully a quarter or two before transfer to be sure that all requirements will be met and all regulations observed to the satisfaction of the baccalaureate institution.

Last-minute changes in students’ major fields of study or in their choice of baccalaureate institution may cause Shoreline’s credits to transfer in different ways. Changes should be evaluated so that consequences are understood.

**Reciprocity Agreement**

Students who transfer from another CTC to Shoreline Community College may be eligible for reciprocity if they have:

1. Applied for Admission to SCC
2. Completed an individual course that meets General Education Core Course or distribution requirements for the AAS or other academic transfer degrees.
3. Maintained a cumulative college-level GPA of 2.0 or better at the other college
4. Met the other college’s residency requirement (minimum number of credits earned)
5. Continued to pursue the same academic transfer degree at SCC
6. Provided all necessary documentation to SCC on the “Reciprocity Agreement Request Form”
7. Met SCC’s prerequisite and graduation requirements (including General Education Requirements).

**Applied Degree Transfer Program**

Shoreline Community College has articulation agreements that allow a student to complete an Associate of Applied Arts and Sciences Degree in some technical areas, transfer to selected four-year institutions and earn a B.S. degree. For further information regarding applied transfer degrees, call the dean of Workforce Education at (206) 546-4595, or check with your program advisor.

**Non-Transferable Courses**

The following courses will not transfer to most four-year colleges:

1. Courses numbered below 100.
2. Certain courses numbered 100 or above, such as Parent Education and Continuing Education (These are not normally transferable; consult with your advisor for more information.)
3. Courses that are listed in the Restricted Transfer Course List (see Degree Programs).
ASSOCIATE IN ARTS AND SCIENCES (AAS): OPTION A

A minimum of 95 quarter hours of college credit are required. Students who have completed the requirements for Option A and have met the required admission standards will have completed the General Education Requirements and will be accepted at the junior level at the following institutions:

- Bastyr University*
- Central Washington University
- Eastern Washington University*
- Evergreen State College
- Gonzaga University*
- Northwest College*
- Pacific Lutheran University*
- Saint Martin's College*
- Seattle Pacific University*
- The Evergreen State College*
- University of Washington*
- Washington State University
- Western Washington University
- Whitworth College

*(Note: These colleges have additional admission requirements beyond those of the Option A.)*

Students graduating under Option A who choose to transfer to other institutions will normally be able to transfer their courses successfully. However, the above institutions have signed agreements with Shoreline Community College that guarantee, with possible minor exceptions, the completion of general education requirements and admission at the junior level.

Shoreline’s General Education Core Curriculum requirements are Communication Skills, Quantitative Reasoning, Physical Education and Multicultural Education, as shown below under “General Requirements.”

General and distribution course requirements follow.

GENERAL REQUIREMENTS

Communication Skills – 10 credit hours: English & 101, 102.

Physical Education – 3 credit hours: See the list of approved courses under Physical Education in the elective section on page 45.

Multicultural Education – 5 credit hours: Communication Studies 203, Intra-American Studies 105, 284 or Women Studies 284.

The Washington State Direct Transfer Agreement requires that all students meet Intermediate Algebra Proficiency standards. At Shoreline Community College this requirement is met by completion of second year high school algebra or Math 097 + 098 or 099 or higher math course or examination. Shoreline has recently revised its General Education Curriculum. As additional alternative courses are approved, they will be added to the “Approved List of General Education Core Requirements” available from the Advising and Counseling Center, advisors and division offices.

DISTRIBUTION REQUIREMENTS

Humanities ________ 15
Intra-American Studies ________ 5
Natural Sciences ________ 15
Social Sciences ________ 15

A total of 50 credit hours from Humanities, Intra-American Studies, Natural Sciences and Social Sciences is required.
Electives
A minimum of 22 additional college-level credits numbered 100 or above are required for electives. Electives may include any course listed in the distribution areas or on the non-restricted elective list. A maximum of 15 credits are allowed from the Restricted Transfer course list.

“W” — Writing-intensive Courses
Several of the courses listed in the following distribution areas are offered as “W” or writing-intensive courses. Check the individual course descriptions in the back of the catalog for “W” course offerings. While “W” courses are not a requirement to graduate from Shoreline Community College, many degrees at the University of Washington require 10 credits of “W” courses, which students can take at Shoreline.

Common Course Numbering
An ampersand (“&”) following a course department name, (e.g. ACCT& 201) indicates that the course is common course numbered. For more information visit www.shoreline.edu/CommonCourse.

Humanities: 15 Credit Hours
1. Select 5 credits from each of two disciplines.
2. No more than 5 credits may be included from those courses designated as performance/skills, applied theory or lecture/studio courses.
3. No more than 5 credits in foreign language at the 100 level may be included.
4. See the list that follows for courses eligible for Humanities distribution courses.

Medical Laboratory Technology 121, 123, 132, 180, 200, 221, 222, 223, 224, 225, 231, 232, 233, 234, 235, 241, 242, 244, 245
Nursing 121, 131, 141, 142, 143, 151, 152, 153, 161, 162, 163, 221, 222, 223, 231, 232, 233, 241, 242, 243, 251, 252, 253
Parent Education 114, 115, 116, 124, 125, 126, 134, 135, 136, 144, 145, 146, 154, 155, 156, 190, 191, 192, 291, 292
Spanish 100, 105
Speech Language Pathology 100, 101, 110, 150, 210, 215, 216, 217, 220, 224, 225, 250, 251, 266, 295, 296
Visual Communication Technology 111, 124, 125, 128, 134, 144, 145, 154, 155, 156, 157, 164, 170, 174, 177, 190, 201, 202, 203, 224, 228, 236, 244, 254, 255, 257, 264, 266, 267, 277
ASSOCIATE IN FINE ARTS (AFA): PHOTOGRAPHY & FOUNDATION STUDIO ART
This degree is designed for students who are interested in earning an academic degree with a concentration of study in the Fine Arts. Students granted the degree meet all of the requirements of the Option A transfer degree and can expect some priority in admission as a transfer student to a four-year institution with a preparation towards a major in Fine Art. The AFA degree program provides an excellent opportunity to develop a strong body of work for portfolio presentation, a requirement for entry and placement into most Fine Art major programs. The strong academic and fine art program of study that the degree represents is also designed to provide opportunities for employment and involvement in the arts for students who do not currently seek admission into four-year programs.

The AFA degree offers two tracks of study: a concentration in Photography requiring a total of 115 program credits, and a concentration in Foundation Studio Art requiring a total of 111-114 program credits. It is possible to complete this degree within a two-year time span with registration continuing through Summer quarters. Without Summer quarter coursework, the student should expect registration in classes beyond a two-year time period. Students interested in pursuing the AFA degree are advised to contact an art advisor at the beginning of their program of studies.

PHOTOGRAPHY TRACK

GENERAL REQUIREMENTS (Same as AAS: Option A)
Communication Skills - 10 credit hours
Quantitative Reasoning - 5 credit hours
Multicultural Education - 5 credit hours
Physical Education - 3 credit hours

DISTRIBUTION REQUIREMENTS
(Same as AAS: Option A)
Humanities - 15 credits (contained in Photography Core Requirements)
Math-Science - 15 credit hours
Social Sciences - 15 credit hours
Intra-American Studies - 5 credit hours
PHOTOGRAPHY CORE REQUIREMENTS
Foundation Drawing and Design - Art 109, 131
Photography - Art 144, 145, 146, 246, 247
Art History - Art H 204, 224, 225, 226
Computer Basics - VCT 124, 125
Digital Photography with Photoshop - VCT 136 and 236

FOUNDATION STUDIO ART TRACK
GENERAL REQUIREMENTS [Same as AAS: Option A]
Communication Skills - 10 credit hours
Quantitative Reasoning - 5 credit hours
Multicultural Education - 5 credit hours
Physical Education - 3 credit hours

DISTRIBUTION REQUIREMENTS
( Same as AAS: Option A)
Humanities - 15 credits
(Math-Science - 15 credit hours
Social Sciences - 15 credit hours
Intra-American Studies - 5 credit hours

FOUNDATION STUDIO ART CORE REQUIREMENTS
Foundation Drawing - Art 131, 132, 133
Foundation 2D & 3D Design - Art 109, 110
Art History - Art H 204, 224, 225, 226
Portfolio - Art 260

In addition to the Foundation Studio Art Core requirements above, select a Concentration of 3 courses in either 2D or 3D Studio Art:

2D Studio Art Concentration:
Photography - Art 144, 145, 146
Graphic Design - Art 201, 202, 203
Painting - Art 251, 252, 253

3D Studio Art Concentration:
Ceramics - Art 121, 122, 123
Design and Materials - Art 254, 255, 256
Sculpture - Art 271, 272, 273

ASSOCIATE IN ARTS AND SCIENCES (AAS): OPTION B
This degree is called the “pre-professional/specific major” degree and is designed primarily for those students who are planning to transfer to a four-year institution that does not accept the Option A “package,” or to those who are planning to complete a degree in a profession such as Engineering, Pharmacy, Architecture or Music.

Students planning to transfer to a specific institution in fields such as Engineering or Health Sciences may find Option B more flexible to allow for course preparation in a specific program or major; check with your advisor.

The Associate in Arts and Sciences degree Option B is awarded to the student who has completed 77 or more credits transferable to a specific baccalaureate institution, and 13 credit hours of the Shoreline Community College General Education Core Requirements:

Communication Skills — 10 credits 
English& 101, 102
Quantitative Reasoning — 5 credits 
Chemistry& 121, 171+181, 172+182, 173+183, Economics& 201, Mathematics& 107, 141, 142, 146, 148, 151, 152, 163, 164, Mathematics 111, 171, 207, 208, 211, Philosophy& 106, Math& 121+131, 122+132, 123+133, 221+231, 223+233, 222+232, or Physics 110
Multicultural Education — 5 credits 
Communication Studies & 203, Intra-American Studies 105, 284 or Women Studies 284.

(By careful course selection and educational planning, students may satisfy requirements of their intended baccalaureate institution while also satisfying the above General Education Core Requirements.)

The baccalaureate requirements usually include prerequisites for the intended major and/or fulfill general graduation requirements for the transfer institution. Students may learn about these requirements by reading the catalog of the specific four-year institution and enrolling for equivalent classes at Shoreline Community College.

Planning guides have been prepared for many programs and institutions. These planning guides are available on the website and in the Advising and Counseling Center. Students intending to complete an Option B AAS degree for an institution for which a planning sheet has not been prepared should consult with their advisor or staff in the Advising and Counseling Center.

ASSOCIATE OF MUSIC DEGREE
The Associate of Music degree provides several options for students interested in music. The degree may function as a terminal degree for students not interested in pursuing a four-year degree. Perhaps such students already have a degree in another field or have more immediate goals such as studio teaching or performing.

Another option of the degree is to prepare students for entry into competitive four-year music programs nationwide. Admission into such programs is based on proficiency in music theory, performance, sight singing, and keyboard (piano) skills. It is important to note that such institutions are indeed competitive and the Associate of Music degree cannot guarantee admission into specific four-year schools.

Students interested in pursuing the Associate of Music degree should contact a music advisor at the beginning of their program of study.
ASSOCIATE IN SCIENCE (AS):
TRACK 1 AND TRACK 2

Track 1 is designed for students entering the fields of Biological Sciences, Chemistry, Geology and Earth Sciences, Environmental Sciences and Oceanography. This track is also a good option for students preparing for some health professional programs, such as dentistry, medical school, pharmacy and veterinary medicine. Planning guides for many specific majors are available on the website and in the Advising and Counseling Center.

Track 2 is designed for students entering the fields of Astronomy and Atmospheric Sciences, Computer Science, Engineering and Physics. A minimum of 90 quarter hours of college credit and a minimum 2.0 Grade Point Average are required. The Associate in Science degrees are accepted as part of the Associate in Science Transfer Agreement at all public universities in Washington state, as well as a number of private colleges and universities. These include:

- Central Washington University
- Eastern Washington University
- The Evergreen State College
- University of Washington
- University of Washington – Bothell Campus
- University of Washington – Tacoma Campus
- Washington State University
- Western Washington University

The Associate in Science Transfer Agreement gives students the same priority consideration for admission to baccalaureate institutions as they would receive for completing the Direct Transfer Agreement Degree. (At Shoreline Community College, this is AAS, Option A). It also ensures that students will be given junior status by the receiving institution. As is true for the Direct Transfer Agreement, this admission priority does not guarantee admission to any particular department.

The Associate in Science Transfer Agreement differs from the Direct Transfer Agreement in that most course requirements are major/program prerequisites and the degree includes few General Education course requirements. Therefore, the Associate in Science Transfer Agreement does not stipulate that students will have met the General Education Requirements for their transfer university. On the contrary, students are expected to complete further General Education Requirements after transfer.
TRACK 1

Biological Sciences, Chemistry, Geology and Earth Sciences, Environmental Sciences, and Oceanography.

GENERAL REQUIREMENTS

Communication Skills – 8-10 credit hours: English& 101 and 102 or 230 or Communication Studies& 101
Quantitative Reasoning – 5 credit hours: Mathematics& 151
Multicultural Education – 5 credit hours: Communication Studies 203; Intra-American Studies 105, 284 or Women Studies 284

DISTRIBUTION REQUIREMENTS

Humanities – 5 credit hours: See list for Associate in Arts and Sciences, Option A.
Social Sciences – 5 credit hours: See list for Associate in Arts and Sciences, Option A.

PRE-MAJOR PROGRAM

Science – 19 credit hours: Chemistry 171/181 and 172/182 and 173/183
Additional Mathematics – 10 credit hours: Mathematics& 152; and 163 or Mathematics 211
One of the following sequences – 15-16.5 credit hours:
Biology& 211 and 212 and 213; or Physics& 121 and 122 and 123, or Physics& 221 or 222 and 223
Major sequence and/or supporting science courses – 10-15 credit hours: 10 to 15 credit hours of additional science courses to support major preparation

ELECTIVES

Elective courses are taken as needed to reach the minimum of 90 credit hours. The Associate in Science Transfer Agreement allows a maximum of 5 credits for restricted transfer/vocational course work.

TRACK 2

Astronomy/Atmospheric Sciences, Computer Sciences, Engineering, Physics.

GENERAL REQUIREMENTS

Communication Skills – 8-10 credit hours: English& 101 and 102 or 230 or Communication Studies& 101
Quantitative Reasoning – 5 credit hours: Mathematics& 151
Multicultural Education – 5 credit hours: Communication Studies 203; Intra-American Studies 105, 284 or Women Studies 284

DISTRIBUTION REQUIREMENTS

Humanities – 5 credit hours: See list for Associate in Arts and Sciences, Option A.
Social Sciences – 5 credit hours: See list for Associate in Arts and Sciences, Option A.

PRE-MAJOR PROGRAM

Science – 15-16.5 credit hours: Physics& 221 and 222 and 223 required for most Bachelor’s Degrees); or Physics& 121 and 122 and 123
Additional Mathematics – 10 credit hours: Mathematics& 152; and 163 or Mathematics 211 (Almost all students need 163 for their major.)
Additional Science – 5 credit hours: See Math/Science list for the Associate in Arts and Sciences, but this course must be outside of mathematics, physics and computer science departments. Engineering majors almost always require Chemistry 171/181.
Computer Programming – 5 credit hours: Several courses are available. Many degree programs require Computer Science& 141.

PROGRAM SPECIFIC COURSE AND ELECTIVES (24-26 CREDIT HOURS)

Additional courses specific to the major requirements and elective courses are taken as needed to reach the minimum of 90 credit hours. The Associate in Science Transfer Agreement allows a maximum of 5 credits for restricted transfer/vocational course work.

This section of the degree is designed for students to take the additional prerequisite courses needed to enter their major’s junior year. It may also include additional general education or elective courses. Thus, required and recommended courses vary by major, and there is also some variation by college/university. It is important for students to stay in close contact with their SCC advisor as well as their intended receiving institution, including the department in which they wish to major, as they plan their elective program.
ASSOCIATE IN APPLIED SCIENCES-TRANSFER (AAS-T)

AAS-T degrees are Professional/Technical degrees (AAAS) which either include a certain number of transfer courses or have an articulation agreement with one or more universities. Minimum requirements for all AAS-T degrees will be to complete required applied courses for the equivalent Associate in Applied Arts and Sciences (AAAS) degree, plus the following general education coursework, selected from the list of Approved Courses provided in this catalog for the Associate in Arts and Sciences degree, Option A:

5 credits in Communication
5 credits in Quantitative Skills
10 credits in Science, Social Science or Humanities.

Students who complete this degree will not have fulfilled their General Education Requirements for their receiving transfer institution. Students who transfer into a baccalaureate program with the AAS-T are expected to complete by far the great majority of their general education and distribution requirements after transfer.

ASSOCIATE IN APPLIED ARTS AND SCIENCES (AAAS)

Professional/Technical programs lead to Associate in Applied Arts and Sciences (AAAS) degrees and certificates and are designed for those students who are primarily interested in college work leading directly to employment. Several programs also offer certificates of completion for short-term training.

Details of the professional/technical programs available at Shoreline Community College are given in this section of the catalog. It is especially important that students work closely with program advisors when registering for courses in professional/technical programs. Some programs require a separate application to enter and several have prerequisite courses before such applications are considered. Planning sheets are available in the Advising and Counseling Center for all programs, as well as in the Professional-Technical Advising Handbook which is circulated to all faculty, program directors, and administrators.

Professional/Technical programs include specific vocational course work as well as required general education core courses in communication, quantitative reasoning, multicultural education and human relations. Related instruction supports programs of study for some applied or specialized associate degrees, and these degrees contain a recognizable body of instruction in the program related areas of 1) communication, 2) computation and 3) human relations.

If a specific general education course is not required by a professional/technical program, students may, as an option, choose classes from the list of transfer general education courses in communication (English& 101), quantitative reasoning and multicultural education. However, in some certificate and AAAS degree programs, the following courses may also satisfy requirements: Communication: BusTc 215 or Eng 100; Quantitative Reasoning: Bus 102 or CIS 105. The Human Relations requirement can be satisfied with Bus 104, 105/250; or Communication Studies& 101, or in some cases by instruction embedded within program-specific courses. Students must get written approval for any substitution from the program advisor. Students should check with program advisors, individual program planning sheets, or this section of the catalog for specific program requirements.

The opportunities to transfer these degree programs towards a baccalaureate program are expanding. The College is currently negotiating articulation agreements with Seattle Pacific University, University of Phoenix, City University and the University of Washington - Tacoma. Currently, articulation agreements exist with the University of Washington - Bothell, Eastern Washington University, Western Washington University, Evergreen State College and Central Washington University for students presenting some professional-technical degrees. Check with your program advisor and with these institutions for further information. Some of the courses required in occupational programs may individually transfer to a baccalaureate program. Students should check with their program advisor and should also inquire about the availability of an Associate in Applied Science-Transfer (AAS-T) degree in their chosen fields.

Lists of advisory committee members for each of the professional/technical programs are available online and in the Office of the Dean of Professional/Technical Education.
UNIVERSITY TRANSFER DISCIPLINES

HEALTH OCCUPATIONS
AND PHYSICAL EDUCATION DIVISION PAGE
SCC provides prerequisite courses for transfer into health occupations programs, such as Health Administration, Nutrition, Nursing, Dental Hygiene, medical school, dental school, pharmacy and others. Students interested in these programs take courses from several disciplines and must work closely with their advisor. Most prerequisite courses are taken from the Science Division. Science Division faculty and some Health Occupations faculty are available to advise students.

DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL

ACCOUNTING PROGRAM
(206) 546-4665

DESCRIPTION
The Accounting Program prepares students for a variety of accounting occupations in the public and private sector. Typically, accounting clerks establish, develop and maintain the financial records of organizations and departments. Job duties may include recording debits and credits, preparing ledgers and balance sheets, verifying the accuracy of records, classifying payables and receivables, preparing bank deposits and posting transactions.

With the aid of improved and simplified software applications, many of these tasks are now performed and stored in computer files. Automation has expanded opportunities for managing financial information. In the accounting program, students use current software and develop skills in the creative process of organizing, analyzing and interpreting financial information.

OUTCOMES
Students who successfully complete this program will be able to:
1. Apply basic principles, theories and procedures for recording and reporting financial data.
2. Apply practical accounting practices in a variety of business structures including corporations, partnerships and small businesses.
3. Prepare financial reports, which summarize or analyze relevant financial data.
4. Provide management support in the budgeting, planning and decision-making processes.
5. Apply knowledge of payroll, business and personal income tax laws and related practices.
6. Integrate accounting functions within a computerized business environment, select appropriate software and convert a manual accounting system to a computerized one.

AAAS DEGREE
Total Credits Required . . . . . . . . . . . . . 90-94

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Proficiency

CERTIFICATE OF PROFICIENCY

Total Credits Required . . . . . . . . . . . . . 55

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificates of Completion
These programs are designed to prepare students for entry level accounting clerk positions.

OUTCOMES
Students who successfully complete this program will understand the basic account cycle for service and merchandising firms. Students will have basic business computer skills with specific knowledge of commercial accounting software.

CERTIFICATES OF COMPLETION

Accounting Clerk
Total Credits Required . . . . . . . . . . . . . 15

Accounts Receivable/Payable Clerk
Total Credits Required . . . . . . . . . . . . . 20

Payroll Clerk
Total Credits Required . . . . . . . . . . . . . 20

See www.shoreline.edu/planning for complete planning guides for these options.
DESCRIPTION
Each of these factory-sponsored programs is comprehensive in both the depth and breadth of knowledge required of graduates. Students should plan to complete an average of 20 credits per quarter, unless they take their General Education/Related Instruction courses prior to beginning the program.

AUTOMOTIVE SERVICE EDUCATIONAL PROGRAM (ASEP) – General Motors
The General Motors Automotive Service Educational Program (ASEP) is a two-year cooperative program. The student spends alternating quarters in class and working in a sponsoring General Motors dealership. Students must be sponsored in a General Motors dealership before they are admitted to the program.

CHRYSLER COLLEGE AUTOMOTIVE PROGRAM (CAP) – Chrysler
The Chrysler College Automotive Program is a two-year cooperative program. The student spends alternating quarters in class and working in a sponsoring Chrysler dealership. Students must be sponsored in a Chrysler dealership before they are admitted to the program.

PROFESSIONAL AUTOMOTIVE CAREER TRAINING (PACT) – Honda
The American Honda Professional Automotive Career Training Program (PACT) is a two-year cooperative program. The student spends alternating quarters in class and working in a sponsoring Honda or Acura dealership. Students must be sponsored in a Honda or Acura dealership before they are admitted to the program.

TOYOTA TECHNICAL EDUCATION NETWORK PROGRAM (T-TEN) – Toyota
The Toyota Technical Education Network Program (T-TEN) is a two-year cooperative program. The student spends alternating quarters in class and working in a sponsoring Toyota or Lexus dealership. Students must be sponsored in a Toyota or Lexus dealership before they are admitted to the program.

OUTCOMES
Students who successfully complete this program will be able to:
1. Apply fundamentals of automotive service training, including the basics of automotive diagnostics and repair, pre-delivery inspection and warranty repair procedures.
2. Identify, inspect, disassemble and assemble basic components of automotive power plants.
3. Apply knowledge of the function, construction, operation troubleshooting and servicing of disc, drum and ABS brake systems, steering, suspension and wheel alignment.
4. Use electronic engine analyzers and scanners to test and tune ignition, fuel injection and emission systems.
5. Apply understanding of electrical principles, semi-conductors, microprocessors and wiring diagrams to diagnose and repair malfunctions of automotive electrical systems.
6. Apply knowledge of the function, construction, operation, troubleshooting and service of front-and rear-wheel drive manual and automatic transmissions and transaxles.
7. Test, service and repair heating and air-conditioning systems.

AAAS DEGREE

Chrysler College Automotive Program (CAP)
Total Credits Required . . . . . . . . . .150-152

General Motors Automotive Service Educational Program (ASEP)
Total Credits Required . . . . . . . . . .150-155

Honda PACT Program
Total Credits Required . . . . . . . . . .150-155

Toyota T-TEN Program
Total Credits Required . . . . . . . . . .152-155

See www.shoreline.edu/planning for complete planning guides for these options.
Certificates of Proficiency
Automotive General Service (GST) Technician – ABE

DESCRIPTION
The General Service Technician (GST) program is a two-quarter job training program designed primarily for ABE students. Students earn a certificate of proficiency and upon graduation students can find jobs in places such as auto dealerships and independent auto repair shops. These classes are team taught by an automotive instructor and an ABE instructor.

OUTCOMES
Students who successfully complete this program will be able to:
1. Understand and identify basic auto shop and personal safety parameters at auto repair facilities.
2. Perform basic automotive diagnosis and repair, and use the associated tools.
3. Identify and interpret suspension and steering concerns, and determine corrective action.
4. Inspect/diagnose and replace most brake components.
5. Diagnose fluid usage, level, leaks, and condition.
6. Identify, inspect, and test Heating and Air Conditioning systems.
7. Diagnose and evaluate electronic systems and electrical features.

CERTIFICATE OF PROFICIENCY
Total credits required . . . . . . . . . . . . . . . . 45

See www.shoreline.edu/planning for a complete planning guide for this option.

Automotive General Service (GST) Technician – ESL

DESCRIPTION
The General Service Technician (GST) program is a three-quarter job training program designed primarily for ESL students. Students earn a certificate of proficiency and upon graduation students can find jobs in places such as auto dealerships and independent auto repair shops. These classes are team taught by an automotive instructor and an ESL instructor.

OUTCOMES
Students who successfully complete this program will be able to:
1. Understand and identify basic auto shop and personal safety parameters at auto repair facilities.
2. Perform basic automotive diagnosis and repair, and use the associated tools.
3. Identify and interpret suspension and steering concerns, and determine corrective action.
4. Inspect/diagnose and replace most brake components.
5. Diagnose fluid usage, level, leaks, and condition.
6. Identify, inspect, and test Heating and Air Conditioning systems.
7. Diagnose and evaluate electronic systems and electrical features.

CERTIFICATE OF PROFICIENCY
Total credits required . . . . . . . . . . . . . . . . 45

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The Beauty Salon Management program offers students who complete the Cosmetology program an opportunity to earn an Associate degree (AAAS) by completing additional requirements in marketing and/or management (10 credits) and general education (19-21 credits.) The Beauty Salon Management program is designed to prepare students to successfully own, operate or manage a beauty salon. Students can select a variety of courses in management, supervision, marketing, salesmanship, advertising, and retailing from the electives list.

Through the general education curriculum students build their communication and interpersonal skills. Admission to the Certificate and Degree program is by waiting list. All interested students should call (206) 542-5056 to request a brochure be mailed to them. Next, interested students will need to attend an information session. Session dates and times are listed in the brochure.

OUTCOMES
Students who successfully complete this program will be able to:
1. Successfully interact with customers and build a clientele.
2. Perform hair care and styling services such as permanent waving, hair coloring and lightening, chemical relaxing, scalp treatments, shampooing, cutting, shaping, setting and combing techniques.
3. Perform nail and skin care services such as manicuring and pedicuring, skin analysis, make-up application, facials and superfluous hair removal.
4. Perform appropriate safety and sanitation procedures related to all hair, skin and nail services.
5. Conduct typical business transactions such as making appointments, cashiering and inventory.
6. Manage daily salon operations, purchase supplies, supervise staff, and effectively promote products and services.
7. Create a five-year business plan.

AAAS DEGREE
Total credits required 119

See www.shoreline.edu/planning for a complete planning guide for this option.
BIOTECHNOLOGY LAB SPECIALIST PROGRAM
(206) 546-4786 or (206) 546-4543

DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL

DESCRIPTION
Biotechnology is an exciting and rapidly expanding field. Biologists and other scientists working in research and development use biotechnology techniques for the production of genetically engineered drugs, gene therapy, microbiology, virology, forensic science, agriculture and environmental science. The Biotechnology Laboratory Specialist Program prepares students for work in laboratories involved in any aspect of these processes.

The curriculum provides a foundation in a variety of math and science disciplines including algebra, statistics, chemistry, biology, microbiology and computer science. Students gain a working knowledge of molecular biology, recombinant DNA, immunology, protein purification and tissue culture -- both through classroom lectures and "hands-on" laboratory learning experiences. Biotechnology laboratories are found in educational institutions, public health facilities and private corporations.

This program is Associate of Applied Science-Technology (AAS-T) degree eligible. The AAS-T degree indicator, which will appear on your transcript, will enable students to transfer this degree directly to some four-year institutions. Please check with your program advisor for more specific information.

OUTCOMES
Students who successfully complete this program will be able to:
1. Assist research scientists in the laboratory.
2. Perform technical procedures such as cell counting, solution and media preparation, DNA extraction and characterization, electrophoresis, cloning, polymerase chain reaction, ELISA and other immunology techniques, maintenance of cell lines transfection, fermentation, protein isolation and purification using various chromatographic techniques.
3. Conduct research experiments following operating and safety protocols and apply knowledge of theory and techniques to troubleshoot appropriately.
4. Analyze and display data using computer technology including the Internet and software designed for maintaining a database, preparing spreadsheets, conducting statistical analysis, bioinformatics and graphical display.
5. Manage laboratory activities including record keeping, ordering supplies and preparing reports.

AAAS DEGREE

Certificate of Completion
Biotechnology Lab Specialist

DESCRIPTION
This Certificate is for students who have a Bachelor’s Degree or higher or substantial Science background. At a minimum, students will take the Biotechnology classes offered in the second year of the Associate’s Degree Program. These are: Media and Solution Prep, Molecular Biology, Recombinant DNA Technology, Immunology, Biotechnology Techniques (protein chemistry, isolation and purification). If students need updating in Math, Chemistry or Biology before starting the Certificate Program, Program advisors will recommend specific classes. Advisors may also recommend Chemistry Technology, statistics or Excel.

OUTCOMES
Provides students who already have degrees or substantial science background broad-based hands-on laboratory experience with associated academics to allow them to work as laboratory technicians and research assistants.

CERTIFICATE OF COMPLETION

Total Credits Required . . . . . . . . . . . 36-37

See www.shoreline.edu/planning for a complete planning guide for this option.

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The Business Administration Program offers concentrations in:
• Entrepreneurship  • Fashion Merchandising
• General Business  • Marketing
• Retail Management

This vocational degree program provides the student with a balanced background in business plus the opportunity for career specialization. The student completes the core requirements and can choose either a specific area of concentration in one of the five areas listed or he/she can plan an individualized course of study to meet specific career needs by completing 25 credits of advisor-approved electives. (General Business area of concentration).

AAAS Degrees

Entrepreneurship Option

This program is designed to prepare students for careers in business management or to upgrade the skills of professionals already working in management positions. The Management Program provides an overview of business management theory, standard operating procedures, financial planning and business development techniques along with strategies for effective supervision. Students refine skills in oral and written communication. Through the core curriculum, students demonstrate fundamental business skills in accounting, economics, communication, marketing, purchasing, computer technology, supervision, and legal issues. Graduates will be prepared for positions as middle managers.

OUTCOMES
Students who successfully complete this program should be able to:
1. Understand the nature of operations, personnel, finances, regulations, marketing and decision-making.
2. Apply business mathematics in order to analyze data and solve business problems.
3. Apply theories of motivation, occupational behavior and management in order to create a healthy, productive organizational climate.
4. Effectively communicate verbally and in writing within the business environment.
5. Understand the principles of managing business products, information and finance.
6. Apply principles of business planning and development.
7. Demonstrate effective leadership and supervision skills.
8. Effectively manage and supervise their own work and career development.

DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL

BUSINESS ADMINISTRATION (CONT.)
(206) 546-4665

Fashion Merchandising Option
Students will develop basic business skills, with a focus in Fashion Merchandising. The curriculum will focus on economics, accounting, computers, marketing, management, and general education outcomes. Students also take focused Fashion Merchandising classes to hone their skills in the area of display and effective visual merchandising, retail buying, retail management, and merchandising planning. This professional/technical degree is available to day students on a full or part-time basis. Graduates with general business administration skills and fashion merchandising skills may be able to obtain jobs in the retail sector of business. Graduates may also be able to apply their knowledge in a general business setting.

OUTCOMES
Students who successfully complete this program should be able to:
1. Understand the nature of operations, accounting, regulations, marketing, human relations and decision-making.
2. Understand textiles and costume history.
3. Identify trends and the development process.
4. Demonstrate understanding of the fashion design and development process.
5. Effectively display merchandise.
6. Develop 6 month buying plans.
7. Understand the trend development process.

AAAS DEGREE
Total Credits Required . . . . . . . . . . . .96-98

General Business Administration Option
This Business Administration degree increases career alternatives in respect to employment and is designed to meet the needs of employed students who wish retraining and upgrading of skills and those students who prefer to plan their courses of study to meet specific employment objectives.

This degree program is available to day and evening students either full-time or part-time.

NOTE: This degree does not transfer to four-year academic institutions. See “Degree Programs: Academic Transfer” section for information on business administration transfer degree.

OUTCOMES
Students who successfully complete this program should be able to:
1. Understand the nature of operations, accounting, regulations, marketing and decision-making.
2. Apply business mathematics in order to analyze data and solve business problems.
3. Apply theories of motivation, occupational behavior and management in order to create a healthy, productive organizational climate.
4. Effectively communicate verbally and in writing in various business settings.
5. Understand management principles related to finance, personnel, products, services and information.
6. Apply general business skills to a variety of business environments.

AAAS DEGREE
Total Credits Required . . . . . . . . . . . .94-96

See www.shoreline.edu/planning for a complete planning guide for this option.
Marketing Option
Marketing encompasses a broad spectrum of business activities which relate to consumer demand, product awareness and customer satisfaction. Marketing specialists study trends which influence consumer needs and buying habits. They help to determine the level of demand of particular products and services, identify and attract potential consumers, develop pricing strategies, oversee product development and promote products and services. They also enhance the public image of businesses through advertising, promotional events and public information.

The Marketing program provides an overview of basic marketing components including the principles of retailing, professional selling, advertising, public speaking, transportation and international marketing. Students completing this degree have the opportunity to transfer to Central Washington University to earn a bachelor's degree in Retail Management.

OUTCOMES
Students who successfully complete this program should be able to:
1. Demonstrate professional sales skills, effectively interview clients and accurately gauge consumer needs.
2. Apply principles of sales management including the development and analysis of sales programs, budgets and expense reports.
3. Apply advertising principles including strategies for planning, producing and selecting the appropriate media.
4. Understand principles of product development, pricing, distribution strategies, promotion strategies and market research.
5. Apply principles of retailing such as business location, merchandising, inventory control, store management and vendor relationships.
6. Communicate effectively with consumers, business managers and vendors.
7. Understand business management as it relates to daily operations, personnel issues, finance, profit-loss analysis and decision-making.

Retail Management Option
Retail marketing is any business activity that directs its efforts toward the selling of goods or services to consumers. The Retail Management program builds on the general business curriculum and prepares students for a leadership role in the dynamic retail industry. Depending upon the size of the retail company, retail managers are responsible for one or more parts of a retail operation including buying, marketing, merchandising, operations, inventory control, personnel or finance. Leadership training is provided through DEC. Delta Epsilon Chi members prepare for careers in marketing, merchandising or management. Students completing this degree may have the opportunity to transfer to Central Washington University to earn a Bachelor's Degree in Retail Management.

OUTCOMES
Students who successfully complete this program should be able to:
1. Apply principles of retail buying such as planning, merchandise selection and control, and building positive vendor relationships.
2. Apply principles of advertising including strategies for planning, producing and selecting appropriate media.
3. Communicate effectively with consumers, staff and vendors.
4. Demonstrate good salesmanship, effectively interview clients, accurately gauge consumer needs and build customer goodwill.
5. Apply principles of sales management including the development and analysis of sales programs, budget and expense reports.
6. Understand the nature of business operations, personnel, finances, regulations, marketing and decision-making.
7. Apply business mathematics to analyze data and solve business problems.

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificates of Proficiency

Entrepreneurship

Students acquire an overview of basic marketing components including the principles of retailing, professional selling, advertising, public speaking, transportation, and international marketing.

OUTCOMES

Students acquire an overview of small business such as planning, merchandise selection and control, and building positive vendor relationships. They learn to apply principles of advertising strategies and how to develop and analyze sales programs.

CERTIFICATE OF PROFICIENCY

Total credits required . . . . . . . . . . . . . . . 51

See www.shoreline.edu/planning for a complete planning guide for this option.

Fashion Merchandising

Students will develop basic business skills, with a focus in Fashion Merchandising. The curriculum will focus on economics, accounting, computers, marketing, management, and general education outcomes. Students also take focused Fashion Merchandising classes to hone their skills in the area of display and effective visual merchandising, retail buying, retail management, and merchandising planning. This professional/technical certificate is available to day students on a full or part-time basis.

OUTCOMES

Students who successfully complete this program should be able to:
1. Understand the nature of operations, accounting, regulations, marketing, human relations and decision-making.
2. Understand textiles and costume history.
3. Identify trends and the development process
4. Demonstrate understanding of the fashion design and development process.
5. Effectively display merchandise.
6. Develop 6 month buying plans.
7. Understand the trend development process.

DESCRIPTION
The Business Technology program helps prepare individuals for jobs in today's computerized business environments. Students complete hands-on computer training in current word processing, spreadsheet, database, and presentation software. Students study human relations, mathematics, and communications, all essential for success in the workplace. Graduates of the program may find employment in a variety of office and administrative support positions. Students in the program develop skills essential in an office environment.

Students may complete both an AAAS Degree and Certificate of Proficiency. Those completing a degree program may choose electives from Accounting, Business Technology, Computer Information Systems, Visual Communications Technology, and/or other areas with Business Technology advisor approval.

OUTCOMES
Students who successfully complete this program will have:
1. A knowledge of current business practice and office technologies.
2. An ability to prioritize, organize, and plan office work.
3. An ability to use current computer software packages proficiently.
4. The communication and interpersonal skills necessary to work effectively with others.
5. An ability to manage information effectively.

AAAS DEGREE
Total Credits Required . . . . . . . . . . . . . . 90

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Proficiency

DESCRIPTION
The Business Technology Certificate of Proficiency program helps prepare individuals for success in today's computerized business environments. Students complete hands-on computer training in current word processing, spreadsheet and presentation software. Students study human relations, mathematics, and communications - all in demand in today's business environments. Graduates of the program may find employment in a variety of office support positions.

The Business Technology Certificate of Proficiency credits may be applied to the Business Technology AAAS Degree. See an advisor in this program for details.

OUTCOMES
Students who successfully complete this program will have:
1. A working knowledge of current computer software.
2. A knowledge of current business practice and office technologies.
3. An ability to prioritize, organize, and plan office work.
4. The communication and interpersonal skills necessary to work effectively with others.

CERTIFICATE OF PROFICIENCY
Total credits required . . . . . . . . . . . . . . 47-50

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificates of Completion

Bilingual Office Assistant
This program is designed to train students for entry-level jobs in a business environment. This career path leads to the Business Technology Certificate of Proficiency and A.A.A.S. Degree.

OUTCOMES
Students who successfully complete this program will have:
1. A working knowledge of word processing
2. A working knowledge of spreadsheets
3. An ability to communicate in a positive way to internal and external customers
4. An ability to organize office documents

CERTIFICATE OF COMPLETION
Total Credits Required . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.

Business Software Applications
This program is designed to train students for entry-level jobs in a business environment using the most common Microsoft business applications.

OUTCOMES
Students who successfully complete this program are ready to work in entry-level office settings.

CERTIFICATE OF COMPLETION
Total Credits Required . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.

Customer Service Specialist/Receptionist
People in this career pathway aid communication to both internal and external customers and facilitate the flow of business within and between organizations. They keep records, file, greet customers and support supervisors and/or managers. This career path leads to both the Business Technology Certificate of Proficiency and AAAS Degree.

OUTCOMES
Students who successfully complete this program will have:
1. A working knowledge of word processing
2. A working knowledge of spreadsheets
3. An ability to communicate in a positive way to internal and external customers
4. An ability to organize office documents

DESCRIPTION
The Cosmetology curriculum teaches the art and science of cosmetology as well as basic business and interpersonal skills. Students learn hair, skin and nail care along with health and safety procedures. Building upon a foundation of cosmetology theory, students gain hands-on experience in beauty culture practice. Students work in the classroom and under actual salon conditions. Course work prepares graduates for the Washington State Cosmetology Licensing Examinations. Students completing the Cosmetology program receive a Certificate of Proficiency. Admission to the Certificate program is by waiting list. All interested students should call (206) 542-5056 to request a brochure be mailed to them. Next, interested students will need to attend an information session. Session dates and times are listed in the brochure.

OUTCOMES
Students who successfully complete this program should be able to:
1. Successfully interact with customers and build a clientele.
2. Perform hair care and styling services such as scalp treatments, shampooing, cutting, shaping, setting and combing techniques, as well as chemical treatments including permanent waving, hair coloring and lightening, and chemical relaxing.
3. Perform nail care services such as manicuring and pedicuring.
4. Perform skin care services including skin analysis, make-up application and basic facial treatments, and superfluous hair removal.
5. Perform appropriate safety and sanitation procedures related to all hair, skin and nail services.
6. Conduct typical business operations such as making appointments, cashiering and inventory.

CERTIFICATE OF PROFICIENCY
Total Credits Required ............... 90

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
Offers students an overview of the forces that have shaped and influenced the field of criminal justice; explores ethical and social issues and promotes self-awareness; introduces strategies for understanding, preventing and investigating criminal activities; teaches practical criminal justice procedures and prepares students for careers in law enforcement, corrections, private security, and other areas. Students planning to pursue a bachelor's degree should follow the Criminal Justice Option A transfer degree.

OUTCOMES
Students who successfully complete this program should be able to:
1. Evaluate federal and state constitutions and their respective criminal codes.
2. Apply basic theories of police operations and management.
3. Communicate effectively within the criminal justice system.
4. Effectively communicate with the public and respond to various problems many of which may not be criminal in nature.
5. Fairly enforce the laws which regulate public conduct.
6. Properly identify, collect and preserve evidence.
7. Conduct preliminary traffic and criminal investigations, report findings and testify effectively in court.
8. Promote security through appropriate application of standard patrol practices and police interventions.

AAAS DEGREE

Total Credits Required ............... 96

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
Dental Hygiene is a health profession with its primary responsibility being preventive in nature. Licensure qualifies the dental hygienist to provide oral health services to patients in a variety of settings including private dental offices (general or specialty practices), public health facilities, state institutions, hospitals, common schools, nursing homes, group homes for the elderly or the disabled, and the military. In addition, dental hygienists may be employed as dental clinic managers, dental health educators and supervisors for public health agencies.

The Dental Hygiene Program is a two-year, seven-quarter curriculum which focuses on the development of strong clinical skills and proficiency as a dental health educator. Students completing this program are eligible to write the National Board Examination given by the Joint Commission on National Dental Examinations. Students are also prepared to take the clinical examination required by each of the licensing jurisdictions in the United States in order to become registered dental hygienists (RDH). Upon completion of the program, the student will receive an Associate of Applied Arts and Sciences Degree. The program is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the U.S. Dept. of Education.

This program is Associate of Applied Science-Technology (AAS-T) degree eligible. The AAS-T degree indicator, which will appear on your transcript, will enable students to transfer this degree directly to some four-year institutions. Please check with your program advisor for more specific information.

PREREQUISITE COURSE WORK
Upon entry into the program, the student begins intense study of advanced sciences. Background in general education/related instruction and the basic sciences is essential to prepare the student to succeed in the dental hygiene curriculum.

Therefore, applicants are required to complete designated pre-dental hygiene course requirements no later than the end of Summer Quarter the year of application. Information on these courses is provided in the Dental Hygiene Program brochure. Applicants must obtain the brochure from either the Dental Hygiene webpage found on the SCC website for the year they are applying.

APPLICATION TO PROGRAM

The Dental Hygiene Program receives more applications each year than there are available student spaces. It is therefore necessary to employ strict admissions requirements and selection procedures so that those applicants who are deemed best qualified to succeed in the Dental Hygiene Program and the dental hygiene profession may be selected.

It is important for every applicant (new or re-applying) to obtain an updated copy of the Dental Hygiene Program brochure from the Dental Hygiene webpage during the Fall Quarter prior to beginning the application process. Since class selection procedures are subject to change, this will ensure that the applicant receives accurate information about required procedures, documents and deadlines. It is the applicant’s responsibility to seek current admissions information and to see that his or her file is complete and up-to-date. Advanced planning and early submission of materials are strongly encouraged.
REQUIREMENTS AFTER ACCEPTANCE INTO THE PROGRAM

1. Complete physical examination, including eye examination
2. Tuberculin skin test
3. Record of current immunizations (tetanus, diphtheria, rubella, polio, measles, hepatitis B and mumps)

Students selected for the program will be required to purchase approved personal protective equipment, a "student issue" of supplies and instruments, and malpractice insurance. Students seeking further information about program costs should contact the Dental Hygiene Program at (206) 546-4711. Financial aid may be available through the college. Contact the Financial Aid Office at (206) 546-4762 for information. Dental Hygiene web advisor: dentalhygiene@shoreline.edu.

OUTCOMES

Students who successfully complete this program should be able to:
1. Examine patients using appropriate screening procedures.
2. Expose and develop radiographs.
3. Remove calculus and plaque (hard and soft deposits) from teeth.
4. Teach patients how to maintain healthy teeth and gums through proper oral hygiene.
5. Counsel patients concerning the role of good nutrition in oral health maintenance.
6. Apply cavity preventive agents such as fluoride and sealants.
7. Make impressions of patients' teeth for study models used in the evaluation of treatment options.
8. Place and finish dental restorations (fillings.)

AAAS DEGREE

Total Credits Required . . . . . . . . . . . . . 118

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The Education Programs are designed to provide students with the knowledge and skills necessary for employment in a variety of social and educational agencies. Based on personal and career interests, students may select one of three AAAS degree options: Early Childhood Educator/Paraeducator, Special Education and Bilingual/Bicultural Education. These programs are designed to meet paraeducator requirements set by the State of Washington Office of the Superintendent of Public Instruction (OSPI) as well as the lead teacher requirements established by the State of Washington childcare licensing standards, the State of Washington ECEAP standards and the national Head Start performance standards.

Students learn about the social, emotional, language and intellectual development of children as well as specific strategies for encouraging healthy development. Students also learn how to develop group activities, plan a curriculum, guide individuals and groups of children, and effectively communicate with children, families and co-workers. Internships provide students with an opportunity to integrate classroom coursework, increase confidence and gain valuable experience. All courses are taught from a multicultural perspective.

OUTCOMES
Students who successfully complete this program should be able to:
1. Select and implement developmentally and culturally appropriate educational practices that positively impact young children's development, creativity and self-esteem.
2. Develop and implement creative, innovative and culturally sensitive instructional techniques.
3. Plan group activities and effectively manage a multicultural classroom.
4. Perform basic assessments and measurements of children in an educational setting.
5. Work appropriately with exceptional children and those with special needs.
6. Communicate effectively with children, parents, colleagues and educational administrators.

Bilingual/Bicultural Education Option

AAAS DEGREE

Total Credits Required .................. 93

Early Childhood Educator/Paraeducator Option

AAAS DEGREE

Total Credits Required .................. 93

See www.shoreline.edu/planning for a complete planning guide for this option.

Special Education Option

AAAS DEGREE

Total Credits Required .................. 93

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificates of Proficiency

In-Home Care Provider
The Certificate of Proficiency for In-Home Care Providers prepares graduates for work as a nanny or in-home care provider. Students gain an understanding of human growth and development along with a working knowledge of developmentally appropriate practices and activities. In addition, students learn practical skills such as first aid, safety, healthy food preparation and effective communication. Internships and field placements provide students with an opportunity to integrate classroom learning and gain valuable "hands-on" experience. The program can usually be completed in three or four quarters.

OUTCOMES
Students who successfully complete this program should be able to:
1. Understand the basic and developmental needs of infants, toddlers and preschool children.
2. Plan and prepare developmentally appropriate and culturally sensitive activities for young children.
3. Communicate effectively with parents and children.
4. Understand the principles of healthy nutrition and safe food handling and preparation.
5. Apply knowledge of safety and prevention techniques as well as perform basic first aid.

CERTIFICATE OF PROFICIENCY

Total Credits Required . . . . . . . . . . . . . . 48

See www.shoreline.edu/planning for a complete planning guide for this option.

Child Care Professional
The Certificate of Proficiency for Child Care Professionals prepares graduates for employment as lead teachers in licensed child care settings. Students learn about the social, emotional and intellectual development of young children as well as specific strategies for encouraging healthy development. Students also learn how to develop group activities, plan curriculum and manage a classroom. Internships provide students with an opportunity to integrate classroom learning and gain valuable "hands-on" experience. The program can usually be completed in three or four quarters.

OUTCOMES
Students who successfully complete this program should be able to:
1. Work positively with young children fostering their development, creativity and self-esteem.
2. Plan group activities and effectively manage a classroom.
3. Work with children developing normally as well as those with special needs in an age appropriate and culturally sensitive way.
4. Effectively communicate with children, parents, colleagues and educational administrators.

CERTIFICATE OF PROFICIENCY

Total Credits Required . . . . . . . . . . . . . . 60

See www.shoreline.edu/planning for a complete planning guide for this option.
CAD/Drafting and Design Technology

Designers and drafters work with engineers and other professionals to translate their ideas into technical drawings which will guide the fabrication of products, the assembly of industrial equipment and the construction of large projects such as buildings, dams and pipelines. Technical drawings prepared by drafters typically show what the finished product or structure will look like from every angle along with detailed specifications on the dimensions, materials and assembly procedures. These drawings are then used to convey the engineer’s concepts to the people who will do the actual construction. Computer Aided Design (CAD) systems allow designers to create and revise products in the office or through the Internet. The CAD/Drafting program prepares students to become designers, detailers or technical illustrators in construction, engineering, manufacturing or architecture.

OUTCOMES

Students who successfully complete this program should be able to:

1. Utilize CAD/Drafting and design skills to prepare drawings that detail specifications and procedures to be used in the construction and manufacturing process.
2. Apply appropriate techniques and procedures for solving basic engineering problems.
3. Use illustration skills to create pictorial drawings for use in manuals, parts books and advertisements.
4. Use calculation skills to determine the precise size of features shown on technical drawings.
5. Critique technical drawings.
6. Solve basic engineering problems using fundamental engineering procedures.

CERTIFICATE OF PROFICIENCY

Total Credits Required . . . . . . . . . . . .53-55

See www.shoreline.edu/planning for a complete planning guide for this option.
HEALTH CARE INFORMATION PROGRAMS
(206) 546-4757

ADMISSION PROCEDURE FOR ALL HEALTH CARE INFORMATION PROGRAMS
Applicants should have a high school diploma or G.E.D. Application for admission to the College must be made through the Admissions Office. To be admitted to any of the Health Care Information Programs (HCI), the following procedures must be followed:

Application Process for Entry into the Medical Coding and Reimbursement Specialist Certificate Program and First Year of the Health Information Technology Program
1. Complete the Shoreline Community College Application Form and send to the Shoreline Admission Office
2. Complete the Health Care Information Programs Application Form (form A) and attach the $15 application fee
3. Complete the Health Care Information Programs Coursework to be Evaluated Form (form B)
4. Send two official transcripts for each college attended prior to entrance into the HCI Program: One sent to Shoreline’s Admission Office, and one provided to the HCI Program. For coursework taken at Shoreline Community College, provide a printout of the transcript and printout for the current registration form if currently attending Shoreline.
5. Results of Asset/Compass tests showing placement recommendations for English, Reading and Mathematics (or college course work showing readiness for English& 101 and Math 099 or higher). ESL students with limited English proficiency need to attach the results of the ESL assessment showing readiness for English& 101.
6. Attend an HCI Informational Session. Please contact the Health Care Information Program for information on prerequisites. For information, call Donna Wilde, MPA, RHIA at (206) 546-4757 or Gloria Anderson, RHIA, CCS, at (206) 546-4707.

APPLICATION PROCESS FOR SECOND YEAR OF HEALTH INFORMATION TECHNOLOGY PROGRAM
1. During Spring Quarter, first year a meeting will be held with all interested individuals.
2. Application forms for consideration of acceptance into the second year will be provided.
3. Acceptance will be based on written program policies.

PREREQUISITE CLASSES/SKILLS FOR ENTRANCE INTO ALL HCI PROGRAMS

English: Students must have completed English 100 or ESL 100 with a grade of 2.0 or higher, or have placement results on an Asset test indicating readiness for English& 101. ESL students with limited English proficiency will be required to complete all levels of the ESL curriculum prior to entry into any HCI program. ESL students not completing all levels of the curriculum must be assessed by the ESL program advisors to determine their readiness for English& 101.

Mathematics: Students must have completed Math 80 Elementary Algebra or higher level math with a grade of 2.0 or higher, or have placement results on the COMPASS test showing placement at Math 099 Intermediate Algebra or higher.

Computer Applications: Students must be computer literate, at least at the basic level. They must have keyboarding skills at a minimum of 30 words per minute or take BusTc 100. Students must have completed CIS 105 with a grade of 2.0 or higher, or, as an alternate, they must provide evidence of their ability to work in a PC. Windows environment, do word processing with MS Word, send and receive e-mails with attachments, and have basic internet skills.
**AAAS Degree**

**HEALTH INFORMATION TECHNOLOGY**

*Note: This program is completely online.*

The Health Information Technician is in growing demand as a health information specialist. This professional manages the collection of paper and computer-based patient health records, monitors the accuracy and completeness of the information, analyzes records for quality of care and documentation, abstracts and codes patient information, prepares and interprets statistical clinical data and ensures appropriate access by others to clinical records while protecting the confidentiality of patient information.

Graduates have found jobs in hospitals, long term care facilities, ambulatory care clinics, hospices, home health care agencies, correctional centers, tumor registries, governmental agencies, clinics, and in research.

**ACADEMIC REQUIREMENTS**

Students in the Health Information Technology Program are required to maintain a final grade of 2.0 in all required courses. When one course is listed as a prerequisite to another course, this means that the student must have completed the prerequisite course with a grade of 2.0 or above before enrolling in the second course.

Strong English communication skills are needed throughout the program since this is an essential component of the career. Students must choose a decimal grading system for all courses unless prior permission is received from the HCI Program director.

**GRADUATION**

All students completing the Health Information Technology program are expected to earn the Associate of Applied Arts and Science Degree. Upon completion, the students are eligible to write the certification examination offered by the American Health Information Management Association.

**ACCREDITATION**

The Health Information Technology program at Shoreline Community College is accredited by the Commission on Accreditation of Health Informatics and Information Management Education.

**COURSE FORMAT**

Theory is presented in lectures and web lessons. Laboratory projects reinforce lectures and provide hands-on experiences simulating on-the-job activities. Clinical experiences are provided in which the student is assigned to one or more clinical sites.

**CLINICAL ASSIGNMENTS**

The first experience at a clinical site is a total of 32 hours and offered in the summer between the first and second years of the program. Students are eligible for placement in HCI 155, Clinical Practicum I, only after formal application for entry into the second year of the HIT program and acceptance by the HCI Program Director. Please refer to the course description and written HCI program policies for additional information. If there are not enough clinical sites available for the number of students requesting assignment, priority placement will be given according to written program policy.

The second-year clinical practicum is a total of 120 hours, normally completed winter term. Students are eligible for placement in HCI 234, Clinical Practicum II, only if HCI 155 has been completed and only if the student has received formal admission into the second year of the Health Information Technology Program. Refer to written program policies regarding eligibility for placement into HCI 234. If there are not enough clinical sites available, priority assignment for Clinical Practicum II will be according to written program policy.

Attendance is required for all assigned hours. Absences must be made up according to written program policy. Prior to placement in practicum sites, students are required to write a résumé, sign the Professional Standards Agreement and at their own expense, obtain physical examination, a TB test and a Washington State Patrol background check. Some sites may require current immunizations and a physical examination. Students will be assigned, when possible, to sites at their preferred geographic areas. However, due to the volume of students and limited number of sites, it is very probable that students will be required to travel to areas outside their preferred locations. Students are expected to provide their own transportation to and from clinical sites. Additional expenses related to parking or bus travel should be anticipated.

HCI 235, HIT Capstone Course, (spring term, second year) is project-oriented and does not require placement at a specific site. The students will be expected to spend between 9 and 12 hours per week on the management assignment and will be required to work in student groups. Please refer to the course description for eligibility requirements.
FINANCIAL AID
Please see the section on Financial Aid for information pertaining to general loans, grants and waivers. In addition, three sources are available specifically for the health information technology student. Scholarships and loans from the Foundation for Research and Education (F.O.R.E.) are available through the American Health Information Management Association for qualified students. One Sister Peter Olivant Scholarship Award is given yearly to a health information technician student by the Washington State Health Information Management Association. The scholarship is available only to students entering their final year of the program. The Lucy Hay Scholarship is also available from the Seattle Area Health Information Management Association. Further information may be obtained from the program director.

OUTCOMES
Students who successfully complete this program will have a working knowledge of:
1. Medical terminology, anatomy and physiology, human diseases, and pharmacology.
2. Patient clinical record content and health information systems for hospitals, long term care facilities, home health agencies, medical and dental offices, and other outpatient clinics.
3. Health care delivery systems, regulations and political reform.
4. Legal and ethical issues related to health care and release of confidential data. Health Insurance Portability and Accounting Act (HIPAA) requirements for privacy and security of health/billing data.
6. Prospective Payment Systems (PPS), for various inpatient and outpatient settings, Resource Based Relative Value Scale (RBRVS); Minimum Data Set (MDS); Intermediate Care Facility and Inpatient Rehabilitation Facility; Patient Assessment Instruments; Home Health Outcome and Assessment Information Set (OASIS), components of fee setting, optimizing reimbursement based on insurance specifications, common coding errors and their impact on claims processing.
7. Medicare, Medicaid and private insurance requirements for health care facilities. Billing procedures for facilities using the CMS Form 1500.
10. Supervisory principles for the health information manager.

CERTIFICATIONS
Graduates are eligible to write the certification examination offered by the American Health Information Management Association (AHIMA) to become Registered Health Information Technicians (RHIT). In addition, they are qualified to write the AHIMA Certified Coding Associate (CCA) exam (entry level inpatient coding), the AHIMA Certified Coding Specialist-Physician’s Office (CCS-P) exam, and the American Academy of Professional Coders Certified Professional Coding (CPC) exam (physician’s office/outpatient coding). After several years of experience, the graduate is eligible for the AHIMA Certified Coding Specialist (CCS) exam, considered testing advanced level inpatient coding practice.
Clinical Facilities
For the Health Information Technology Program

Hospitals
Children's Hospital and Medical Center, Seattle
Evergreen Hospital Medical Center, Redmond
Group Health Hospitals, Central and Eastside, Seattle and Redmond
Harborview Medical Center, Seattle
Highline Hospital, Burien
Northwest Hospital, Seattle
Overlake Hospital, Bellevue
Providence Medical Center, Everett
Skagit Valley Hospital, Mount Vernon
Stevens Hospital, Edmonds
Swedish Medical Center, Seattle
University of Washington Medical Center, Seattle
Valley General Hospital, Monroe
Valley Medical Center, Renton
Veterans Administration Hospital, Seattle
Virginia Mason Medical Center, Seattle
Whidbey General Hospital, Coupeville

Long-Term Care Facilities
Corwin Center at Emerald Heights, Redmond
Regency Pacific, Everett

Other Non-acute Care Sites
Accuro, Bellevue
Hall Health Center, Seattle
Minimum Security Unit, Monroe
Pacific Medical Center Clinics
Seattle Cancer Care Alliance, Seattle
Special Offenders Unit, Monroe
Twin Rivers Correctional Unit, Monroe
Visiting Nurse Services of the Northwest, Mountlake Terrace
Washington State Reformatory Unit, Monroe

Health Information Technology

AAAS Degree

Total Credits Required . . . . . . . . . . 100-102

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Proficiency
Medical Coding and Reimbursement Specialist

Note: This program is completely online.
The medical coding and reimbursement specialist reads and interprets the medical records of patients in all types of health care facilities to obtain detailed information regarding their diseases, injuries, surgical operations and other procedures. This specialist then assigns codes using ICD-9-CM (International Classification of Diseases – 9th Revision – Clinical Modification) and CPT (Current Procedural Terminology). Some specialists also code CDT (Current Dental Terminology) when working in dental offices. They handle all components of claims processing including management of disputed, rejected and delayed claims.

Outcomes
Students who successfully complete this program should be able to:

1. Read and interpret medical records of patients.
2. Accurately assign diagnostic and procedural codes according to ICD-9-CM and CPT, using federal coding compliance guidelines.
3. Complete insurance, CMS 1500 and UB 04 Medicare/Medicaid claim forms.
4. Apply privacy and security regulations for the release of confidential health/billing data, following HIPAA privacy requirements.
5. Use manual and computerized encoders and groupers systems to determine Diagnostic Related Groups (DRGs), Resource Based Relative Value Scale (RBRVS), and Ambulatory Payment Classification (APCs).
6. Use personal computer software programs, as well as manual and automated accounting systems and electronic health record software.

Certifications
Graduates are eligible to write the American Health Information Management Association’s (AHIMA) Certified Coding Specialist – Physician’s Office (CCS-P) examination or the entry level Certified Coding Associate (CCA) for hospital inpatient coding. They are also eligible to write the American Academy of Professional Coders Certified Professional Coding (CPC) examination. The AHIMA mastery-level Certified Coding Specialist (CCS) examination is also available.

Certificate of Proficiency

Total Credits Required . . . . . . . . . . 74-77

See www.shoreline.edu/planning for a complete planning guide for this option.
**DESCRIPTION**
The CNC Manufacturing offerings at Shoreline Community College were designed by a Skill Panel representing manufacturing firms from the Puget Sound region. Each program has been customized to accommodate individual training needs depending on student goals and previous experience. The CNC Manufacturing programs were created for entry level students with little or no experience, also for incumbent workers with several years of experience looking to upgrade their skills. Students can also choose from a degree program for students looking to transfer to 4 year schools.

**Certificate of Completion**

**Certificate in Basic Manufacturing**
The CBM has two specific objectives for students that desire to enter the manufacturing work environment. The CBM can serve as a stand alone training tool preparing students for immediate entry into the workforce at the entry level. The CBM also serves as the prerequisite for entering into any of the manufacturing programs at Shoreline Community College. Students have the ability to challenge part or all of the courses within the CBM through a process of testing or by documenting evidence of prior experience.

The Certificate in Basic Manufacturing is a 21 credit, one-quarter course of study that provides students with entry-level manufacturing skills and a foundation to pursue other certificates and two-year degrees in other manufacturing specialty areas. The Certificate in Basic Manufacturing builds on the nine Learning Outcomes. Each Learning Outcome also represents an important component of the manufacturing industry, as identified by Washington State employers.

**OUTCOMES**
Students who successfully complete this program will have acquired the foundational skills, knowledge and abilities necessary to:

1. Work effectively in a manufacturing environment.
2. Use systems to support the manufacturing business to meet the needs of internal and external customers.
3. Participate and contribute to the effectiveness of teams.
4. Introduction to Statistical Process Control (SPC).
5. Use fundamental skills in (writing, reading, math, speaking, listening and computing) to meet the needs of the workplace.
6. Gather, interpret and use data consistently and accurately to make decisions and take action.
7. Contribute to the maintenance of a safe and healthy work environment.
8. Blueprint reading
9. Demonstrate basic and precision measurement methods.

**CERTIFICATE OF COMPLETION**

Total Credits Required . . . . . . . . . . . .21

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificate of Proficiency

CNC Machinist
This is an intensive program designed to prepare qualified individuals for entry into the job market as a CNC (Computer Numerical Control) Machinist. Instruction covers programming and basic set up and operation of CNC machines, blueprint reading, shop mathematics, machine tool theory, inspection, surface plate techniques, and Statistical Process Control (SPC). Students will be involved in the production and machining of industry parts. Instruction will also include the use and care of a wide variety of measuring devices used in the machining profession.

OUTCOMES
Students who successfully complete this program will be able to:
1. Perform entry-level tasks as a CNC machinist.
2. Use mathematics skills to solve basic manufacturing problems.
3. Program basic CNC machine tools to perform routine machining functions.
4. Safely set-up CNC Mills and Turning tools making tool length and work piece offsets.
5. Applying teamwork, inspection and SPC to manufacturing problems.
6. Utilizing properties of materials, establishing correct speeds and feeds.
7. Interpreting mechanical blueprints.
8. Use current software for computer assisted machining.

TOTAL CREDITS REQUIRED 61

See www.shoreline.edu/planning for a complete planning guide for this option.

AAAS Degree

CNC Technology
This is an intensive program designed to prepare qualified individuals for entry into the job market as a CNC Technician (Computer Numerical Control). Instruction covers basic set up and operation of CNC machines, blueprint reading, shop mathematics, machine tool theory, inspection, surface plate techniques, and Statistical Process Control (SPC). Specialist courses include Computer Aided Manufacturing (CAM), Computer Numerical Control Programming (CNC), and Rapid Prototyping. Students will be involved in the production and machining of industry parts. Instruction will also include the use and care of a wide variety of measuring devices used in the machining profession.

OUTCOMES
Students who successfully complete this program will be able to:
1. Perform entry-level tasks as a CNC machinist.
2. Use mathematics skills to solve basic manufacturing problems.
3. Program basic CNC machine tools to perform routine machining functions.
4. Safely set-up CNC Mills and Turning tools making tool length and work piece offsets.
5. Apply teamwork, inspection and SPC to manufacturing problems.
6. Utilize properties of materials, establishing correct speeds and feeds.
7. Interpret mechanical blueprints.
8. Use current software for computer assisted machining.

TOTAL CREDITS REQUIRED 115-117

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
This course of studies is designed to prepare the graduate to work as a member of a clinical laboratory staff. As part of a clinical lab team, graduates will perform scientific laboratory testing to aid in the detection, diagnosis and treatment of disease. The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

Often graduates will seek career opportunities in clinical, research reference laboratory or veterinary labs.

Students obtain a background in the basic sciences and an understanding of medical laboratory procedures. The first year of the program is spent in classrooms and in college campus laboratories. The second year is spent on campus in lectures and student laboratories and in participating clinical laboratories under the combined direction of hospital and college personnel. This year covers four quarters.

Upon completion of the second year of the program with a GPA of 2.0 or better, the student is awarded an Associate in Applied Arts and Sciences Degree in Medical Laboratory Technology and is eligible to write national examinations for Medical Laboratory Technicians and Clinical Laboratory technicians. The Medical Laboratory Technician (MLT) student may go through graduation exercises in June and will receive a degree upon completion of the year of clinical training at the end of Summer Quarter.

ACADEMIC REQUIREMENTS
Students planning to pursue a MLT career should meet the following academic requirements:

1. All entering freshmen must comply with established college entrance testing.
2. It is expected that college level credit earned in areas of the physical sciences will have been completed within the past ten years. Exceptions may be made on an individual basis.
3. Certificate of Proficiency pathway is open to students with an associate degree or higher. Science prerequisites must be met. General Education requirements can be waived; core requirements must be met.

SELECTION INTO THE SECOND YEAR OF THE MLT PROGRAM
Selection to the second year of the program is based on successful completion of the academic requirements of the first year and an evaluation of certain personal attributes. Positions may be limited by the number of clinical spaces.

In order to be considered for the second year of the program, students must have completed the first year academic requirements with a grade point average of at least 2.5. These academic requirements include:

1. BIOL& 170, 211, 260
2. CHEM& 121, 131
3. MLT 180
4. Quantitative Reasoning (CIS 105 or approved alternate)
5. ENGL& 101
6. PE 284 or three credits of Physical Education and possession of current Red Cross First Aid & Adult CPR cards
7. IASTU 102/SpCmu 102 Multicultural Issues
8. BUS 104 or BUS 105

Students entering the MLT program will be expected to enroll in and satisfactorily complete MLT 180 in Spring Quarter before beginning the second year of study. In the event that more students finish first year academic requirements than there are available clinical spaces, a selection committee will meet with candidates to consider the following factors:

1. Courses taken and grades received.
2. Ability to communicate.
4. Sound physical and mental health.*

*Following acceptance into the program, each individual will be required to submit a health assessment report completed at the student’s expense. Should this report reveal health problems which would interfere with successful completion of the program, admission may be reviewed or revoked by an ad hoc MLT committee. Situations that might disqualify a student could include such things as history of serious emotional problems, incapacitating disease or condition, and/or visual impairment.

All students accepted into the 2nd year Medical Laboratory Technology program will be required to purchase malpractice insurance from the College any quarter they are in a clinical practicum rotation.
**DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL**

**DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL**

**DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL**

OUTCOMES

Students who successfully complete this program should be able to:

1. Seek employment in a clinical laboratory setting performing routine laboratory procedures in each department with accuracy and precision.
2. Recognize normal and abnormal test results and take necessary action with critical values.
3. Perform and interpret basic quality control procedures.
4. Operate and maintain basic laboratory equipment.
5. Recognize and adhere to safety policies.
6. Demonstrate sound work ethics in interactions with patients, co-workers, and other personnel.

ACCREDITATION

National Accrediting Agency for Clinical Laboratory Science (NAACLS)

8410 W. Bryn Mawr Ave., Suite 670

Chicago, IL 60631-3415 • (773) 714-8880

Medical Director: Richard Patton, M.D.

Northwest Hospital, Seattle

AAAS DEGREE

Total Credits Required .......... 114-119

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Proficiency

Medical Laboratory Technology

Medical Laboratory personnel examine, analyze and test clinical specimens such as cells, blood and other body fluids to aid in the detection, diagnosis and treatment of disease. Graduates of this program will be prepared to perform laboratory tasks assigned by the medical technologist, the pathologist or the physician. These tasks typically include the preparation of specimens, operation of automatic analyzers and performance of routine laboratory tests. The curriculum provides students with a foundation in the general sciences including biology, microbiology, general chemistry, organic and biochemistry, human anatomy and physiology. Students must complete these basic program and general education requirements prior to entering the second year of the program. During the second year students focus on all aspects of the medical laboratory technology curriculum. Students attend classroom lectures and gain “hands-on” experience in on-campus student laboratories. Laboratory practicums are completed in professional medical and hospital laboratories. After successful completion of the program, graduates are eligible to take national certification examinations for Medical Laboratory Technician (MLT) or Clinical Laboratory Technician (CLT).

OUTCOMES

Students who successfully complete this program should be able to:

1. Seek employment in a clinical laboratory setting performing routine laboratory procedures in each department with accuracy and precision.
2. Recognize normal and abnormal test results and take necessary action with critical values.
3. Perform and interpret basic quality control procedures.
4. Operate and maintain basic laboratory equipment.
5. Recognize and adhere to safety policies.
6. Demonstrate sound work ethics in interactions with patients, co-workers, and other personnel.

CERTIFICATE OF PROFICIENCY

PROGRAM PREREQUISITES:

1. Students must have an Associate degree, Bachelors or higher degree.
2. Students must meet current Shoreline Community College MLT core science requirements.

Total Credits Required .......... 71-96

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Completion

Phlebotomy

Students learn the essentials of drawing blood, the role of the phlebotomist, safety and infection control, blood collection equipment, specimen processing, simple "waived testing," and practice with equipment on classmates. Upon successful completion of didactic and student lab practice, students can register for a practicum work experience.

OUTCOMES

Students will be prepared to work in this field after one to two quarters.

CERTIFICATE OF COMPLETION

Total Credits Required .......... 11

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The Music Technology program at Shoreline Community College is designed to familiarize the student who is interested in music merchandising, audio engineering, Musical Instrument Digital Interface (MIDI) composition/production, and performance practice with the current trends of the profession.

Digital Audio Engineering Option
The Music Technology: Digital Audio Engineering program option prepares students for careers in linear and non-linear digital applications. Audio engineers use hardware and software to record, store, and edit musical and non-musical sounds. The development of multimedia and the Internet have created a variety of occupations built around the development and use of platform-specific tools for linear and non-linear digital audio production. The program provides students with an overview of music theory, performance, audio recording, digital and analog audio technology, Internet and multimedia applications. Graduates are prepared for entry-level positions in CD and DVD audio production, radio and television broadcast production, and audio for video post-production and sound design.

OUTCOMES
Students who successfully complete this program should be able to:
1. Create audio recordings and provide mastering of material for distribution.
2. Create radio commercials as well as educational and instructional industrial products.
3. Create enhanced and new audio for existing video and film transfers.
4. Explain and apply Musical Instrument Digital Interface (MIDI) technology and digital audio technology.
5. Identify current production values, trends and industry standards affecting production today.
6. Relate to others and communicate effectively in the workplace.
7. Demonstrate basic music theory including ear training, sight reading, and keyboard proficiency.
8. Use basic business computer software applications.

MIDI Music Production Option
The Music Technology MIDI Music Production program option is designed to prepare students for a career in music studio production and related occupations. This program provides students with a broad base of knowledge in Musical Instrument Digital Interface Technology (MIDI) including MIDI music production, sequencing, synthesis and sampling. Students develop "hands-on" skills in modern MIDI technology. They learn how to use MIDI as a tool to manipulate sound and create music. The program also includes an overview of the principles of music theory, audio recording and music arranging. Graduates are prepared for entry-level positions in radio, television, advertising and audio recording studios as well as churches, synagogues and other environments where MIDI technology is used.

OUTCOMES
Students who successfully complete this program should be able to:
1. Use and program MIDI equipment to sample, sequence, synthesize and produce audio recordings.
2. Explain and apply fundamentals of music theory in the creation, evaluation and interpretation of musical compositions.
3. Apply basic principles of audio production, amplification and recording, and MIDI implementation.
4. Safely and appropriately use and maintain electronic audio equipment.
5. Relate to others and communicate effectively in the workplace.
6. Use basic business computer software applications.

AAAS DEGREE

Total Credits Required .......................... 99

See www.shoreline.edu/planning for a complete planning guide for this option.
Music Merchandising Option

The Music Technology Merchandising program option is designed to prepare students for a career in music merchandising and related occupations. Students learn the fundamentals of music theory, along with the basic elements of merchandising including marketing, salesmanship, legal issues, business math and practical accounting. In addition, students develop related skills in professional communications and human relations. Depending upon personal interests and career interests, students also choose from a wide variety of electives in music performance, business management, contract administration, commercial law, electronic music, radio and television production, and audio recording.

OUTCOMES

Students who successfully complete this program should be able to:

1. Apply principles of marketing and salesmanship in the merchandising of musical products or productions.
2. Create radio commercials as well as educational and instructional industrial productions.
3. Communicate effectively in the workplace both verbally and in writing.
4. Apply basic business math skills and accounting principles to plan and evaluate merchandising strategies.
5. Explain the basic principles of music theory.
6. Apply principles of applied music and performance in a selected area of interest -- vocal or instrumental.
7. Use basic business computer software applications.

AAAS DEGREE

Total Credits Required 98

See www.shoreline.edu/planning for a complete planning guide for this option.

Performance Option

The Music Technology Performance program option is designed to prepare students for a career in music performance and related occupations. The program provides students with a foundation in music theory and applied music including options for participation in concert bands, jazz, choral and bluegrass ensembles, orchestra, opera, musical theater and voice-dance theater.

Depending upon their personal and career interests, students may choose from a variety of electives in television production, digital audio recording, electronic (MIDI) music production and pop and commercial theory.

OUTCOMES

Students who successfully complete this program should be able to:

1. Demonstrate an understanding of the principles of music performance.
2. Explain and apply the fundamental principles of music theory.
3. Demonstrate a proficiency in some area of musical performance either vocal or instrumental.
5. Identify current trends and industry standards affecting the field of music performance today.
6. Relate to others and communicate effectively in the workplace.
7. Use basic business computer software applications.

AAAS DEGREE

Total Credits Required 100

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Completion

Digital Performer: Digital Audio

Students study and learn the digital audio capabilities of Mark of the Unicorn's Digital Performer software application and associated hardware. Students successfully completing this Certification Series are qualified to compose, arrange, sequence, record, edit, mix and master recordings of all types using Digital Performer. Examples include music, sound design for books on tape, computer applications and games, as well as radio and television commercials and feature length (and smaller) films and videos.

OUTCOMES

Students who successfully complete this program will be able to:

1. Apply principles of marketing and salesmanship in the merchandising of musical products or productions.
2. Create radio commercials as well as educational and instructional industrial productions.
3. Communicate effectively in the workplace both verbally and in writing.
4. Apply basic business math skills and accounting principles to plan and evaluate merchandising strategies.
5. Explain the basic principles of music theory.
6. Apply principles of applied music and performance in a selected area of interest -- vocal or instrumental.
7. Use basic business computer software applications.

Certificate of Completion

Digital Performer: Digital Audio

Students study and learn the digital audio capabilities of Mark of the Unicorn's Digital Performer software application and associated hardware. Students successfully completing this Certification Series are qualified to compose, arrange, sequence, record, edit, mix and master recordings of all types using Digital Performer. DESCRIPTION

The Nursing Program prepares individuals to become Registered Nurses. The curriculum provides a strong foundation in natural and social sciences and an understanding of patient care in a variety of settings. Throughout the program, students integrate experience caring for patients in acute care hospitals, long-term care facilities and community agencies. Graduates receive an Associate Degree in Applied Arts and Sciences in Nursing. After graduation, individuals must take and pass the N-CLEX RN examination to be licensed by the state as a Registered Nurse. Licensed graduates are qualified for employment as entry-level staff nurses in hospitals, long-term care facilities, clinics, doctors’ offices and home care agencies and to coordinate patient care provided by a nursing team.

This program is approved by the Washington State Nursing Commission and is nationally accredited by the National League for Nursing Accrediting Commission at 61 Broadway, New York, NY 10006 (212-363-5555).

OUTCOMES

Students who complete this program will:

1. Value nursing as a profession and support the health and well-being of individuals and society.
2. Value and maintain ethical, legal and professional standards of nursing practice.
3. Value caring as an approach to the nursing profession and serve as a role model of caring for others.
4. Value self awareness that leads to continued learning, self development in nursing and development of the nursing profession.
5. Value critical thinking and judgment as fundamental attributes for the registered nurse.
6. Assess the client as a total person.
7. Analyze data in order to accurately identify nursing diagnoses requiring independent action, medical problems needing referral and potential problems requiring nursing preventive action.
8. Plan appropriate and culturally sensitive nursing care.
9. Provide safe, effective nursing care through technical skills, communication and health teaching.
10. Evaluate nursing care, re-analyze and re-plan based on this evaluation.
11. Lead a group of nursing personnel in the care of a group of clients.
12. Communicate and collaborate effectively with other members of the health care team.
13. Use technology and both human and material resources in a cost-effective and appropriate manner.
PREREQUISITES FOR ADMISSION

To apply, every applicant (basic, LPN, and transfer) MUST meet the following minimum prerequisites.

1. Grade point average: 3.0 on high school work or 2.0 on college level work;
2. English 101 (meets Gen. ed. requirement);
3. Mathematics Competence: Must place above the level of Intermediate Algebra on COMPASS test taken within one year of the application.
4. English Competence: Must place into ENGL& 101 on COMPASS test in both reading and writing;
5. Chemistry: Must have completed (2.0 or higher) a five-credit college level inorganic chemistry course (Chem& 121) within the past 10 years for basic applicants and 15 years for LPN advanced placement applicants. Chem& 121 may be counted toward the Quantitative Reasoning requirement for the degree;
6. Anatomy (BIOL& 231) and Physiology (BIOL& 232) or an equivalent 10 credits of Anatomy and Physiology I and II within the past 5 years for basic applicants and 10 years for LPN advanced placement applicants.

ADMISSION PROCEDURES

Students are expected to comply with all procedures for admission to Shoreline Community College.

Admission to the College and initiation of course work to meet prerequisites or to complete some of the non-nursing courses that are part of the nursing program can occur any quarter. Students must request admission to the College no later than the quarter before they apply to the Nursing Program for admission.

The Nursing Program has selective admission; therefore, a separate admission process for the Nursing Program is in place. No required nursing courses may be taken unless the individual has been admitted to the Nursing Program. Detailed information can be found at www.shoreline.edu/shoreline/nurse.html.

Students are admitted to the Nursing Program each fall, winter and spring quarter. No nursing courses are taught during the summer quarter. Nursing Program application dates are: Fall class — January 15-April 3; Winter class — August 15-October 3; Spring class — November 15-January 3.

All application materials are found online at https://www.shoreline.edu/hots. The forms are completed online, printed and signed. The forms along with official transcripts, employment documentation, other supporting documents and the application fee are submitted to the Health Occupations Office. Failure to submit required materials by the ending date of the application period will result in the applicant being disqualified.

Regular information sessions regarding the Nursing Program and the admission process are held. Contact the Health Occupations Division office at (206) 546-4743 to obtain a schedule for information sessions.

TRANSFER

Non-nursing course work may be transferred from any other accredited college. If the courses were taken outside of the State of Washington, it will be necessary to submit course descriptions from a college catalog to assist in evaluation of that course.

Nursing course transfer from another program is evaluated on an individual basis. For information and an application for Nursing transfer, contact the Health Occupations office.

This program is Associate of Applied Science-Technology (AAS-T) degree eligible. The AAS-T degree indicator, which will appear on your transcript, will enable students to transfer this degree directly to some four-year institutions. Please check with your program advisor for more specific information.

ADVANCED PLACEMENT FOR LICENSED PRACTICAL NURSES

Licensed Practical Nurses may receive advanced placement in the Nursing Program. All non-nursing course requirements must also be met. For information on advanced placement, visit the website: www.shoreline.edu/nurse.html.

ADDITIONAL INFORMATION

Following acceptance into the program, each individual will be required to submit a health assessment and immunization report completed at the student’s expense. Should this report reveal health problems which would interfere with successful completion of the program, the student will be counseled. Situations that might interfere with successful completion could include such things as history of serious emotional problems, and/or incapacitating disease or significant physical limitations. All students accepted into the nursing program will be required to purchase malprac-
practice insurance from the college each quarter at the time of registration. A Washington State Patrol background check is required by clinical agencies*. A student who cannot participate in patient care in clinical settings based on the background check will not be able to continue in the program. The application for licensure asks specific questions regarding previous licensure and felony and drug convictions. Further information may be obtained from the Washington State Nursing Care Quality Assurance Commission, P.O. Box 1099, Olympia, Washington.

Proof of personal health insurance carried by the individual or individual’s family is also required before going to a clinical facility. Shoreline uniforms are required for wear in the clinical area.

A grade of C (2.0) or better is required in all nursing theory and required non-nursing general education courses. Practicum grades must be satisfactory. Failure to satisfactorily complete either theory or practicum necessitates retaking both.

Cost of the program reflects current community college tuition rates. Information on financial aid may be obtained by calling the Financial Aid Office. The college provides no living accommodations.

* A background check is required prior to entering the Nursing Program and additional checks may be required during the program.

AAAS DEGREE

PROGRAM REQUIREMENTS

Prerequisites Taken Prior to Admission

ENGL& 101, CHEM& 121, BIOL& 211*, BIOL& 231, BIOL& 232
*Required if BIOL& 231, 232 taken at Shoreline

Shoreline General Education Requirements

Quantitative Reasoning: See Gen Ed Approved List ........... 5
Multicultural Issues: See Gen Ed Approved List ............. 5
ENGL& 101, BIOL& 231, 232 taken prior to admission

Other Non-Nursing Requirements

BIOL& 260 Microbiology ........................... 5
NUTR& 101 Nutrition .............................. 5
(A 3-credit Nutrition transfer course may be substituted)

Total Credits Required ...................... 107-114

See www.shoreline.edu/planning for a complete planning guide for this option.

**Performance Arts/Digital Filmmaking**

(206) 546-4640

**Acting For Stage and Camera**

This is a professional training program in the basic skills of auditioning and acting in theater, films, TV and other media. Various acting techniques and philosophies are emphasized to provide the student with the skills, passion and discipline to compete in this craft. Students receive a foundation in the literature, theories and history of theater and film. This knowledge is then applied in analyzing scripts and creating characters as students audition for and perform in theatrical productions and digital films. Collaboration with technical crews, directors, writers and fellow actors is also stressed through classes, auditions and productions. Stage and film set protocols are studied and practiced. A central focus of this program is rehearsing and performing in professionally directed stage and film productions. Additionally, there is outreach to the community for projects and internships.

**Outcomes**

Students who successfully complete this program should be able to:
1. Perform four monologues for stage and camera auditions.
2. Work with actors, writers and directors of varying skill levels and working styles.
3. Analyze a script stating character objectives, subtext, biography, and intentions appropriate to various genres and formats.
4. Memorize on deadlines a full-length stage performance and two short digital film performances.
5. Demonstrate knowledge of professional theater and film set behavior and ethics.
6. Demonstrate a familiarity with Western dramatic literature from the Greeks to contemporary American theater.
7. Demonstrate knowledge of the major acting theories used in contemporary theater and film.

**Certificate of Proficiency**

Total Credits Required . . . . . . . . . . . 68 -74

See www.shoreline.edu/planning for a complete planning guide for this option.

---

**Digital Filmmaking Technology**

This is a professional training program in the basic skills of shooting, lighting, and editing digital films. Courses provide basic theory and hands-on experience in all phases of using digital production and post-production equipment. This training includes the use of digital video cameras and lighting equipment, as well as field audio and digital editing equipment. Students learn how the equipment functions and how to operate it effectively through performing tasks such as camera operator, field audio technician and lighting grip in the studio and on film sets. Skill with video editing and post-production hardware and software applications (AVID and Final Cut Pro) is also emphasized. The program includes the production of video and digital film products under the supervision of professional producers, directors of photography, directors, and editors. Additionally, there is outreach to the community for projects and internships.

**Outcomes**

Students who successfully complete this program should be able to:
1. Produce effective digital video programs in a variety of styles.
2. Use digital video cameras, lighting, audio equipment in studio and field production settings.
3. Plan, script and direct a program through post-production.
4. Work in a professional crew in multiple positions.
5. Use non-linear edit system and other post-production software to create digital programs.
6. Demonstrate knowledge of professional set behavior and ethics.

**Certificate of Proficiency**

Total Credits Required . . . . . . . . . . . 62 -71

See www.shoreline.edu/planning for a complete planning guide for this option.
Writing and Directing For the Camera
This program prepares individuals to direct and write for films, TV and other digital video programs. Courses provide basic theory and hands-on experience in all phases of using digital production and post-production equipment. This training includes the use of digital video cameras, lighting equipment, as well as field audio and digital editing equipment. Additionally, there is a special focus on scriptwriting, pre-production planning, working with actors, managing a set and production, professional studio and film set protocol. Skill with video editing and post-production hardware and software applications (AVID and Final Cut Pro) will be emphasized. The program includes the production of video and digital film products under the supervision of professional producers, directors of photography, directors, and editors. Additionally, there is outreach to the community for projects and internships.

OUTCOMES
Students who successfully complete this program should be able to:
1. Write a successful short script.
2. Direct and work with actors from varying skill levels and working styles.
3. Script, plan and direct a cast and crew in a project for preproduction through post-production.
4. Manage the use of digital video cameras, lighting, audio equipment in studio and field production settings.
5. Demonstrate knowledge of professional set behavior and ethics.

CERTIFICATE OF PROFICIENCY

DEGREE PROGRAMS: PROFESSIONAL/TECHNICAL

PURCHASING AND SUPPLY CHAIN MANAGEMENT
(206) 546-4620

DESCRIPTION
The Purchasing and Supply Chain Management program is a unique and highly regarded program designed both for those entering the field and professionals seeking to upgrade their skills. The curriculum focuses on many aspects of purchasing including source selection, pricing theory, quality and quality assurance, logistics, supply chain management, specifications and standardization, purchase timing, value engineering, make-or-buy concepts and capital purchasing.

Students learn related business and accounting practices such as standard policies and operating procedures, negotiation techniques, planning, organizing, traffic concepts and inventory control theory. In addition, students gain an understanding of the legal aspects of purchasing and the Uniform Commercial Code. Graduates will be qualified for employment in purchasing positions in a variety of business settings including manufacturing and construction companies, retail operations, educational institutions and government offices.

OUTCOMES
Students who successfully complete this program should be able to:
1. Utilize purchasing vocabulary and concepts related to source selection, pricing, quality, negotiating strategies to effectively procure goods and services.
2. Apply mathematical concepts in order to conduct price-cost analyses and make appropriate purchasing decisions.
3. Apply principles of materials and contract management.
4. Establish and maintain systems to track and control inventory.
5. Apply principles of finance, accounting, international business, logistics, business law, and economics to the field of purchasing and supply chain management.
6. Effectively communicate verbally and in writing within a variety of business environments.

CERTIFICATE OF PROFICIENCY

Total Credits Required . . . . . . . . . . . . . . 51

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Proficiency
Purchasing and Supply Chain Management

OUTCOMES
Students who successfully complete this program should be able to:
1. Utilize purchasing vocabulary and concepts related to source selection, pricing, quality, negotiating strategies to effectively procure goods and services.
2. Apply mathematical concepts in order to conduct price-cost analyses and make appropriate purchasing decisions.
3. Apply principles of materials and contract management.
4. Establish and maintain systems to track and control inventory.
5. Apply principles of finance, accounting, international business, logistics, business law, and economics to the field of purchasing and supply chain management.
6. Effectively communicate verbally and in writing within a variety of business environments.

CERTIFICATE OF COMPLETION

See www.shoreline.edu/planning for a complete planning guide for this option.

AAAS DEGREE

Total credits required . . . . . . . . . . . . . . 94

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificate of Completion
Purchasing and Supply Chain Management

OUTCOMES
Students acquire an overview of purchasing and supply chain concepts, interrelationships among business functions, legal systems, and supplier relationships. Students learn basic principles of purchasing, contracting, and logistics. The program prepares graduates for a variety of careers in supply chain operations.

AAAS DEGREE

Total credits required . . . . . . . . . . . . . . 94

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The Speech-Language Pathology Assistant (SLPA) Program provides students with knowledge, skills, and abilities for successful employment in either agencies that provide speech-language pathology services. A large majority of SLPA's work in public schools. The SLPA works under the supervision of a Speech-Language Pathologist to conduct screenings and follow documented treatment plans or protocols to address for language, voice, fluency, articulation, and hearing impairment disorders. They follow documented treatment plans or protocols under the supervision of the SLP, perform checks and maintenance of equipment, and participate in research projects.

OUTCOMES
Students who successfully complete this program will be able to:
1. Distinguish between normal and delayed communication development.
2. Distinguish between correct and incorrect responses during communication activities.
3. Work cooperatively with other professionals and paraprofessionals to implement and support communication activities across different settings.
4. Implement specific activities to remediate or develop speech and language skills under supervision of an SLP.
5. Facilitate behavior management in children and adults to keep them on task.
6. Maximize and enhance opportunities for clients to practice new communication skills.
7. Record and manage required documentation to show progress toward communication goals.

AAAS DEGREE
Total Credits Required . . . . . . . . . . . . . . 102

Certificate of Proficiency
Speech-Language Pathology Assistant
NOTE: The certificate option is appropriate for those who have completed an associates or bachelors degree (in any field). If you do not have an associates or bachelors degree, you should consider the SLPA A.A.A.S. degree option instead.

OUTCOMES
Students who successfully complete this program will be able to:
1. Distinguish between normal and delayed communication development.
2. Distinguish between correct and incorrect responses during communication activities.
3. Work cooperatively with other professionals and paraprofessionals to implement and support communication activities across different settings.
4. Implement specific activities to remediate or develop speech and language skills under supervision of an SLP.
5. Facilitate behavior management in children and adults to keep them on task.
6. Maximize and enhance opportunities for clients to practice new communication skills.
7. Record and manage required documentation to show progress toward communication goals.

CERTIFICATE OF PROFICIENCY
Total Credits Required . . . . . . . . . . . . . . 74

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The two-year Associate of Applied Arts and Sciences Degree in Visual Communication Technology prepares its graduates for first-time employment in the varied and rapidly changing field of visual communications. The program seeks to provide a comprehensive background for its students as well as opportunities for specialized study within the diverse areas of the industry. Entering students — who may begin any quarter — pursue an integrated program of foundation courses in art and design, computer graphics, visual communication media, business and communications. Students in their second year select a specialization within the following options:

- Graphic Design
- Digital Image Production
- Digital Arts and Imagery
- Digital Interactive Media
- Marketing

Some of the specializations within these options include:

- Web Design
- Computer Animation and Illustration
- Multidimensional Media Design and Authoring
- Digital Audio
- Electronic Prepress

Students may add additional specializations to their two-year degree by taking extra courses. All programs of study emphasize portfolio development. Students are encouraged to seek industry experience through internships during their second year of study.

Graduates may find employment in a variety of settings including advertising agencies, publication houses, public relation firms, commercial graphics companies, visual support departments, printing departments, news agencies, print shops, digital service bureaus, software development companies, digital media companies, photo-processing companies, and the Internet. Some companies have in-house production departments while others subcontract with advertising agencies and independent designers.

Innovations in computer technology continue to rapidly change and expand the field of visual communication, in general, and the Visual Communication Technology Program at Shoreline Community College in particular. The following courses of study are subject to change. The student entering the program should expect these changes and stay in contact with vocational advisors in their area of study. Please note that courses indicated as Art XXX or VCT XXX are currently being developed, and that some changes to course titles and descriptions are pending. Programs of study may be changed by students with the consent of the Visual Communications Technology faculty and the Humanities Division Dean. Students who do not start Fall Quarter may find that conflicts in course scheduling may require a longer time to graduate.

Certificates of Completion for focused programs of study and one-year Certificates of Proficiency are available as alternatives to the two-year degree.

Students complete General Education requirements, VCT Foundation requirements and VCT Degree Option requirements as described below.

AAAS Degrees

Option A: Graphic Design
The Graphic Design option is structured for students with a primary interest in understanding the fundamentals of design in the graphic arts industries. Graphic designers are expected to use creativity, artistic ability and knowledge of design theory to serve the communication and design needs of business, industry and government. Graphic designers develop marketing, advertising, merchandising and communication graphics which support and promote the activities of a wide variety of employers.

OUTCOMES
Students who successfully complete this program will be able to:
1. Effectively use concept development procedures in visual communication problem solving.
2. Select and organize design elements including letter forms, illustrations, typography and other graphic images.
3. Effectively use art elements such as line, shape, color, value, texture and form in the development of visual images.
4. Demonstrate knowledge of offset printing and print production including negative assembly, small press and bindery operations, automated systems, lithographic cameras, multicolor and special effects.
5. Use Macintosh computer software applications for desktop publishing, graphic design, illustration, electronic paste-up, scanning and manipulation of images, multimedia and prepress operations.
6. Apply knowledge of photography fundamentals including camera operations, image composition, lab procedures, film development, electronic image capture and manipulation.
7. Apply principles of audience and market analysis, and conduct research and develop resources in the production of visuals.

AAAS DEGREE

Total Credits Required . . . . . . . . . .112-115

See www.shoreline.edu/planning for a complete planning guide for this option.
Option B: Digital Image Production

The Digital Image Production option is designed for students with a primary interest in understanding current image production technologies. Production of digital images requires a thorough understanding of digital image construction, document pre-flighting and color management as well as print production skills in offset, toner-based and inkjet printing systems. Students use problem-solving skills to assess and correct electronic documents and produce printed materials in each of these printing technologies. They also gain customer service and management skills such as cost estimating, job planning and inventory control.

OUTCOMES

Students who successfully complete this program will be able to:
1. Apply concepts of page layout (application and manipulation of content) for electronic output.
2. Use the concepts of production flow in implementing production art for publishing.
3. Use the file management system of the Macintosh electronic environment to organize, store and locate documents for use in publication construction and output.
4. Recognize, differentiate and use appropriately graphic file formats for the Macintosh electronic environment.
5. Demonstrate an understanding of typography and font use in a production environment.
6. Demonstrate an understanding of vector and graphic image management in a production environment.
7. Demonstrate understanding of color management in digital printing systems.
8. Demonstrate an understanding of current trends in printing and visual image production.
9. Identify and explore troubleshooting methods for production processes.
10. Demonstrate an understanding of, and produce, various forms of printing including on-demand toner-based inkjet, large format inkjet and sheet and web format offset systems.
11. Perform basic bindery and finishing operations.
12. Identify and practice appropriate standards of performance and safety in each work area.

AAAS DEGREE

Total Credits Required . . . . . . . . . . . . . . . . 100-110

See www.shoreline.edu/planning for a complete planning guide for this option.

Option C: Digital Arts and Imagery

The Digital Arts and Imagery option is designed for students with an interest in creating visual images for use in illustration, animation or collecting and manipulating still or moving images. Students complete all courses in one or more selected specializations (Digital Illustration/Animation, Digital Photography, Digital Video) in the option of their choice. Students study elements of design and composition as well as developing hands-on skill in camera operation, television studio and field production, and electronic image manipulation. Students work graphically with vector and raster software and create visual images to communicate and interpret information. In addition, students learn new technologies in image production, desktop publishing, computer graphics and multimedia communication techniques.

OUTCOMES

Students who successfully complete this program will be able to:
1. Effectively use design elements and technical skill to create effective visual images.
2. Use a variety of still, video, television and digital camera equipment including small, medium and large format cameras.
3. Create, select and organize design elements including letter forms, illustrations, typography and other graphic images in a structured environment.
4. Use vector and raster software to create, use, scan and manipulate photographic images for use in printed materials as well as in video and multimedia productions.
5. Demonstrate knowledge of values associated with commercial, documentary and artistic photography.
6. Demonstrate knowledge of offset printing and print production including negative assembly, small press and bindery operations, and newer printing technologies such as giclée/inkjet and large format printing.

AAAS DEGREE

Digital Illustration/Animation Specialization
Total Credits Required . . . . . . . . . . . . . . . . 112-118

Digital Photography Specialization
Total Credits Required . . . . . . . . . . . . . . . . 102-109

Digital Video Specialization
Total Credits Required . . . . . . . . . . . . . . . . 106-113

See www.shoreline.edu/planning for a complete planning guide for this option.
Option D: Digital Interactive Media
The Digital Interactive Media Option is designed for students with a primary interest in creating, organizing and developing material for use in multimedia productions. Through this program students develop skills in photography, basic audio and television production, graphic and typographic design, computer technology, marketing theory and salesmanship. Students learn fundamental theory and current production values and develop their skills through hands-on experience.

OUTCOMES
Students who successfully complete this program will be able to:
1. Identify and use concept development procedures in visual communication problem solving.
2. Apply sound principles of esthetic and communication design to the selection and organization of the elements of multimedia presentation.
3. Use computer applications for the creation, acquisition, manipulation and presentation of the elements of multimedia production.
4. Identify and apply principles of audience analysis and marketing in the design and preparation of multimedia communication.
5. Explain and apply principles of hypermedia communication and scripting as well as the character of the electronic organization of information as it impacts multimedia design and production.

AAAS DEGREE
Multidimensional Media Design and Authoring
Total Credits Required .......... 99-109

Web Design Specialization
Total Credits Required .......... 106-111

See www.shoreline.edu/planning for a complete planning guide for this option.

Option E: Marketing
The Marketing option is designed for students who want to pursue sales and marketing in the field of Visual Communication Technology. Students learn the basics of visual communication technology including design elements, photography, drawing, offset printing, graphic design and computer graphics. The program also covers fundamentals of business and marketing. The curriculum includes courses in business math, human relations, economics, salesmanship, advertising, public speaking and computer applications.

OUTCOMES
Students who successfully complete this program will be able to:
1. Identify the basic components of marketing strategies such as identification of market segments, consumer buying behavior, product planning, and promotion of goods and services.
2. Explain and apply advertising strategies for planning, producing and selecting the appropriate media.
3. Demonstrate good salesmanship: effectively interview clients, accurately gauge consumer needs, plan and deliver effective sales presentations, and build customer goodwill.
4. Apply basic art elements in the development of visual communication concepts.
5. Apply basic principles of graphic design in the selection and organization of images and text.
6. Understand mechanical aspects related to development of production-ready art, printing and multimedia.
7. Appropriately select production techniques for specific design projects.

AAAS DEGREE
Total Credits Required .......... 106-109

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificate of Proficiency

Graphic/Print Production

In the Graphic Print Production Certificate Program, students study the fundamentals of graphic design and offset printing including line photography, negative assembly, multi-color, small and large press, and bindery operations. Students gain hands-on experience in computer basics and software for desktop publishing, design, illustration and other visual communication technology. Students develop customer service skills and strengthen production, cost estimating, job planning skills to industry standards.

OUTCOMES

Students who successfully complete this program will be able to:
1. Effectively use concept development procedures in visual communication problem solving.
2. Create, select and organize design elements including letter forms, illustrations, typography and other graphic images.
3. Use computer software applications for desktop publishing, graphic design, illustration, electronic paste-up, and to scan or manipulate visual images.
4. Understand mechanical aspects related to development of camera-ready art, paste-up and printing.
5. Explain knowledge of offset printing and print production including negative assembly, small press and bindery operations, automated systems, lithographic cameras, multicolor and special effects.
6. Effectively communicate with clients to evaluate their printing needs, select appropriate materials and production processes, establish schedules and provide cost estimates.

CERTIFICATE OF PROFICIENCY

Total Credits Required: 61

See www.shoreline.edu/planning for a complete planning guide for this option.

Certificates of Completion

Advanced Digital Illustration/Animation

The certificate is designed for students requiring an accelerated course of study and achievement in graphics production including planning, design and creation of digital 2-D graphics and 3-D animation for press, web, and other end uses. Students become adept in current industry software in both vector-based and pixel-based applications, acquire essential Design and problem-solving skills, and illustration techniques, learn how to manage graphics projects and understand how to print or output graphics correctly.

OUTCOMES

Prepares students for using concept development procedures and visual communication problem solving in image production environments. Use computer software applications for creation of illustrations and other graphic material for a variety of production outcomes. Demonstrate a knowledge of color, perspective, line quality, and other illustrative factors. Explain 3-D concept development, construction, modeling, texturizing, movement and animation.

CERTIFICATE OF COMPLETION

Total credits required: 18

See www.shoreline.edu/planning for a complete planning guide for this option.

Advanced Digital Photo

This program is designed for students seeking an expanding application of photography in digital form. It is assumed that students already have fine artist experience/education in photography and wish to expand skills for digital application.

OUTCOMES

Prepares students for positions and course studies in photographic image production, image manipulation and management.

CERTIFICATE OF COMPLETION

Total credits required: 15

See www.shoreline.edu/planning for a complete planning guide for this option.
Advanced Multimedia
This certificate is designed to provide students with an accelerated course of study and achievement in graphics authoring including planning, design and creation of digital 2-D graphics and animation for web, press, and other end uses.

OUTCOMES
Prepares students for positions in industry for pre/post production assistants, multimedia artists and interactive media development.

CERTIFICATE OF COMPLETION

Total credits required . . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.

Advanced Prepress and Print Production
This certificate provides students with an accelerated course of study in the fundamentals of printing technologies such as on-demand (copy center), offset and large format (ink-jet) print technologies. The program also covers electronic prepress, color management and pdf workflow. Students gain hands-on experience in computer basics and software applications for desktop publishing, digital photography and customer service and workflow skills.

OUTCOMES
Effectively use concept development procedures and problem-solving skills innovation in visual communication environments. Process digital documents for use in a variety of production outcomes. Utilize digital image proofing systems and color managed workflow.

CERTIFICATE OF COMPLETION

Total credits required . . . . . . . . . . . . . . . 15

See www.shoreline.edu/planning for a complete planning guide for this option.

Advanced Web Design
This program is designed for students requiring an integrated foundation of knowledge and practice in visual design principles, graphic and typographic design, computer graphic technologies and new imaging and display techniques for the Internet.

OUTCOMES
Prepares students for positions and course studies in web/media design, illustration, electronic presentation and in manipulating visual images for traditional and new media.

CERTIFICATE OF COMPLETION

Total credits required . . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.

Art and Design Foundations
This program is identified for students needing an introduction to art and design as a complement to technical production. It is also one certificate in a series of short-term certificates, which contribute towards a one-year certificate of proficiency in Web Development.

OUTCOMES
This program prepares students for entry-level positions and course studies in information technology for visual design principles.

CERTIFICATE OF COMPLETION

Total credits required . . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.
Business Foundation
VCT students learn about basic business communications and skills for the workplace in relation to graphics and multimedia. Business communications, both written and verbal, are stressed in relation to interpersonal and human relations and common business/industry practices. Practical skills in marketing and copyright are also introduced. This certificate is a complement to VCT Foundation Certificates in Art & Design, Computer and Computer Graphics.

OUTCOMES
Prepares to work in entry-level office settings as well as prepare for success in self-employment/freelance opportunities in fine, performing or technical arts.

CERTIFICATE OF COMPLETION
Total credits required . . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.

Computer Graphics Foundations
This program is identified for students requiring an integrated foundation of knowledge and practice in visual design principles, graphic and typographic design, computer graphic technologies and new imaging techniques. It is also one certificate in a series of short-term certificates which contribute towards a one-year certificate of proficiency in Web Development.

OUTCOMES
The program prepares students for entry-level positions and course studies for desktop publishing, graphic design, illustration, electronic paste-up and to scan or manipulate visual images.

CERTIFICATE OF COMPLETION
Total credits required . . . . . . . . . . . . . . . 13

See www.shoreline.edu/planning for a complete planning guide for this option.

Computer Foundations
This program is identified for students needing an introduction to computers in the workplace. It is also the first certificate in a series of short-term certificates, which contribute towards a one-year certificate of proficiency in Web Development.

OUTCOMES
The program prepares students for entry-level positions and course studies in information technology.

CERTIFICATE OF COMPLETION
Total credits required . . . . . . . . . . . . . . . 14

See www.shoreline.edu/planning for a complete planning guide for this option.

Digital Video for New Media
This program is designed for students requiring an integrated foundation of knowledge and practice in visual design principles in pre and post production of video, graphic and typographic design and new imaging techniques.

OUTCOMES
Prepares students for positions and course studies for multimedia and web video applications, graphic design, illustration, and interactive design.

CERTIFICATE OF COMPLETION
Total credits required . . . . . . . . . . . . . . . 19

See www.shoreline.edu/planning for a complete planning guide for this option.
Web Design Introduction
This program is identified for students requiring an integrated foundation of knowledge and practice in visual design principles, graphic and typographic design, computer graphic technologies and new imaging techniques for the Internet. It is also one certificate in a series of short-term certificates which contribute towards a one-year certificate of proficiency in Web Development.

OUTCOMES
The program prepares students for entry-level positions and course studies for graphic design, illustration, electronic presentation and to scan or manipulate visual images for traditional and new media.

CERTIFICATE OF COMPLETION

Total credits required . . . . . . . . . . . . . . . 22

See www.shoreline.edu/planning for a complete planning guide for this option.

Web Development with Emphasis in Web Design
This program is identified for students requiring an integrated foundation of knowledge and practice in visual design principles, graphic and typographic design, computer graphic technologies and new imaging techniques for the Internet.

OUTCOMES
This is the fourth level of certificates in a series and prepares students for entry-level positions and course studies for graphic design, illustration, electronic presentation and to scan or manipulate visual images for traditional and new media.

CERTIFICATE OF COMPLETION

PROGRAM PREREQUISITES

Total credits required . . . . . . . . . . . . . . . . 20-23

See www.shoreline.edu/planning for a complete planning guide for this option.
DESCRIPTION
The goal of the Zero Energy Building Practices Program is to provide students with the theoretical and practical knowledge and skills necessary for a career in sustainable building design, construction, maintenance and management. Emphasis is on residential and commercial building design with specialties in passive solar and sustainable (green) building design and photovoltaic (solar electric) system design.

Certificate of Proficiency
Zero Energy Building Practices
In this program, students obtain a background in alternative energy and an understanding of practices in high performance and zero energy building practices including alternative energy systems, green building techniques, and designing and installing residential and commercial electric, metering and control systems. The program will have a strong hands-on component through the advantageous location of the Washington State University Zero Energy House which is permanently located on the main campus of Shoreline Community College. This training will enable students to prepare for the Silicon Energy Manufacturing Solar Installation Certification and the National PV Installer Certification through the North American Board of Certified Energy Practitioners NAB-CEP.

OUTCOMES
Students who successfully complete this program will be able to:
1. Understand the basics of design for residential and commercial photovoltaic systems, thermal systems, hydro systems, wind systems, and solar domestic water systems.
2. Understand the applied code, associated electrical equipment and performance parameters and attributes required for the design and installation of photovoltaic energy systems.
3. Demonstrate understanding of and installation and troubleshooting skills, maintenance issues and design criteria for photovoltaic energy systems.
4. Understand plumbing code as it applies to solar thermal systems how to build, operate and install solar domestic water systems.
5. Design photovoltaic systems which produce electricity to tie into the utility’s grid in compliance with codes and safety requirements.
6. Understand building materials, techniques and design considerations, structural insulated panels, advanced training techniques (including straw bale, adobe, pressed block, cob, natural plasters, etc).
7. Understand the theory, design considerations and installation techniques for solar and radiant heating systems.
8. Understand the history of electricity, energy supply structure, policy issues, global impacts of energy and the production and use of energy sources.
9. Understand types of renewable energy systems and appropriately size and make recommendations for particular situations.
10. Evaluate residential and small commercial building energy use patterns.
11. Perform site audits including energy efficiency, load analysis, definition of the solar window, system siting and sizing.
12. Understand and demonstrate high performance building design.

CERTIFICATE OF PROFICIENCY
Total Credits Required. . . . . . . . . . . . 59-63

See www.shoreline.edu/planning for a complete planning guide for this option.
Certificates of Completion

Solar/Photovoltaic (PV) Designer

The Solar PV Designer Certificate will train people to specify and/or certify solar panel systems for residences and buildings. Certificate completers will be able to guide and inform the electricians who install solar panels. This training will enable students to prepare for the Silicon Energy Manufacturing Solar Installation Certification and the national PV Installer Certification through the North American Board of Certified Energy Practitioners NABCEP. The program will have a strong hands-on component.

OUTCOMES

Students who successfully complete this program will be able to:
1. Understand the basics of design for residential and commercial photovoltaic systems.
2. Perform site analysis, including sun path assessment, roofing assessment, and alternative mounting options, including building integrated technologies.
3. Demonstrate understanding of installation and troubleshooting skills, maintenance issues and design criteria for photovoltaic energy systems.
4. Understand types of renewable energy systems and appropriately size and make recommendations for particular situations.
5. Evaluate residential and commercial building energy use patterns.
6. Obtain preparation for manufacturer and national PV certification.

Zero Energy Building Practices

The Zero Energy Building Practices Certificate will provide students with the beginning steps in theoretical and practical knowledge and skills necessary for a career in sustainable building design, constructions, maintenance and management. Emphasis in on residential and commercial building design with specialties in passive solar and sustainable (green) building design and photovoltaic (solar electric) system design. In this program, students will obtain an introductory background in alternative energy and an understanding of practices in high performance and zero energy building practices.

OUTCOMES

Students who successfully complete this program will be able to:
1. Understand the basics of design for residential and commercial renewable energy systems- solar, thermal, wind.
2. Demonstrate understanding of installation and troubleshooting skills, maintenance issues and design criteria for photovoltaic and other renewable energy systems.
3. Understand types of renewable energy systems and appropriately size and make recommendations for particular situations.
4. Understand natural building materials, techniques and design considerations (including straw bale, adobe, pressed block, cob, natural plasters, etc).
5. Evaluate residential and commercial building energy use patterns.

See www.shoreline.edu/planning for a complete planning guide for this option.
Shoreline Community College offers a full range of courses to meet students’ needs, including developmental studies, professional-technical preparation, lower-division transfer, and enrichment. These courses are described in the following section, listed in order by course number. The total credit hours for each course are listed in parentheses after the course title.

Many course descriptions include essential information such as prerequisites, grading options, and entry requirements. When choosing your courses, be sure to consider this information; it is provided to help you succeed.

The college constantly revises and updates its curriculum and may add new courses or make changes in existing course requirements during the span of this catalog. Please refer to the Quarterly Class Schedule, in print or online, for the most up-to-date course information.

**Interdisciplinary Studies Programs**

Connections, discovery, cross-pollination of ideas — that’s what takes place in an Interdisciplinary Studies Program. These programs are simply “packaged” courses that either combine or link together two or more classes around an issue in society or a common theme. By integrating subjects this way, the Interdisciplinary Studies Program can lead students to a deeper understanding of each subject. They can enhance a student’s skills in problem-solving — an essential ability for the 21st-century workforce.

**W (Writing) Courses**

In certain courses, writing in a specific discipline will be emphasized along with the subject matter associated with the title. A “W” after the course number means that writing is an integral part of the course. Writing instruction and feedback are provided. Writing grades enter into the determination of the grade for the course. Placement at the English& 101 level or completion of necessary developmental English or ESL courses in preparation for English& 101 is recommended for registration in a “W” course. The Quarterly Class Schedule identifies the “W” courses offered.
ACCOUNTING 102
Practical Accounting II (5)

ACCOUNTING 103
Practical Accounting - Managerial (5)
In a practical approach for managers, this course covers job order costing, process costing, cost behavior, standard costs, cost-volume-profit analysis, contribution approach to costing, relevant costs for decision making, profit planning, and capital budgeting. Previously ACCTG 103. Prerequisite: ACCT 101. Mandatory decimal grading.

ACCOUNTING 201
Mandatory decimal grading.

ACCOUNTING 202
Principles of Accounting III (5)

ACCOUNTING 208
Not-for-Profit and Governmental Accounting (5)
An introduction to accounting for not-for-profit organizations and state and local governments. Topics include general and special fund accounting for state and local governments, hospitals, charities, foundations, colleges and universities. Previously ACCTG 208. Prerequisites: ACCT 101 and 102 or equivalent. Mandatory decimal grading.

ACCOUNTING 271
Intermediate Accounting I (5)
Principles of financial reporting for enterprises. Standard-setting: FASB conceptual framework; presentation of income statement, balance sheet, and statement of cash flows; cash and cash equivalents; receivables; and inventory valuation. Previously ACCTG 271. Prerequisites: ACCT 102 or instructor permission. Mandatory decimal grading.

ACCOUNTING 272
Intermediate Accounting II (5)
Principles of financial reporting for enterprises. Tangible and intangible assets; depreciation, impairments, and disposition; current and long-term liabilities; contingencies; stockholders’ equity; earnings per share. Previously ACCTG 272. Prerequisites: ACCT 271 with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ACCOUNTING 273
Intermediate Accounting III (5)
Principles of financial reporting for enterprises. Investments; revenue recognition; taxes in financial statements; pensions; leases; statement of cash flows; legal and ethical considerations in disclosure. Previously ACCTG 273. Prerequisites: ACCT 271 with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ACCOUNTING 275
Accounting Information Systems (5)
Use of accounting systems to support business processes. Internal control, security, privacy, ethics; revenue and expense cycles; payroll, inventory, and fixed assets; source and output documents; systems planning. Previously ACCTG 275. Prerequisites: ACCT 201 or ACCT 101 and CJS 105, or instructor permission. Mandatory decimal grading.

ACCOUNTING 279
Federal Income Tax: Corporations/Conduits (5)
Theory and practice of federal income taxation as it applies to individuals and entities. Topics include general and special fund accounting for state and local governments, hospitals, charities, foundations, colleges and universities. Previously ACCTG 279. Prerequisites: ACCT 201 or ACCT 102 and ACCT 170, each with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ACCOUNTING 286
Auditing and Assurance (5)
Principles and practice of attest functions in the accounting profession. Generally accepted auditing standards; fraud and internal control; professional ethics and legal liability of auditors. Previously ACCTG 286. Prerequisites: ACCT 271 with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ACCOUNTING 289
Cost Accounting (5)
Use of cost accounting in the controllership function. Cost behavior, cost tracing, and apportionment. Relevant costs, transfer pricing, inventory issues, management control, and information systems. Previously ACCTG 289. Prerequisites: ACCTG 293 or ACCT 103, with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ACCOUNTING 291, 292, 293, 294, 295
Special Topics In Accounting (1, 2, 3, 4, 5)
Classes focusing on specific issues and/or topics of interest in Accounting. Previously ACCTG 291, 292, 293, 294, 295.

ACCOUNTING 297
Individual Project In Accounting (1)
Individual project in a specific area of accounting. By arrangement with instructor. Previously ACCTG 297. Prerequisites: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

ACCOUNTING 298
Individual Project In Accounting (2)
Individual project in a specific area of accounting. By arrangement with instructor. Previously ACCTG 298. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

ACCOUNTING 299
Individual Project In Accounting (3)
Individual project in a specific area of accounting. By arrangement with instructor. Previously ACCTG 299. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

ADULT BASIC EDUCATION 001
Basic Skills Orientation and Assessment (1)
Students will learn about the ESL, ABE and GED programs and understand how to be successful in their classes. Students’ basic skills will be assessed and students will be placed at their appropriate level. Mandatory P/N/C grading.

ADULT BASIC EDUCATION 022
Reading and Writing for Life 2 (5)
Students will read with understanding by determining the reading purpose, selecting appropriate reading strategies, monitoring comprehension, analyzing information, and integrating information with prior knowledge. Students will write about family needs, job situations, or community roles. Mandatory P/N/C grading.
ADULT BASIC EDUCATION 023
Math Skills for Life 2 (5)
Students will learn the four basic math operations using whole numbers and will identify and use all basic math symbols. They will use computational tasks related to life roles i.e. understanding payroll stubs. Mandatory P/NC grading. Credits depend upon student entry into program.

ADULT BASIC EDUCATION 032
Reading and Writing for Life 3 (5)
Students will read with understanding by determining reading purpose, selecting appropriate reading strategies, analyzing information, and integrating information with prior knowledge. Students will write several connected paragraphs with correct mechanics, usage, and varied sentence structure. Student option grading. Credits depend upon student entry into program.

ADULT BASIC EDUCATION 033
Math Skills for Life 3 (5)
Students perform all four basic math operations with whole numbers and fractions, choose correct math operations to solve story problems, and convert fractions to decimals. Students apply these skills to authentic materials, e.g. balancing a budget. Credits depend upon student entry into program.

ADULT BASIC EDUCATION 042
Reading and Writing for Life 4 (5)
Students read for understanding by determining purpose, selecting strategies, monitoring comprehension, analyzing information, and integrating it with previous knowledge in subject specific areas. Students write connected paragraphs in essay format while using academic English conventions. Mandatory P/NC grading. Credits depend upon student entry into program.

ADULT BASIC EDUCATION 043
Math Skills for Life 4 (5)
Students apply, in various situations, mathematical concepts and procedures to estimate, solve problems, and/or carry out tasks involving whole numbers, decimals, fractions, ratio and proportion, percents, measurements, and tables and graphs. Mandatory P/NC grading. Credits depend upon student entry into program.

ADULT BASIC EDUCATION 081, 082, 083, 084
Special Topics in Adult Basic Education (1, 2, 3, 4)
Classes focusing on specific issues and/or topics of interest in ABE.

ADULT BASIC EDUCATION 085
Special Topics in Adult Basic Education I (5)
Classes focusing on specific issues and/or topics of interest in ABE-I.

ADULT BASIC EDUCATION 097
Individual Projects in ABE (1)
Individual project in a specific area of ABE. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

AMERICAN SIGN LANGUAGE& 121
Am Sign Language I (5)
American Sign Language (ASL) is the study of the fundamentals of the language. Students learn visual/gestural communication, basic information related to deaf culture, expressive and receptive skills, and work on comprehension and grammatical structure. Previously ASL 101. Student option grading.

AMERICAN SIGN LANGUAGE& 122
Am Sign Language II (5)
Second in a series of ASL courses, ASL II stresses the continuous development of basic conversational skills with emphasis on expanding vocabulary, grammatical understanding and expressive skills. Functional applications of the language, understanding and appreciation for the Deaf Culture and Community are acquired. Previously ASL 102. Prerequisite: ASL& 121 or permission of the instructor. Student option grading.

AMERICAN SIGN LANGUAGE& 123
Am Sign Language III (5)
To build on ASL& 122 skills, students incorporate proper phrasing & pausing in ASL utterances, use descriptive-locative classifiers, apply numbering systems and use possessive forms correctly. Students improve storytelling skills, use of classifiers and expand linguistic-grammatical features into longer monologues. Previously ASL 103. Prerequisite: ASL& 122. Student option grading.

AMERICAN SIGN LANGUAGE& 221
Am Sign Language IV (5)
Emphasis on expanding receptive and expressive skills; dialogue skills; correct formation of signs, movement, rhythm, phrasing, and clarity. Develop general knowledge of ASL’s grammatical, functional, linguistic, historical and cultural components. Previously ASL 201. Prerequisite: Completion of ASL& 123 with a 2.0 or better, or demonstrated equivalent proficiency, or with permission of the instructor. Placement into ENGL& 101. Mandatory decimal grading.

AMERICAN SIGN LANGUAGE& 222
Am Sign Language V (5)
Emphasis is placed on continued receptive, expressive skills development & dialogue skills. Attention is given to the correct application of ASL discourse styles within casual conversations. The course will encourage vocabulary building, acquiring ASL expressions, and proficiency in ASL grammar. Previously ASL 202. Prerequisite: Completion of ASL& 221 with a 2.0 or better, or demonstrated equivalent proficiency, or with permission of the instructor. Placement into ENGL& 101.

AMERICAN SIGN LANGUAGE& 223
American Sign Language VI (5)
This course continues to build upon the knowledge and skills achieved in the ASL& 121 through 222 courses. Emphasis is on increasing vocabulary, classifier, phrases and grammatical usage. In class experiences are given to decrease dependency on English syntax structure. Previously ASL 203. Prerequisite: Completion of ASL& 222 with 2.0 or better, or demonstration of equivalent skill with permission of instructor. Mandatory decimal grading.

ANTHROPOLOGY& 100/100W
Survey of Anthropology (5)
Survey of the subfields of archaeology, linguistics, physical anthropology and sociocultural anthropology through the examination of selected problems in human adaptation. Previously ANTHR 100/ANTHR 100W. Prerequisite: ENGL& 101 or equivalent ASSET test score recommended. Math at or above MATH 080 is recommended. Student option grading.

ANTHROPOLOGY& 204/204W
Archaeology (5)
The principles and methods of archaeology are presented during the examination of the archaeological record from the earliest human groups to civilization. The techniques of field excavation, dating of archaeological remains and the reconstruction of past societies are also discussed. Previously ANTHR 205/ANTHR 205W. Prerequisite: ENGL& 101 or equivalent ASSET test score recommended. Student option grading.

ANTHROPOLOGY& 205
Biological Anthropology (5)
An introduction to the evolutionary biology of human beings. Evolutionary theory, genetics, primate anatomy and behavior and the fossil record will be examined to gain a better understanding of human origins and contemporary biological diversity. Previously ANTHR 201. Prerequisite: ENGL& 101 or equivalent ASSET test score recommended. Student option grading.

ANTHROPOLOGY& 206
Cultural Anthropology (5)
Examination of various cultures throughout the world. The cross-cultural perspective of anthropology is employed to gain a better understanding of the human family; economic, religious, and political systems; and human adaptation to various environments. Previously ANTHR 202. Prerequisite: ENGL& 101 or equivalent ASSET test score recommended. Student option grading.

ANTHROPOLOGY& 207
Linguistic Anthropology (5)
The study of language in its sociocultural setting, relating language structure and language evolution to human cognition and social behavior. The linguistic database will be both historical and cross-cultural. Previously ANTHR 203. Prerequisite: ENGL& 101 or equivalent ASSET test score recommended. Student option grading.
ANTHROPOLOGY 297
Individual Project In Anthropology (1)
Individual project in a specific area of Anthropology. By arrangement with instructor. Previously ANTHR 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

ANTHROPOLOGY 298
Individual Project In Anthropology (2)
Individual project in a specific area of Anthropology. By arrangement with instructor. Previously ANTHR 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

ANTHROPOLOGY 299
Individual Project In Anthropology (3)
Individual project in a specific area of Anthropology. By arrangement with instructor. Previously ANTHR 299. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

ART & 100
Art Appreciation: the World of Art (5)
Students learn to analyze diverse forms of art from world cultures. Students explore the creative process, visual elements of art, and cultural/political contexts in which art is made. Course may include themes such as birth/death, public vs. private art, the human form, etc. This course is for non-majors. Previously ART 125. Prerequisite: ENGL 100. Mandatory decimal grading.

ART 105
Appreciation of Design (2)
Illustrated lecture/discussions on design fundamentals. Topics include design in paintings, pottery, textiles, architecture, consumer goods. Choice of written or studio project. For non-majors as well as majors, and all first-year students in Art. Previously ART 129. Student option grading.

ART 109
Design (5)
Beginning studio work in 2-dimensional art structure. Introduction to concepts of line, shape, color, value, texture, form and space. Student option grading.

ART 110
Three-Dimensional Design: a Foundation Course (5)
Design fundamentals for 3-dimensional space are the focus of ART 110. Lecture, demonstration, research, readings and studio work are integrated to develop problem-solving skills. Projects are both functional and non-functional in nature. Prerequisites: ART 109 or instructor permission. Student option grading.

ART 121
Ceramic Art 1 (5)
Beginning course in the creation and appreciation of the ceramic vessel. Focus is on hand building and wheel throwing processes as well as glazes and glazing. Previously ART 201. Student option grading.

ART 122
Ceramic Art 2 (5)
Second quarter in Ceramic art. Building on processes, skills and understandings acquired in ART 121. A greater emphasis on individual development, creativity and problem solving is fostered. Previously ART 202. Prerequisite: ART 121 or equivalent with instructor permission. Student option grading.

ART 123
Ceramic Art 3 (5)
Third quarter of study in Ceramic Art. Building on processes, skills and understandings acquired in previous two quarters. Emphasis is on individual development, creativity and problem solving in the design and creation of ceramic forms. Previously ART 203. Prerequisite: ART 122 or equivalent with instructor permission. Student option grading.

ART 130
Intro to Multimedia Design/Authoring (4)
This course includes both theory and practice in multimedia project creation, content development and execution. The course develops student skills using a variety of media and its inclusion in productions. There will be practice in digital imaging and audio for output to a variety of emerging technologies. Prerequisites: VCT 124/125 or instructor approval. Mandatory Decimal Grading. Recommended concurrent enrollment in VCT 136. Previously ART 115.

ART 131
Drawing 1 (5)
First-year drawing series, beginning course. No academic experience required. Introduction to organizing and developing the drawing surface. Pencil and charcoal are the major tools; liquid and color media are also introduced. Previously ART 105. Student option grading.

ART 132
Drawing 2 (5)
Continuation of first-year drawing series. Builds on the understanding and skills acquired in ART 131. Composition, light and dark, and perspective. Media include pencil, charcoal, liquid and color. Previously ART 106. Prerequisite: ART 131. Student option grading.

ART 133
Drawing 3 (5)
Third quarter of first-year drawing series stresses growth in control and creativity. Areas of light and shade, composition, and perspective are emphasized. Previously ART 107. Prerequisite: ART 132. Student option grading.

ART 144
Beginning Photography (5)
This course is an introduction to film and digital camera operation, print output, basic software imaging, wet lab procedures and the latest developments in technology. Aesthetics and the visual language of image communication are stressed. Cameras are available for checkout. Previously ART 100.

ART 145
Intermediate Black and White Photography (4)
Course emphasizes creative control of images through the zone system, toning and coloring. Course includes 3D image construction and digital imaging. Studio photography is introduced. Assignments involve technical and visual exploration. Previously ART 102. Prerequisite: ART 144 or Portfolio review with instructor permission. Mandatory decimal grading.

ART 146
Advanced Black and White Photography (3)
Course introduces the photographer to alternate techniques of photographic imagery. Gum Bichromate, Liquid Light, Kodolith, digital imaging through Photoshop. Large format cameras stressed. Portfolio required as quarter project. Assignments are visual and technical in nature. Some cameras available for checkout. Students purchase film and supplies. Previously ART 103. Prerequisite: ART 144, 145 or instructor permission. Student option grading.

ART 201
Type and Typographic Design (5)
Concept development procedures in visual communication problem solving involving letter forms, illustrative material, typography and general graphic design. Basic principles of selection, organization, and production techniques are introduced. Dual listed as VCT 101. Previously ART 205. Prerequisite: ART 109 and ART 110, or VCT major, or equivalent with instructor permission. Student option grading.

ART 202
Advertising Design (5)
Continued study of concept development procedures in visual communication problem solving including letter forms, illustrative material, typography and general graphic design. Stresses principles of selection, organization, production techniques and introduction to mechanical art requirements. Dual listed as VCT 102. Previously ART 206. Prerequisite: ART 201 or equivalent with instructor permission. Student option grading.

ART 203
Graphic Design: Advertising/Illustration (5)
Procedures in visual communication problem solving. Topics include letter forms, illustrative matter, market analysis and general graphics. Principles of selection, organization and production are stressed. Course is demanding in both time and quality of product. Dual listed as VCT 103. Previously ART 207. Prerequisite: ART 201, 202 or equivalent with instructor permission. Student option grading.

ART 244
Studio/Color/Electronic Imaging (3)
Introduction to studio lighting with emphasis on the medium and large format cameras and digital imaging through Photoshop. Introduction to the use of color as an intricate element of design and interpretive presentation. Student option grading. Previously ART 119.
ART 245  
Commercial Photography (3)  
Application of photographic techniques to solve problems in visual presentations. Advertising, commercial and industrial still photography. Chemistry provided. Students supply film, paper, supplies. Dual listed as VCT 120. Previously ART 120. Prerequisite: Art 145 or equivalent with instructor permission. Student option grading.

ART 246  
Documentary/News Photog. (3)  
Course presents theory and study of the photograph to interpret, comment on or record the events of humanity. Visual language of sequencing and structure are explored. Scanning and Photoshop will be used. Some cameras available for check-out. Students purchase film and supplies. Dual listed as CMST 291. Previously ART 291. Prerequisite: Art 144, 145, or instructor approval. Student option grading.

ART 247  
Color Photography (3)  
Beginning course in basic color photography. Experience in materials, techniques, processing, production. Production of high quality prints and transparencies suitable for exhibition. Digital imaging, scanning, manipulation with Photoshop—chemistry provided. Students provide paper, film and supplies. Previously ART 292. Prerequisite: ART 145 or equivalent with instructor permission. Student option grading.

ART 250  
Printmaking (5)  
Survey of fine art printmaking including relief, planographic and intaglio printmaking with a focus on design, drawing, techniques and materials used in printmaking through lectures, demonstrations, critiques and research. Students create prints in each media. Student option grading.

ART 251  
Painting 1 (5)  
A foundation course emphasizing color, composition and the properties of one of these painting media: oil, acrylic or water color. Previously ART 256. Student option grading.

ART 252  
Painting 2 (5)  
Continuation of studio activities of ART 251 with emphasis on color, composition and the properties of one of these painting media: oil, acrylic or water color. Previously ART 257. Prerequisite: ART 251 or instructor permission. Student option grading.

ART 253  
Painting 3 (5)  
Continuation of studio activities of ART 252. A greater emphasis upon individual development and creativity is fostered. Previously ART 258. Prerequisite: ART 252 or instructor permission. Student option grading.

ART 254  
Design and Materials (5)  
Wood and plaster as factors of design. Class experimentation and research. Previously ART 253. Student option grading.

ART 255  
Design and Materials (5)  
Metal, glass, and plastics as factors of design. Class experimentation and research. Student option grading. Previously ART 254.

ART 256  
Design and Materials (5)  
Textiles as a factor of design. Class experimentation and research. Student option grading. Previously ART 255.

ART 260  
Intermediate Studio Projects (5)  
Students who have completed a basic fine art studio course series in drawing, design, painting, photography, sculpture or ceramics, and are ready for independent studio research, complete art projects with instructor supervision. May be taken multiple times for credit. Prerequisite: ART 146, 153, 109, 110, 130, 123, 203, 253, or 271 or instructor permission. Mandatory P/NCR Grading.

ART 265  
Intermediate Drawing (5)  
For students who have completed basic drawing series ART 131, 132, 133 and who want to continue to draw with supervision and criticism. May be taken up to three times. Series includes still life, landscape, figure, and fantasy drawings. Prerequisite: ART 133. Student option grading.

ART 271  
Sculpture 1 (5)  

ART 272  
Sculpture 2 (5)  

ART 273  
Sculpture 3 (5)  
Third quarter in basic sculpture series. Work in clay, plaster, wood, metal. Previously ART 274. Prerequisite: ART 272. Student option grading.

ART 275  
Special Topics In Art (1)  
Classes focusing on specific issues and/or topics of interest in Art. Previously ART 281.

ART 291  
Special Topics In Art (2)  
Classes focusing on specific issues and/or topics of interest in Art. Previously ART 282.

ART 292  
Special Topics In Art (3)  
Classes focusing on specific issues and/or topics of interest in Art. Previously ART 283.

ART 293  
Special Topics In Art (4)  
Classes focusing on specific issues and/or topics of interest in Art. Previously ART 284.

ART 294  
Special Topics In Art (5)  
Classes focusing on specific issues and/or topics of interest in Art. Previously ART 285.

ART 295  
Special Topics In Art History (3)  

ART 297, 298, 299  
Individual Project In Art (1, 2, 3)  
Individual project in a specific area of art. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

ART HISTORY 204  
Survey of Asian Art (5)  
Students are introduced to the art and architecture of India, China, Korea and Japan. This course gives an overview of Asian art with a concentration on individual nations/cultures, specific period styles and representative artists. Prerequisite: Completion or enrollment in ENGL 100 or instructor’s permission. Student option grading.

ART HISTORY 210  
Japanese Art History (5)  
This course offers a comprehensive study into the art, architecture and crafts of Japan. ART 210/ARTH 210W. Students study Western art and architecture from prehistory through to the Roman Empire and the Early Christian/Byzantine periods. Emphasis is on how art forms have been influenced by significant events, beliefs, and customs. Students evaluate contributions of the arts of specific cultures. Previously ARTH 210/ARTH 210W. Prerequisites: Completion of ENGL 100, placement in ENGL& 101 or Instructor permission. Student option grading.

ART HISTORY 224/224W  
Survey of Western Art (5)  
Students study Western art and architecture from the Early Medieval period to the 17th century Baroque/Rococo period. They learn art historical methodologies to evaluate how art and architecture have been influenced by significant events, beliefs, and traditions. This course offers a comprehensive study into the art, architecture and crafts of Japan. ART 224/ARTH 224W. Prerequisites: Completion of ENGL 100 or placement in ENGL& 101. Student option grading.

ART HISTORY 225/225W  
Survey of Western Art, Medieval-Baroque/Rococo (5)  
Students study Western art and architecture from the Early Medieval period to the 17th century Baroque/Rococo period in Europe. Students study Western art and architecture from the Early Medieval period to the 17th century Baroque/Rococo period. A greater emphasis upon individual development and creativity is fostered. Previously ART 258. Prerequisite: ART 252 or instructor permission. Student option grading.

ART HISTORY 226/226W  
Survey of Western Art, Modern/Post Modern (5)  
Students study Western art and architecture from the late 18th century to the 21st century, the works of major artists, plus the development of new media in the post modern world. Topics range from 18th century NeoClassicism to Pop, Performance, Earthworks and Installations. Previously ARTH 226/ARTH 226W. Prerequisites: Completion of ENGL 100 or placement in ENGL& 101. Student option grading.

ART HISTORY 228  
Special Topics In Art History (3)  

ART HISTORY 282  
Survey of Asian Art (5)  
Students are introduced to the art and architecture of India, China, Korea and Japan. This course gives an overview of Asian art with a concentration on individual nations/cultures, specific period styles and representative artists. Prerequisite: Completion or enrollment in ENGL 100 or instructor’s permission. Student option grading.

ART HISTORY 283  
Japanese Art History (5)  
This course offers a comprehensive study into the art, architecture and crafts of Japan. ART 283/ARTH 283W. Students study Western art and architecture from prehistory through to the Roman Empire and the Early Christian/Byzantine periods. Emphasis is on how art forms have been influenced by significant events, beliefs, and customs. Students evaluate contributions of the arts of specific cultures. Previously ARTH 283/ARTH 283W. Prerequisites: Completion of ENGL 100, placement in ENGL& 101 or Instructor permission. Student option grading.

ART HISTORY 284/284W  
Survey of Western Art, Medieval-Baroque/Rococo (5)  
Students study Western art and architecture from the Early Medieval period to the 17th century Baroque/Rococo period. They learn art historical methodologies to evaluate how art and architecture have been influenced by significant events, beliefs, and traditions. This course offers a comprehensive study into the art, architecture and crafts of Japan. ART 284/ARTH 284W. Prerequisites: Completion of ENGL 100 or placement in ENGL& 101. Student option grading.

ART HISTORY 285/285W  
Survey of Western Art, Modern/Post Modern (5)  
Students study Western art and architecture from the late 18th century to the 21st century, the works of major artists, plus the development of new media in the post modern world. Topics range from 18th century NeoClassicism to Pop, Performance, Earthworks and Installations. Previously ARTH 285/ARTH 285W. Prerequisites: Completion of ENGL 100 or placement in ENGL& 101. Student option grading.
ART HISTORY 292
Special Topics In Art History (2)
Classes focusing on specific issues and/or topics of interest in Art History. Previously ARTH 282.

ART HISTORY 293
Special Topics In Art History (3)
Classes focusing on specific issues and/or topics of interest in Art History. Previously ARTH 283.

ART HISTORY 295
Special Topics In Art History (5)
Classes focusing on specific issues and/or topics of interest in Art History. Previously ARTH 285.

ASTRONOMY & 101
Introduction to Astronomy (5)
A one-quarter survey course in astronomy, intended for non-science majors. Studies such topics as: the solar system, stellar evolution, galaxies and cosmology. Previously ASTRN 101. Prerequisite: MATH 099. Student option grading.

ASTRONOMY 297
Individual Project In Astronomy (1)
Individual project in a specific area of ASTR.
By arrangement with instructor. Previously ASTRN 297. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

ASTRONOMY 298
Individual Project In Astronomy (2)
Individual project in a specific area of ASTR.
By arrangement with instructor. Previously ASTRN 298. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

ASTRONOMY 299
Individual Project In Astronomy (3)
Individual project in a specific area of ASTR.
By arrangement with instructor. Previously ASTRN 299. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

AUTOMOTIVE TECHNOLOGY 101
Introduction to Automotive (3)
For students interested in the automobile from a business, technical, and/or consumer perspective. Subjects covered include automotive career exploration, consumer information, minor maintenance and safety inspection, and an introduction to technical systems. Also automotive history and current social issues associated with the automobile. Prerequisites: Recommended at least ENGL 090. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 110
Intro to Shop Procedures & Safety (4)
This course introduces the career of auto service technology and its many career ladders. Also, students will learn basic shop safety, and use and care of auto shop tools. Intended primarily for ESL students. Prerequisite: CASAS 220 or higher and ESLAB 040. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 111
Electrical Systems (8)
The fundamental principles of electricity and solutions for electrical problems in autos using Ohm's law. Diagnosis and service for basic automotive electrical issues. Intended primarily for ESL students. Prerequisite: CASAS 220 or higher and ESLAB 040. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 112
Automotive Engines (4)
This course covers the following skill areas: engine repair including components, design, construction and theory of the internal combustion engine. Intended primarily for ESL students. Prerequisite: AUTOT 110 Intro to Automotive Shop & Personal Safety. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 113
Steering and Suspension Systems (8)
This course is designed for students entering the automotive service field and covers diagnosis, repair, and alignment of 2-, 4-, and all-wheel drive systems. Intended primarily for ESL students. Prerequisite: AUTOT 110 Introduction to Automotive Shop & Personal Safety. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 114
Brakes (6)
This course is designed for students entering the automotive service field and covers the following skill areas: inspection, diagnosis, and repair of conventional and ABS braking systems. Intended primarily for ESL students. Prerequisite: AUTOT 110 Introduction to Automotive Shop & Personal Safety. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 115
Drive Train (4)
This course is designed for students entering the automotive service field and covers the following skill areas: basic service of manual and automatic transmissions and transaxes. Intended primarily for ESL students. Prerequisite: AUTOT 110 Introduction to Automotive Shop & Personal Safety. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 116
Heating and Air Conditioning Systems (2)
This course is designed for students entering the automotive service field and covers the diagnosis and service of automotive heating and air conditioning systems. Intended primarily for ESL students. Prerequisite: AUTOT 110 Introduction to Automotive Shop & Personal Safety. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 121
General Service Technician I (18)
Course covers following: intro to auto shop/personal safety; automotive engines (components, design, construction, theory of the internal combustion engine); electrical systems (theory, testing, diagnosis, repair; heating/air conditioning systems (diagnosis, service). Intended primarily for ABE students. Previously AUTOT 120. Prerequisite: Math ASSET 35, COMPASS 19; Writing ASSET 25, COMPASS 13; Reading ASSET 29, COMPASS 45. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 122
General Service Technician II (18)
Course covers steering & suspension (diagnosis, repair, alignment of 2-, 4-, & all-wheel drive systems), brakes (inspection, diagnosis, repair of conventional/ABS braking systems), drive train (basic service of manual/automatic transmissions/transaxes). Intended primarily for ABE students. Previously AUTOT 121. Prerequisite: AUTOT 121. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 151
Auto Brakes, Suspension, Transmission Rear Axles (20)
This three week course will cover the fundamental operations of General Motors automatic transmissions, overhaul repair techniques and diagnostic procedures for the following transmissions, TH 350, TH 400, 125C, 200, 180C, and Torque Converter Clutch Diagnosis. Permission of instructor. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 152
Engine Repair, Heating and Air Conditioning (20)
Engine operation and design with diagnosis and repair emphasis. Course also covers principles of refrigeration and air conditioning, heating systems and air distribution. Permission of instructor. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 160
Fundamentals of Automotive Service Training (9)
This course introduces students to the automotive industry and presents an overview of systems. Also includes new model/product information, customer satisfaction index (CSI), safety, basic servicing, shop practices, and new/used vehicle inspection. Prerequisites: Instructor permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 161
Engine Repair (9)
The components, design, construction, and operation of the internal combustion engine/powerplant will be studied. Engine removal, disassembly, inspection, measurement, repair, and reassembly are covered. Engine diagnostics and testing are performed. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 162
Specialized Electronics Training (9)
For electrical specialists. Course builds from the electrical principles and concepts through automotive semi-conductors to microprocessors. The use of electrical measurement devices and wire repairing; on-bench and on-car exercises. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 163
Brakes and Suspension (9)
Brake theory, inspection, diagnosis, repair and adjustment of disc/drum type systems; including hydraulic, power assist, and parking brake systems. Theory, service, and diagnosis of anti-lock systems. Steering, suspension, and wheel alignment includes diagnosis, inspection, repair, and maintenance. Also, tire service and wheel balance. Permission. Mandatory decimal grading.
AUTOMOTIVE TECHNOLOGY 164
Manual Gear Trains and Transaxles (9)
The design, construction, and operation of front, rear, and all-wheel drive systems. Gear train diagnosis, removal, disassembly, inspection, measurement, repair, reassembly, and installation; includes drive axle, hubs, and transfer case service. The use and application of diagnostic equipment will be covered. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 165
Engine Management and Emissions Systems (9)
Theory, diagnosis, testing and repair of ignition, fuel injection, air induction, sensors, actuators, on-board diagnostics, and emission systems. Students learn to use electronic analyzers and diagnostic scanners. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 166
Electrical Systems (9)
Theory, diagnosis, testing, repairing or replacing automotive electrical system components. Multiplexed and microprocessor-controlled systems included. Emphasis on reading wiring diagrams and using electrical measuring devices and scan tools. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 167
Automatic Transmissions/Transaxles (9)
Transmission/transaxle mechanical, hydraulic, and electrical operation. Service, overhaul, mechanical/electrical diagnosis procedures will be covered. Use and application of diagnostic equipment. Permission. Mandatory decimal grading.

AUTOMOTIVE TECHNOLOGY 168
Heating and Air Conditioning (9)

AUTOMOTIVE TECHNOLOGY 190
General Service Technician Internship (9)
This internship allows the student to apply the skills learned in the Auto General Services Training Program at a job site. Previously AUTOT 100. Prerequisite: AUTOT 121, 122 or AUTOT 110-116. Mandatory P/NC grading.

AUTOMOTIVE TECHNOLOGY 291
Cooperative Dealership Experience I (20)
Students enrolled in the factory-specific programs will work at a new car-truck dealership as an apprentice technician. This is a cooperative experience involving the student, dealership, manufacturer, and Shoreline Community College to reinforce and apply skills learned during previous quarters. Previously AUTOT 250. Permission. Mandatory decimal grading. Dealership sponsor required.

AUTOMOTIVE TECHNOLOGY 292
Cooperative Dealership Experience II (20)
Students enrolled in the factory-specific programs will work at a new car-truck dealership as an apprentice technician. This is a cooperative experience involving the student, dealership, manufacturer, and Shoreline Community College to reinforce and apply skills learned during previous quarters. Previously AUTOT 251. Prerequisite: AUTOT 291. Permission. Mandatory decimal grading. Dealership sponsor required.

AUTOMOTIVE TECHNOLOGY 293
Cooperative Dealership Experience III (20)
Students enrolled in the factory-specific programs will work at a new car-truck dealership as an apprentice technician. This is a cooperative experience involving the student, dealership, manufacturer, and Shoreline Community College to reinforce and apply skills learned during previous quarters. Previously AUTOT 252. Prerequisite: AUTOT 292. Permission. Mandatory decimal grading. Dealership sponsor required.

AUTOMOTIVE TECHNOLOGY 297, 298
Individual Projects In Automotive Technology (1, 2)
Individual project in a specific area of Automotive Technology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience.

BIOLOGY 090
Biology Special Lab (3)
This class is an opportunity for tutorial instruction for students in biological subject matter areas where assistance may be needed. No appointments are necessary. Come in when you need help. An instructor is available. Previously BIOSC 090. Mandatory P/NC grading.

BIOLOGY 092
Biotech Special Lab (2)
This class is an opportunity for tutorial instruction for students in biotechnology subject matter areas where assistance may be needed. No appointments are necessary. Come in when you need help. An instructor is available. Previously BIOSC 092. Mandatory P/NC grading.

BIOLOGY & 100
Survey of Biology (5)
A lab course intended for non-majors and science majors without previous biology. Basic ideas essential to the understanding of biology in the context of the scientific method, evolution and processes common to life. Previously BIOSC 100. Prerequisites: Placement into ENGL& 101 or instructor permission. Student option grading.

BIOLOGY 102
Survey of Biological Kingdoms (5)
A survey of the kingdoms of living things. An introduction to the diversity of living things, their special adaptations, ecological relationships and evolutionary origin. Laboratory class. Previously BIOSC 102. Prerequisites: Placement into ENGL& 101 or Instructor permission. Student option grading.

BIOLOGY 103/103W
Animal Behavior (5)
The biological study of behavior. What do animals do? The genetic-environmental aspects of behavioral characteristics, the relationship of the nervous and endocrine systems to behavior. These ideas will be presented from an evolutionary viewpoint. Previously BIOSC 103/ BIOSC 103W. Student option grading.

BIOLOGY 107
Biology and Society (5)
This non-majors lab course examines the basic biological principles that underlie many of the issues facing our society. Among the topics addressed will be human impact on the environment and biodiversity, genetically modified organisms, gene therapy, stem cells, evolution and natural selection. Previously BIOSC 107. Student option grading.

BIOLOGY 110
Biotechnology:Science, Applications/Implications (3)
This overview class will cover current topics in Biotechnology. It will include basic elements of the science, current and expected capabilities and products, the structure of the industry, impact on society and the health care field and social questions. Previously BIOSC 110. Prerequisites: High School Biology, Chemistry, and English suggested. Placement at or above ENGL 100 level required. Student option grading.

BIOLOGY 124/124W
Northwest Flora (5)
Introduction to plant classification, field study and laboratory identification of the common plant families of the Pacific Northwest. Previously BIOSC 123/BIOSC 123W. Student option grading.

BIOLOGY 126
An Introduction to Horticulture (5)
An introduction to the identification of common house and garden plants. Landscaping, use of fertilizers and greenhouse management, selection and care of plant material for the home and home garden. Previously BIOSC 126. Student option grading.

BIOLOGY 144
Marine Biology (5)
A study of local marine organisms and the environments in which they live. Laboratory and field work are designed to implement this study. Local field trips are included. BIOL 144 and BIOL 244 are taught concurrently. BIOL 144 is designed for non-science majors. Previously BIOSC 143. Student option grading.

BIOLOGY 150/150W
Epidemics & Culture (5)
Students will explore epidemic disease from multiple perspectives, including scientific, political, economic, religious, and artistic. The Bubonic Plague of the Middle Ages will serve as a paradigm for studying individual and cultural responses to other historical and modern epidemics. Previously BIOSC 150/BIOSC 150W. Prerequisite: Completion of ENGL 100 or placement into ENGL& 101. Student option grading.
COURSE DESCRIPTIONS

BIOLOGY& 170
Human Biology (5)
Introduction to the systems of the human body. Structures and functions of these systems will be stressed along with unifying principles such as nutrition, sex, genetics, environment, exercise and the aging process. Previously BIOSC 108. Student option grading.

BIOLOGY& 211
Majors Cellular Biology (5)
Examines the cell as the basic unit of life. Topics covered include: the function of cell organelles, metabolic processes, cell division, signaling, the genetics of individuals and populations. For life science majors and allied health students. Laboratory class. Previously BIOSC 201. Prerequisite: CHEM& 121 with 2.0 or better. ENGL& 101 recommended. Student option grading.

BIOLOGY& 212
Majors Animal Biology (5)
A survey of animals involving a study of the identification structure and function. Evolution, embryology, and ecology of the kingdom is included. The emphasis is on the phylogenetic relationships among animals and the ecological relationships within the kingdom. Laboratory class. Previously BIOSC 202. Prerequisites: BIOL& 211 and 212. Student option grading.

BIOLOGY& 213
Majors Plant Biology (5)
Survey of major groups of kingdoms: Fungi, Protista and Plantae. Study of group’s morphology, physiology and reproductive patterns and the theories of evolutionary relationships. Development of ecosystems, succession through climax vegetation and features of the major terrestrial biomes. Laboratory class. Previously BIOSC 203. Prerequisite: BIOL& 211 or permission.

BIOLOGY& 231
Human Anatomy (5)
Understanding the structure of the human body through the study of the various body systems. Intensive laboratory dissection and lectures are utilized. Laboratory class. Previously BIOSC 210. Prerequisite: BIOL& 211 w/2.0 or higher. Student option grading.

BIOLOGY& 232
Human Physiology (5)
A systems approach to the study of the functions of the human body. Includes the nervous, muscular, circulatory, endocrine, respiratory, digestive and urogenital systems. Laboratory class. Previously BIOSC 211. Prerequisite: BIOL& 211 and BIOL& 231 or permission. Student option grading.

BIOLOGY 244
Marine Biology for Science Majors (5)
A study of local marine organisms and the environments in which they live. Laboratory and field work are designed to implement this study. Local field trips are included. BIOL 144 and BIOL 244 are taught concurrently. Previously BIOSC 243. Prerequisite: BIOL& 211. Student option grading.

BIOLOGY 245
Solution and Media Preparation (4)
BIOLOGY 249
Tissue Culture and Staining (4)
Introductory course in the theory and concepts of animal cell and tissue culturing. Course will teach the fundamentals in tissue culture techniques, subculturing and maintenance of cell lines. Skills also include: cell viability testing, cell counting, feeding of cell lines and quality control. Aseptic technique is emphasized, along with media preparation. Previously BIOSC 260. Prerequisite: BIOL& 211. Student option grading.

BIOLOGY& 260
Microbiology (5)
Survey of microorganisms with focus on health-care applications. Structure, classification, metabolism and genetics of bacteria and viruses are main themes. Emphasis on disease process, microbial control and immunology. Laboratory techniques include isolation and identification of bacteria. Previously BIOSC 215. Prerequisites: BIOL& 211 with minimum 2.0. Student option grading.

BIOLOGY 265
Media and Solution Preparation I (2)
Preparation of media and solutions commonly used in biotechnology laboratories. Use of basic lab tools such as pipettors, pH meters, scales, centrifuges, autoclaves and spectrophotometers, and lab notebook maintenance. Previously BIOSC 245. Prerequisite: High school Biology and Chemistry or instructor approval. Student option grading.

BIOLOGY 266
Media and Solution Preparation II (2)
Preparation of media and solutions commonly used in biotechnology laboratories. Use of basic lab tools such as pipettors, pH meters, scales, centrifuges, autoclaves and spectrophotometers. Use of MSDS, GLP procedures and lab safety. Previously BIOSC 245. Prerequisite: High school Biology and Chemistry or instructor approval. Student option grading.

BIOLOGY 270
Molecular Biology Techniques (3)
This course will focus on DNA replication and transcription and regulatory mechanisms in prokaryotic and eukaryotic systems. Previously BIOSC 250. Prerequisite: BIOL& 211 and BIOL 265. Recommended CHEM& 131. Student option grading.

BIOLOGY 274
Molecular Biology Laboratory (3)
Laboratory emphasis will be on molecular biological techniques utilized in modern research laboratories. Techniques include gene cloning, DNA and protein electrophoresis, protein purification and enzymatic and immunological assays. Previously BIOSC 251. Prerequisite: BIOL& 211 and BIOL 265. CHEM& 131 recommended. Student option grading.

BIOLOGY 275
Recombinant DNA Techniques (6)
Basic course in the theory and concepts of recombinant DNA techniques. Course will focus on the methods of gene cloning with bacteriophage and plasmid vectors, growth and maintenance of E. coli, extraction and purification of DNA, polymerase chain reaction, southern blots, probe preparation, hybridization methods, and DNA sequencing. The lab will focus on hands on techniques. Previously BIOSC 265. Prerequisite: BIOL 270 or permission. Student option grading.

BIOLOGY 277
Immunology (6)
This course focuses on the concepts and laboratory procedures necessary to understand the cellular, molecular and genetic basis of the immune system. Emphasis will be placed on antigen and antibody structure and function, antibody production, cellular based immunity, and the major histocompatibility complex. Previously BIOSC 270. Prerequisite: BIOL 270 or permission. Student option grading.

BIOLOGY 279
Biotechnology Techniques (3)
A laboratory course which will focus on the techniques currently prevalent in the manufacturing and production aspect of the biotechnology industry. Course will focus on the isolation and purification of proteins. This will include cation-anion exchange chromatography, selective binding using hydrophobic interactions, ultrafiltration, isoelectric focusing and high performance liquid chromatography (HPLC). There will also be exposure to good manufacturing practices (GMP), quality control procedures (QC), biological potency assays, radioisotope use and handling, FDA regulations and clinical trials. Previously BIOSC 275. Prerequisite: BIOL 270 or permission. Student option grading.

BIOLOGY 280
Seminar In Biotechnology (1)
This course will include speakers from the biotechnology industry, field trips to biotechnology laboratories, special topics such as radiation safety, quality control, resume writing and interviewing, and discussion and presentation of journal articles. Previously BIOSC 295. Prerequisite: BIOL& 211 plus completion of at least ten additional credits toward the AAAS degree or Certificate of Proficiency in the Biotechnology Laboratory Assistant Program or permission.

BIOLOGY 285
Basics of Bioinformatics (2)
This course will present the basic principles of genomic and proteomic analysis using public databases. Emphasis will be placed on hands on training using BLAST searches to analyze protein and DNA sequences, using Entrez to study genomic structures and Cn3D to study protein structure. Previously BIOSC 256. Prerequisite: BIOL& 270 or equivalent experience. Student option grading.
BIOLOGY 286
Molecular Lab Techniques in Medical Diagnostics (2)
Practical experience using molecular techniques, such as PCR and ELISA, for medical diagnostic assays. Emphasis will be placed on understanding theory, experimental design, interpretation of results, and the limitations of these assays. Previously BIOSC 253.
Prerequisite: BIOL& 211, BIOL& 260.
Student option grading.

BIOLOGY 287
High Performance Liquid Chromatography (Hplc) (2)
This laboratory will present the theory of High Performance Liquid Chromatography as well as practical experience using the instrumentation. Students will receive hands-on training setting up and trouble shooting an HPLC, preparing protein samples for analysis, data collection and analysis of results. Previously BIOSC 255.
Prerequisite: BIOL 270/274, BIOL 279, or instructor permission.
Student option grading.

BIOLOGY 288
Basic Principles of Flow Cytometry (2)
This course will present the theory of flow cytometry as well as provide practical laboratory experience using the instrumentation. Students will receive hands-on training calibrating and troubleshooting a flow cytometer, preparing and staining cells for analysis, data collection and analysis of data. Previously BIOSC 252.
Prerequisite: BIOL 270/274, BIOL 277 or equivalent. Student option grading.

BIOLOGY 289
Molecular & Biochemical Techniques in Forensics (1)
Overview of the techniques used to analyze DNA and chemical crime scene evidence. Students will gain laboratory experience in the isolation and analysis of proteins and DNA from tissue samples using techniques such as PCR, gel electrophoresis, UV spectrophotometry, and chromatography. Previously BIOSC 254.
Student option grading.

BIOLOGY 290
Internship (2)
This course is a cooperative education experience that provides students with work experience in the biotechnology industry. Previously BIOSC 290.
Prerequisite: BIOL& 211 plus completion of at least 10 additional credits toward the AAAS degree or Certificate of Proficiency in the Biotechnology Laboratory Assistant Program. Instructor permission required. Mandatory P/NC grading.

BIOLOGY 297
Individual Project in Biology (1)
Individual project in a specific area of BIOL. By arrangement with instructor. Previously BIOSC 297.
Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

BIOLOGY 298
Individual Project in Biology (2)
Individual project in a specific area of BIOL. By arrangement with instructor. Previously BIOSC 298.
Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

BIOLOGY 299
Individual Project in Biology (3)
Individual project in a specific area of BIOL. By arrangement with instructor. Previously BIOSC 299.
Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

BUSINESS 101
Introduction to Business (5)
This course surveys all aspects of business from marketing, technology and entrepreneurship to ethics and business management. This course utilizes real world examples and discussion format to examine the role business plays in our world. Dual listed as SOCSC 100. Previously BUSAD 100. Mandatory decimal grading.

BUSINESS 102
Business Mathematics (5)
Develop analytical skills using estimating, ratio-proportion, percents, graphing, trade/cash discounts, merchandising, simple/compound interest and credit. The course contains elements of communication, critical thinking and problem solving. Previously BUSAD 175.
Prerequisite: MATH 060 or score of 22 on COMPASS placement test.

BUSINESS 103
Multiculturalism in the Workplace (3)
We will explore multicultural understanding in the workplace, from managerial and employee perspectives. We will cover historical issues related to the multicultural workplace and its relation to power and privilege, stereotypes and prejudice, and workplace discrimination. Previously BUSAD 103. Mandatory Decimal Grading.

BUSINESS 104
Human Relations in Business (5)
Study of human relations in organizations, the identification and development of factors which tend to create a harmonious environment in the work situation, discussion and case studies in problem solving and organizational behavior. Mandatory decimal grading. Previously BUSAD 110.

BUSINESS 105
Essentials of Human Relations (2)
This interactive class will cover strategies on effective communication in organizations. It will also discuss human behavior, motivation and leadership styles and provide tools on how to be a better employee, who understands the value of a diverse workforce. Previously BUSAD 112. Mandatory decimal grading.

BUSINESS 106
Customer Service (3)
Develop skills in customer service. Topics include developing communication skills; instructing clients to use services/products; and how to develop customer loyalty. Previously BUSAD 135. Mandatory decimal grading.

BUSINESS 110
Human Relations in Business (5)
Study of human relations in organizations, the identification and development of factors which tend to create a harmonious environment in the work situation, discussion and case studies in problem solving and organizational behavior. Mandatory decimal grading. Previously BUSAD 110.

BUSINESS 120
Principles of Marketing (5)
This course examines the role of marketing in a market economy. Topics of study include the functions of marketing, marketing strategies, identifying market segments, consumer buying behavior, product planning, market communication, marketing of services. Previously BUSAD 120. Mandatory decimal grading.

BUSINESS 130
Introduction to Fashion (5)
Students will experience the fast changing world of fashion by looking at topics such as trend analysis, design, fashion production, textiles, marketing of fashion and consumer behavior. The course explores fashion from design idea to the retail store. Previously BUSAD 140. Mandatory decimal grading.

BUSINESS 135
Retail Marketing (5)
Students develop integrated marketing skills to plan and operate a retail business. This interactive class explores buyer behavior, retail strategies, site analysis, inventory planning, retail buying, merchandising, staffing, and sales promotion strategies. Previously BUSAD 150. Mandatory decimal grading.

BUSINESS 141
Purchasing & Supply Management Fundamentals (5)
Introduction to the basic principles of purchasing and supply chain management with emphasis on understanding the purchasing and supply processes, organizational concepts, policy, relationships, and tools and techniques including cost/price analysis, and value analysis. Previously BUSAD 190. Student option grading.

BUSINESS 142
Sourcing and Supplier Relations Fundamentals (5)
Sourcing concepts, methods and techniques used to manage an organization’s supply base are discussed. Emphasis is on strategic sourcing, including supplier selection, development and evaluation, supplier quality, and global sourcing. Previously BUSAD 191. Student option grading.
COURSE DESCRIPTIONS

BUSINESS 143
Materials Management (4)
A critical examination of materials management principles, concepts and activities, including purchasing, inventory control, traffic, storekeeping, receiving, inspection, production control and the disposal of surplus. Previously BUSAD 192. Student option grading.

BUSINESS 144
Logistics and Transportation Fundamentals (3)
The course examines logistics principles, concepts and activities, including balancing logistic factors to achieve optimal performance. Topics include pricing analysis, regulatory restrictions, scheduling, protecting, warehousing, information systems, customer service, and shipping. Previously BUSAD 170. Student option grading.

BUSINESS 181
Project Planning (5)
The first in a series of two courses; students gain actual experience in project management; develop grant management skills including budgeting, scheduling and success measures. Prerequisite: CIS 231. Mandatory decimal grading.

BUSINESS 182
Project Management Practicum (5)
This is the second course in the series. Students gain actual experience in MS Project, coordinating documents, estimating, scheduling activities, assigning resources, tracking performance. These skills will help the student gain real world understanding of how to run a successful project. Prerequisites: CIS 231 and BUS 181. Mandatory decimal grading.

BUSINESS 201/201W
Business Law (5)
This course examines the nature and origin of the law, law as a legal system of social thought and behavior, legal institutions and processes, legal reasoning, law as a process of protecting and facilitating voluntary arrangements in a business society. Previously BUSAD 250/BUSAD 250W. Mandatory decimal grading.

BUSINESS 203
Contract Management (4)
The contract planning process, development, management and legal issues related to business agreements are examined. Emphasis is placed on contract development, pricing arrangements, & the Uniform Commercial Code (UCC); includes creating solicitation documents, contract clauses, evaluation and award criteria. Previously BUSAD 195. Mandatory decimal grading.

BUSINESS 205
Applied Business Law (5)
Develop legal skills particularly relevant to entrepreneurs, including methods of incorporation, contracts, intellectual property, liabilities, cyberlaw, employment law, ethics, bankruptcy, and social responsibility. Prerequisite: ENGL& 101 or BUSTC 215. Mandatory decimal grading.

BUSINESS 215
Introduction to International Business (5)
This course focuses on expanding businesses into overseas markets. Topics will include international trade, cultural, law, and political environments of international business. Dual listed as ECON 215. Previously BUSAD 201. Mandatory decimal grading.

BUSINESS 216
International Marketing and Import/Export Mgmt (5)
This course focuses on the application of marketing principles on a transnational basis and in particular on the legal, economic and political aspects of importing and exporting products, including necessary documentation. Previously BUSAD 215. Prerequisite: BUS 120 or permission. Mandatory decimal grading.

BUSINESS 220
Advertising and Sales Promotion (5)
Students explore the dynamic field of advertising, including how advertising is planned and created, selecting media, negotiating costs of media, regulating advertising, and pursuing advertising careers. An advertising campaign project is a focal point for this class. Previously BUSAD 230. Mandatory decimal grading.

BUSINESS 221
Marketing Management (5)
This course examines the results of the growth of the retail buyer and manager, as well as techniques for inventory planning, selecting merchandise, and merchandising strategies and merchandise control. Vendor relationships and human resource management are also emphasized. Previously BUSAD 145. Mandatory decimal grading.

BUSINESS 225
History of Fashion (5)
Students will learn how fashion has changed throughout history and how fashion is affected by social, psychological, economic, religious and cultural influences. Textiles will also be discussed. Previously BUSAD 145. Mandatory decimal grading.

BUSINESS 230
Retail Buying and Management (5)
This course covers the analysis of the role of the retail buyer and manager, as well as techniques for inventory planning, selecting merchandise, and merchandising strategies and merchandise control. Vendor relationships and human resource management are also emphasized. Previously BUSAD 240. Mandatory decimal grading.

BUSINESS 240
E-Business (5)
This course examines the results of the growth of the Internet and other new electronic technologies. The course defines the keys to success for e-commerce businesses, from small to large business. Previously BUSAD 222. Mandatory decimal grading.

BUSINESS 245
E-procurement (5)
Business-to-business procurement strategies, options, methods, and solutions used to automate procurement, supplier management, and other supply chain activities are examined. Previously BUSAD 226. Student option grading.

BUSINESS 250
Essentials of Supervision (5)
This participative course looks at management in organizations. Learn how to manage others using motivation techniques, employee training and performance evaluation programs. The class will also look at real world management problems and how to solve them. Previously BUSAD 200. Mandatory decimal grading.

BUSINESS 255
Principles of Management (5)
This course focuses on the organization of management; managerial functions and operations; principles of responsibility; vertical and horizontal theory; managerial leadership and personnel functions; management control and procedures; basic management problems. Previously BUSAD 220. Recommended: BUS 104 or BUS 250. Mandatory decimal grading.

BUSINESS 260
Sports & Event Marketing (5)
Learn how to market sports and events. Experience a unique combination of study and experience in planning, marketing and managing a sporting event. Mandatory decimal grading.

BUSINESS 270
Entrepreneurship
Starting a New Business (5)
Experience the challenge and reward for planning a new business. Topics include the development of a business plan, sources of capital, accounting, financial statements, marketing, human resource management, legal/regulatory issues and management principles. Previously BUSAD 270.

BUSINESS 274
Business Leadership Development (2)
This course will require students to participate in leadership activities which will enhance their public speaking skills and problem solving skills in business settings. Mandatory decimal grading.

BUSINESS 276
The Big Challenge (3)
Students join a management team for a simulated business. Teams decide how to use resources to achieve goals and must adapt to a changing environment. Students further develop business skills such as leadership, communication, data analysis, decision making and prioritizing. Mandatory decimal grading.

BUSINESS 290
Business Internship (15)
Develop business skills working in a local business. Internships are supervised by professionals who coordinate training experiences. Prerequisite: Completion of 45 college-level credits in business related classes. Mandatory P/NC grading.

BUSINESS 291
Special Topics In Business (1)
Classes focusing on specific issues and/or topics of interest in Business Administration. Previously BUSAD 281.

BUSINESS 292
Special Topics In Business (2)
Classes focusing on specific issues and/or topics of interest in Business Administration. Previously BUSAD 282.
BUSINESS 293
Special Topics In Business (3)
Classes focusing on specific issues and/or topics of interest in Business Administration. Previously BUSAD 283.

BUSINESS 294
Special Topics In Business (4)
Classes focusing on specific issues and/or topics of interest in Business Administration. Previously BUSAD 284.

BUSINESS 295
Special Topics In Business (5)
Classes focusing on specific issues and/or topics of interest in Business Administration. Previously BUSAD 285.

BUSINESS 297
Individual Project In Business (1)
Individual project in a specific area of Business Administration. By arrangement with instructor. Previously BUSAD 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

BUSINESS 298
Individual Project In Business (2)
Individual project in a specific area of Business Administration. By arrangement with instructor. Previously BUSAD 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

BUSINESS 299
Individual Project In Business (3)
Individual project in a specific area of Business Administration. By arrangement with instructor. Previously BUSAD 299. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

BUSINESS TECHNOLOGY 097
Business Computer Study Center (1)
A learning center for students to receive supervised computer help with their classroom assignments from a Business faculty. A minimum of 20 hours is required. Students may also register for BUSTC 098.

BUSINESS TECHNOLOGY 098
Business Computer Study Center (2)
A learning center for students to receive supervised computer help with their classroom assignments from a Business faculty. A minimum of 40 hours is required. Students may also register for BUSTC 097. Mandatory P/NC Grading.

BUSINESS TECHNOLOGY 100
Beginning Keyboarding (5)
Introduces the keyboard and operational parts of the personal computer. Special attention is given to correct techniques and beginning formatting of memorandums, letters, reports, and tables. Student option grading.

BUSINESS TECHNOLOGY 103
Speed Keyboarding 1 (5)
Speed, accuracy, and technique drills on a personal computer. Designed for students who are keyboarding at various speeds. Prerequisites: BUSTC 100 or equivalent and 20 wpm keyboarding by touch. Student option grading.

BUSINESS TECHNOLOGY 104
Speed Keyboarding 2 (3)
Speed, accuracy, and technique drills on a personal computer. Windows OS required. Prerequisite: BUSTC 100 or equivalent and 20 wpm keyboarding by touch. Student option grading.

BUSINESS TECHNOLOGY 107
Electronic/Ten Key Calculator (2)
Introduction to the electronic/ten-key calculator. Covers the basic math operations of addition, subtraction, multiplication and division. Touch method taught. Previously BUSTC 190. Student option grading.

BUSINESS TECHNOLOGY 114
Human Relations In the Office (2)
Explore human relations and communications within the office environment. For ESL students. Permission only. Student option grading.

BUSINESS TECHNOLOGY 115
Fundamentals of Business Communications (5)
Write business correspondence, a resume, and cover letter using Standard English. Review of vocabulary, punctuation, grammar, and current formats of business correspondence. Research topics using web technology and standard references to prepare presentation. Previously BUSTC 152. Prerequisites: Placement in ENGL 100 or ESL 100 or successful completion of ENGL 090 or ESL 099 with a 2.0 or better. Recommended: Microsoft Word and Internet experience. Mandatory decimal grading.

BUSINESS TECHNOLOGY 128
Word 2007, Level 1 (5)
Introduction to Microsoft Word 2007. Learn the core features to create business documents. Features include create, edit, print, save, and retrieve documents; use file management, tabs, styles, columns, tables, charts, and visual appeals. Prerequisites: BUSTC 100 or equivalent, 25 wpm keyboarding. Student option grading.

BUSINESS TECHNOLOGY 129
Word 2007, Level 2 (5)
Learn advanced features of Microsoft Word 2007. Topics include shared documents, footnotes/endnotes, headers/footers, mail merge, sort, styles, macros, tables/indexes, and forms. Prerequisite: BUSTC 128. Student option grading.

BUSINESS TECHNOLOGY 135
Applied Word Processing (4)
Designed for students who have learned the intermediate to advanced level features of Word. Students will apply previously learned word processing techniques in the preparation of business documents using Word. Emphasis is on accuracy and mailable copy. Prerequisite: BUSTC 129. Student option grading.

BUSINESS TECHNOLOGY 149
Beginning Excel (3)
Learn the basic features of Excel to create spreadsheets. For ESL students. Permission only. Student option grading.

BUSINESS TECHNOLOGY 150
Excel 2007 (5)
Designed for the beginning spreadsheet user. Learn to build spreadsheets using formulas, spell check, find/replace, toolbars, printing, formatting of text and numbers, fonts and borders, functions, charts, range names, macros, pivot tables, workbooks, and linking and embedding. Prerequisite: COMPASS reading score of 80 and placement into MATH 080 or instructor's permission. Student option grading.

BUSINESS TECHNOLOGY 160
Powerpoint 2007 (4)
Learn to organize information and create professional-looking graphic presentations. Learn the basic, intermediate, and advanced features of PowerPoint. Student option grading.

BUSINESS TECHNOLOGY 185
Publisher 2007 (4)
Learn to design and create professional quality publications that combine text, graphics, illustrations, and photographs (desktop publishing). Recommended: BUSTC 128 or equivalent, 25 wpm keyboarding. Student option grading.

BUSINESS TECHNOLOGY 210
Beginning Filing (1)
Learn the basic rules of filing. For ESL students. Permission only. Student option grading.

BUSINESS TECHNOLOGY 214
Filing (2)
Filing is the organization and storage of business correspondence. Through a series of instruction and exercises, students apply the fundamental rules of filing. Student option grading.

BUSINESS TECHNOLOGY 215
Professional Communications (5)
Learn writing strategies to produce a variety of professional communications such as business letters, memos, e-mail, and a short report. Learn to use the Internet and Shoreline library databases to research business topics and present information. Previously BUSTC 252. Prerequisite: Placement in ENGL& 101 or successful completion of ENGL 100 or ESL 100 or BUSTC 115 with a 2.0 or better. Mandatory decimal grading.
COURSE DESCRIPTIONS

BUSINESS TECHNOLOGY 270
Office Procedures (5)
A capstone course for Business Technology majors that considers the role of the administrative assistant and current technology as it affects today's offices. Recommended: 45 wpm keyboarding speed. Mandatory decimal grading.

BUSINESS TECHNOLOGY 291
Special Topics In Business Technology (1)
Classes focusing on specific issues and/or topics of interest in Business Technology. Previously BUSTC 281.

BUSINESS TECHNOLOGY 292
Special Topics In Business Technology (2)
Classes focusing on specific issues and/or topics of interest in Business Technology. Previously BUSTC 282.

BUSINESS TECHNOLOGY 293
Special Topics In Business Technology (3)
Classes focusing on specific issues and/or topics of interest in Business Technology. Previously BUSTC 283.

BUSINESS TECHNOLOGY 294
Special Topics In Business Technology (4)
Classes focusing on specific issues and/or topics of interest in Business Technology. Previously BUSTC 284.

BUSINESS TECHNOLOGY 295
Special Topics In Business Technology (5)
Classes focusing on specific issues and/or topics of interest in Business Technology. Previously BUSTC 285.

BUSINESS TECHNOLOGY 297
Individual Project In Business Technology (1)
Individual project in a specific area of Business Technology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

BUSINESS TECHNOLOGY 298
Individual Project In Business Technology (2)
Individual project in a specific area of Business Technology. By arrangement with instructor. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Mandatory decimal grading.

BUSINESS TECHNOLOGY 299
Individual Project In Business Technology (3)
Individual project in a specific area of Business Technology. By arrangement with instructor. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Mandatory decimal grading.

CAREER EDUCATION OPTIONS 101
Preparation for Education and Career (10)
Introduction to college programs and services, academic success strategies and job readiness skills. Emphasis on life skills, study skills, time management, problem-solving, goal-setting and career exploration. Students will learn to think critically and reflectively by looking into themselves to assess personal strengths and outward to access support systems. Prerequisites: Enrollment in the Career Education Options program. Instructor approval required. Decimal or P/NC grading.

CHEMISTRY 090
Chemistry Special Lab (3)
Tutorial lab for students enrolled in chemistry classes: designed to help with any type of problem concerning the field of chemistry. Prerequisite: Enrollment in any chemistry class. Mandatory P/NC grading.

CHEMISTRY & 110
Chemical Concepts With Lab (5)
A non-science majors lab course. Presents basic chemical principles and examines contemporary social and environmental role of chemistry. Prerequisite: ENGL 100 or ESL 100 with 2.0 or better, or test placement into ENGL& 101 or instructor permission. Student option grading.

CHEMISTRY 115
Chemical Analysis-I (7)
First course of a two quarter series focused on the theory and practice of basic analytical chemistry such as gravimetric/volumetric analysis, notebook-keeping, error analysis. Additional lectures/labs will also introduce instrumental analysis theory including spectroscopy, chromatography, and electrochemistry. Previously CHEM 190. Prerequisite: CHEM& 131 and MATH& 141 with grades of 2.0 or better, and placement into ENGL& 101; or instructor permission. Mandatory decimal grading.

CHEMISTRY 116
Chemical Analysis-II (7)
Second course of a two quarter series focused on the theory and practice of basic analytical chemistry such as gravimetric/volumetric analysis, notebook-keeping, error analysis. Additional lectures/labs will also introduce instrumental analysis theory including spectroscopy, chromatography, and electrochemistry. Previously CHEM 191. Prerequisite: CHEM& 131 and MATH 099 with grades of 2.0 or better, and placement into ENGL& 101 or instructor permission. Mandatory decimal grading.

CHEMISTRY & 121
Intro to Chemistry (5)
Basic chemistry to supplement/replace high school chemistry or for non-science majors. Introduces simplified atomic/molecular theory & the quantitative/qualitative relationships in the chemistry of solutions, gases, liquids, solids & their reactions. Mandatory 2-hour lab is taken concurrently. Previously CHEM 101. Prerequisites: MATH 099 with 2.0 or better AND placement into ENGL 100 or ESL 100; or instructor permission. Mandatory decimal grading.

CHEMISTRY & 131
Introduction to Organic/Biochemistry (5)

CHEMISTRY & 139
General Chemistry Preparation (3)
This course is intended for students who need the chemistry and quantitative reasoning background needed for the CHEM 171-173 series. Topics covered include measurements, mass relations, properties and structure of matter, and nomenclature. This course is not intended for students with a recent, rigorous course in high school chemistry and does not meet the prerequisites for the nursing/dental hygiene programs. Previously CHEM 139. Prerequisites: Placement in MATH 099 and Placement into ENGL 100 or ESL 100; or instructor permission. Concurrent enrollment in MATH 099 is recommended. Student option grading.

CHEMISTRY 171
General Inorganic Chemistry I (4)
First course of three quarters of Gen. Chem. for science and engineering majors. Includes scientific measurement, atomic structure, nomenclature, stoichiometry, aqueous solutions and reactions, gas laws and theory, basic thermodynamics and nuclear chem. Course includes lecture and seminar. Previously CHEM 140. Prerequisite: Recent high school chemistry or CHEM& 121 with a 2.0 or better and ENGL 100, ESL 100, or placement into ENGL& 101 and placement into MATH& 141; or Instructor permission. Concurrent enrollment in CHEM 181 is required. Mandatory decimal grading.

CHEMISTRY 172
General Inorganic Chemistry II (4)
Second course of three quarters of Gen. Chem. for science and engineering majors. Topics include quantum numbers, orbitals, atomic periodicity, bonding theories, molecular shapes/polarity, liquids and solids, properties of solutions, and basic organic. Course includes lecture and seminar. Previously CHEM 150. Prerequisite: CHEM 171/181 with grades of 2.0 or better and placement into ENGL& 101 and placement into MATH& 141 or instructor permission. CHEM 182 must be taken concurrently. Mandatory decimal grading.

CHEMISTRY 173
General Inorganic Chemistry III (4)
Third course of three quarters of Gen. Chem. for science and engineering majors. Topics include kinetics, chemical equilibrium, acids and bases, buffers, solubility and complex ion equilibrium, entropy, Gibbs energy, electrochemistry & transition metals. Course includes lecture and seminar. Previously CHEM 160. Prerequisites: CHEM 172/182 with grades of 2.0 or better and ENGL& 101 and MATH& 141 or Instructor permission. CHEM 183 must be taken concurrently. Mandatory decimal grading.
CHEMISTRY 181
General Inorganic Chemistry I (Lecture-Lab) (2.5)
Laboratory experimentation is used to reinforce the chemical concepts discussed in CHEM 171. A separate lecture period is required to explain the lab theory, techniques, and safety. Due to dangers involved in chemical experimentation, attendance in lecture is mandatory. Previously CHEM 141. Prerequisite: Concurrent enrollment in CHEM 171. Cannot be taken separately from CHEM 171 unless student has already passed 171. Mandatory decimal grading.

CHEMISTRY 182
General Inorganic Chemistry II (Lecture-Lab) (2.5)
This course utilizes laboratory experimentation to reinforce and enhance the chemical concepts discussed in CHEM 172. A separate lecture period is required to explain the lab theory, techniques, and safety. Due to dangers involved in chemical experimentation, attendance in lecture is mandatory. Previously CHEM 151. Prerequisite: Concurrent enrollment in CHEM 172. Cannot be taken separately from CHEM 172 unless student has already passed CHEM 172. Mandatory decimal grading.

CHEMISTRY 183
General Inorganic Chemistry III (Lecture-Lab) (2.5)
This course utilizes laboratory experimentation to reinforce and enhance the chemical concepts discussed in CHEM 173. A separate lecture period is required to explain the lab theory, techniques, and safety. Due to dangers involved in chemical experimentation, attendance in lecture is mandatory. Previously CHEM 161. Prerequisite: Concurrent enrollment in CHEM 173. Cannot be taken separately from CHEM 175 unless student has already passed 173. Mandatory decimal grading.

CHEMISTRY 221
Quantitative Analysis (5)
This course covers gravimetric and volumetric analysis with analytical instrumentation and transfers to the University of Washington as the 300-level Quantitative Analysis. Prerequisites: CHEM 173, CHEM 183, MATH 142 and ENGL 101 with grades of 2.0 or better; or instructor permission. Mandatory decimal grading.

CHEMISTRY 241
Organic Chemistry I (4)
First course for students planning to take three quarters of organic chemistry with two labs. Structure, nomenclature, reactions, and synthesis of the main types of organic compounds. Course requires a lab component and CHEM 271 must be taken concurrently. Previously CHEM 237. Prerequisites: CHEM 173/183 and ENGL 101 with minimum grades of 2.0; or Instructor Permission. Mandatory decimal grading.

CHEMISTRY 242
Organic Chemistry II (4)
Second course for students taking three quarters of organic chemistry with lab. Further discussion of physical and chemical properties of organic molecules, especially aromatic and carbonyl compounds. Satisfies the requirement for those needing two quarters of organic lab. Previously CHEM 238. Prerequisite: CHEM 241/CHM 271 and ENGL 101 with minimum grades of 2.0 or Instructor permission. Course requires the lab CHEM 271 must be taken concurrently. Mandatory decimal grading.

CHEMISTRY 243
Organic Chemistry III (4)
Third course for students planning to take three quarters of organic chemistry. Polycyclic compounds and natural products, lipids, carbohydrates, amino acids, proteins, and nucleic acids. Previously CHEM 239. Prerequisite: CHEM 242/CHM 272 and ENGL 101 with a minimum grade of 2.0 or Instructor permission. Mandatory decimal grading.

CHEMISTRY 271
Organic Chemistry I Lab (3)
First course of the lab component for students planning to take three quarters of organic chemistry with two labs. Structure, nomenclature, reactions and synthesis of the main types of organic compounds. Concurrent enrollment in CHEM 241. Previously CHEM 241. Prerequisites: CHEM 173/183 and ENGL 101 with minimum grades of 2.0 or instructor permission. Mandatory decimal grading.

CHEMISTRY 272
Organic Chemistry II Lab (3)
Second laboratory course for students planning to take three quarters of organic chemistry with two labs. Further discussion of physical properties and transformations of organic molecules, especially aromatic and carbonyl compounds. Concurrent enrollment in CHEM 242. Previously CHEM 242. Prerequisite: CHEM 241/CHM 271 and ENGL 101 with minimum grades of 2.0 or Instructor permission. Mandatory decimal grading.

CHEMISTRY 279, 298, 299
Individual Project In Chemistry (1, 2, 3)
Individual project in a specific area of CHEM. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

CHINESE 121
Chinese I (5)
A continuation of CHIN 120 introducing more vocabulary and grammar. Development of reading comprehension. Previously CHIN 113. Prerequisite: CHIN 120 or equivalent with instructor permission. Student option grading.

CHINESE 297, 298, 299
Individual Project In Chinese (1, 2, 3)
Individual project in a specific area of Chinese. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

CINEMA 201/201W
Introduction to Cinema (5)
Introduction to cinema through the study of motion picture techniques and the development of cinema as an art form. Student option grading.

CINEMA 295
Special Topics In Cinema (5)
Classes focusing on specific issues and/or topics of interest in cinema. Previously CINEM 285.

CINEMA 297, 298, 299
Individual Project In Cinema (1, 2, 3)
Individual project in a specific area of cinema. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

COMMUNICATION STUDIES & 101
Introduction to Communication (5)
Students discover verbal, nonverbal and listening skills essential to effective everyday living. Students become competent communicators by applying interpersonal, small group, public speaking, and cross-cultural communication theories to a variety of contexts including the workplace, communities, and families. Previously SPCMU 101. Prerequisites: Successful completion of ESL 100/ENGL 100 or higher. Student option grading.

COMMUNICATION STUDIES & 102/102W
Introduction to Mass Media (5)
Students learn the history, technologies and processes of mass communication systems including the printing press, periodicals, books, radio, sound and recordings, television, film and Internet. They explore the cultural impacts, theories, related ethics and laws of mass communications. Previously CMU 201/CMU 201W. Prerequisites: Students must be able to type or word-process. Completion of ENGL 101 with a grade of 2.0 or better, or minimum scores of 45 on language usage/writing and 44 on the reading skills portion of the ASSET/COMPASS test. Student option grading.
COURSE DESCRIPTIONS

COMMUNICATION STUDIES 140
The Art of Storytelling (5)
We use stories to enliven a workplace presenta-
tion, to lull a child to sleep, to celebrate and
help us to see other points of view. We will learn
to organize stories and to tell them in a variety of
circumstances. Previously SPCMU 140.

COMMUNICATION STUDIES 191
Options in Communication (1)
We will examine the role of communication in our
lives. Previously SPCMU 191.

COMMUNICATION STUDIES 192
Options in Communication (2)
We will learn, practice and apply the tools of
dialogue and emotional intelligence with other
campus leaders. We will read, move, draw, inter-
act and write to improve our leadership and com-
munication abilities. Previously SPCMU 201.

COMMUNICATION STUDIES 193
Options in Communication (3)
We will learn, practice and apply the tools of
listening and presenting effectively with other
campus leaders. We will read, move, draw, inter-
act and write to improve our leadership and com-
munication abilities. Previously SPCMU 202. Student option grading.

COMMUNICATION STUDIES 203
Communication Across Differences (5)
Students engage in communication strategies for
successful participation in diverse commu-
nities. Via personal stories, experiential activi-
ties and multicultural resources, students
explore their relationship to race, class, and
gender resulting in improved communication
during differences. Previously SPCMU 103.
Previously SPCMU 103. Prerequisite: Successful completion
of ENGL 100 required or placement into ENGL 101. Student option grading.

COMMUNICATION STUDIES 210
Interpersonal Communication (5)
Learn about yourself as you learn how you relate
to others. Create and maintain rewarding
relationships through effective communication.
Practice listening, self-presentation, clarifica-
tion, conflict management and emotional
expression skills in order to improve your fami-
lly, friend, romantic and work relationships.
Previously SPCMU 105. Prerequisite: Successful completion
of ESL 100/ENGL 100 or higher. Student option grading.

COMMUNICATION STUDIES 215
Essentials of Argument (5)
Theory and practice of argument as a tool to
investigate social problems. Student speeches
use and analyze evidence, proof, refutation, per-
suasion. Previously SPCMU 230. Student option grading.

COMMUNICATION STUDIES 220
Public Speaking (5)
Overcome fear and build confidence in all areas
of your life. Learn to influence others by criti-
cally listening to and crafting organized persua-
sive speeches. Conduct responsible research on
appropriate topics for your audience, use sound
reasoning and strong delivery to achieve effec-
tive presentation skills. Previously SPCMU
220. Prerequisite: Successful completion of
ESL 100/ENGL 100 or higher. Student option grading.

COMMUNICATION STUDIES 230
Small Group Communication (5)
Study and practice of the uses of discussion in
everyday problem-solving situations.
Opportunities both to lead and to participate
in valuable and exploratory group discussions.
Previously SPCMU 230. Student option grad-
ing.

COMMUNICATION STUDIES 235
Organizational Communication (5)
Role of communication in organizations: inter-
personal skills in listening, using language
responsibly, interpreting nonverbal cues sensi-
tively; shared leadership skills for effective
groups; negotiation skills for conflict resolution;
presentation skills for speeches within and on
behalf of organizations. Previously SPCMU
225. Student option grading.

COMMUNICATION STUDIES 244/244W
News Writing (3)
Students explore one or more aspects of print
journalism, with a focus on reporting, news
gathering and writing. The course covers con-
nexions to public relations, advertising and
electronic journalism as well as ethical and legal
concerns. Newspaper production is intro-
duced. The class may be taken again for credit.
Previously CMU 211/CMU 211W.

COMMUNICATION STUDIES 245/245W
Student Newspaper (3)
Students receive hands-on experience in one or
more aspects of the college newspaper, includ-
ing reporting, writing, editing, photography,
production or advertising. The class is
arranged by contract and may be taken again
for credit. Previously CMU 212/CMU 212W.

COMMUNICATION STUDIES 247/247W
Journalistic Writing (4)
Students learn the fundamentals of journalistic
techniques and write news articles, features,
columns, editorials and reviews. The course
covers connections to public relations, advertise-
ing and electronic journalism as well as ethical
and legal concerns. Photjournalism, design
and production are introduced. Previously
CMU 221/CMU 221W.

COMMUNICATION STUDIES 249
Copy Editing (3)
Techniques of editing and rewriting news copy.
Experience in headline writing, newspaper
makeup, table of contents and captions. Previously
CMU 225. Prerequisite: CMST 244 or 247 or
permission of instructor. Student option grad-
ing.

COMMUNICATION STUDIES 291
Special Topics In Communication Studies (1)
Classes focusing on specific issues and/or topics
of interest in communications.

COMMUNICATION STUDIES 292
Special Topics In Communications (2)
Classes focusing on specific issues and/or topics
of interest in communications. Previously
CMU 292.

COMMUNICATION STUDIES 293
Special Topics In Communications (3)
Classes focusing on specific issues and/or topics
of interest in communications.

COMMUNICATION STUDIES 294
Special Topics In Communications (4)
Classes focusing on specific issues and/or topics
of interest in communications.

COMMUNICATION STUDIES 295
Special Topics In Communication Studies (5)
Classes focusing on specific issues and/or topics
of interest in communications. Previously
CMU 295.

COMMUNICATION STUDIES 297
Individual Project In Communication Studies (1)
Individual project in a specific area of commu-
nications. By arrangement with instructor.
Previously CMU 297. Prerequisite: Instructor
permission based on evaluation of students' educational and work experience. Mandatory
declerage grading.

COMMUNICATION STUDIES 298
Individual Project In Communication Studies (2)
Individual project in a specific area of commu-
nications. By arrangement with instructor.
Previously CMU 298. Prerequisite: Instructor
permission based on evaluation of students' educational and work experience. Mandatory
declerage grading.

COMMUNICATION STUDIES 299
Individual Project In Communication Studies (3)
Individual project in a specific area of commu-
nications. By arrangement with instructor.
Previously CMU 299. Prerequisite: Instructor
permission based on evaluation of students' educational and work experience. Mandatory
declerage grading.

COMPUTER INFORMATION
SYSTEMS 102
Computer Preparation (2)
Prepares the computer novice for CIS 105
Computer Applications. Covers the basics of
computers, including hardware components,
termology and software. Includes a hands-on
introduction to a Windows operating system,
file management, and other applications.
Mandatory P/NC grading.

COMPUTER INFORMATION
SYSTEMS 105
Computer Applications (5)
Master essential computing skills for business
and school, including Windows file manage-
ment, MS Office (Word, Excel, Access,) and
Internet tools. Prerequisite: COMPASS reading
score of 80 and MATH 080 or equivalent or
instructor permission. Student option grading.
COMPUTER INFORMATION
SYSTEMS 106
Introduction to Information Technology (5)
This computer fluency course includes topics such as computer hardware technology, software, information processing cycle, data communication, networks, the Internet, programming, careers, ethics, and security. Prerequisite: CIS 105 Computer Applications or equivalent or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 110
Operating Systems (5)
Modeled on the A+ certification requirements. Learn to install, configure, upgrade, troubleshoot & repair microcomputer operating systems. Topics include: memory management, partitioning, formatting, viruses, & customer support. Prerequisite: CIS 106 Introduction to Information Technology or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 112
Introduction to PC Hardware (5)
Modeled on the A+ certification requirements. Topics include: troubleshooting; safety; maintenance; recognizing selecting, installing, configuring components (power supplies, memory, drives, modems, network cards); hardware specs; tools. Prerequisite: CIS 106 Intro to Information Technology or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 114
Data Communication (5)
Focus on Networking Essentials, concepts and terminology. Topics include OSI 7-layer model, protocols, LAN, WAN, and network design. Course curriculum is modeled on Network+ certification requirements. Prerequisite: CIS 110 Operating Systems & CIS 112 PC Hardware or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 116
Local Area Networks (5)
Course curriculum is modeled on Network+ certification requirements. Topics include TCP/IP utilities and subnet masks, wiring, installation and troubleshooting. Prerequisite: CIS 110 Operating Systems & CIS 112 PC Hardware or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 120
Database Applications and Concepts (5)
Practical issues involved in using relational database management systems. Microsoft Access taught to reinforce database concepts. The student needs to have basic Windows file management skills. Prerequisite: CIS 106 Introduction to Information Technology or CIS 105 Computer Applications or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 121
Database Design (5)
Introduction to database design with emphasis on the relational model. Topics include: data modeling, normalization, SQL, networked environment, and accessing the database server. Prerequisite: CIS 120 Database Applications or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 140
The Internet and HTML (5)
Build web pages using HTML and CSS. Internet architecture, Internet connection options, FTP, Telnet, business issues, network protocols and addressing. Prerequisite: CIS 105 Computer Applications or VCT 124 Macintosh or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 151
Programming Fundamentals (5)
Programming foundation for students with no prior computer programming experience. Establish skills and confidence for success in Level I programming classes. Prerequisite: CIS 106 Intro to Information Technology and MATH 99, or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 152
Visual Basic I (5)
A Level I class in computer programming. Learn concepts of problem solving and program design. Topics include variables, data types and arrays, structure, syntax, modularization, development environment, documentation. Prerequisite: CIS 151, Programming Fundamentals, or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 153
Visual Basic II - Data Structures (5)
Continuation of Level I computer programming. Emphasis includes design, algorithms, abstraction, analysis, classes, data structures, file processing, standard libraries; creating interactive, event-driven solutions with enhanced GUIs. Prerequisite: CIS 152 Visual Basic I or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 163
C++ II - Data Structures (5)
Continuation of Level I Programming course emphasizing design, algorithms, abstraction, analysis, classes, data structures, dynamic memory management, file processing, standard libraries, creating interactive solutions. Prerequisite: CIS 162 C++ I or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 172
Java I (5)
A Level I class in computer programming. Learn concepts of problem solving and program design. Topics include variables, data types and arrays, structure, syntax, modularization, development environment, documentation. Prerequisite: CIS 151, Programming Fundamentals, or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 173
Java II - Data Structures (5)
Continuation of Level I Programming course emphasizing design, algorithms, abstraction, analysis, classes, data structures, dynamic memory management, file processing, standard libraries, creating interactive solutions. Prerequisite: CIS 162 C++ I or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 180
Project Management (5)
Learn to use software (Microsoft Project) to plan, track and assess typical projects. Previously CIS 232. Prerequisite: CIS 105 or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 184
Unix Fundamentals and System Administration (5)
Introduces UNIX operating system and system administration in the UNIX environment. Topics include: command interpretation, directories and files, permissions, configuring and managing a UNIX system and performing day-to-day system management. Prerequisite: CIS 110 Operating Systems, or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 211
Windows (5)
Fundamental concepts and techniques. Install, configure, troubleshoot and explore security issues of Windows NT-based client. This course provides a sound foundation for using/maintaining Windows. Course based on MCSE Professional exam. Prerequisite: CIS 110 Operating Systems and CIS 112 PC Hardware. Student option grading.

COMPUTER INFORMATION
SYSTEMS 216
Windows Server (5)
Concentrates on network issues of setup, directory services, security, remote access, printing, performance tuning, protocols, and disaster recovery planning. Students will install, configure, and troubleshoot a Windows based Server. Student option grading.
COMPUTER INFORMATION
SYSTEMS 217
Windows Network Infrastructure (5)
Concentrates on installing, maintaining, monitoring, configuration and troubleshooting of DNS, DHCP, Remote Access, Network Protocols, IP Routing and WINS. Prerequisite: CIS 216 Windows Server or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 218
Windows Directory Services (5)
Concentrates on installing, maintaining, monitoring, configuring and troubleshooting of Windows directory services. Learn how to backup and restore directory services, configure directory service security, and optimize the desktop environment. Prerequisite: CIS 216 Windows Server or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 219
Designing Directory Services (5)
Designing the Windows directory services. Students will analyze the business requirements and design a directory service architecture to match the business requirement. Prerequisite: CIS 216 Windows Server and BUSN 101 or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 221
Introduction to SQL/Oracle PL/SQL (5)
Introduction to Structured Query Language. Topics include syntax to create data structures and objects, select, store, retrieve, manipulate data, and detailed coverage of the Oracle-specific PL/SQL procedural extension. Prerequisite: CIS 211 UNIX Fundamentals, Programming (CIS 152, 162, or 172). Student option grading.

COMPUTER INFORMATION
SYSTEMS 222
Database Architecture - Oracle (5)
Essential database administration skills: setup, maintain, troubleshoot Oracle databases. Use administration tools to startup/shutdown a database, create a database, manage file/database storage, manage users/privileges, organize and move data into between databases. Prerequisite: CIS 221 Intro SQL/Oracle PL/SQL. Student option grading.

COMPUTER INFORMATION
SYSTEMS 223
Advanced Database Applications and Management (5)
Project-oriented class. Topics include backup and recovery techniques, performance issues and tuning steps. Provides an overview for an Oracle network configuration and connections and GUI tools used to setup and manage the environment. Prerequisite: CIS 222 Database Architecture or instructor permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 236
Microsoft SQL Server (5)
Install, manage, monitor, secure and troubleshoot Microsoft SQL server. Learn to extract and manipulate data stored in a SQL server database. Database server security will also be addressed. Prerequisite: CIS 121 Database Design & CIS 216 Windows Server or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 240
Javascript and Advanced Html (5)
Enhance web pages with JavaScript. Fundamental programming concepts: loops, conditional expressions, arrays, and functions. Use the JavaScript object models, event handlers, forms, and advanced HTML constructs such as cascading style sheets and XML. Prerequisite: CIS 140 Internet/HTML or instructor’s permission. Student grading option.

COMPUTER INFORMATION
SYSTEMS 254
Visual Basic III (5)
Continuation of Level II Programming course, emphasizing objects and use of professional tools and foundation classes (standard libraries) for software development. Prerequisite: CIS 165 C++ II or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 264
C++ III (5)
Continuation of Level II Programming course, emphasizing objects and use of professional tools and foundation classes (standard libraries) for software development. Prerequisite: CIS 173 Java II or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 274
Java III (5)
Continuation of Level II Programming course, emphasizing objects and use of professional tools and foundation classes (standard libraries) for software development. Prerequisite: CIS 173 Java II or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 275
Programming IV - Database (5)
Continuation of Level II Programming course, emphasizing the use of databases as components of a system. Development of several database-driven applications. Prerequisite: Level II Programming (CIS 153, 163, 173) or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 276
Programming V - Project (5)
Design, develop and present a substantial group programming project. Prerequisite: Systems Analysis (CIS 287) and Level III or IV Programming (CIS 254, 264, 274, or 275) or instructor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 287
Systems Analysis and Design (5)
Systems Development Life Cycle (SDLC), techniques, tools, and project management methods for developing Information Technology systems. Students complete a group project oriented to the analysis and design of a system solution to a business problem. Prerequisite: 30 CIS core credits or advisor’s permission. Student option grading.

COMPUTER INFORMATION
SYSTEMS 290
Internship (3)
Internship course. Resume preparation, job searching and interviewing skills for the IT field. Students evaluated on work performed at intern positions. Previously CIS 255. Prerequisite: Students should be within one quarter of graduation to enroll in this course. Mandatory decimal grading.

COMPUTER INFORMATION
SYSTEMS 291
Special Topics In CIS (1)
Classes focusing on specific issues and/or topics of interest in CIS. Previously CIS 281.

COMPUTER INFORMATION
SYSTEMS 292
Special Topics In CIS (2)
Classes focusing on specific issues and/or topics of interest in CIS. Previously CIS 282.

COMPUTER INFORMATION
SYSTEMS 293
Special Topics In CIS (3)
Classes focusing on specific issues and/or topics of interest in CIS. Previously CIS 283.

COMPUTER INFORMATION
SYSTEMS 294
Special Topics In CIS (4)
Classes focusing on specific issues and/or topics of interest in CIS. Previously CIS 284.

COMPUTER INFORMATION
SYSTEMS 295
Special Topics In CIS (5)
Classes focusing on specific issues and/or topics of interest in CIS. Previously CIS 285.

COMPUTER INFORMATION
SYSTEMS 297
Individual Project In CIS (1)
Individual project in a specific area of CIS. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

COMPUTER INFORMATION
SYSTEMS 298
Individual Project In CIS (2)
Individual project in a specific area of CIS. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.
COMPUTER INFORMATION

SYSTEMS 299
Individual Project in CIS (3)
Individual project in a specific area of CIS. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

COMPUTER SCIENCE 121
Introduction to Programming Using Visual Basic (5)
Variables, assignment, loops, branches, subroutines, arrays. Introduction to algorithms, structured programming and top-down design, using a current version of Visual Basic. Previously COMP 131. Prerequisite: MATH 099 (2.0 or better) or 1.5 years of high school algebra (C or better) and a COMPASS score of 27 or higher on College Algebra.

COMPUTER SCIENCE 122
Intermediate Basic Programming (4)
Focuses on array processing, file processing, graphics and applications. Previously COMP 132. Prerequisite: CS 121 or equivalent. Student option grading.

COMPUTER SCIENCE & 141
Introduction to Computer Programming With Java (5)
Design, implement computer solutions using object oriented technology. CS I curriculum: data types, algorithms, abstraction, classes, methods, inheritance, exceptions, arrays, control structures, sorting and searching. Previously COMP 142. Prerequisite: MATH &141 or MATH 111 (min. 2.0) or instructor permission. Mandatory decimal grading.

COMPUTER SCIENCE 143
Java II - Data Structures (5)
Continuation of Level I Programming course emphasizing design, algorithms, abstraction, analysis, classes, data structures, dynamic memory management, file processing, standard libraries, creating interactive solutions. Previously COMP 143. Prerequisites: CS& 141 Java I or instructor’s permission. Student option grading.

COMPUTER SCIENCE 201
Intermediate Computer Programming With Java (5)
Continuation of Level I Programming course. Covers design, abstraction, data structures, algorithms, complexity, memory management, recursion. Learn C--; develop multi-file projects. Previously COMP 201. Prerequisites: MATH& 148 or MATH& 151 (2.0 or better), and CS& 141 (2.0 or better), or instructor permission. Mandatory decimal grading.

COMPUTER SCIENCE 297
Individual Project In Computer Science (1)
Individual project in a specific area of Computer Science. By arrangement with instructor. Previously COMP 297. Prerequisite: Instructor permission based on evaluation of students’ educational and work experience. Mandatory decimal grading.

COMPUTER SCIENCE 298
Individual Project In Computer Science (2)
Individual project in a specific area of Computer Science. By arrangement with instructor. Previously COMP 298. Prerequisite: Instructor permission based on evaluation of students’ educational and work experience. Mandatory decimal grading.

COMPUTER SCIENCE 299
Individual Project In Computer Science (3)
Individual project in a specific area of Computer Science. By arrangement with instructor. Previously COMP 299. Prerequisite: Instructor permission based on evaluation of students’ educational and work experience. Mandatory decimal grading.

COURSE DESCRIPTIONS

COMPUTER SCIENCE 101
Theory of Computer Science I (5)
Theory 101 provides computer science students an introduction to the study of data, the study of data, including algorithms, data structures, and the design and analysis of computer programs. Prerequisites: CS& 141 or instructor permission.

COMPUTER SCIENCE 102
Theory of Computer Science II (5)
Theory 102 is a course on the processes of data processing, including algorithms, data structures, and the design and analysis of computer programs. Prerequisites: CS& 141 or instructor permission.

COMPUTER SCIENCE 103
Theory of Computer Science III (5)
Theory 103 is a course on the processes of data processing, including algorithms, data structures, and the design and analysis of computer programs. Prerequisites: CS& 141 or instructor permission.

COSMETOLOGY 101
Theory of Cosmetology I (5)
Theory 101 provides cosmetology students with a basic background into the chemical theories, processes and product ingredients found in the practice of Cosmetology. Special emphasis on OSHA chemical hazard information and the mechanical operation and functions of electrical equipment used in salons. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 102
Theory of Cosmetology II (5)
Theory 102 is a course on the processes of hair coloring, permanent waving, and hair straightening services. Detailed information is provided on the concepts, categories and chemistry with special emphasis on safety and procedure. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 103
Theory of Cosmetology III (5)
Theory 103 is a course on the processes of hair coloring, permanent waving, and hair straightening services. Detailed information is provided on the concepts, categories and chemistry with special emphasis on safety and procedure. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 141
Clinical Practice I Pt (4.5)
Clinical Practice I provides students with clinical experience in the practice of Cosmetology. Special emphasis on OSHA chemical hazard information and the mechanical operation and functions of electrical equipment used in salons. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 142
Clinical Practice II Pt (4.5)
Clinical Practice II provides students with clinical experience in the practice of Cosmetology. Special emphasis on OSHA chemical hazard information and the mechanical operation and functions of electrical equipment used in salons. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 143
Clinical Practice III Pt (4.5)
Clinical Practice III provides students with clinical experience in the practice of Cosmetology. Special emphasis on OSHA chemical hazard information and the mechanical operation and functions of electrical equipment used in salons. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 151
Clinical Practice I (18)
Clinical Practice I provides students with clinical experience in the practice of Cosmetology. Special emphasis on OSHA chemical hazard information and the mechanical operation and functions of electrical equipment used in salons. Prerequisite: Permission of instructor. Mandatory decimal grading.

COURSE DESCRIPTIONS

COSMETOLOGY 152
Clinical Practice II (10)

Students practice basic level cosmetology procedures on clients and mannequins under close supervision in a clinic setting. Adherence to in-house procedures, accuracy, timing, safety measures, and sanitation standards. Students perform a variety of dispensary and reception desk responsibilities. Prerequisites: 2.1 minimum in COS 151 and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 153
Clinical Practice III (10)

Students practice intermediate level cosmetology procedures on clients and mannequins under moderate supervision in a clinic setting. Adherence to in-house procedures, accuracy, timing, safety measures, and sanitation standards. Students perform a variety of dispensary and reception desk responsibilities. Previously COS 251. Prerequisites: 2.1 minimum in COS 151, COS 152, and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 154
Salon Success Strategies (5)

This course is designed to help students develop skills for interpersonal relationships, professional communication, career planning and self-management. The key learning opportunities concentrate on building a clientele, delivering outstanding client experiences and tracking the results. Prerequisite: Permission of instructor. Mandatory Decimal Grading.

COSMETOLOGY 201
Salon Business Operations (5)

Course is designed to give students a basic overview of salon business operations including marketing strategies, financial control, factors affecting salon culture, insurance, business laws and health regulations. Special emphasis placed on examining a variety of salons in the area. Prerequisite: Permission of instructor. Mandatory decimal grading.

COSMETOLOGY 251
Clinical Practice IV (9)

Students practice intermediate/advanced level cosmetology procedures on clients and mannequins under minimal supervision in a clinic setting. Adherence to in-house procedures, accuracy, timing, safety measures, and sanitation standards. Students perform a variety of dispensary and reception desk responsibilities. Previously COS 252. Prerequisites: 2.1 minimum in COS 151, COS 152, COS 153, and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 252
Clinical Practice V (9)

Students practice advanced level cosmetology procedures on clients and mannequins under minimal supervision in a clinic setting. Adherence to in-house procedures, accuracy, timing, safety measures, and sanitation standards. Students perform a variety of dispensary and reception desk responsibilities. Previously COS 253. Prerequisites: 2.1 minimum in COS 151, COS 153, COS 251, and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 253
Clinical Practice VI (11)

For students unable to complete the program within the recommended time frame. Apply theory and advanced procedures by performing services on clients and mannequins under minimal supervision. Adherence to in-house procedures, accuracy, timing, safety measures, and sanitation standards. Previously COS 254. Prerequisites: 2.1 minimum in COS 151, 152, 153, 251, 252 and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 265
Cosmetology Final Assessment (3)

This course provides students with a theoretical and practical review of basic cosmetology services in preparation for in-house theory and practical assessments before applying for state board examinations. Prerequisites: Admission to the program and permission of instructor. Mandatory decimal grading.

COSMETOLOGY 280
Cosmetology Instructor Trainee Methods I (5)

The Cosmetology Internship experience enables a student to apply Cosmetology theory classes to the world of work. Students in coordination with a faculty mentor will develop a learning agreement that defines learning goals, learning activities and outcomes for evaluation. Instructor permission required. Previously COS 290. Mandatory decimal grading.

COSMETOLOGY 281
Cas. Instructor Trainee Clinic Supervisor I (10)

Clinical teaching and evaluation of practical skills for licensed cosmetologists wishing to obtain a cosmetology instructor's license. Previously COS 291. Prerequisite: Cosmetology license and permission. Mandatory decimal grading.

COSMETOLOGY 282
Cosmetology Instructor Trainee Methods II (5)

Teaching principles and methodologies for licensed cosmetologist wishing to obtain a cosmetology instructor's license. Previously COS 292. Prerequisite: Cosmetology license, COS 280 and permission.

COSMETOLOGY 283
Cas. Instructor Trainee Clinic Supervisor II (10)

Clinical teaching and evaluation of practical skills for the licensed cosmetologist wishing to obtain a cosmetology instructor's license. Previously COS 293. Prerequisite: Cosmetology license, COS 281 and Permission. Mandatory decimal grading.

COSMETOLOGY 290
Cosmetology Internship (4)

The Cosmetology Internship experience enables a student to apply Cosmetology theory classes to the world of work. Students in coordination with a faculty mentor will develop a learning agreement that defines learning goals, learning activities and outcomes for evaluation. Previously COS 275. Instructor permission required. Mandatory decimal grading.

COSMETOLOGY 291
Special Topics In Cosmetology (1)

Classes focusing on specific issues and/or topics of interest in Cosmetology. Previously COS 281.

COSMETOLOGY 292
Special Topics In Cosmetology (2)

Classes focusing on specific issues and/or topics of interest in Cosmetology. Previously COS 282.

COSMETOLOGY 293
Special Topics In Cosmetology (3)

Classes focusing on specific issues and/or topics of interest in Cosmetology. Previously COS 283.

COSMETOLOGY 294
Special Topics In Cosmetology (4)

Classes focusing on specific issues and/or topics of interest in Cosmetology. Previously COS 284.

COSMETOLOGY 295
Special Topics In Cosmetology (5)

Classes focusing on specific issues and/or topics of interest in Cosmetology. Previously COS 285.

COSMETOLOGY 297
Individual Project In Cosmetology (1)

Individual project in a specific area of Cosmetology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

COSMETOLOGY 298
Individual Project In Cosmetology (2)

Individual project in a specific area of Cosmetology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

COSMETOLOGY 299
Individual Project In Cosmetology (3)

Individual project in a specific area of Cosmetology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

CRIMINAL JUSTICE & 101
Introduction to Criminal Justice (5)

An examination of crime, its causes and its impact on American life; the issues and challenges facing the American criminal justice system; the history and structure of the three major components of the justice system; and an introduction to the theories of sentencing and punishment. Previously CRIMJ 131. Mandatory decimal grading.

CRIMINAL JUSTICE & 106
Juvenile Justice (5)

An in-depth study of the Juvenile Justice System, its history and theories related to juvenile laws, causation of juvenile behavior, the proper methods of dealing with juveniles in the court system, and Washington state law relating to juvenile procedures. Previously CRIMJ 138. Mandatory decimal grading.
CRIMINAL JUSTICE 110
Criminal Law (5)
A study of the nature and purpose of the criminal law, its sources, limitations and general principles, defenses and the wide range of criminal conduct covered by the criminal law. The Revised Code of Washington is also studied. Previously CRIMJ 133. Mandatory decimal grading.

CRIMINAL JUSTICE 112
Introduction to Criminology (5)
Analysis of the criminal justice system. Discussion of its strengths, weaknesses and its effects on crime and delinquency. Study and discussion of the cause and reaction to criminal behavior. Dual listed as SOC 112. Previously SOC 280. Mandatory decimal grading.

CRIMINAL JUSTICE 120
Administration of Justice (5)
A study of the structure and processes of the federal and state courts in America, their organization and jurisdiction and the impact of the Constitution upon them, as well as an examination of the roles of judges, attorneys, and law enforcement when citizens are charged with crimes. Previously CRIMJ 134. Mandatory decimal grading.

CRIMINAL JUSTICE 130
Police Records and Report Writing (4)
Procedures of field note taking, crime scene recording and correct preliminary investigation method of writing reports; fundamentals of police record systems. Previously CRIMJ 132. Prerequisite: ENGLX 101 or equivalent ASSET test score is recommended. Mandatory decimal grading.

CRIMINAL JUSTICE 135
Crime Prevention (2)
An in-depth study of the fundamentals of achieving safety and security. Students will examine crime prevention from the perspective of individuals, businesses and law enforcement. Previously CRIMJ 135. Mandatory decimal grading.

CRIMINAL JUSTICE 137
Essentials of Interviewing (3)
A study of concepts and techniques for effectively interviewing victims and witnesses of crimes and interrogating of suspects, as well as the proper methods and format for obtaining and recording written statements and confessions. Previously CRIMJ 137. Mandatory decimal grading.

CRIMINAL JUSTICE 238
Criminal Evidence and Constitutional Law (5)
Examines the role played by the U.S. and Washington state Constitutions in the application of criminal law and procedures. Students will analyze U.S. Supreme Court decisions and their effect on the admissibility of evidence. Previously CRIMJ 238. Mandatory decimal grading.

CRIMINAL JUSTICE 240
Intro to Forensic Science (5)
An overview of the scientific evaluation of physical evidence including firearms, documents, chemicals, serology, trace, and latent prints. The value of physical evidence and the guidelines for collection will also be examined. Previously CRIMJ 240. Prerequisite: CJ&101, CJ 241 or instructor permission. Mandatory decimal grading.

CRIMINAL JUSTICE 241
Principles of Investigation I (5)
An in-depth study of the fundamentals, functions and elements of criminal investigations including preliminary and follow-up investigations leading to successful prosecutions. Challenges faced in investigations will be discussed. Previously CRIMJ 241. Prerequisite: CJ&101 or instructor permission. Mandatory decimal grading.

CRIMINAL JUSTICE 242
Principles of Investigation II (5)
An in-depth study of the fundamentals, functions and elements of criminal investigations in particular types of crimes. Information received in 241 will be built upon. Specific high-profile cases will be examined. Previously CRIMJ 242. Prerequisite: CJ 241 or instructor permission. Mandatory decimal grading.

CRIMINAL JUSTICE 245
Theory of Defensive & Control Tactics (5)
Explores the theories and application of physical and verbal force based on the use of force continuum in the control and apprehension of violent offenders. Techniques in control, defense and handcuffing will be performed. Previously CRIMJ 243. Prerequisite: Criminal Justice major or instructor permission. Mandatory decimal grading.

CRIMINAL JUSTICE 248
Ethical Issues In Criminal Justice (5)
Discussion of the philosophical, psychological, moral and ethical underpinnings of human behavior in the Criminal Justice system. Examines ethical challenges within the system. Previously, CRIMJ 248. Dual listed with PHIL 248. Prerequisite: Criminal Justice major or instructor permission. Mandatory decimal grading.

CRIMINAL JUSTICE 249
Police Operations (5)
A study of the organizational culture, organization structures, staffing, and utilization of resources within police departments. The support and staff functions which assist patrol and other line operations in accomplishing the department's mission will be examined. Patrol operations will be emphasized. Previously CRIMJ 249. Mandatory decimal grading.

CRIMINAL JUSTICE 290
Internship (5)
A program in which the student will work directly with a criminal justice agency in a wide variety of tasks to give the student a better understanding day to day operation and the tasks performed by a part of the criminal justice system. Previously CRIMJ 273. Mandatory decimal grading.

CRIMINAL JUSTICE 291
Special Topics In Criminal Justice (1)
Courses for criminal justice personnel desiring emphasis in a particular area relating to the criminal justice system. Mandatory decimal grading. Previously CRIMJ 281.

CRIMINAL JUSTICE 292
Special Topics In Criminal Justice (2)
Courses for criminal justice personnel desiring emphasis in a particular area relating to the criminal justice system. Previously CRIMJ 282. Mandatory decimal grading.

CRIMINAL JUSTICE 293
Special Topics In Criminal Justice (3)
Courses for criminal justice personnel desiring emphasis in a particular area relating to the criminal justice system. Previously CRIMJ 283. Mandatory decimal grading.

CRIMINAL JUSTICE 294
Special Topics In Criminal Justice (4)
Courses for criminal justice personnel desiring emphasis in a particular area relating to the criminal justice system. Previously CRIMJ 284. Mandatory decimal grading.

CRIMINAL JUSTICE 295
Special Topics In Criminal Justice (5)
Courses for criminal justice personnel desiring emphasis in a particular area relating to the criminal justice system. Previously CRIMJ 285. Mandatory decimal grading.

CRIMINAL JUSTICE 297
Individual Project In Criminal Justice (1)
Individual project in a specific area of Criminal Justice. By arrangement with instructor. Previously CRIMJ 297. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

CRIMINAL JUSTICE 298
Individual Project In Criminal Justice (3)
Individual project in a specific area of Criminal Justice. By arrangement with instructor. Previously CRIMJ 298. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

CRIMINAL JUSTICE 299
Individual Project In Criminal Justice (5)
Individual project in a specific area of Criminal Justice. By arrangement with instructor. Previously CRIMJ 299. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Mandatory decimal grading.

DENTAL HYGIENE 100
Head and Neck Anatomy (2)
The study of the anatomy of the head and neck—specifically the bony structures, blood supply, musculature, and nerve supply. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.
DENTAL HYGIENE 101
Histology/Embryology (3)
The study of the development, histology and function of the tissues in the oral cavity. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 102
Princ of General Pathology and Systemic Disease (2)
The study of general disease conditions that affect the human body and dental treatment. Introduction to terminology, specific diseases and their causes. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 110
Dental Radiology (2)
The study of the fundamentals of radiology and radiation hygiene, with demonstration and practice in the exposing and processing of intra-oral radiographs. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 111
Dental Radiology (3)
Continuation of DENHY 110 with continued emphasis on intra-oral radiographic techniques. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 112
Dental Anatomy and Morphology (2)
Lecture and laboratory exercises on nomenclature, anatomy, morphology and function of the primary and permanent dentitions. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 114
Oral Pathology (2)
The recognition and etiology of clinical oral pathologies of the oral/facial area. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 115
Pain Control I (3)
A study of physiology, pharmacology of local anesthetic drugs, complications, patient evaluation, and techniques utilized in the administration of local anesthetics in dentistry. Previously DENHY 132. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 120
Medical Emergencies (2)
Lectures and clinical exercises preparing the student to prevent, recognize, and respond to medical emergencies in the dental setting. Previously DENHY 131. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 121
Clinical Dental Hygiene Lab (3)
Introduction to clinic procedures and patient examination techniques. Previously DENHY 150. Prerequisite: Admission to Dental Hygiene Program or permission of the instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 122
Clinical Dental Hygiene (4)
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 160. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 123
Clinical Dental Hygiene (4)
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 180. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 124
Clinical Dental Hygiene (3)
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 191. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 125
Clinical Dental Hygiene (4)
Lecture and discussion pertinent to clinical skills and related subjects which will be applied in dental hygiene clinic. Previously DENHY 181. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 126
Ethics and Jurisprudence (3)
Lectures and discussions regarding ethics and jurisprudence related to the practice of dentistry and dental hygiene. Previously DENHY 121. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

DENTAL HYGIENE 127
Procedures Seminar I (1)
First-year, weekly discussion and lecture sessions with special emphasis on program policies and procedures for lab and clinic operation and WISHA regulations for blood borne pathogen exposure control and hazard control. Previously DENHY 152. Prerequisite: Admission to Dental Hygiene Program or permission of instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 128
Procedures Seminar II (1)
First-year, weekly discussion and lecture sessions with special emphasis on patient care planning/referrals, and policies and procedures for clinical operation. Occasional guest lectures are included. Previously DENHY 162. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 129
Periodontology I (2)
The recognition and etiology of diseases of the periodontium. This is the first course in a series of three consecutive courses in periodontology, and provides fundamental knowledge in the field of dental hygiene. Previously DENHY 105. Prerequisite: Admission to the Dental Hygiene Program and satisfactory progress in the program. All First Year students are required to take this course. Mandatory decimal grading.
**DENTAL HYGIENE 162**  
Periodontology II (2)  
Continuation of the study of periodontal disease, with increased scope and depth concerning histopathology and etiologies of periodontal disease. Emphasis is placed on non-surgical treatment of the various types of periodontal disease. Previously DENHY 104. Prerequisite: Admission to the Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

**DENTAL HYGIENE 171**  
Community and Public Health Dentistry I (2)  
Students work in groups to develop and implement a community based program with an educational component. Lectures cover the ADPIE model for program planning, teaching methods, analysis of special group characteristics, formulation of lesson plans and development of visual aids. Previously DENHY 120. Prerequisite: Admission to the Dental Hygiene program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 181**  
Restorative Dentistry I (3)  
Introduction to restorative dentistry procedures, including rubber dam application, alginate impressions, study models, sealants, mercury hygiene, matrix and wedge application, amalgam carving and L.A. Chemical and physical properties of the materials used will also be studied. Previously DENHY 140. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 182**  
Restorative Dentistry II (1)  
Preclinical laboratory exercises in placement and finishing of amalgam restorations. Previously DENHY 232. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/NC grading.

**DENTAL HYGIENE 215**  
Pain Control II (2)  
Lecture, demonstration and clinical application of nitrous oxide analgesia and local anesthesia. Lectures on other pain control modalities used in dentistry. Previously DENHY 232. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 221**  
Clinical Dental Hygiene (6)  
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 250. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 222**  
Clinical Dental Hygiene (6)  
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 260. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 223**  
Clinical Dental Hygiene (6)  
Performance of traditional dental hygiene clinical procedures on patients from the campus and community. Previously DENHY 270. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 231**  
Dental Hygiene Fundamentals V (2)  
Lectures, discussions, and practice labs pertinent to clinical skills and related subjects which will be applied in dental hygiene clinic. Previously DENHY 261. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 232**  
Dental Hygiene Fundamentals VI (2)  
Lectures and discussions relating to entry into the dental hygiene profession and presentation of perio-control project. Previously DENHY 271. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 241**  
Procedures Seminar V (1)  
Second-year weekly discussion and lecture sessions with special emphasis on patient care planning/referrals and policies and procedures for clinical operation. Occasionally guest lectures are included. Previously DENHY 252. Prerequisite: Admission to Dental Hygiene Program or permission of instructor. Mandatory P/0.0 or P/NC grading.

**DENTAL HYGIENE 242**  
Procedures Seminar VI (2)  
Second-year, weekly discussion and lecture sessions with special emphasis on patient care planning/referrals, and policies and procedures for clinical operation, plus Mock Board patient selection criteria. Occasionally guest lectures are included. Previously DENHY 262. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/NC grading.

**DENTAL HYGIENE 243**  
Procedures Seminar VII (1)  
Second-year, weekly discussion and lecture sessions with special emphasis on patient care planning/referrals, policies and procedures for clinical operation, and preparation for the restorative and written portions of the State and Western Regional Licensing Exams. Previously DENHY 272. Prerequisite: Admission to Dental Hygiene Program or permission of instructor.

**DENTAL HYGIENE 250**  
Dental Gerontology (1)  
A course dealing with the special knowledge, attitudes, and technical skills required to provide oral health care to older adults. Previously DENHY 183. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 251**  
Patient Records III (1)  
Discussion sessions for 2nd year students with special emphasis on patient chart record keeping, patient care planning/referrals, policies/procedures necessary to fulfill legal duties owed to patients. Patient exams/charting performed with instructor assistance. Previously DENHY 290. Prerequisite: Admission to Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

**DENTAL HYGIENE 252**  
Patient Records IV (1)  
Weekly discussion sessions for second-year students with special emphasis on patient chart record-keeping, and policies and procedures necessary to fulfill legal duties owed to patients, and maintain positive public relations. Includes screening exams on patients. Previously DENHY 291. Prerequisite: Admission to Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

**DENTAL HYGIENE 253**  
Patient Records V (1)  
Discussion sessions for 2nd year students with emphasis on patient chart record keeping, patient care planning/referrals, policies/procedures necessary to fulfill legal duties owed to patients. Patient exams/charting performed with minimal instructor assistance. Previously DENHY 292. Prerequisite: Admission to Dental Hygiene Program or permission of instructor. Mandatory decimal grading.

**DENTAL HYGIENE 260**  
Care of the Patient With Special Needs (1)  
Educational experiences which will enable each student to recognize the physiological, psychological, psychosocial, medical, and oral aspects of disabling conditions in preparation for clinical management of such patients. Previously DENHY 230. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 261**  
Periodontology III (1)  
Continuation of the study of periodontal disease. Emphasis is placed upon the surgical, reconstructive and maintenance phases of periodontal therapy. Previously DENHY 204. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

**DENTAL HYGIENE 270**  
Professional Issues (1)  
Lecture and discussion regarding the practice of dental hygiene including resume development, interviewing techniques, patient scheduling systems, employment contracts and dental staff relations. Previously DENHY 222. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.
DENTAL HYGIENE 271
Public Health/Community Dentistry (2)
Introduction to the basic principles of public health theory, methods, research, social epidemiology and its impact on dental health education and the dental care delivery system. Previously DENHY 220. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 272
Special Community Dental Health Project (1)
Advanced study area in community dental health with community projects to be arranged on an individual basis with the instructor. Previously DENHY 221. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 278
Extramural Clinic I (1)
Special clinical rotation for second-year students to attend individualized clinical experiences, with dental hygiene treatment for patients in extramural community clinics. Previously DENHY 263. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 281
Restorative Dentistry III (3)
A study of restorative dentistry procedures and materials including the chemical and physical properties, selection, usage and manipulation. Previously DENHY 240. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 282
Restorative Dentistry Preclinical and Clinic (3)
Preclinical laboratory exercises in the placement and finishing of amalgam and composite restorations. Previously DENHY 241. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 283
Restorative Clinic (2)
Clinical experience in restorative dentistry procedures. Previously DENHY 242. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 284
Restorative Clinic (2)
Clinical experience in restorative dentistry procedures. Previously DENHY 244. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 288
Extramural Clinic II (1)
Special clinical rotation for second-year students to attend individualized clinical experiences, with dental hygiene treatment for patients in extramural community clinics. Previously DENHY 273. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory P/0.0 or P/NC grading.

DENTAL HYGIENE 291
Special Topics In Dental Hygiene (1)
Classes focusing on specific issues and/or topics of interest in dental hygiene. Previously DENHY 281.

DENTAL HYGIENE 292
Special Topics In Dental Hygiene (2)
Classes focusing on specific issues and/or topics of interest in dental hygiene. Previously DENHY 282.

DENTAL HYGIENE 297, 298, 299
Individual Project In Dental Hygiene (1, 2, 3)
Individual project in a specific area of dental hygiene. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Mandatory decimal grading.

DENTAL HYGIENE 284
Restorative Clinic (2)
Clinical experience in restorative dentistry procedures. Previously DENHY 244. Prerequisite: Admission to the Dental Hygiene Program or permission of the instructor. Mandatory decimal grading.

DENTAL HYGIENE 291
Special Topics In Dental Hygiene (1)
Classes focusing on specific issues and/or topics of interest in dental hygiene. Previously DENHY 281.

DENTAL HYGIENE 292
Special Topics In Dental Hygiene (2)
Classes focusing on specific issues and/or topics of interest in dental hygiene. Previously DENHY 282.

DENTAL HYGIENE 297, 298, 299
Individual Project in Dental Hygiene (1, 2, 3)
Individual project in a specific area of dental hygiene. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Mandatory decimal grading.

DRAAMA 101/101W
Introduction to Theatre (5)
Students learn about dramatic traditions throughout history by reading plays from ancient to contemporary times. Students will be able to analyze works of drama using the historical, political, cultural and social context as well as the elements of dramatic literature and presentation. Dual listed with ENGL & 114. Previously DRAMA 101/101W. Student option grading.

DRAAMA 144
Acting (5)
This is a creatively rigorous introduction to the craft of acting. Students learn the theory and practice of acting thru exercises, rehearsals and performances. By arrangement with instructor. Prerequisite: Instructor permission. Mandatory decimal grading.

DRAAMA 145
Acting (5)
Students practice acting, improving their abilities to concentrate, relax, listen and observe and practice empathy. Essential for students pursuing film, TV or stage careers. Open to all levels of experience. Previously DRAMA 151. Student option grading.

DRAAMA 146
Acting (5)
Continues the work begun in DRAMA 156. Students perform one-act operas and operettas in full production. Previously DRAMA 166. Prerequisite: Permission of instructor after audition. Mandatory decimal grading.

DRAAMA 156
Acting, Writing, Directing for the Camera I (5)
Fast-paced introduction to film and video production. Students learn the fundamentals of studio protocol and camera use. Discussion of films in terms of cinematic styles, acting and screenplay structure along with exercises in acting and directing will culminate in the writing and filming of original productions. Previously DRAMA 156. Student option grading.

DRAAMA 157
Acting, Writing, Directing for the Camera II (5)
Continues the work begun in DRAMA 156. Reviews the elements used to create a film or video program. Students select one area for a project focus. Previously DRAMA 157. Prerequisite: DRAMA 156. Student option grading.

DRAAMA 164
Musical Theater Performance (1)
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shoreline Campus Theater. This course is dual listed as MUSIC 164. Previously DRAMA 164. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

DRAAMA 165
Musical Theater Performance (2)
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shoreline Campus Theater. This course is dual listed as MUSIC 165. Previously DRAMA 165. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

DRAAMA 166
Musical Theater Performance (3)
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shoreline Campus Theater. This course is dual listed as MUSIC 166. Previously DRAMA 166. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

DRAAMA 167
Opera Workshop (1)
Permission of instructor. Previously DRAMA 161. Student option grading.

DRAAMA 168
Opera Workshop (2)
Students perform one-act operas and opera scenes from familiar and unfamiliar operas and operettas in full production and usually in English. This course is dual listed as MUSIC 162. Previously DRAMA 152. Prerequisite: Instructor permission based on student audition. Mandatory decimal grading.

DRAAMA 169
Opera Workshop (3)
Students perform one-act operas and opera scenes from familiar and unfamiliar operas and operettas in full production and performed in English. This course is dual listed as MUSIC 163. Previously DRAMA 163. Prerequisite: Instructor permission based on student audition. Mandatory decimal grading.
DRAMA 174
Circus Performance: Balance and Motion (3)
Expand dramatic and kinesthetic abilities. Learn juggling, rope walking and other circus skills. Study and practice theories of balance and motion. Develop historical and international perspectives on performance art. Create a dramatic performance as a final project. Excellent training for actors. Previously DRAMA 171. Dual listed as PE 174. Student option grading.

DRAMA 190
Special Project: Scene Design (3)
A project proposed by the student and approved by a member of the drama staff who will act as advisor. Previously DRAMA 213. Permission. Student option grading.

DRAMA 191
Special Project: Costume Design (3)
A project proposed by a student and approved by a member of the drama staff who will act as an advisor. Previously DRAMA 214. Permission. Student option grading.

DRAMA 192
Special Project: Lighting (3)
A project proposed by a student and approved by a member of the drama staff who will act as advisor. Previously DRAMA 215. Permission. Student option grading.

DRAMA 193
Special Project: Playwriting (3)
Seminars class meeting once a week with instructor. Purpose to work with playwrights on their own specific projects. Previously DRAMA 217. Prerequisite: Permission of instructor. Student option grading.

DRAMA 194
Special Project: Directing (3)
A project proposed by a student and approved by a member of the drama staff who will act as advisor. Previously DRAMA 218. Permission. Student option grading.

DRAMA 195
Special Project: Advanced Acting (3)
A project proposed by a student and approved by a member of the drama staff who will act as advisor. Previously DRAMA 219. Permission. Student option grading.

DRAMA 196
Special Project: Movement (3)
A project proposed by a student and approved by a member of the drama staff who will act as advisor. Previously DRAMA 220. Prerequisite: Permission of the instructor. Student option grading.

DRAMA 207
Theatrical Production (1)
Laboratory for students participating in productions: acting, directing or technical. Previously DRAMA 207. Prerequisite: Permission of drama instructor. Student option grading.

DRAMA 208
Theatrical Production (2)
Laboratory for students participating in productions: acting, directing or technical. Previously DRAMA 208. Prerequisite: Permission from instructor. Student option grading.

DRAMA 209
Theatrical Production (3)
Laboratory for students participating in productions: acting, directing or technical. Previously DRAMA 209. Prerequisite: Permission of drama instructor. Student option grading.

DRAMA 222
Theater Career Planning and Auditioning (2)
Study of possible career opportunities in theater and the process of selection and application to programs and schools through interviews, resumes, application and audition. Field trips and special speakers. Previously DRAMA 221. Student option grading.

DRAMA 225
Improvisational Theater (2)
A study of individual and ensemble techniques, the course is concerned with developing the ability to respond creatively and improvisationally to a variety of situations. Previously DRAMA 295. Student option grading.

DRAMA 226
Children’s Theater Production (5)

DRAMA 228
Theater Career Planning and Auditioning (2)
Study of possible career opportunities in theater and the process of selection and application to programs and schools through interviews, resumes, application and audition. Field trips and special speakers. Previously DRAMA 221. Student option grading.

DRAMA 229
Experimental Theater (5)
Faculty-directed new play scripts or scripts done from an experimental point of view. Prerequisite: Admission by permission of instructor after audition. Previously DRAMA 211. Student option grading.

DRAMA 230
Experimental Theater (5)
Faculty-directed new play scripts or scripts done from an experimental point of view. Prerequisite: Admission by permission of instructor after audition. Previously DRAMA 211. Student option grading.

DRAMA 233
Stage Technology (5)
Lecture-laboratory in basic theories, techniques and equipment used for stage scenery, sound and lighting. Previously DRAMA 210. Student option grading.

DRAMA 234
Stage Technology (5)
Lecture-laboratory in basic theories, techniques and equipment used for stage scenery, sound and lighting. Previously DRAMA 210. Student option grading.

ECONOMICS 100
Survey of Economic Principles (5)
A survey of how capitalism works: how we choose what to buy, where to work, and how businesses and governments affect our lives, the environment and the world. Not recommended for students seeking a bachelor’s degree in economics or business. Prerequisites: Placement in ENGL 100 or higher. Mandatory decimal grading.

ECONOMICS 201
Micro Economics (5)
How do consumer and producer choices influence social outcomes? Issues include competition and corporate power, wealth and poverty, environmental quality, and role of government in a market economy. Previously ECON 200. Prerequisite: MATH 099 (2.0 or better) or MATH 097 AND MATH 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test (or equivalent score on SAT, ACT or ASSET). Mandatory decimal grading.

ECONOMICS 202
Macro Economics (5)
What determines national economic growth and prosperity? What causes booms and busts? What are the effects of government policies regarding taxes, government spending and money supply? Issues include: unemployment, inflation, international trade and globalization. Previously ECON 201. Prerequisites: ECON 201 Micro Economics or equivalent with instructor permission. Mandatory decimal grading.
ECONOMICS 283
Special Topics In Economics (4)
A series of courses designed to be an introduction to selected sub-specialties within the discipline of economics. Each course will focus on a single issue area and/or topic and will employ the techniques and concepts used by economists. Mandatory decimal grading. Previously ECON 284.

ECONOMICS 282
Special Topics In Economics (1)
Mandatory decimal grading. Dual listed as BUS 215. Prerequisite: BUS&E 101 or instructor permission. Mandatory decimal grading.

ECONOMICS 281
Special Topics In Economics (3)
A series of courses designed to be an introduction to selected sub-specialties within the discipline of economics. Each course will focus on a single issue area and/or topic and will employ the techniques and concepts used by economists. Mandatory decimal grading. Previously ECON 285.

ECONOMICS 273
Budget Forum (2)
In a game/simulation format, students debate the tradeoffs that citizens and policy makers face in meeting budget constraints and priorities. Students will actively simulate the spending and tax decisions using real-world data that face elected officials. Mandatory decimal grading. Dual listed as POLS 272.

ECONOMICS 272
ECONOMICS 270
American Economic History (5)
An analysis of American economic growth and change interpreted as part of the general expansion of the North Atlantic economy. Stresses the historical background to contemporary American economic problems. Mandatory decimal grading.

ECONOMICS 260
Special Topics In Economics (1)
Mandatory decimal grading. Previously ECON 295.

ECONOMICS 294
Special Topics In Economics (4)
A series of courses designed to be an introduction to selected sub-specialties within the discipline of economics. Each course will focus on a single issue area and/or topic and will employ the techniques and concepts used by economists. Mandatory decimal grading. Previously ECON 284.

ECONOMICS 297, 298, 299
Individual Project In Economics (1, 2, 3)
ECONOMICS 295

EDUCATION & 115
Child Growth and Development (5)
Explore the stages of development from prenatal through eight years of age, based on current research. Development is approached from a multidisciplinary perspective, with an emphasis on observation, family interview, literature review and developmental assessment. Previously EDU 101. Student option grading.

EDUCATION 116
Language and Literacy (5)
Gain research-based knowledge and skills to support emerging literacy and language of children from birth - 2nd grade. Learn developmentally appropriate and culturally sensitive strategies to promote and assess language and literacy learning in classroom and family settings. Previously EDU 105. Student option grading.

EDUCATION 117
Culturally Relevant Anti-Bias Strategies (5)
Examine the impact of individual and institutional bias upon children and families of under-represented groups in US society. Develop strategies to create anti-bias and culturally sensitive classrooms, support social action, and assist children and families in self-advocacy. Previously EDU 115. Student option grading.

EDUCATION 118
Math In Early Education (5)
Students will learn to integrate effective and developmentally appropriate math content and processes into supporting the learning of pre-K through 2nd grade children. Topics related to understanding and managing testing and IEP practices in early education are included. Previously EDU 106. Prerequisite: MATH 070 or equivalent; and one Education course or permission of instructor. Student option grading.

EDUCATION 124
Strategies and Methods: Bilingual/Bicultural Edu (5)
Explore the fundamental principles of education for second language learners in early education settings. Course content will examine the effects of culture on language development and effective bilingual strategies for first and second language acquisition. Previously EDU 121. Student option grading.

EDUCATION 125
The Educational Context of Linguistics (5)
Language is one of the most powerful transmitters of culture. We will examine the role of language as a tool for social domination or liberation. Particular emphasis will be placed on issues of bilingualism, language development process, and literacy acquisition in early childhood. Previously EDU 122.

EDUCATION 126
Multi Ethnic Children and Families (5)
Within the context of early education, explore topics of culture and cognition, bilingualism, the bicultural process, bilingual/bicultural child development, and cultural psychological dynamics as they relate to the development of personality and racial/ethnic identity. Previously EDU 123. Student option grading.

EDUCATION 140
Instructional Methods: K-3 (5)
Explore concepts, materials and methods in the early elementary years. Content will incorporate a multicultural perspective that supports the learning styles of individual children. Previously EDU 140. Prerequisites: EDUC& 202 and EDUC& 115 recommended.

EDUCATION 150
Early Childhood Curriculum Development (5)
Examine theories and models of curriculum in early childhood education. Students will explore culturally relevant methods used to support learning. Students will practice developing curricula in early childhood settings. Previously EDU 150. Prerequisites: EDUC& 115 recommended. Student option grading.

EDUCATION 160
Programs for Infants and Toddlers (5)
Explore approaches to nurturing the development of typically developing and ‘at risk’ infants and toddlers. Identify program models and develop instructional materials for use with this age. Previously EDU 160. Prerequisite: EDUC& 115 recommended. Student option grading.

EDUCATION & 202
Introduction to Education (5)
Explore approaches to nurturing the development of typically developing and ‘at risk’ infants and toddlers. Identify program models and develop instructional materials for use with this age. Previously EDU 160. Prerequisite: EDUC& 115 recommended. Student option grading.
EDUCATION& 204
Exceptional Child (5)
Explore the history, current research, best practices, social and political issues in the provision of support for individuals with disabilities in education settings. Previously EDU 125. Prerequisite: EDUC& 202 recommended. Student option grading.

EDUCATION 210
Best Practices In Special Education (5)
This course will explore the systems and instructional methods used to teach exceptional students in regular and special education. We will develop strategies for collaboration between professionals and parents. Previously EDU 210. Prerequisite: EDUC& 204 recommended. Student option grading.

EDUCATION 215
Family Systems (5)
Learn about the inter-relationship of family, school, and community as it relates to child development, family structures and dynamics, interpersonal communication, parent-professional partnerships and resource coordination. Previously EDU 215. Prerequisite: EDUC& 115. Student option grading.

EDUCATION 250
Child Guidance and Classroom Management (5)
This course features a practicum experience, providing students insights into the role that environment, adult behavior and interactions and curriculum play in guiding individual children’s behavior and managing large and small groups of children. Previously EDU 250. Prerequisite: EDUC& 115. Student option grading.

EDUCATION 265
Issues and Trends In Childhood Education (5)
Examine, analyze and interpret issues and trends in Early Childhood Education within the context of a rapidly changing society. Topics include educational reform, student assessment, teacher training, inclusion, multiculturalism and diversity, curriculum innovations, educational technology. Previously EDU 265.

EDUCATION 290
Student Internship I (5)
Gain experience in a classroom setting; apply skills in teamwork, classroom management, curriculum development, teaching and professionalism. Develop a portfolio; attend weekly seminars with peers. Previously EDU 260. Prerequisites: EDUC 140, 150 or 160 and EDUC 250 or instructor permission. Student option grading.

EDUCATION 291
Special Topics In Education (1)
Classes focusing on specific issues and/or topics of interest in Education. Previously EDU 281.

EDUCATION 292
Special Topics In Education (2)
Classes focusing on specific issues and/or topics of interest in Education. Previously EDU 282.

EDUCATION 293
Special Topics In Education (3)
Classes focusing on specific issues and/or topics of interest in Education. Previously EDU 283.

EDUCATION 294
Special Topics In Education (4)
Classes focusing on specific issues and/or topics of interest in Education. Previously EDU 284.

EDUCATION 295
Special Topics In Education (5)
Classes focusing on specific issues and/or topics of interest in Education. Previously EDU 285.

EDUCATION 296
Student Internship II (5)
This is the advanced level of the student internship sequence. Each student is expected to work as a team member and demonstrate professional skills at an advanced level. Continue weekly seminars and portfolio development. Previously EDU 261. Prerequisite: EDUC 290 and instructor permission. Student option grading.

EDUCATION 297
Individual Project In Education (1)
Individual project in a specific area of education. By arrangement with instructor. Previously EDU 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

EDUCATION 298
Individual Project In Education (2)
Individual project in a specific area of education. By arrangement with instructor. Previously EDU 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

EDUCATION 299
Individual Project In Education (3)
Individual project in a specific area of education. By arrangement with instructor. Previously EDU 299. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

EDUCATION 300
Introduction to Engineering and Design (4)
Introduction to the engineering profession and the engineering design process. Course includes guest speakers, team activities, and career planning. Communication, creative skills, and teamwork are developed utilizing journals, written reports, poster presentations, and sketching. Mandatory decimal grading.

ENGINEERING 100
Introduction to Statics and Engineering Problems (5)
Introduction to fundamental engineering principles including dimensional analysis, vector algebra, statics, and selected engineering topics. Designed to develop ability to analyze and solve engineering problems in a clear, systematic manner. Previously ENGR 111. Prerequisite: ENGR& 114 and MATH& 142 (MATH& 142 may be taken concurrently.) Mandatory decimal grading.

ENGINEERING& 114
Engineering Graphics (5)
Use of instruments, scales, techniques of lettering and line work. 3D visualization and fundamentals of orthographic projection including sections; isometric drawing; auxiliary views; dimensioning; simple rectilinear graphs, and introduction to CAD. Mandatory decimal grading. Previously ENGR 101.

ENGINEERING 115
Fundamentals of Material Science (5)
Studies the fundamental properties of engineering materials related to atomic, molecular and crystalline structures. The mechanical and physical properties of metals, ceramics, polymers, and composites will be studied. Prerequisite: CHEM 171 or permission. Mandatory decimal grading.

ENGINEERING 170
Introduction to Computer-Aided Drafting (5)
Basic commands; coordinate systems; data input; editing; layers; dimensioning; text commands; filing and plotting two dimensional construction; introduction to 3D modeling. Previously ENGR 200. Prerequisite: ENGR& 114 and trigonometry, or permission. Mandatory decimal grading.

ENGINEERING 202
Introduction to Computer-Aided Drafting (5)
Basic commands; coordinate systems; data input; editing; layers; dimensioning; text commands; filing and plotting two dimensional construction; introduction to 3D modeling. Previously ENGR 200. Prerequisite: ENGR& 114 and trigonometry, or permission. Mandatory decimal grading.
ENGINEERING 203
Advanced Computer-Aided Drafting (5)
Advanced applications of AutoCAD including: use of attributes, work with WBLOCK command; create sub-directories, menus and use of some DOS and Windows commands; 3D wire frames, surface and solid modeling. Previously ENGR 201. Prerequisite: ENGR 202 or permission. Mandatory decimal grading.

ENGINEERING 204
Fundamentals of Electrical Engineering (5)

ENGINEERING 205
Solid Works and Parametric Modeling (3)
Introduction to creating 3D CAD models using feature-based, parametric solid-modeling design; base, boss and cut features using extruded, revolved, simple swept and lofted shapes; capturing design intent using automatic or user-defined geometric and dimensional constraints; detail and assembly drawings. Prerequisites: ENGR& 114 and MATH 099 with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ENGINEERING 206
Advanced Solid Works (3)
Advanced 3D CAD models using SolidWorks parametric solid modeling; swept and lofted shapes; assembly interference checking, collision detection, dynamic clearance, physical dynamics, and simulation, surfaces, use of Photo Works rendering, and Cosmos FEA in linear static, frequency, buckling, and thermal analysis. Prerequisites: ENGR 205 with a 2.0 or better, or instructor permission. Mandatory decimal grading.

ENGINEERING& 214
Statics (5)
Principles of engineering statics, basic concepts, resultants, force-couple relationships, equilibriu diagrams, equilibrium analysis, three-dimensional structures, two-dimensional frames, trusses, beams and friction. Vector algebra used throughout the course. Previously ENGR 210. Prerequisite: ENGR& 114. ENGR 115 and MATH& 151. MATH& 151 may be taken concurrently. Mandatory decimal grading.

ENGINEERING& 215
Dynamics (5)
A general treatment of the dynamics of particles and rigid bodies using vectors; kinematics, kinetics, momentum and energy principles for particles and rigid bodies; use of total acceleration equation. Previously ENGR 230. Prerequisite: PHYS& 221, ENGR& 214 and MATH& 163 (MATH& 163 may be taken concurrently). Mandatory decimal grading.

ENGINEERING& 224
Thermodynamics (5)
Introduction to the basic principles of thermodynamics, from a predominantly macroscopic point of view. Development of the basic laws of thermodynamics, together with their illustration by application to energy transformations and state changes in engineering problems. Previously ENGR 260. Prerequisites: MATH& 163, CHEM 171, PHYS& 221. Mandatory decimal grading.

ENGINEERING& 225
Mechanics of Materials (5)
An introduction to the mechanics of solids, strain and deformation, stress, stress-strain relationships; torsion, stresses due to bending; combined stresses using Mohr's circle. Previously ENGR 220. Prerequisite: ENGR& 214 and MATH& 152 (MATH& 152 may be taken concurrently). Mandatory decimal grading.

ENGINEERING 294
Special Topics: Engineering (4)
Classes focusing on specific issues and/or topics of interest in engineering. Previously ENGR 284.

ENGINEERING 297, 298, 299
Individual Project In Engineering (1, 2, 3)
Individual project in a specific area of engineering. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

ENGINEERING TECHNOLOGY 159
Technical Orientation (5)
Introduction to the techniques and procedures for solving engineering problems. Basic geometry, trigonometric functions, vectors, unit systems and dimensional analysis. NOTE: Must have completed or be currently enrolled in MATH 80 or MATH 099. Mandatory decimal grading.

ENGINEERING TECHNOLOGY 190
Internship/Field Work Experience In Engrt (8)
Field experience in the technical area of the student's program. Arrangements and registration must be completed prior to the start of the quarter. Previously ENGR 180. Prerequisite: Permission only.

ENGINEERING TECHNOLOGY 295
Special Topics In Engrt (5)

ENGINEERING

ENGLISH 080
Critical Thinking In College and Life (10)
Students learn to think critically and reflectively by looking into themselves and out at their family, college, work and community. Strategies for reading, writing, problem-solving, reflection, group process, time management, goal-setting and involvement are learned in the context of their own college and life interests. Previously ENG 080. Prerequisite: Students need ASSET scores of 31 in Reading and 29 in Language Usage to take this class. Registration requires the signature of an approved advisor. Student option grading.

ENGLISH 089
Reading Center (3)
Individualized, self-paced instruction in reading comprehension, rate, study skills and/or vocabulary development. Does not replace ENGL 081 or ENGL 082. Useful for native speakers of English at all levels. Previously ENG 089. Prerequisite: Non-native speakers of English must have completed or be enrolled in ESL Level IV. Mandatory P/NC grading.

ENGLISH 090
Reading and Writing In the Academic Subjects (5)
Students learn about the various academic subjects and improve their reading, writing and critical thinking abilities in the subjects. The course helps students explore and understand their academic and career interests. Usually offered in conjunction with Study Skills 100 for a total of 10 credits. Previously ENG 090. Prerequisite: ASSET scores of 35 in Reading and 33 in Writing, COMPASS scores of 61 in Reading and 28 in Writing, or completion of ENGL 080 or equivalent with a 2.0 or better, or instructor permission. Student option grading.

ENGLISH 099
Writing Center (3)
Individualized, self-paced instruction in writing process, focusing on paragraph and essay-writing skills. May also include instruction on summaries, research writing, resumes, cover letters, book reports, spelling, punctuation and grammar. Does not replace ENGL 091 or ENGL 092. Useful for native speakers of English at all levels. Previously ENG 099. Prerequisite: Non-native speakers of English must have completed or be enrolled in ESL Level IV. Mandatory P/NC grading.

ENGLISH 100
Analytical Reading and Writing (5)
Students develop the academic skills in critical reading, writing, and thinking necessary for college-level work. Previously ENG 100. Prerequisites: COMPASS scores of 80 in Reading and 47 in Writing, or completion of ENGL 090 or equivalent with a 2.0 or better, or instructor permission. Student option grading.
ENGLISH& 101
English Composition I (5)
Students write essays that display focus, organization, appropriate style, and technical control. They develop skills in critical thinking and close reading of texts and respond in writing and discussion to assigned topics. Previously ENG 101. Prerequisites: COMPASS scores of 85 in Reading and 79 in Writing, or completion of ESL 100, ENGL 100, or equivalent with a 2.0 or better, or instructor permission. Student option grading.

ENGLISH& 102
Composition II: Reasoning/Research/Writing (5)
Students write research essays on various topics. Using both traditional and new information technologies, they develop skills as researchers, critical thinkers and writers of documented analysis and argumentation. Themes of individual sections are available at the online English page. Previously ENGL 102. Prerequisites: Completion of ENGL101 with a grade of 2.0 or better. Student option grading.

ENGLISH& 111/111W
Introduction to Literature (5)
Introduction to the major genres of imaginative literature, including poetry, drama, short story and novel. Previously ENG 201/ENG 201W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH& 112/112W
Introduction to Fiction (5)
Techniques of fiction; analysis of short stories and novels. Previously ENG 258/ENG 258W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH& 113/113W
Introduction to Poetry (5)
Poetic techniques with emphasis on the 19th and 20th century American poets from Walt Whitman to Sylvia Plath. Previously ENG 257/ENG 257W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH& 114/114W
Introduction to Drama (5)
Students learn about dramatic traditions throughout history by reading plays from ancient to contemporary times. Students will be able to analyze works of drama using the historical, political, cultural and social context as well as the elements of dramatic literature and presentation. Dual listed as DRAMA 101. Previously ENG 259/ENG 259W. Student option grading.

ENGLISH 134
Technical Writing for the Health Sciences (3)
Principles of composition applied to the health sciences: case studies, documentation forms, policy statements, memoranda. Previously ENG 132. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 145/154W
Great Works of Asian Literature (5)
Students explore classic literature of Asian countries such as China, Japan, India, Vietnam and Korea. They will examine how the literature and sense of beauty in each country are influenced by Asian thought: Buddhism, Daoism, Confucianism and Hinduism. Texts may include fiction, plays, film and poetry. Previously ENG 151/ENG 151W. Prerequisite: ENGL& 101 (minimum grade 2.0) Student Option Grading.

ENGLISH 190/190W
Literature By Topic (5)
Intensive study of key topics in imaginative literature. Analysis and discussion of poetry, drama, short stories, essays and novels selected according to special concerns. Offerings will vary from quarter to quarter. See the time schedule for the current listing. A student may take more than one section of ENGL 190. Previously ENG 202/ENG 202W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH 200
Survey of World Literature (5)

ENGLISH 215/215W
Canadian Literature (5)
Focus on the study of Canadian literature, including poetry, short stories and novels. Course includes contemporary Canadian authors such as Margaret Atwood, Mordecai Richler and Robertson Davies. Previously ENG 215/ENG 215W. Student option grading.

ENGLISH 218/218W
Literature of the American West (5)
Course considers the question: What can great writers tell us about the places we live and about our own lives? Focus on contemporary writing about the American West, in which landscape and climate are important elements. Also considered are earliest writings and the mythological West. Previously ENG 208/ENG 208W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH 220/220W
Introduction to Shakespeare (5)
Students explore Shakespeare's works both as texts and in performance on stage and in film. Readings may include Hamlet, Othello, As You Like It and the sonnets. Students will also learn about Shakespeare's life and times in Elizabethan England and become familiar with several critical approaches to Shakespeare. Previously ENG 231/ENG 231W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 226/226W
British Literature I (5)
Medieval through Shakespeare: Readings in romances, lyrics, epic and drama. Authors and works may include Boccaccio, the Gawain poet, Middle English Lyrics, Chaucer, Spenser, Marlowe, Shakespeare and others. Emphasis on linguistic diversity, cultural and historical influences on language and evolution of genres. Previously ENG 264/ENG 264W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH 227/227W
British Literature II (5)
Donne through Blake: Authors may include Milton, Marvell, Dryden, Swift, Montagu, Wordsworth, Coleridge, Tennyson, Browning, the Brontes, Dickens, Eliot, Woolf and others. Emphasis is on literary movements and the influence of social developments on literature. Previously ENG 265/ENG 265W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH 229/229W
Gothic Literature (5)
Romantic through early 20th century: Authors may include Blake, Shelley, Keats, Byron, Wordsworth, Coleridge, Tennyson, Browning, the Brontes, Dickens, Eliot, Woolf and others. Emphasis is on literary movements and the influence of social developments on literature. Previously ENG 266/ENG 266W. Prerequisite: Completion of ENGL& 101 with a 2.0 or better. Mandatory Decimal Grading.

ENGLISH 229W
Gothic Literature (5)
Students explore how Gothic literature challenges conventional views through horror, the irrational, and the supernatural and examines how this literature expresses political, social, and cultural fears. They also trace the genre's transformations through three centuries of British and American literature and film. Previously ENG 266/ENG 266W. Prerequisite: Completion of ENGL101 with a 2.0 or better. Mandatory Decimal Grading.

ENGLISH 230
Technical Report Writing (3)
Students learn the fundamental principles and practices of effective technical writing in business, non-profit and/or government environments. Writing includes reports, letters, resumes, progress reports, brochures, technical reports, newsletters, executive summaries, surveys, and project documentation. Previously ENG 270. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 244/244W
American Literature I (5)
Beginnings to 1860. May include Meetings of New and Old World People, Puritanism, Enlightenment, Transcendentalism and Romanticism studied in diaries, letters, essays, slave narratives oratory, fiction and poetry. May include Bradford, Bradstreet, Edwards, Franklin, Douglass, Hawthorne, Emerson, Thoreau, Melville and others. Previously ENG 267/ENG 267W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.
ENGLISH 245/245W
American Literature II (5)
1860 to 1914. Trends and periods may include Regionalism, Naturalism and emerging Ethnic and Feminist Voices. Poetry, fiction, diaries, autobiographies and essays represent the diversity of voices of American literary culture. Authors may include Dickinson, Whitman, Twain, James, Chopin, Gilman, Washington, DuBois, Robinson and others. Previously ENG 268/ENG 268W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 246/246W
American Literature III (5)
1914 to the present. Modernism , Harlem Renaissance, New Drama,Existentialism, Pluralism and Diversity studied in poetry, fiction, drama, autobiography and nonfiction. Authors may include Eliot, Fitzgerald, Moore, Plath, Baldwin, Kingston, Hughes, Hurston, Walker, Porter, Welty, Wright, Ginsberg, Rich, Silko, others. Previously ENG 269/ENG 269W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 247/247W
African American Literature (5)
This class presents African-American literature in its social, political, historical and cultural context. We will explore how the literature reflects experiences unique to African-Americans while presenting characters, settings, themes and experiences shared by all: heartbeat, joy, fear, loss, love and death. Previously ENG 225/ENG 225W. Prerequisite: ENGL& 101 or instructor approval. Student Option Grading.

ENGLISH 248/248W
Modern American Women Writers (5)
This course examines how modern women writers explore, express, and construct identity and experience through literature. Students will read literature from multiple perspectives and cultures in the U.S. Authors may include Hurston, Erdrich, Lahiri, Lorde, Morrison, Ozick, Tan, Viramontes, Wharton and Yamamoto. Previously ENG 236/ENG 236W. Prerequisite: ENGL& 101 or instructor approval. Student Option Grading.

ENGLISH 257/257W
Latin American Literature In Translation (5)
Latin American literature in translation with a particular emphasis on short stories and poetry. Specific authors studied will include Jorge Luis Borges, Octavio Paz, Sor Juana Inez de la Cruz, Julio Cortazar, Gabriel Garcia Marquez, Pablo Neruda, Juan Rulfo, and others. Previously ENG 234/ENG 234W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Dual listed as IASTU 234. Student option grading.

ENGLISH 258/258W
European Literature: Greeks and Romans (5)
Survey of 19th and 20th century authors from Early Middle Ages to Enlightenment. May include Hildegard Von Bingen, Wolfram, Christine De Pisan, Rabelais, Marie De France, Cervantes, Dante, Petrarch, Boccaccio, Machiavelli, Voltaire and others. Christianity, the rebirth of classical learning, nationalism, the imperative of reason, art and music and other themes. Previously ENG 282/ENG 282W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 283/283W
Beginning Short Story Writing I (5)
Students will explore and write short fiction by examining plot, characters, atmosphere, point of view, symbol, metaphor, and theme. Using various narrative strategies, they will write and workshop various fictional pieces. They will identify the strengths and limitations of various storytelling media. Previously ENG 277/ENG 277W. Prerequisite: ENGL& 101. Student option grading.

ENGLISH 285
Successful Tutoring (4)
For those interested in tutoring in the Reading and Writing Lab. Orientation to skills courses and methods of tutoring reading and writing on an individualized basis. Previously ENG 295. Prerequisite: Minimum grade of 3.4 in ENGL& 101 and interview with instructor. Student option grading.

ENGLISH 286
Tutoring Practicum (3)
Students receive credit for tutoring in the Reading/Writing Learning Center. Weekly seminar to discuss tutoring topics, issues and tutor concerns. Previously ENG 296. Prerequisite: EDULA 199 and permission of instructor. Student option grading.

ENGLISH 287/287W
European Literature: Greeks and Romans (5)
Early European Masterpieces: A survey of some classical Greek and Roman authors of epic, dramatic and lyric poetry which may include Aeschylus, Sophocles, Euripides, Sappho, Mimnermus, Pindar, Virgil, Horace, Catullus, Seneca and others. Greek and Roman mythology, institutions, mores and art forms will complement the course. Previously ENG 281/ENG 281W. Prerequisite: ENGL& 101, or equivalent with instructor permission. Student option grading.

ENGLISH 288/288W
European Literature: Modern and Contemporary (5)
Survey of 19th and 20th century authors from various countries which may include Goethe, Dostoevsky, Tolstoy, Chekov, Akhmatova, Nietzsche, Aichinger, Kafka, Moravia, Pirandello, Gide, Sarre, Camus, Marcel, Borges and others. Study the impact of technology, war and existentialism on literature and society, and other themes. Previously ENG 283/ENG 283W. Prerequisite: ENGL& 101 or equivalent with instructor permission. Student option grading.

ENGLISH 292
Special Topics In English (2)
Classes focusing on specific issues and/or topics of interest in English. Previously ENG 292.

ENGLISH 293
Special Topics In English (3)
Classes focusing on specific issues and/or topics of interest in English. Previously ENG 293.
ENGLISH 294
Special Topics In English (4)
Classes focusing on specific issues and/or topics of interest in English. Previously ENG 294.

ENGLISH 294W
Special Topics In English - W (4)
Classes focusing on specific issues and/or topics of interest in English. Previously ENG 294W.

ENGLISH 295/295W
Special Topics In English (5)
Classes focusing on specific issues and/or topics of interest in English. Previously ENG 285/ENG 285W.

ENGLISH 297
Individual Project In English (1)
Individual project in a specific area of English. By arrangement with instructor. Previously ENG 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

ENGLISH 298
Individual Project In English (2)
Individual project in a specific area of English. By arrangement with instructor. Previously ENG 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

ENGLISH 299/299W
Individual Project In English (3)
Individual project in a specific area of English. By arrangement with instructor. Previously ENG 299/ENG 299W. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

ENGLISH AS A SECOND LANGUAGE 091
Anatomy and Physiology for ESL Students (5)
This course prepares ESL students for biology and/or health occupation courses. Reading, writing, listening and speaking skills are integrated with an overview of basic anatomy and physiology and selected diseases. ESL and biology faculty co-teach this course. Prerequisites: Successful completion of ESL Level 5 or ESL Placement into Level 6 or above. Student option grading.

ENGLISH AS A SECOND LANGUAGE 094
TOEFL Preparation (3)
Designed for high intermediate or advanced ESL students who need to take the internet-based TOEFL to enter undergraduate and graduate programs. Focus is on question types, test-taking strategies, and listening, reading, writing and speaking skills appropriate for the internet-based TOEFL. Prerequisite: Enrollment in or completion of ESL 098 or equivalent or permission of instructor. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE 095
Academic Listening and Speaking (5)
ESL students improve their academic listening and speaking skills to help them succeed in college classes. Students listen to and take notes on live and recorded lectures and use course topics to practice speaking skills required in academic settings. Students also develop a larger academic vocabulary. Prerequisites: Appropriate placement on the Advanced ESL Placement Test or as required by ESL faculty for students who have completed ESLAB Level 4 (ESLAB 040/045) or as recommended by faculty for students enrolled in ESL Level 5 or ESL 098. Student option grading.

ENGLISH AS A SECOND LANGUAGE 098
Academic ESL 1 (10)
ESL 098 is an integrated reading, writing, grammar and study skills course designed to assist students in the transition to ESL 099 and regular college classes, with emphasis on writing in an academic format and reading authentic, pre-college level materials. Prerequisites: Successful completion of ESLAB 050 or appropriate placement on the advanced SCC ESL placement test. Student option grading.

ENGLISH AS A SECOND LANGUAGE 099
Academic ESL 2 (10)
ESL 099 is intended to prepare students for ESL 100 and further academic coursework. Emphasis is on content-based reading and writing for academic purposes, including appropriate grammar and vocabulary skills. Students read pre-college to introductory college level materials from a variety of sources. Prerequisites: Successful completion of ESL 098 or appropriate placement on the advanced ESL placement test. Student option grading.

ENGLISH AS A SECOND LANGUAGE 100
Academic ESL 3 (5)
ESL 100 prepares students for English 101 and further academic coursework, continuing and refining the skills covered in ESL 099. Emphasis is on content-based reading and writing for academic purposes. Students study more complex grammar and vocabulary and read increasingly complex pre-college to college level materials. Prerequisites: Successful completion of ESL 099 or appropriate placement on the Advanced ESL placement test. Student option grading.

ESL FOR LIFE & WORK 010
ESL for Life and Work 1 (5)
This beginning level course offers language skills students need in everyday lives and in the workplace. Prerequisite: Placement by ESL program. Mandatory P/NC grading.

ESL FOR LIFE & WORK 020
ESL for Life and Work 2 (5)
This is the second level in a series of ESL courses that emphasize English for everyday life and the workplace. Prerequisite: Successful completion of ESL 010 or placement by ESL office. Mandatory P/NC grading.
ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 010
Integrated Skills In English 1 (10)
ESLAB 010 is the beginning level ESL class. It emphasizes reading, writing and grammar in life skills contexts such as providing personal information, describing daily events, identifying coins, currency and their value, telling time, and identifying jobs and work-related abilities. Prerequisites: appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 015
Listening & Speaking In English 1 (5)
This beginning level class emphasizes listening and speaking for students to communicate within a variety of lifeskill contexts such as providing personal information, describing daily events, identifying coins, currency and their value, telling time, and identifying jobs and work-related abilities. Prerequisites: appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 020
Integrated Skills In English 2 (10)
This second level emphasizes improvement in reading, writing and grammar for home, work and community contexts, such as describing daily-life events, requesting help with problems, and successfully reading, writing and speaking about familiar topics. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 025
Listening & Speaking In English 2 (5)
This level emphasizes listening and speaking, enabling students to function within school, daily-life, and work contexts. Students will also learn conversational strategies such as requesting, confirming and clarifying information. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 030
Integrated Skills In English 3 (10)
This low intermediate level class emphasizes reading a variety of texts on familiar subjects. Students write simple, developed paragraphs on familiar topics by combining expanded vocabulary and grammar structures. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 035
Listening & Speaking In English 3 (5)
This level emphasizes more complex listening and speaking activities within job, life-skill and social situations. Students acquire basic conversational skills and speak clearly enough to be understood by others. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 040
Integrated Skills In English 4 (10)
At this intermediate level, students read more complex material and write well-organized, detailed paragraphs through developing vocabulary and acquiring more advanced grammar. Students will continue to develop life skills, eg, completing job applications. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 045
Listening & Speaking In English 4 (5)
This course continues to emphasize listening and speaking at an increasingly complex level. Students improve listening skills relevant for everyday life as well as college preparation, and speak clearly enough to be understood by others. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 048
ESL Healthcare Overview (5)
ESL Healthcare Overview introduces students to careers in healthcare, common cultural differences found in healthcare settings, various study skills and an overview of basic human anatomy. Listening and speaking skills are integrated within course content. Prerequisites: Successful completion of ESL level 3 or placement into ESL level 4 or above. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 050
Integrated Skills In English 5 (10)
This class emphasizes reading a variety of pre-college materials, writing well-developed paragraphs, listening to and speaking effectively with others, and transitioning to academic ESL classes. Prerequisites: Successful completion of the previous level or appropriate placement on the SCC ESL placement test. Mandatory P/NC grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 054
Connecting to College and Careers (1)
This course transitions students into college courses and introduces distance learning. Using technology, students enhance their communication skills while learning vocabulary and basic concepts related to careers and educational options. Prerequisites: Placement into ESL level five or successful completion of ESL level four or equivalent with instructor permission. Mandatory P/NC Grading.

ENGLISH AS A SECOND LANGUAGE/ADULT BASIC EDUCATION 055
ESL Medical Terminology (5)
This course helps prepare ESL students for health occupations classes. Reading, writing, listening and speaking skills are integrated with medical word elements, an overview of basic anatomy, and selected diseases, symptoms, tests, procedures, and health professions. It is co-taught by health and ESL professionals. Prerequisites: Successful completion of ESL Level 3 or ESL Placement into Level 4. Student option grading.

ENVIRONMENTAL SCIENCE 100
Survey of Environmental Science (5)
A college level telecourse in environmental science which also serves as a resource for courses in biology, ecology, geography, geology and political science. It will utilize written material and television programs and may also serve as a resource for local governments and community action groups in planning and development. Previously ENVSC 101. Student option grading.

ENVIRONMENTAL SCIENCE 101/101W
Introduction to Environmental Science (5)
Examine natural cycles, ecosystems and other basic concepts of ecology. Study the issues of population, pollution and resources. The effects on us and our environment from economic, political and scientific decisions. Previously ENVSC 201/ENVSC 201W. Student option grading.

ENVIRONMENTAL SCIENCE 102/102W
Environmental Science Field Study (1)
Two half-day weekend field trips to study local ecosystems. Concurrent enrollment in ENVSC 101 required. Previously part of ENVSC 201/ENVSC 201W. Student option grading.

ENVIRONMENTAL SCIENCE 202
Ecology of Natural Landscapes (6)
A study of the ecology of terrestrial and aquatic ecosystems and the interaction between them. This course examines models of how ecosystem processes operate at the watershed and landscape level, and the management options and environmental regulations which evolve from our understanding of those processes. Previously ENVSC 202. Prerequisites: ENVSC 101, equivalent, or instructor permission. Student option grading.

ENVIRONMENTAL SCIENCE 297
Individual Project In Environmental Science (1)
Individual project in a specific area of environmental science. By arrangement with instructor. Previously ENVSC 297. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.
ENVIRONMENTAL SCIENCE 298
Individual Project In Environmental Science (2)
Individual project in a specific area of environmental science. By arrangement with instructor. Previously CMU 298. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

ENVIRONMENTAL SCIENCE 299
Individual Project In Environmental Science (3)
Individual project in a specific area of environmental science. By arrangement with instructor. Previously ENVSC 299. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

FILM/VIDEO 255
Basic Video Production (3)
Students produce video projects, focusing on both field and multi-camera studio work. By working on their own and other students’ projects, basic proficiency on camera, lighting, audio, and control room equipment is developed. Previously CMU 261. Student option grading.

FILM/VIDEO 256
Video Field Production (5)
Techniques and skills in film-style single-camera production, field lighting and audio, directing/producing, editing and post-production, and emerging media technologies are developed. Students create their own video programs as well as crew on other students’ projects. Open to students with all levels of experience. Previously CMU 263. Student option grading.

FILM/VIDEO 257
Television Studio Production (5)
Using studio cameras, lighting, audio, and editing equipment, students direct and produce their own projects to prepare for a career in the video and film industry. They will also work as crew on other projects. Emerging technologies will also be explored. This class is open to students with all levels of experience. Previously CMU 262. Student option grading.

FILM/VIDEO 264
Introduction to Multi-Image (4)
Processes and techniques in programming to live music and on audio tape. Programs created by students. Instruction in photography, slide duplication, audio, graphics, and other aspects of multimedia. Previously CMU 264. Dual listed as VCT 264. Prerequisite: music or photography or VCT. Student option grading.

FILM/VIDEO 266
Video Editing and Post Production (5)
Learn how to edit video/film. Study the techniques, history and theory of video/film editing using Avid XpressDV, a professional non-linear edit system. Create projects in a variety of styles including narrative and documentary. New emerging technologies are also discussed. Previously CMU 266. Dual listed as VCT 266. Student option grading.

FILM/VIDEO 267
Advanced Video Editing & Post Production (5)
Interested in professional video editing? In this class, study advanced video editing and post-production software such as Avid XpressDV to create various longer video projects including narrative, documentary and experimental styles. Emerging technologies are discussed. Previously CMU 267. Dual listed as VCT 267. Prerequisite: CMST/VCT 266. Student option grading.

FILM/VIDEO 287
The Documentary (5)
Analysis of film and video productions intended to be seen as factual presentations of historical, political, or social events. Previously CMU 287. Student option grading.

FILM/VIDEO 288
Documentary News Photography (3)
Theory and techniques of documentary photo story. Photographic process used to analyze, interpret and comment on aspects of society. Final product: documenting subject of student’s choice in prints of publication quality. Students provide film, paper, supplies. Previously CMU 291. Dual listed as ART 246. Prerequisite: ART 145 or equivalent with instructor permission. Student option grading.

FILM/VIDEO 291, 292, 293, 294, 295
Special Topics In Film/Video (1, 2, 3, 4, 5)
Classes focusing on specific issues and/or topics of interest in film/video.

FILM/VIDEO 297, 298, 299
Individual Project In Film/Video (1, 2, 3)
Individual project in a specific area of film/video. By arrangement with instructor. Prerequisite: Instructor permission based on evaluation of students’ educational and work experience. Mandatory decimal grading.

FRENCH& 121
French I (5)

FRENCH& 122
French II (5)
Continuation of FRNC 121. Fast paced interactive approach to learning French: listening, speaking, reading and writing. Topics: present perfect, object pronouns, imperative. Vocabulary themes: relating past events, travel, food, purchases, directions. Previously FRNC 102. Prerequisite: FRNC 121 or equivalent with instructor’s permission. Student option grading.

FRENCH& 123
French III (5)
Continuation of FRNC 102. Fast paced interactive approach to learning French: listening, speaking, reading and writing. Topics: imperfect, comparison, reflexive verbs, object pronouns, other tenses. Communication themes: past narrations, requests, daily activities, geography and history of France. Previously FRNC 103. Prerequisite: FRNC 122 or equivalent with instructor permission. Student option grading.

FRENCH 293
Special Topics In French (3)
Special topics in French literature. Course conducted in French. Previously FRNC 283. Student option grading.

FRENCH 295
Special Topics In French (5)
Classes focusing on specific issues and/or topics of interest in French. Previously FRNC 285.

FRENCH 297
Individual Project In French (1)
Individual project in a specific area of French. By arrangement with instructor. Previously FRNC 297. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

FRENCH 298
Individual Project In French (2)
Individual project in a specific area of French. By arrangement with instructor. Previously FRNC 298. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

FRENCH 299
Individual Project In French (3)
Individual project in a specific area of French. By arrangement with instructor. Previously FRNC 299. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience. Student option grading.

GEOGRAPHY 100
Introduction to Geography (5)
An introduction to the diverse field of geography. Emphasis on the relevance of location, process, patterns and spatial relationships locally, regionally and globally. Survey of major topical issues studied by geographers including landforms, climate, population, culture, cities and government, Placement in ENGL 100 or ESL 100 or successful completion of ENGL 090 or ESL 099. Previously GEOG 100.
COURSE DESCRIPTIONS

GEOGRAPHY & 200
Introduction to Human Geography (5)

GEOGRAPHY & 203
Maps & Landform Analysis (5)
An introduction to map use and landform analysis. Examination of the Earth's surface features including landform processes, interpretation and representation. Topics presented at different levels of scale including global, North American and local (Northwest/Puget Sound) perspectives. A lab science distribution credit. Previously GEOG 205. Prerequisite: Placement in ENGL 100 or ESL 100 or successful completion of ENGL 090 or ESL 099. Student option grading.

GEOGRAPHY & 204
Weather, Climate and Soils (5)
An introduction to Earth's atmosphere and ecosystems. Focus on atmospheric and biological patterns and processes and their measurement and representation. Topics presented in global, North American and local (Northwest and Puget Sound) perspectives. A lab science distribution credit. Previously GEOG 206. Prerequisites: Placement in ENGL 100 or ESL 100 or successful completion of ENGL 090 or ESL 099. Student option grading.

GEOGRAPHY 207
Economic Geography (5)
Survey of the factors that influence the spatial arrangement of economic activities. Emphasis is placed on concepts and theories related to primary and secondary production, consumption and transportation. Student option grading.

GEOGRAPHY 250
Geography of the Pacific Northwest (5)
A survey of the physical, cultural and economic landscapes of the Pacific Northwest. Examination of the historic and contemporary relationships between people and places in the Northwest and how physical, cultural, political and economic processes have shaped this region. Student option grading.

GEOGRAPHY 258
Map Reading and Interpretation (3)
An examination of the map as a unique and valuable information source, which when properly selected, read and interpreted can assist us to interact more effectively with the environment. Students will gain knowledge and skills necessary for effective map use. Student option grading.

GEOGRAPHY 277
Ethnic Urban Patterns (5)
Investigation of urban city environment. Examines gender, class and minority group issues in the urban setting. Utilizes principles of spatial organization to study the impact of services in cities to the identified group residents. Internal population patterns, land utilization, field research on applied urban problems will be explored. Dual listed as IASTU 277. Student option grading.

GEOGRAPHY 295
Special Topics In Geography (5)
Classes focusing on specific issues and/or topics of interest in Geography. Previously GEOG 285.

GEOGRAPHY 297, 298, 299
Individual Project In Geography (1, 2, 3)
Individual project in a specific area of geography. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

GEOGRAPHY 101
Introduction to Physical Geography (5)
An introductory-level geography course with laboratory exploring the Earth's materials and major geologic processes including plate tectonics, earthquakes, volcanism and mountain building. Previously GEOE 101. Student option grading.

GEOGRAPHY 103
Historical Geography (5)
Course offers a history approach to the knowledge of geography by tracing the evolution of the Earth and its biosphere from its origins. It involves the processes that shape and modify rocks and landscapes, tectonics and organic evolution. The lab includes learning to identify and interpret minerals, rocks and fossils. Previously GEOE 103. Student option grading.

GEOLGY 107/107W
Geologic Hazards (5)
An in-depth examination of the geologic hazards of the Pacific Northwest. Topics include: earthquakes, volcanoes & landslides, both globally and regionally. Emphasis will be on the science of these phenomena, effects on human populations, prediction, preparation & mitigation of the risk, & case studies. Prerequisite: Completion of ESL 100 or ENGL & 100 with a 2.0 or better or COMPASS test placement into ENGL & 101. Student option grading.

GEOLGY 115
Geology of National Parks (5)
An exploration of major geologic processes through the discovery of the origin of the landscapes and the study of the geologic history of America's National Parks. Course will include laboratory and one week-end field trip to a National Park of Washington State. Previously GEOE 120. Student option grading.

GEOLGY 201
Geological Study Tour (10)
Provides opportunities to visit and study the geology of near and distant lands, such as SW U.S., Canadian Rockies, Turkey, Tunisia, etc. Student option grading.

GEOLGY 208
Geology of the Pacific Northwest (6)
Examines geological history of the Pacific Northwest. Includes laboratory study of the rocks and structures of the Northwest provinces and four weekend field trips to study the most important areas first hand. Previously GEOE 208. Prerequisite: GEOE & 101 or permission. Student option grading.

GEOLGY 295
Special Topics In Geology (5)
Classes focusing on specific issues and/or topics of interest in geology. Previously GEOL 285.

GEOLGY 297, 298, 299
Individual Project In Geology (1, 2, 3)
Individual project in a specific area of geology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Student option grading.

HEALTH CARE INFORMATION 120
Survey of Health Care Delivery (4)
Hospital ownership and organization, long term care, home health agencies, hospices, mental health treatment facilities, ambulatory care centers, social service agencies, Medical staff, educational preparation of health care professionals, medical ethics. Roles of government in health care. Health care financing. Prerequisites: Successful completion of ENGL 100 or ESL 100 or COMPASS test score showing readiness for ENGL & 101. Mandatory decimal grading.

HEALTH CARE INFORMATION 125
Hospital and Clinic Patient Records (5)

HEALTH CARE INFORMATION 134
Medical Terminology (5)
Study of word elements (prefixes, suffixes and roots), terms in anatomy and physiology, selected diseases, symptoms, procedures, x-ray and laboratory tests in common usage, and commonly used abbreviations. Accurate spelling, meaning of terms and word elements, and pronunciation. Previously HCI 132. Prerequisites: ENGL 100 or ESL 100 or COMPASS test score showing readiness for ENGL & 101. Mandatory decimal grading.

HEALTH CARE INFORMATION 134
Medical Reimbursement Systems (5)
Overview of inpatient/outpatient health insurance plans, revenue cycles, health insurance claims, health insurance terminology, reimbursement methodologies for professional services, completion of billing forms, fraud and abuse/HIPAA issues, processing, various prospective payment systems. Prerequisite: Completion with a grade of 2.0 or higher of HCl 171 and HCI 172 or concurrent enrollment. Mandatory decimal grading.

HEALTH CARE INFORMATION 170
Legal Aspects of Health Care (4)
This course provides an introduction to legal concepts, court functions, and practices related to health care practitioners. Confidentiality/release of information standards with practice. Previously HCI 210. Prerequisite: Successful completion of ENGL 100 or ESL 100. HCI Advisor Permission required. Mandatory decimal grading.
HEALTH CARE INFORMATION 171
Basic ICD-9-CM Coding [5]
Instruction in, and practice with, the coding systems used in health care with emphasis on ICD-9-CM, SNOMED, and other international classification of diseases. Mandatory decimal grading.

HEALTH CARE INFORMATION 172
CPT Coding [4]
Coding theory and practice in outpatient care emphasizing Health Care Financing Common Procedure Coding System (HCPCS)-Level II. Current Procedural Terminology (CPT), HCPCS Level II. Ethical and legal coding practices stressed. Reimbursement methodologies related to APCs and RBRVS. Previously HCI 227. Prerequisite: Completion with a grade of 2.0 or higher HCI 134 and BIOL& 170. HCl 174 and 175 or concurrent enrollment or instructor permission. Instructor consent needed prior to enrollment. Mandatory decimal grading.

HEALTH CARE INFORMATION 173
Intermediate Medical Coding [5]
Diagnosis and procedure coding using ICD-9-CM and CPT. Coding, and entering data into computerized encoder/grouper/abstracting system. Utilize Diagnostic Related Groups (DRGs) and Ambulatory Payment Classification (APCs). Other Coding Systems, fraud and abuse, and compliance issues discussed. Previously HCI 222. Prerequisite: Completion with a grade of 2.0 or higher - HCI 134, HCI 171 and BIOL& 170. HCl 174 and HCI 175 or concurrent enrollment. Instructor permission needed prior to enrollment. Mandatory decimal grading.

HEALTH CARE INFORMATION 174
Pharmacology [3]

HEALTH CARE INFORMATION 175
Human Diseases [5]
Introduction to principles of general mechanisms of diseases including etiology, prognosis, signs and symptoms. Relationship of normal body functioning to the physiologic changes that occur as a result of illness. Rationale for treatment, laboratory and x-ray testing, treatment, clinical evaluation. Previously HCI 215. Prerequisite: Completion with a grade of 2.0 or higher of HCI 134 and BIOL& 170. HCl Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 177
Clinical Practicum I [1]
Experience in a hospital setting applying theory acquired in the first year of the Health Information Technology program. Filing, record retrieval, assembling records, performing discharge charge, organizing, observing admitting office activities, and preparing and delaying release of information requests. Previously HCI 122. Prerequisite: Formal acceptance into second year of Health Information Technology Program. Completion with a grade of 2.0 or higher or concurrent enrollment in HCI 124, 170, 171. HCl Advisor permission required.

HEALTH CARE INFORMATION 178
Clinical Practicum II [4]
Practice in coding, abstracting, calculating statistics, capturing and reporting tumor registry data, releasing patient information, entering and retrieving computer data, analyzing records for deficiencies, and evaluating department systems in a variety of clinical health care facilities. Previously HCI 231. Prerequisite: Formal acceptance into the second year of the Health Information Technology Program, completion with a grade of 2.0 or higher of HCI 219 and HCI 225. Completion of HCI 220 and 226 or concurrent enrollment. HCl Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 179
Basic mathematical functions, measures of central tendency and variability. Manual and computer graphic display. Inpatient census and discharged patient statistical calculations and reports, including commonly computed average and rates. Previously HCI 223. Prerequisites: Formal acceptance into second year of the Health Information Technology Program. HCl Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 219
Healthcare Quality Improvement [3]

HEALTH CARE INFORMATION 220
Management for Health Information Supervisors [5]
Health Information Department management. Written/oral communications, legal aspects of supervision, job analysis/descriptions, interviewing, hiring, new staff orientation, staff education, motivation, problem employees, performance evaluations, unions, policies, procedures, office safety/layout, planning, budgeting. Prerequisites: Formal acceptance into the second year of the Health Information Technology Program. Completion with a grade of 2.0 or higher or concurrent enrollment in HCI 219, 225, and 228. HCI Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 221
Practice in Coding, Abstracting, Calculating Statistics, Capturing and Reporting Tumor Registry Data, Releasing Patient Information, Entering and Retrieving Computer Data, Analyzing Records for Deficiencies, and Evaluating Department Systems in a Variety of Clinical Health Care Facilities. Previously HCI 231. Prerequisites: Formal acceptance into the second year of the Health Information Technology Program, completion with a grade of 2.0 or higher of HCI 219 and HCI 225. Completion of HCI 220 and 226 or concurrent enrollment. HCl Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 222
Medical Coding Practicum [2]
Diagnosis and procedure coding using ICD-9-CM and CPT. Coding/abstracting health records. Previously HCI 228. Prerequisite: Completion with a grade of 2.0 or higher of HCI 134, 154, and 170. HCl Advisor permission required. Mandatory decimal grading.

HEALTH CARE INFORMATION 224
This course provides an overview of health care industry computer applications and technology; systems interoperability; health care facility databases/repositories; patient electronic health and dental records; computer security; legal aspects of electronic records; networking; Internet issues in health care; and PubMed. Prerequisite: CIS 105 or equivalent, health care classes or experience, and HCI Advisor permission. Mandatory Decimal Grading.

HEALTH CARE INFORMATION 225
Special Topics in Health Care Information Technology [1]
Classes focusing on specific issues and/or topics of interest in Health Care Information. Previously HCI 281. Permission only.
HEALTH CARE INFORMATION 292
Special Topics In Health Care Information Technology (2)
Classes focusing on specific issues and/or topics of interest in Health Care Information.
Previously HCI 282. Permission only.

HEALTH CARE INFORMATION 293
Special Topics In Health Care Information Technology (3)
Classes focusing on specific issues and/or topics of interest in Health Care Information.
Previously HCI 283. Permission only.

HEALTH CARE INFORMATION 297, 298, 299
Individual Project In Health Care Information (1, 2, 3)
Individual project in a specific area of Health Care Information. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience.

HISTORY& 116/116W
Western Civilization I: Ancient/Medieval History (5)
Survey of western civilization’s origins in the ancient Near East, Greece, Rome, Medieval Europe, Byzantium and Islam. An examination of social, political and intellectual traditions, including major religious and political institutions, medieval society, and urban culture to the Black Death. Previously HIST 111/HIST 111W. Mandatory decimal grading.

HISTORY& 117/117W
Western Civilization II: the Early Modern World (5)
This course surveys western civilization from the thirteenth century to early nineteenth century with emphasis on the Renaissance, the Reformation, the rise and fall of absolute monarchs, the Scientific Revolution, the Enlightenment, the French Revolution, and the rise and fall of Napoleon. Previously HIST 112/HIST 112W. Mandatory decimal grading.

HISTORY& 118/118W
Western Civilization III: the Modern World (5)
A survey of the modern era examining the Industrial Revolution, the development of modern ideologies and imperialism, the World Wars, the Cold War and contemporary global economic, social and political institutions. Previously HIST 113/HIST 113W. Mandatory decimal grading.

HISTORY& 136
Us History 1: to 1877 (5)
A chronological and thematic study of U.S. history from Native America to Reconstruction with emphasis on its cultural, diplomatic, economic, political, and social elements.
Previously HIST 241. Mandatory decimal grading.

HISTORY& 137
Us History 2: from 1877 (5)
A chronological and thematic study of U.S. history from the end of Reconstruction to the present with emphasis on its cultural, diplomatic, economic, political, and social elements.
Previously HIST 242. Mandatory decimal grading.

HISTORY& 214
Pacific Northwest History (5)
A chronological and thematic approach to Pacific Northwest history (focused on Washington and Oregon but including areas from the Pacific Coast to the Rocky Mountains and from northern California to southern Alaska). Emphasizes cultural, economic, environmental, ethnic, political, and social topics. Previously HIST 207. Student option grading.

HISTORY& 215/215W
Women In U.S. History (5)
Examines US history from pre-colonial times to the present from the perspectives of women of various racial, ethnic, religious, and socio-economic backgrounds, and explores how women helped shape US history. Topics may include colonization, slavery, wars, western migration, employment, immigration, reform, and gender. Mandatory decimal grading. Previously HIST 240/HIST 240W.

HISTORY 218
American Environmental History (5)
This course examines shifting attitudes toward nature during various historical periods by studying how North Americans attached meanings to the physical world and how humans reshaped landscapes and developed environmental policies. Mandatory decimal grading.

HISTORY& 219
Native American History (5)
This course examines diverse American Indian histories from before European contact to the present. Emphasis is placed on Indian-European cultural interactions, US-Indian policy development, and the roles Natives played to ensure their survival and cultural integrity into the 21st century. Prerequisite: ENGL& 101 AND 102 Strongly Recommended. Student option grading.

HISTORY 234
Ancient History (5)
A survey of political, economic, and social institutions and activities coupled with a description of religious life and cultural achievements from the beginnings of organized society through the ancient Mediterranean civilizations. Previously HIST 201. Mandatory decimal grading.

HISTORY 235
Medieval European History (5)
Europe from the disintegration of the Roman Empire to 1300. The evolution of basic values and institutions of Western Civilization. Previously HIST 202. Mandatory decimal grading.

HISTORY 236
Early Modern European History (5)
This course traces the political, social, economic and culture history of Europe from 1600 to 1815. In this class we take an interdisciplinary approach to subject learning. We also emphasize cultural diversity and multiple national influences in Europe and its reflections on a global world. Previously HIST 231. Mandatory decimal grading.

HISTORY 237
Modern European History (5)
Political, social, economic, cultural history of Europe from 1815 to 1919. In this class we take an interdisciplinary approach to subject learning. We also emphasize cultural diversity and multiple national influences in Europe and its reflections on a global world. Formerly HIST 232. Previously HIST 232. Mandatory decimal grading.

HISTORY 238
Contemporary European History (5)
Political, social, economic, and cultural history of Europe from the Treaty of Versailles to the present. In this class we take an interdisciplinary approach to subject learning. We also emphasize cultural diversity and multiple national influences in Europe and its reflections on a global world. Previously HIST 233. Mandatory decimal grading.

HISTORY 245
History of American Immigration (5)
Survey of immigration to the United States from the era of colonization to the present. Examination of the process of immigration and adaptation to life in the United States, as well as reaction to immigrants by native-born Americans. Focus includes Asia, European, Latin American, and contemporary African immigrants. Dual listed as IASTU 245. Prerequisites: Either concurrent or successful completion of ENGL& 101 is recommended. Mandatory decimal grading.

HISTORY 246
African-American History: Ancient Africa to Reconstruction (5)
History of the Indians of the Oregon Territory (Washington, Oregon, Idaho and Montana to the Continental Divide), British Columbia, Alberta and Alaska. Includes history, culture, treaties and contemporary events from an Indian point of view. Dual listed as IASTU 256. Prerequisite: ENGL& 101. Mandatory decimal grading.

HISTORY 247
African-American History: Post Civil War to Present (5)
Historical experience of African Americans, post Civil War to present day. Especially pertinent to the subject, the Civil Rights movement will be a major focal point in review. Dual listed as IASTU 247. Previously HIST 271. Student option grading.

HISTORY 256/256W
Northwest Native American History (5)
History of the Indians of the Oregon Territory (Washington, Oregon, Idaho and Montana to the Continental Divide), British Columbia, Alberta and Alaska. Includes history, culture, treaties and contemporary events from an Indian point of view. Dual listed as IASTU 256. Prerequisite: ENGL& 101. Mandatory decimal grading.

HISTORY 260
The Contemporary Middle East (5)
Course will trace the history of the Middle East from World War I to the present. Historically the area has been labeled the Orient, the East, the Levant, or the Near East; at present the most widely used term is the Middle East. Mandatory decimal grading.
HISTORY 264
History of the Pacific Northwest to 1850 (5)
Survey of the Pacific Northwest region up to the Oregon Treaty of 1846 and its immediate aftermath. Provides a narrative description of the human record of the region from the Rockies to the Pacific and from California to Alaska. Mandatory decimal grading.

HISTORY 265
History of the Pacific Northwest Since 1850 (5)
Survey of the Pacific Northwest region from the Oregon Treaty to the present. Provides a narrative description of the economic, political and cultural development of the region from the Rockies to the Pacific and from California to Alaska. Mandatory decimal grading.

HISTORY 274
U.S. and Vietnam (5)
Examines Vietnam's history and America's involvement, policies and objectives in Vietnam; includes the effect of the Vietnam War on the United States. Dual listed as IASTU 274. Prerequisite: ENGL& 101. Mandatory decimal grading.

HISTORY 277/277W
History of Canada (5)
A survey of Canadian history from the period of French colonization to the present. Issues of concern will include British-French relations, the fur trade, the emergence of federation and independence, and Canadian-American relations. Mandatory decimal grading.

HISTORY 295/295W
Special Topics In History (5)
Introduction to selected sub-specialties within the discipline. Each course will focus on a single issue area and/or topic and will employ techniques and concepts of history. Previously HIST 285/HIST 285W.

HISTORY 297/298, 299
Individual Project In History (1, 2, 3)
Individual project in a specific area of history. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

HISTORY/EAST ASIA 218
Introduction to Japanese Civilization (5)
Survey of Japanese history, including the social, cultural, political and institutional developments from early times to the present. Covers theories of national origin and explores the historical roots of modern Japan. Foreign influences on Japan, ways of thinking, and religion and philosophy are also discussed. Previously EASIA 218. Mandatory decimal grading.

HISTORY/EAST ASIA 297, 298, 299
Individual Project
In East Asian History (1, 2, 3)
Individual project in a specific area of East Asian studies. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

HONORS 100
Questions and Methods (5)
Cornerstone class for Honors Program. Students will examine diverse ways of asking and answering the enduring questions of the natural world and human society. Prerequisites: Admission to Honors Program and ENGL& 101, or instructor permission. Mandatory decimal grading.

HONORS 200
Honors Colloquia (3)
Students are introduced to the art of rhetorical criticism: How to create, analyze and evaluate persuasive arguments. Emphasis is on the spoken word and organization. Students are expected to attend several public lectures. Students will develop and refine ideas for the Honors thesis project. Prerequisite: HNRS 100 or permission. Mandatory Decimal Grading.

HONORS 251
Honors Seminar (1)
Seminar discussion of Honors Option Projects. This class facilitates the initiation and completion of the first Honors Option Project. Prerequisite: HNRS 100. Mandatory Decimal Grading.

HONORS 252
Honors Seminar (1)
Seminar discussion of Honors Options Projects. This class facilitates the initiation and completion of the second Honors Option Project. Prerequisite: HNRS 100, HNRS 251. Mandatory Decimal Grading.

HONORS 295
Special Topics In Honors (5)

HONORS 298, 299
Individual Project In Honors (2, 3)

HUMAN DEVELOPMENT 101
College Orientation and Success (2)
This course focuses on building skills for student success at Shoreline Community College. Students will be introduced to resources necessary for academic and career decision making, and to many skills, which are necessary to succeed in college. Focus is on academic and career planning, goal setting, enhancing research and study skills, time management and mental health issues as they relate to wellness. Mandatory P/NC grading

HUMAN DEVELOPMENT 105
Career Exploration and Life Planning (2)
For students who want to increase their awareness of their educational and vocational choices: take and analyze interest and personality tests; examine labor market projections; explore your 'self' and the world of work. Take charge of your life planning and career choices! Mandatory P/NC grading.

HUMAN DEVELOPMENT 130
Stress Management (2)
Provides students with an understanding of the effects of stress on health, happiness and performance. Also examines personal stressors and stress reduction skills. Mandatory P/NC grading.

HUMAN DEVELOPMENT 140
Improving Relationships (2)
Designed to help students communicate effectively with those closest to them. We will explore communication skills that enrich relationships. Mandatory P/NC grading.

HUMAN DEVELOPMENT 290
Special Topics In Human Development (0.5)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 280.

HUMAN DEVELOPMENT 291
Special Topics In Human Development (1)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 281.

HUMAN DEVELOPMENT 292
Special Topics In Human Development (2)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 282.

HUMAN DEVELOPMENT 293
Special Topics In Human Development (3)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 283.

HUMAN DEVELOPMENT 294
Special Topics In Human Development (4)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 284.

HUMAN DEVELOPMENT 295
Special Topics In Human Development (5)
Classes focusing on specific issues and/or topics of interest in Human Development. Previously HUMDV 285.

HUMAN DEVELOPMENT 297, 298, 299
Individual Project
In Human Development (1, 2, 3)
Individual project in a specific area of Human Development. By arrangement with instructor. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Mandatory decimal grading.

HUMANITIES 111/111W
Exploring Culture: the Ancient World (5)
Explores development of cultures from prehistoric time to Middle Ages. Examines how religion, music, art and literature are shaped by social/historical contexts. Ancient civilizations, through development of Western culture/thought in Greece and Rome, and ends with development of Christianity and impact in Middle Ages. Previously HUMAN 111/HUMAN 111W. Mandatory decimal grading.
HUMANITIES 112/112W
Exploring Culture: Medieval Europe to 1790 (5)
Explores development of Western culture/thought, focusing on religion, art, music and literature in social/historical contexts of Late Middle Ages, Renaissance, Age of Exploration, Baroque/Reformation and Enlightenment. Periods of social/historical transition which result in clear intellectual/cultural shifts. Previously HUMAN 112/HUMAN 112W. Mandatory decimal grading.

HUMANITIES 113/113W
Exploring Culture: Changing World Order (5)
Explores changes in art, music, literature, religion in Western cultures through social/historical changes 19th/20th centuries. Searches for individual/social identity in collision of science, religion, politics, economics. Analyzes narratives of women, their symbols and their paths to resistance and power. Previously HUMAN 275. Prerequisite: ASSET/COMPASS placement in ENGL& 101 or higher. Student option grading.

HUMANITIES 275
In Search of the Goddess: Images of Women (5)
Explore visual/written images of women in the Ancient World and Western cultures over the centuries. Examine how these images have changed as the roles of women have changed in literature, art, religion, politics and economics. Analyze narratives of goddesses/women, their symbols and their paths to resistance and power. Previously HUMAN 275. Prerequisite: ASSET/COMPASS placement in ENGL& 101 or higher. Student option grading.

HUMANITIES 291/291W Special Topics In Humanities (1)
Classes focusing on specific issues and/or topics of interest in humanities. Previously HUMAN 281/HUMAN 281W.

HUMANITIES 292/292W Special Topics In Humanities (2)
Classes focusing on specific issues and/or topics of interest in humanities. Previously HUMAN 282/HUMAN 282W.

HUMANITIES 293/293W Special Topics In Humanities (3)
Classes focusing on specific issues and/or topics of interest in humanities. Previously HUMAN 283/HUMAN 283W.

HUMANITIES 294 Special Topics In Humanities (4)
Classes focusing on specific issues and/or topics of interest in humanities. Previously HUMAN 284.

HUMANITIES 295 Special Topics In Humanities (5)
Classes focusing on specific issues and/or topics of interest in humanities. Previously HUMAN 285.

HUMANITIES 297 Individual Project In Humanities (1)
Individual project in a specific area of humanities. By arrangement with instructor. Previously HUMAN 297. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Student option grading.

HUMANITIES 298 Individual Project In Humanities (2)
Individual project in a specific area of humanities. By arrangement with instructor. Previously HUMAN 298. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Student option grading.

HUMANITIES 299 Individual Project In Humanities (3)
Individual project in a specific area of humanities. By arrangement with instructor. Previously HUMAN 299. Prerequisite: Instructor permission based on evaluation of students' educational and work experience. Student option grading.

HUMANITIES 292 Special Topics In International Studies (2)
Classes focusing on specific issues and/or topics of interest in library. Previously INFO 282.

INTERNATIONAL STUDIES 200 States and Capitalism: Origins of Globalization (5)
Origins of the modern state system, and of the world market in Europe. Analysis of interacting forces of politics and economics world-wide from 1500 to World War II. Prerequisites: ENGL& 101 or equivalent test scores. Student option grading.

INTERNATIONAL STUDIES 201 Introduction to International Political Economy (5)
Concerned about human rights, world hunger and poverty, terrorism, world environmental degradation, regional conflict, the WTO, economic, political and social globalization? All these issues converge in something called the international political economy. The course examines these issues as they evolved in the international arena since WW I. Prerequisites: ENGL& 101 or equivalent test scores. Student option grading.

INFORMATICS 150 Research In the Information Age (5)
Examines strategies for locating, evaluating and using information resources, with attention to information access issues. Students practice finding, evaluating and using a variety of information resources, including library databases, Internet, and other standard research tools, within a subject area. Mandatory decimal grading.

INFORMATICS 295 Special Topics In International Studies (5)
Classes focusing on specific issues and/or topics of interest in International Studies. Previously INTST 285.
INTERNATIONAL STUDIES 297, 298, 299
Individual Project In Intst (1, 2, 3)
Individual project in a specific area of International Studies. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Student option grading.

INTRA-AMERICAN STUDIES 105
Introduction to Multicultural Studies (5)
Students will develop a personal and historical understanding of issues related to race, social class, gender, sexual orientation, disabilities & culture; and how these issues are used in the distribution of power and privilege in the U.S. Previously IASTU 103. Prerequisite: Successful completion of ENGL 100 or placement into ENGLC 101. Student option grading.

INTRA-AMERICAN STUDIES 109/109W
American Popular Music (5)
Historical, cultural, social and stylistic study of American popular idioms from their African and European roots to the present. Focus on contemporary styles such as early Rock and Roll, Folk, Blue Grass, Country-Western, Blues, Heavy Metal, Rap and Jazz. Key artists and their contributions will be discussed. The influence of various facets of the music industry will be examined. Dual listed as MUSC 109. Student option grading.

INTRA-AMERICAN STUDIES 115
Contemporary Filipino-American History/Culture (5)
A course designed to develop an understanding of the contemporary Filipino-American history, values, social kinships, problems and survival strategies and recognize the contributions of Filipino-Americans in the development of U.S. society. Student option grading.

INTRA-AMERICAN STUDIES 119
Survey of American Indian Studies (5)
This course examines issues in American Indian Studies including native cultures, theories of American Indian origins, demographics, the formation of American Indian stereotypes, the resistance of Native peoples to racism and oppression, and contemporary issues (music, literature, health, etc.). Prerequisite: Concurrent or successful completion of ENGL 101 recommended. Student option grading.

INTRA-AMERICAN STUDIES 206/206W
History of Jazz (5)
Historical, cultural, social and stylistic study of jazz history from African and European roots to the present. Focus on beginnings in New Orleans to present day avant-garde. Emphasis on form, structure, social background and the contribution of jazz to American music. Extensive writing requirements. Dual listed as MUSC 211W. Student option grading.

INTRA-AMERICAN STUDIES 210
African Cultures (5)
Survey of ancient, medieval and modern peoples of Africa. Emphasis on social, religious, political institutions and contributions of Africans to World Culture. Student option grading.

INTRA-AMERICAN STUDIES 215/215W
From Rhymes to Reason: the Culture of Hip Hop (5)
This course examines the culture of hip hop from its South Bronx (NYC) beginnings in the early 1970’s to its globalization. Students explore the musical, visual, spoken word and literary elements of hip hop. Topics include the role of race, class, gender, politics, appropriation and commodification. Student Option Grading.

INTRA-AMERICAN STUDIES 218
American Environmental History (5)
This course examines shifting attitudes toward nature during various historical periods by studying how North Americans attached meanings to the physical world and how humans reshaped landscapes and developed environmental policies. Mandatory decimal grading.

INTRA-AMERICAN STUDIES 219
Native American History (5)
This course examines diverse American Indian histories from before European contact to the present. Emphasis is placed on Indian-European cultural interactions, US-Indian policy development, and the roles Natives played to ensure their survival and cultural integrity into the 21st century. Prerequisite: ENGLC 101 AND 102 Strongly Recommended. Student option grading.

INTRA-AMERICAN STUDIES 220/220W
Minority Literature (5)
Survey of American literature. Focus on major ethnic groups: Africans, Hispanics, Asian, American Indians. Course traces evolutions of the unique ethnic experiences which gave rise to the various forms of 20th century literature. Student option grading.

INTRA-AMERICAN STUDIES 234/234W
Latin American Literature In Translation (5)
Latin American literature in translation with a particular emphasis on short stories and poetry. Specific authors studied will include Jorge Luis Borges, Octavio Paz, Sor Juana Inez de la Cruz, Julio Cortazar, Gabriel Garcia Marquez, Pablo Neruda, Juan Rulfo, and others. Prerequisites: ENGL 101, or equivalent with instructor permission. Dual listed as ENGL 257. Student option grading.

INTRA-AMERICAN STUDIES 245
History of American Immigration (5)
Survey of immigration to the United States from the era of colonization to the present. Examination of the process of immigration and adaptation to life in the United States, as well as reaction to immigrants by native-born Americans. Focus includes Asian, European, Latin American, and contemporary African immigrants. Dual listed as HIST 245. Prerequisites: Either concurrent or successful completion of ENGL 101 is recommended. Mandatory decimal grading.

INTRA-AMERICAN STUDIES 246
African-American History: Ancient Africa to Reconstruction (5)
Survey of African Americans from the ancient African past to Reconstruction (1877). Emphasis on this people as an integral part of the growth and development of America. Focus on the heritage, struggles, social/political contributions and achievements. Dual listed as HIST 246. Transfers as a linked sequence course. Previously IASTU 211.

INTRA-AMERICAN STUDIES 247
African-American History: Post Civil War to Present (5)
Historical experience of African Americans, post Civil War to present day. Especially pertinent to the subject, the Civil Rights movement will be a major focal point in review. Dual listed as HIST 247. Transfers as a linked sequence course. Previously IASTU 212.

INTRA-AMERICAN STUDIES 256/256W
Northwest Native American History (5)
History of the Indians of the Oregon Territory (Washington, Oregon, Idaho and Montana to the Continental Divide), British Columbia, Alberta and Alaska. Includes history, culture, treaties and contemporary events from an Indian point of view. Dual listed as HIST 256. Prerequisite: ENGL 101. Student option grading.

INTRA-AMERICAN STUDIES 270
Asian American Survey (5)
The study of Asian Americans in the United States from historical, cultural, economic, and sociological perspective. The emphasis will be on analyses of Asian American ethnic communities (primarily Japanese, Chinese, Filipinos, Korean, Vietnamese, and Pacific Islanders) and their social institutions, activities, and problems. Mandatory decimal grading.

INTRA-AMERICAN STUDIES 274
U.S. and Vietnam (5)
Examines Vietnam’s history and America’s involvement, policies and objectives in Vietnam; includes the effect of the Vietnam War on the United States. Dual listed as HIST 274. Mandatory decimal grading.

INTRA-AMERICAN STUDIES 277
Ethnic Urban Patterns (5)
Investigation of urban city environment. Examines gender, class and minority group issues in the urban setting. Utilizes principles of spatial organization to study the impact of services in cities to the identified group residents. Internal population patterns, land utilization, field research on applied urban problems will be explored. Dual listed as GEOG 277. Previously IASTU 201. Student option grading.

INTRA-AMERICAN STUDIES 284/284W
Gender, Race and Class (5)
This course explores the ways in which one’s gender, race, class and sexual orientation affect access to, participation in, and treatment by a variety of social institutions. We study the legal system, education, and the media as well as actions to confront systems of oppression in the U.S. Dual listed as WOMEN 284. Student option grading.
INTRA-AMERICAN STUDIES 285/285W
Gender, Violence and Social Change (5)
Study of current research and issues on the social, psychological, legal and political implications of gendered abuse, and instances when women are the majority of victims. Areas of study include child abuse, rape, domestic violence, and sexual harassment. Dual listed as WOMEN 285. Formerly Women and Abuse. Previously IASTU 282/IASTU 282W.
Prerequisite: Recommend ENGL& 101.
Student option grading.

INTRA-AMERICAN STUDIES 286/286W
Women of Power (5)
Students will study the relationship between women and power. Topics include barriers to acquiring power, strategies for obtaining power and uses of power. Students will research several powerful women. Emphasis is on class discussion and collaboration. Open to women and men. Dual listed as WOMEN 286. Previously IASTU 283/IASTU 283W.
Prerequisite: Recommend ENGL& 101.
Student option grading.

INTRA-AMERICAN STUDIES 288/288W
Sociology of Minority Groups (5)
Use of sociological theories and research to examine the current and historical issues confronting American ethnic and racial minority groups. The course evaluates the socio-cultural context of group environments. Explores both the history and sociological concepts of culture and mores unique to various groups. Course focuses on the assimilation of certain groups, on religious beliefs, status, biases, stereotypes, discrimination, prejudice, gender, class and minority and majority group relations past and present. Dual listed as SOC 288. Previously IASTU 202/IASTU 202W.
Student option grading.

JAPANESE& 121
Japanese I (5)

JAPANESE& 122
Japanese II (5)
Continuation of JAPAN 121 with more vocabulary, more complicated sentences and communication strategies. Katakana and kanji characters introduced. Topics: shopping, activities, hobbies, likes and dislikes. Previously JAPAN 112.
Prerequisite: JAPAN 121 or equivalent with instructor permission. Student option grading.

JAPANESE& 123
Japanese III (5)
A continuation of JAPAN 122 with more vocabulary, more complicated sentence structures, continued work on Kanji characters. Topics: Japanese food, restaurant, family, family, annual events, illness and health. Previously JAPAN 113.
Prerequisite: JAPAN 122 or equivalent with instructor's permission. Student option grading.

JAPANESE& 221
Japanese IV (5)
A continuation of JAPAN 123, taught in a cultural context using the communicative approach, continued work on Kanji characters, and various speech styles. Topics: Japan's climate, geography, and traveling in Japan. Previously JAPAN 211.
Prerequisite: JAPAN 123 or 3-4 years of high school Japanese or equivalent with instructor permission. Student option grading.

JAPANESE& 222
Japanese V (5)
A continuation of JAPAN 221, taught in communicative approach, continued work on Kanji characters and sentence structures. Topics: rules and regulations, Japanese society, future plans, and directions. Previously JAPAN 212.
Prerequisite: JAPAN 221 or 4 years of high school Japanese or equivalent with instructor permission. Student option grading.

JAPANESE& 223
Japanese VI (5)
A continuation of JAPAN 222, taught in communicative approach, continued work on Kanji characters and speech styles. Topics: gift exchange, employment in Japan, neighborhood relations, and complaints. Previously JAPAN 213.
Prerequisite: JAPAN 222 or 4 years of high school Japanese or equivalent with instructor permission. Student option grading.

JAPANESE 295
Special Topics In Japanese (5)
Classes focusing on specific issues and/or topics of interest in Japanese. Previously JAPAN 285.

JAPANESE 297
Individual Project In Japanese (1)
Individual project in a specific area of Japanese. By arrangement with instructor. Previously JAPAN 297.
Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

JAPANESE 298
Individual Project In Japanese (2)
Individual project in a specific area of Japanese. By arrangement with instructor. Previously JAPAN 298.
Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

JAPANESE 299
Individual Project In Japanese (3)
Individual project in a specific area of Japanese. By arrangement with instructor. Previously JAPAN 299.
Prerequisite: Instructor permission, based on evaluation of student's educational and work experience.

LEARNING CENTER NORTH 001
GED Basic - Learning Center North (10)
Students read for understanding and prepare for GED exams, write connected paragraphs in essay format, apply mathematical concepts and procedures to solve problems, etc. Mandatory P/NC grading. Credits depend upon student entry into program.

LEARNING CENTER NORTH 002
GED Advanced - Learning Center North (10)
Students read for understanding and prepare for GED exams, write connected paragraphs in essay format, apply mathematical concepts and procedures to solve problems, etc. Mandatory P/NC grading. Credits depend upon student entry into program.

LIBRARY 170
Introduction to Digital Media (5)
Overview of basic digital media concepts, with emphasis on digital imaging using scanner, digital camera/camcorder, and consumer-grade PC based video editing system. Students design and produce simple digital media projects suitable for email or the Internet. Familiarity with windows environment helpful but not required. Previously LIB 190. Student option grading.

LIBRARY 297, 298, 299
Individual Projects In Library (1, 2, 3)
Individual project in a specific area of library. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Student option grading.

MANUFACTURING TECHNOLOGY 090
Certificate In Basic Manufacturing Orientation (1)
This course is the overview course for the Certificate In Basic Manufacturing and introduces the fundamental concepts of manufacturing, and the guidelines and requirements of the Manufacturing Technology Program.
Prerequisites: Placement at ENGL 080 or ESL 098. Mandatory P/NC grading.
MANUFACTURING TECHNOLOGY 091
Fundamental Personal Skills In MFGT-1LOT (2)
This course introduces fundamental skills required to effectively function in a manufacturing environment: Following simple spoken instructions, Observation-following clearly demonstrated instructions, and Teamwork-solving basic manufacturing problems in groups. Prerequisites: Placement at ENGL 080 or ESL 098. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 092
Personal Skills-MFGT-2LOT (2)
This course introduces fundamental skills required to effectively function in a manufacturing environment: Listening-following simple spoken instructions, Observation-following clearly demonstrated instructions, and Teamwork-solving basic manufacturing problems in groups. Prerequisites: Successful completion of MFGT 091. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 093
Fundamental Personal Skills In MFGT-1RW (2)
This course provides fundamental skills required to function effectively in a manufacturing environment: Reading-comprehending simple manufacturing materials, Writing-writting simple manufacturing instructions, and Mathematics-performing simple operations. Prerequisites: Placement at ENGL 080 or ESL 098, and placement at MATH 070. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 094
Personal Skills In MFGT-2RW (2)
This course provides additional skills required to function effectively in a manufacturing environment: Reading-comprehending a variety of manufacturing materials, Writing-writing manufacturing instructions and documents, and Mathematics-solving simple manufacturing problems. Prerequisites: MFGT 093. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 095
Technology In Manufacturing (2)
This course introduces the different types of technology used in Manufacturing, including personal computers, business management systems, ERP/MRP (enterprise resource planning/material requirements planning) material planning systems, data collection and analysis systems, and (CNC) computer numerical control or automated equipment. Prerequisites: Placement at ENGL 080 or ESL 098. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 101
Health and Safety In Manufacturing (2)
This course provides a comprehensive overview of health and safety issues while it emphasizes paying attention to details, reviews hazards to watch for and discusses how to respond in an emergency. Prerequisites: Placement at ENGL 080 or ESL 098 and successful completion or concurrent enrollment in MFGT 090 and MFGT 095. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 102
Print Reading In Manufacturing (1)
This course provides the fundamentals of mechanical print reading, including different types of mechanical drawings and components of each drawing type. Students will read and interpret drawings as well as sketch their own. Prerequisites: Placement at ENGL 080 or ESL 098 or the successful completion or concurrent enrollment in MFGT 090 and MFGT 095. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 103
Basic & Precision Measurement W/Intro to SPC (2)
This course provides the fundamental skills required to perform basic and precision dimensional measurements, including the use of rules, scales, tape measures, calipers, micrometers and the introduction of Statistical Process Control (SPC). Prerequisites: Placement at ENGL 080 or ESL 098 & successful completion or concurrent enrollment in MFGT 090, MFGT 095 & placement at MATH 070. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 110
Certificate In Basic MFGT Capstone (5)
This course is the Capstone Project for the Certificate in Basic Manufacturing and introduces the concepts of manufacturing, including technology sectors, team concepts, team development, problem solving, product design, engineering impacts, economics, marketing, and entrepreneurship. Prerequisites: Successful completion or current enrollment in MFGT 090, MFGT 095, MFGT 101, MFGT 102, MFGT 103. Mandatory P/NC grading.

MANUFACTURING TECHNOLOGY 113
Certificate In Basic Manufacturing (21)
This course introduces students to concepts concerning manufacturing techniques. Topics covered include safety, print reading, and precision measurement. A capstone project incorporating manufacturing skill sets working in a modern manufacturing lab creating a final product meeting necessary quality standards. Prerequisites: ENGL 080 or ESL 050, and MATH 070. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 115
CNC Machinist Training (20)
This BEGINNING program prepares individuals as CNC Machinists. Instruction covers programming, set-up and operation of Okuma CNC machining and turning centers, blueprint reading, math, machine tool theory, CMM inspection, surface plate techniques, and Lean Mfg. Permission of Instructor required.
Prerequisite: Successful completion of MFGT 110. Mandatory Decimal Grading.

MANUFACTURING TECHNOLOGY 120
CNC Machinist Applications (20)
This INTERMEDIATE program prepares individuals as CNC Machinists. Instruction covers programming, set-up and operation of Okuma CNC machining and turning centers, blueprint reading, math, machine tool theory, CMM inspection, surface plate techniques, and Lean Mfg. Permission of Instructor required.
Prerequisite: Successful completion of MFGT 115 with a 2.0 GPA or better. Mandatory Decimal Grading.

MANUFACTURING TECHNOLOGY 155
Quality Assurance Fundamentals (5)
This course provides a fundamental overview and awareness of the history, concepts and theory of quality as it relates to today’s business environment, including manufacturing. Prerequisite: Successful completion of MGFT 110. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 156
Continuous Improvement (5)
This course provides a fundamental overview and awareness of continuous improvement in manufacturing and business. Prerequisite: Successful completion of MGFT 155 with a 2.0 GPA or better, instructor permission.
Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 157
Team Dynamics In MFGT (3)
This course provides a fundamental overview of teams in manufacturing including different team types, functions, team of development, team stages, and team management.
Prerequisite: Successful completion of MGFT 155 with a 2.0 GPA or better, or instructor permission.
Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 158
Quality Audits (5)
This course provides an overview of Quality auditing and discusses the various types of audits and the elements and application of each of those types of audits. Prerequisite: Successful completion of MGFT 155, MGFT 156, MGFT 157, MGFT 167, MGFT 170, MGFT 175, MGFT 230, MGFT 231, MGFT 232 with a 2.0 GPA or better. Mandatory Decimal grading.
MANUFACTURING TECHNOLOGY 167
Inspection and Test (5)
This course provides a foundation and discusses the application of processes and techniques used in the manufacturing industry, including blueprint reading, sampling, inspection techniques, and testing methods. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157 with a 2.0 GPA or better.

MANUFACTURING TECHNOLOGY 169
Preventive and Corrective Action (3)
This course provides a foundation that enables the implementation of preventing and corrective action systems in manufacturing processes. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157, MFGT 167, MFGT 170, MFGT 175, MFGT 230, MFGT 231, MFGT 232 with a 2.0 or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 170
Quality Systems and Standards (5)
This course provides a fundamental overview and provides details and applications of the different quality systems and standards used in the manufacturing industry. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157, MFGT 167, MFGT 170, MFGT 175, MFGT 230, MFGT 231, MFGT 232 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 175
Quality Internship (9)
This course is a cooperative work experience with local industry. Students will apply learned skills, gain actual on-the-job experience, and receive credit for work experience appropriate to their level of education. Previously MFGT 175. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157, MFGT 167, MFGT 170, MFGT 175, MFGT 230, MFGT 231, MFGT 232 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 195
CNC Internship (9)
This course is a cooperative work experience with local industry. Students will apply learned skills, gain actual on-the-job experience, and receive credit for work experience appropriate to their level of education. Previously MFGT 175. Prerequisite: Successful completion of MFGT 120 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 215
CNC Programming (6)
This course presents the introductory concepts of numerically controlled machining technology as it affects part design, part programming, and part production. Prerequisite: Successful completion of MFGT 115, MFGT 120, MFGT 196 with a 2.0 GPA or better or work experience equivalence with instructor approval. Mandatory Decimal Grading.

MANUFACTURING TECHNOLOGY 220
Computer Aided Manufacturing (CAM) (6)
This course provides the fundamental knowledge and skills to properly use Computer Aided Manufacturing software to transition products from design to manufacturing. Prerequisite: Successful completion of MFGT 115, MFGT 120, MFGT 196 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 225
Rapid Prototyping (3)
This course provides a fundamental overview and discusses rapid prototyping and automated fabrication, including the generation of suitable CAD models, current rapid prototyping fabrication techniques, the use of secondary processing, and the impact of these technologies on society. Prerequisite: Successful completion of MFGT 115, MFGT 120, MFGT 196 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 230
Measurement Systems (5)
This course provides the basic foundation of the measurement systems and measurement system applications used in manufacturing. Prerequisite: Successful completion of MFGT 155, MFGT 156 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 234
Metrology (5)
This course introduces the fundamentals of dimensional measurement, production gages, and gaging techniques. Measurement techniques will emphasize the proper use of appropriate measurement equipment. Previously MFGT 231. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157 with a 2.0 or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 235
Calibration Systems (5)
This course describes the calibration process used in manufacturing to ensure measurements are accurate and traceable to national and international standards. Previously MFGT 232. Prerequisite: Successful completion of MFGT 155, MFGT 156, MFGT 157 with a 2.0 or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 236
Statistical Techniques (5)
This course provides the fundamental statistical concepts and methodologies and how they are used in industry to control manufacturing and business processes. Previously MFGT 233. Prerequisite: Successful completion of MFGT 167, MFGT 195, MFGT 230, MFGT 234, MFGT 235 with 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 240
CAD for Manufacturing (6)
An introduction to computer-aided drafting with emphasis on applications in manufacturing. Content includes DOS commands and all groupings of basic commands such as: Draw, Display, Edit, Layers, Settings, Dimension, Text, Block, File Management, Plotting and Printing. Prerequisite: ENGR 101 or MACHT 170 or METFA 180 or equivalent experience. Permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 244
Machine Maintenance Level I (22)
Students will learn maintenance requirements for coolant tanks, filtration & recovery systems, state & local requirements for handling & disposal of coolants & cutting oils. Includes: developing & scheduling periodic maintenance, ordering & inventory control of parts, machine nomenclature, machine set-up, electrical & hydraulic blueprint reading, industry mathematics, team building & communication skills. Previously MFGT 241. Prerequisites: Strong English communication skills required. ESL Level 3 or above. Pre-program interview with instructor or program coordinator. Instructor permission required. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 250
Computer-Aided Manufacturing Lecture (4)
Introduction to CAM. Includes necessary DOS commands, CAM job planning, geometry description, editing, tool path, macro functions, file management, utilities & code generators. Corequisite: Choose one of the following labs to be taken concurrently with this class, MFGT 254, MFGT 255, MFGT 256, or MFGT 257. Prerequisite: INDUS 103, METFA 188, MACTH 171 or METFA 181. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 254
CAM Punched Lab (2)
CAM programming applied to CNC punch presses. Previously MFGT 251. Corequisite or prerequisite: MFGT 250 or permission. Prerequisite: METFA 188 or METFA 181. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 255
Smartcam Programming for Milling Centers (3)
CAM programming applied to milling and machining centers. Previously MFGT 252. Corequisite or prerequisite: MFGT 250 or permission. Prerequisite INDUS 103 or MACH 171 or instructor permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 256
CAM Turning Lab (2)
CAM programming applied to turning centers. Previously MFGT 253. Corequisite or prerequisite: MFGT 250 or permission. Prerequisite: INDUS 103 or MACH 171 or permission. Mandatory decimal grading.
Mandatory decimal grading.

166, 169, 170, 233 with a 2.0 GPA or better.

Prerequisite: Successful completion of MFGT the program of study. Previously MFGT 275.

MFGT264 or 265 or 266 or 267. Prerequisite: MFGT 250 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 265
CAD/CAM Milling Lab (2)

CAD/CAM programming applied to CNC milling. Previously MFGT 262. Corequisite or prerequisite: MFGT 260 or permission. Prerequisite: MFGT 250, 255 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 266
CAD/CAM Turning Lab (2)

CAD/CAM Programming applied to CNC turning. Previously MFGT 263. Corequisite or prerequisite: MFGT 260 or permission. Prerequisite: MFGT 250, 256 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 267
CAD/CAM Survey Lab (2)

MANUFACTURING TECHNOLOGY 290
Quality Internship (9)

This course is a cooperative work experience option for qualified students. Students will apply learned skills, gain actual on-the-job experience, and receive credit for work experience appropriate to training while completing the program of study. Previously MFGT 275. Prerequisite: Successful completion of MFGT 166, 169, 170, 233 with a 2.0 GPA or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 296
CAM Internship (9)

This course provides work experience with local industry. Student will apply learned skills, gain actual on-the-job experience, and receive credit for work experience appropriate to their level of education. Previously MFGT 276. Prerequisite: Successful completion of MFGT 215, 220, 225 with a 2.0 or better. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 298, 299
Individual Projects In Manufacturing Technology (2, 3)

Individual project in a specific area of Manufacturing Technology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience.

MANUFACTURING TECHNOLOGY 299
CAD/CAM Lecture (4)

Programming CAD/CAM - the linkage of Computer-Aided Drafting with Computer-Aided Mfg. The student will choose one lab to be taken concurrently with this lecture from the following options. Corequisite: MFGT264 or 265 or 266 or 267. Prerequisite: MFGT 250 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 263
CAD/CAM Turning (2)

CAD/CAM programming applied to CNC turning. Previously MFGT 262. Corequisite or prerequisite: MFGT 260 or permission. Prerequisite: MFGT 250, 255 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 264
CAD/CAM Punching (2)

CAD/CAM programming applied to CNC punching presses. Previously MFGT 261. Corequisite or prerequisite: MFGT 260 or permission. Prerequisite: MFGT 250, 254 or permission. Mandatory decimal grading.

MANUFACTURING TECHNOLOGY 260
CAD/CAM Lecture (4)

Preparing for calculus. Previously MATH 107. Prerequisite: MATH 097 and 098 serve as prerequisite for college-level quantitative reasoning courses. Prerequisite: MATH 90 (2.0 or better) or a score of 60 or higher on the Algebra COMPASS test (or equivalent score on SAT, ACT, or ASSET). Student Option Grading.

MATH 107
Math In Society (5)

Practical applications of mathematics as they arise in everyday life. Includes finance math, probability & statistics, and a selection of other topics. Designed for students who are not preparing for calculus. Previously MATH 107. Prerequisite: MATH 099 (2.0 or better) or MATH 097 AND MATH 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test. Student option grading.

MATH 097
Fundamentals of Intermediate Algebra I (5)

Simplifying & evaluating linear & rational expressions. Solving these types of equations. Introduction to functions. Systems of linear equations. Solving linear & absolute value inequalities. Applications. Together, MATH 097 and 098 serve as prerequisite for college-level quantitative reasoning courses. Prerequisite: MATH 80 (2.0 or better) or a score of 60 or higher on the Algebra COMPASS test (or equivalent score on SAT, ACT, or ASSET). Student Option Grading.
MATH 118
Trigonometry (2)
For students who lack only the trigonometry preparation for calculus and for others wanting an overview of trigonometry. Plane geometry, triangle trigonometry and an introduction to the circular and inverse circular functions. Previously MATH 114. Prerequisite: MATH 099 (2.0 or better), or one and a half years of high school algebra (C or better) and a score of 33 or higher on the College Algebra ASSET test (or equivalent), or instructor permission. Student option grading.

MATH 141
Precalculus I (5)
The elementary functions and their graphs, with applications to mathematical modeling. Examples include linear, quadratic, polynomial, rational, exponential and logarithmic functions, composite functions, inverse functions and transformation of graphs. Use of the graphing calculator. Previously MATH 110. Prerequisites: Math 099 (2.0 or better) or Math 097 AND 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test. Student option grading.

MATH 142
Precalculus II (5)
Triangle trigonometry, circular and inverse trigonometric functions, trigonometric identities, solving trigonometric equations, applications of trigonometry. Polar coordinates and parametric equations. Conic sections. Use of the graphing calculator. Previously MATH 120. Prerequisite: MATH 099 (2.0 or better) or a score of 70 or higher on the College Algebra COMPASS test. Student option grading.

MATH 145
Discrete Mathematics (5)
Finite and infinite non-continuous phenomena. Selected topics from Boolean algebras (logic, set theory), recursion and recursive reasoning, combinatorics, number theory, graph theory (networks, trees), polygons finite difference methods, algorithms. Previously MATH 121. Prerequisites: MATH& 142 (2.0 or better) or permission. Student option grading.

MATH 146
Introduction to Stats (5)
Analysis of data through graphical and numerical methods, the normal distribution, data collection, elementary probability, confidence intervals and hypothesis testing. Emphasis on applications. Previously MATH 108. Prerequisite: Math 099 (2.0 or better) or Math 097 AND Math 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test AND placement into English 100 or ESL 100. Student option grading.

MATH 148
Business Calculus (5)
Differential and Integral Calculus of elementary functions with an emphasis on business and social science applications. Designed for students who want a brief course in Calculus. (No credit given to those who have completed MATH& 151.) Previously MATH 112. Prerequisite: MATH 111 preferred (2.0 or better) or MATH& 141 (2.0 or better), or a score of 70 or higher on the College Algebra Compass test. Student option grading.

MATH 151
Calculus I (5)
Definition, interpretation and applications of the derivative. Derivatives of algebraic and transcendental functions. Previously MATH 124. Prerequisites: MATH& 142 (2.0 or better), or a score of 70 or higher on both the College Algebra and Trigonometry Compass Tests. Student option grading.

MATH 152
Calculus II (5)
Definition, interpretation, and application of the definite integral. The Fundamental Theorem of Calculus, techniques of integration, definite integrals involving curves described parametrically, and introduction to separable differential equations. Previously MATH 125. Prerequisite: MATH& 151 (2.0 or better.) Student option grading.

MATH 163
Calculus 3 (5)
Infinite series & the calculus of vector-valued functions and functions of several variables. Sequences, series, Taylor series, vector products, lines, planes, space curves, level curves & surfaces, partial derivatives, chain rules, tangent planes, gradient & directional derivatives. Previously MATH 126. Prerequisite: MATH& 152 (2.0 or better.) Student option grading.

MATH 171
Math for Elem Ed I (5)
Fundamental concepts of numbers and operations related to topics taught at the K-8 level. Topics include problem solving, algebraic thinking, numeration, and arithmetic with rational numbers. Recommended for future elementary teachers. Previously MATH 170. Prerequisite: Math 099 (2.0 or better) or Math 097 AND 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test AND placement into ENGL 100 or ESL 100. Student option grading.

MATHEMATICS CURRICULUM

- MATH 118
- MATH 141
- MATH 142
- MATH 145
- MATH 146
- MATH 148
- MATH 151
- MATH 152
- MATH 163
- MATH 171

Courses marked with * have additional prerequisites.
MATH 292 Special Topics in Mathematics (2)
Classes focusing on specific issues and/or topics of interest in mathematics. Previously MATH 282.

MATH 293 Special Topics in Mathematics (3)
Classes focusing on specific issues and/or topics of interest in mathematics. Previously MATH 283.

MATH 297, 298, 299 Individual Project in Mathematics (1, 2, 3)
Individual project in a specific area of mathematics. By arrangement with instructor.

MATH 295 Special Topics in Mathematics (5)
Classes focusing on specific issues and/or topics of interest in mathematics. Previously MATH 285.

MATH 207 Elements of Differential Equations (5)
Linear and non-linear ordinary differential equations and applications. Graphical, numerical, analytical, and qualitative methods. Prerequisite: MATH 163 (2.0 or better) or instructor permission. Student option grading.

MATH 208 Linear Algebra (5)
Matrix operations, determinants, systems of equations, abstract vector spaces, linear transformations, eigenvalues and eigenvectors. Prerequisites: MATH & 163 (2.0 or better) or instructor permission. Student option grading.

MATH 209 Linear Analysis (5)
Systems of linear and non-linear differential equations, abstract vector spaces, eigenvalues, eigenvectors, and phase planes. Prerequisites: MATH 207 and MATH 208 (2.0 or better) or permission. Student option grading.

MATH 211 Elements of Statistical Method (5)
Principles of data analysis, linear regression, data collection, elementary probability, random variables, probability distributions and statistical inference. Emphasis on practical applications and the interpretation of results. Prerequisites: Math 148 (2.0 or better) or Math & 151 (2.0 or better) AND placement into ENGL 100 or ESL 100. Student option grading.

MATH 264 Calculus IV (5)
Continuation of the MATH & 151-152-153 Calculus sequence. Optimization, multiple integrals, vector fields, divergence, curl, line and surface integrals, Green’s Theorem, Stokes’ Theorem, and the Divergence Theorem. Previously MATH 224. Prerequisite: MATH & 163 (2.0 or better) or permission. Student option grading.

MEDICAL LAB TECHNOLOGY 180 Introduction to Medical Lab Procedures (5)
An introduction to procedures used in the clinical or biological laboratory. Emphasis on laboratory safety, measurement, specimen collection, quality control procedures, basic laboratory theory and instruments. Theory and clinical procedures in urinalysis. Previously MLT 197. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 200 MLT Phlebotomy Skills Lab (1)
Laboratory class to give MLT students basic phlebotomy skills and techniques using a variety of equipment. Student will draw blood specimens on classmates, process samples and use laboratory information system to order a laboratory test. Prerequisite: Acceptance into the MLT Program and/or instructor permission. Mandatory P/NC grading.

MEDICAL LAB TECHNOLOGY 211 Hematology Lecture (6)
Basic theory of clinical hematology including normal and abnormal development of cellular components of blood as manifested in disease, diagnostic hematologic tests performed, and theory of coagulation, and diagnostic tests performed for detecting coagulopathies. Previously MLT 220. Instructor permission required. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 222 Clinical Chemistry Lecture (6)
The theoretical and practical concepts associated with testing procedures, including fundamentals of instrumentation, methodology, quality control, and biochemistry related to substances tested in the clinical chemistry laboratory. Previously MLT 222. Prerequisites: MLT 180 and CHEM 102 with a grade of 2.0 or better; admission into the MLT program. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 223 Parasitology and Mycology Lecture (3)
Basic theory and clinical procedures used to isolate and identify intestinal, blood and tissue parasites; dermatophytes, systemic and subcutaneous fungi. Instructor approval required. Previously MLT 224. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 224 Clinical Microbiology Lecture (5)
Basic theory of clinical microbiology including disease states, isolation and identification of bacterial organisms. Emphasis is placed on media selection and interpretation of result diagnostic tests. Previously MLT 228. Prerequisites: BIOL & 260 with a grade of 2.0 or better; admission into the MLT program. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 225 Immunology Lecture (3)
Basic theory and diagnostic procedures in clinical immunology and serology. Nature and production of immunoglobulins, antigen-antibody reactions, natural and acquired immunity, introduction to genetics, introduction to immunologic diseases with particular emphasis on Acquired Immune Deficiency Syndrome (AIDS). Prerequisites: Admission to MLT Program or instructor permission. Mandatory decimal grading.
MEDICAL LAB TECHNOLOGY 231
Hematology Laboratory (3)
Basic application of clinical hematology including normal and abnormal development of cellular components of blood as manifested in disease, diagnostic hematologic tests performed, and theory of coagulation and diagnostic tests performed. Previously MLT 221.
Prerequisites: Admission to MLT Program or instructor permission. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 232
Clinical Chemistry Lab (9)
Application of theoretical techniques used in the clinical chemistry laboratory. Manual testing, sample preparation, automated testing, quality control and disease states. Emphasis placed on obtaining a strong understanding of the variables associated with chemical procedures and their control, and the theories behind chemistry tests. Previously MLT 227.
Prerequisites: MLT 180 and CHEM 102 with a grade of 2.0 or better and admission to the MLT program. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 233
Parasitology & Mycology Lab (1)
Basic techniques and procedures used in parasitology and mycology laboratories. Collection, processing, direct examinations and concentration techniques. Microscopic identification of organisms, review of staining techniques, quality control, wet mounts and culture identification. Emphasis is placed on organism identification in parasitology. Previously MLT 225. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 234
Clinical Microbiology Laboratory (3)
Isolate and identify clinically significant microorganisms from specimens and cultures. Emphasis placed on sterile technique, safety, quality control, isolation techniques, quality assurance and identification of microorganisms. Previously MLT 229. Prerequisites: BIOL & CHEM 260 with a grade of 2.0 or better and admission into the MLT Program. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 235
Immunology Laboratory (2)
Basic techniques and procedures used in the immunology/serology laboratory. Qualitative and quantitative direct and indirect tests for antibodies and antigens. Safety, quality control and pipetting. Previously MLT 223. Prerequisites: Admission to MLT Program or instructor permission. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 241
Hematology Practicum (6)
Practical experience in clinical laboratories, 40 hours per week for 4 weeks. The student will become proficient in performing laboratory procedures and in utilizing laboratory equipment in hematology, coagulation, urinalysis and body fluids. Previously MLT 230. Prerequisites: Admission to MLT program or instructor permission. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 242
Chemistry Practicum (6)
Practical experience in clinical laboratories, 40 hours per week for 4 weeks. The student will become proficient in performing laboratory procedures and in utilizing of laboratory equipment in clinical chemistry. Previously MLT 231. Prerequisite: Admission to MLT program or instructor permission. Mandatory P/NC grading.

MEDICAL LAB TECHNOLOGY 244
Microbiology Practicum (6)
Practical experience in clinical laboratories, 40 hours per week for 4 weeks. The student will become proficient in performing laboratory procedures and in utilizing laboratory equipment in microbiology, parasitology, mycology, and serology. Previously MLT 232. Prerequisite: Admission to MLT program or instructor permission. Mandatory decimal grading.

MEDICAL LAB TECHNOLOGY 245
Integrated Immunohematology (11)
An intensive, concentrated blood bank lecture/lab and clinical problem-solving course. Theory and practical application include: blood group serology, compatibility testing, antibody identification, QC, preparation/storage of donor units and blood components, and incompatibility resolution. Previously MLT 233. Prerequisite: Admissions to MLT Program.

MEDICAL LAB TECHNOLOGY 291
Special Topics In Medical Lab Technology (1)
Classes focusing on specific issues and/or topics of interest in Medical Lab Technology. Previously MLT 281. Permission.

MEDICAL LAB TECHNOLOGY 292
Special Topics In Medical Lab Technology (2)
Classes focusing on specific issues and/or topics of interest in Medical Lab Technology. Previously MLT 282. Permission.

MEDICAL LAB TECHNOLOGY 293
Special Topics In Medical Lab Technology (3)
Classes focusing on specific issues and/or topics of interest in Medical Lab Technology. Previously MLT 283. Permission.

MEDICAL LAB TECHNOLOGY 297, 298, 299
Individual Project In Medical Lab Technology (1, 2, 3)
Individual project in a specific area of Medical Lab Technology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience.

MUSIC 100
Introduction to Music Theory (5)
This course covers music notation, meter, rhythm, scales, key signatures and intervals in preparation for MUSC 143. Concurrent enrollment in MUSC 120 required. Previously MUSC 100. Mandatory decimal grading.

MUSIC 105/105W
Music Appreciation (5)
Why does music affect us the way it does? There is no escaping music in our society; it’s everywhere. Together we will discover how and why music has impacted our culture through the centuries. We will explore music’s history, its basic elements, and its power to alter entire societies. Previously MUSC 107/MUSIC 107W. Prerequisites: Successful completion of ENGL 100 (or equivalent) or test placement of ENGL & 101. Student option grading.

MUSIC 106
Music In American Culture (5)
What does your musical taste tell the world about your personal identity, your social standing and your cultural background? Where does your ‘musical membership’ locate you in American culture? Explore the rich traditions of music styles through guided listening and analysis of songs from a wide range of genres. Previously MUSC 104. Prerequisites: Successful completion of ENGL 100 or ESL 100 or placement into ENGL & 101. Student option grading.

MUSIC 108
Music In World Cultures (5)
Students experience the diversity of music from around the world by examining selected musics in their broad cultural contexts: religions, historical, and social. The class emphasizes listening skills, music aesthetics, styles, genres, transmission, and sociocultural backgrounds of the musicians. Student option grading. Previously Music 108.

MUSIC 109/109W
American Popular Music (5)
Historical, social and stylistic study of American popular idioms from their African and European roots to the present. Focus on contemporary styles such as Rock, Country, Blues, Punk, Rap and Jazz. Contributions of artists will be discussed. The influence of various facets of the music industry will be examined. Dual listed as IASTU 109. Previously Music 109/Music 109W. Student option grading.

MUSIC 114
Class Instruction-Guitar (2)
This course is intended for students with little or no background in guitar performance. It presents basic skills and techniques needed to play the guitar. Students must supply their own ACOUSTIC guitar. Previously MUSIC 114. Student option grading.

MUSIC 115
Class Instruction Electric Bass Guitar (2)
Training in basic skills and technique for the electric bass guitar including reading bass clef, learning scales and modes in twelve keys and developing and improving technical proficiency. Intended for beginning to intermediate players. Students must provide own instrument. Course may be taken up to six times. Previously MUSIC 115. Student option grading.
MUSIC 117
Electric Guitar (2)
Training in basic skills and technique for the electric guitar including reading treble clef, learning scales and chords in twelve keys and developing and improving technical proficiency. Intended for beginning and intermediate players. Students must provide own instrument. Course may be taken up to six times. Previously MUSIC 117. Student option grading.

MUSIC 118
Acoustic Guitar Class - Intermediate (2)
Intended for intermediate level guitarists. This course presents more challenging skills and techniques necessary for improved acoustic guitar performance. Students supply their own ACOUSTIC guitar. Prerequisites: MUSIC 114 - Class Guitar, or permission of instructor. Previously MUSIC 118. Student option grading.

MUSIC 119
Class Piano for General Students (2)
This class presents the basic skills and techniques needed in piano performance. The class meets in the electronic piano lab and may be repeated up to six quarters. It is intended for students who have little or no background in piano technique. Previously MUSIC 127. Student option grading.

MUSIC 120
Class Piano for Music 100 Students (2)
Students meet three times a week in the electronic piano lab to learn basic skills and techniques needed in music reading, music theory and piano performance. This class is required of all MUSC 100 students. Previously MUSIC 120. Prerequisites: Concurrent enrollment in MUSC 100. Mandatory decimal grading.

MUSIC 124
Class Piano for Music 201 Students (2)
Music theory students learn basic skills and techniques. The course covers materials learned in MUSC 241 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSC 241 is required. Previously MUSIC 124. Mandatory decimal grading.

MUSIC 135
Shoreline Singers (2)
This advanced a cappella ensemble performs a variety of challenging vocal music including jazz, classical, world music, modern music, and more. The group tours annually and schedules multiple performances each quarter. Previously MUSIC 131. Mandatory decimal grading.

MUSIC 136
Jazz Ensemble (2)
The Jazz Ensemble rehearses and performs music in a variety of contemporary jazz styles. Sight reading, jazz interpretation, phrasing and improvisation are stressed. Students present several concerts each quarter and participate in a yearly concert tour, usually in Spring. Prerequisites: Membership in the Jazz Ensemble is by audition. Previously MUSIC 136. Mandatory decimal grading.

MUSIC 140
Symphonic Band (2)
Shoreline's Concert Band performs quarterly concerts that include traditional music, contemporary band works, orchestral transcriptions, solo features, Broadway musicals and marches. Quarterly concerts are scheduled. The Shoreline Concert Band rehearses and performs on Monday evenings from September to May. Previously MUSIC 140. Prerequisites: ability to play a band instrument. Mandatory decimal grading.

MUSIC 141
Music Theory I: FirstYear Music Theory (5)
The course includes sight singing, keyboard training, and the theories and fundamentals of musical structure. Concurrent enrollment in MUSIC 151 is required. Previously MUSIC 101. Mandatory decimal grading.

MUSIC 142
Music Theory II: FirstYear Music Theory (5)
This course continues the study of music fundamentals and structure. Sight singing, keyboard assignments, melodic and harmonic dictation are integrated into the course. It is intended primarily for music majors. Concurrent enrollment in MUSIC 152 (class piano) is required. Previously MUSIC 102. Prerequisite: MUSIC 141 with a grade of 2.0 or higher. Mandatory decimal grading.

MUSIC 143
Music Theory III: FirstYear Music Theory (5)
This course continues the study of theories and fundamentals of music structure. Sight singing and melodic and harmonic dictation are integrated into the class. This course is intended primarily for music majors. Concurrent enrollment in MUSIC 153 (class piano) is required. Previously MUSIC 103. Prerequisite: MUSIC 142 with a grade of 2.0 or higher. Mandatory decimal grading.

MUSIC 144
Funkgroove (2)
Funkgroove is a performance troupe which provides opportunities for students to perform and record song compositions and arrangements in styles typical of commercial radio. The group tours annually and schedules multiple performances each quarter. Previously MUSIC 144. Student option grading.

MUSIC 145
Evening Concert Choir - Choir of the Sound (2)
Shoreline's community choir performs three major concert series each year in venues throughout the community. The choir's dynamic repertoire ranges from popular music with rhythm section accompaniment and choreography to large major works with full orchestra. Membership is by audition. Instructor approval required. Previously MUSIC 142. Mandatory decimal grading.

MUSIC 146
Orchestra (2)
This course is intended for string students who join an approved off-campus community orchestra which rehearses once a week, works on standard orchestral literature and performs in a public concert at least once per quarter. Previously MUSIC 146. Prerequisites: ability to play a string instrument, permission of a music faculty advisor & the community orchestra conductor. Mandatory decimal grading.

MUSIC 147
Small Ensemble Performance (1)
Designed for musicians and singers at an intermediate to advanced level. Weekly rehearsals focus on small group performance skills. May be repeated. Ensembles include: Chamber Wind, Vocal, Guitar, Saxophone, Piano, Percussion, Bluegrass, Strings, Repertoire Jazz, and Brass. Previously MUSIC 147. Mandatory decimal grading.

MUSIC 150
History of Bluegrass (2)
Bluegrass blends various musical styles, including fiddle tunes, blues, country, old-time string bands and jazz to form a uniquely American art form. This class examines the history and development of the music through reading, listening and online discussion. Previously MUSIC 150. Prerequisite: Successful completion of ENGL 100 or placement into ENGL & 101. Student option grading.

MUSIC 151
Class Piano for Music Theory I Students (2)
Music theory students with little or no piano background learn basic skills and techniques. The course covers materials learned in MUSC 141 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSC 141 is required. Previously MUSIC 121. Mandatory decimal grading.

MUSIC 152
Class Piano for Music Theory II Students (2)
Music theory students with little piano background learn basic skills and techniques. The course covers materials learned in MUSC 142 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSC 142 is required. Previously MUSIC 122. Mandatory decimal grading.

MUSIC 153
Class Piano for Music Theory III Students (2)
Music theory students with some piano background learn basic skills and techniques. The course covers materials learned in MUSC 143 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSC 143 is required. Previously MUSIC 123. Mandatory decimal grading.

MUSIC 154
Opera Workshop (1)
Perform one-act operas and opera scenes in full production and usually in English. Dual listed as DRMA 167. Previously MUSIC 161. Prerequisite: Instructor permission based on student audition. Mandatory decimal grading.
MUSIC 155  
Opera Workshop (2)  
Students perform one-act operas and opera scenes from familiar and unfamiliar operas and operettas in full production and usually in English. This course is dual listed as DRMA 168. Previously MUSIC 162. Prerequisite: Instructor permission based on student audition. Mandatory decimal grading.

MUSIC 156  
Opera Workshop (3)  
Students perform one-act operas and opera scenes from familiar and unfamiliar operas and operettas in full production and performed in English. This course is dual listed as DRMA 169. Previously MUSIC 163. Prerequisite: Instructor permission based on student audition. Mandatory decimal grading.

MUSIC 161  
Class Voice Instruction - Beginning (2)  
Beginning voice students learn the fundamentals and basic techniques needed in vocal performance to enhance their ability to sing in a performing ensemble and/or perform in public. This course may be repeated for credit. Previously MUSIC 137. Student option grading.

MUSIC 162  
Class Voice Instruction - Intermediate (2)  
Intermediate voice students learn the fundamentals and basic techniques needed in vocal performance to enhance their ability to sing in a performing ensemble and/or perform in public. This course may be repeated for credit. Previously MUSIC 138. Prerequisites: Completion of MUSC 161 or permission of instructor. Student option grading.

MUSIC 163  
Class Voice Instruction - Advanced (2)  
Advanced voice students learn the fundamentals and basic techniques needed in vocal performance to enhance their ability to sing in a performing ensemble and/or perform in public. This course may be repeated for credit. Previously MUSIC 139. Prerequisites: Completion of MUSC 162 or permission of instructor. Student option grading.

MUSIC 164  
Musical Theater Performance (1)  
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shorelines Campus Theater. This course is dual listed as DRMA 164. Previously MUSIC 164. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

MUSIC 165  
Musical Theater Performance (2)  
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shorelines Campus Theater. This course is dual listed as DRMA 165. Previously MUSIC 165. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

MUSIC 166  
Musical Theater Performance (3)  
Singers and actors have the opportunity to perform musical theater in full production, accompanied by orchestra and presented in Shorelines Campus Theater. This course is dual listed as DRMA 166. Previously MUSIC 166. Prerequisites: Permission of instructor after audition. Mandatory decimal grading.

MUSIC 167  
Voice-Dance Performance Techniques 1 (2)  
Students develop the ability to sing and move simultaneously while preparing them to perform on stage in musical roles. This course is dual listed as PE 149. Previously MUSIC 167. Student option grading.

MUSIC 170  
Private Instruction - Classical Voice 1 (2)  
Students receive one-on-one mentoring to nurture artistic goals and improve vocal technique. Students sing in a variety of languages, prepare for and give public performances. This course enables the vocal music major to transfer two years of applied study to universities, colleges, and conservatories. Previously MUSIC 170. Prerequisites: Placement by audition and enrollment in SCC choral ensemble. Instructor approval required. Mandatory decimal grading.

MUSIC 175  
Chamber Chorale (2)  
Advanced ensemble of mixed voices that performs various styles of complex literature in several concerts each quarter. Usually tours during the year. Membership by audition. For information call the Humanities Division or the Music Department. Previously MUSIC 153. Mandatory decimal grading.

MUSIC 180  
Private Instruction - Classical Piano 1 (2)  
Students receive one-on-one instruction on piano technique and piano literature from the Baroque, Classical, Romantic and Contemporary periods. Students prepare for and give public performances. Previously MUSIC 172. Prerequisites: Reading knowledge of piano music. Permission of instructor. Mandatory decimal grading.

MUSIC 184  
Private Instruction Popular Voice (2)  

MUSIC 196  
Private Instruction Instrumental (2)  
Private instruction on selected musical instruments. Permission required. Previously MUSIC 171, 173 through MUSIC 194.

MUSIC 200  
Fundamentals of Music (3)  
Designated for students with little or no background in music. Especially useful for those who plan to be elementary school teachers. Covers basic concepts of music notation, rhythm, scales, intervals, and chord structure. Student option grading. Previously Music 200.

MUSIC 204  
Improvisation I (2)  
Improvisation I covers the basic elements of jazz improvisation, exploring various styles and idioms, and is open to all instrumentalists interested in playing jazz. Previously MUSIC 204. Mandatory decimal grading.

MUSIC 205  
Improvisation II (2)  
Improvisation II covers intermediate elements of jazz improvisation while exploring various styles and idioms. The class is open to all instrumentalists interested in playing jazz. Previously MUSIC 205. Prerequisite: MUSIC 204 or instructor permission. Mandatory decimal grading.

MUSIC 206  
History of Jazz (3)  
Historical, cultural, social and stylistic study of jazz history from African and European roots to the present. Focus on beginnings in New Orleans to present day avant-garde. Emphasis on form, structure, social background and the contribution of Jazz to American music. Extensive writing requirements. Dual listed as IASTU 206. Previously MUSIC 206. Student option grading.

MUSIC 207  
The Craft of Songwriting (2)  
Students examine the craft of writing a song and investigate how structure, melody, and lyrics function together to create a well-written song. The history of songwriting and the contribution of great songwriters are used to explore the process of songwriting. Previously MUSIC 207. Student option grading.

MUSIC 211  
Diction for Singers-Italian/German (3)  
Students perform musical compositions from the past three hundred years in both Italian and German. This course stresses correct pronunciation through use of the International Phonetic Alphabet. Previously MUSIC 208. Prerequisite: MUSIC 161 or equivalent with instructor permission. Student option grading.

MUSIC 212  
Diction for Singers-French/English (3)  
Students perform musical compositions from the past three hundred years in both French and English. This course stresses correct pronunciation through use of the International Phonetic Alphabet. Previously MUSIC 209. Prerequisite: MUSIC 161 or equivalent with instructor permission. Student option grading.

MUSIC 224  
Survey of Piano Literature (2)  
Students learn essential characteristics of piano compositions from the Baroque, Classical, Romantic, and Contemporary periods. Major topics are the history of the piano, performance practice, and biographical information on important composers. Intermediate reading level of piano music is recommended. Previously MUSIC 221. Student option grading.
COURSE DESCRIPTIONS

MUSIC 225  
Collaborative Piano (2)  
Intermediate and advanced pianists learn the skills and techniques of rehearsing, accompanying, and collaborating with vocal and instrumental soloists and ensembles. Previously MUSIC 222. Prerequisite: Intermediate or above reading level of piano music. Mandatory decimal grading.

MUSIC 226  
Piano Pedagogy (2)  
This class is designed for students who are interested in teaching piano. Weekly seminars/classes will focus on piano repertoire and methods for teaching beginning and intermediate students in individual and group settings. Previously MUSIC 223. Prerequisite: Intermediate reading level of piano music recommended. Student Option Grading.

MUSIC& 241  
Second Year Music Theory (5)  
Advanced melodic and harmonic dictation. Sight singing and keyboard assignments. Advanced theory and structure. Previously MUSIC 201. Prerequisite: MUSIC& 143 or equivalent with instructor permission. Mandatory decimal grading.

MUSIC& 242  
Second Year Music Theory (5)  

MUSIC& 243  
Second Year Music Theory (5)  

MUSIC 251  
Class Piano for Music Theory IV Students (2)  
Music theory students learn basic skills and techniques. The course covers materials learned in MUSIC& 241 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSIC& 241 is required. Previously MUSIC 124. Mandatory decimal grading.

MUSIC 252  
Class Piano for Music Theory V Students (2)  
Music theory students learn basic skills and techniques. The course covers materials learned in MUSIC& 242 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSIC& 242 is required. Previously MUSIC 125. Mandatory decimal grading.

MUSIC 253  
Class Piano for Music Theory VI Students (2)  
Music theory students learn basic skills and techniques. The course covers materials learned in MUSIC& 243 and piano proficiency skills required of all music majors. Concurrent enrollment in MUSIC& 243 is required. Previously MUSIC 126. Mandatory decimal grading.

MUSIC 264  
Conducting (2)  
A beginning/intermediate class in conducting with emphasis on beat patterns, beat styles, score reading, and preparation for conducting vocal and instrumental ensembles. Includes an overview of the history of the art of conducting. Previously MUSIC 291. Prerequisites: Completion of First Year Theory sequence. Instructor approval required. Mandatory decimal grading.

MUSIC 268  
Voice-Dance Performance Techniques 2 (2)  
Students develop further skills in moving and singing simultaneously, including part singing and complex dance combinations. This course is a continuation of MUSIC 167 or PE 149 for the more advanced student and is dual listed as PE 150. Previously MUSIC 168. Prerequisite: Completion of MUSIC 167, PE 149 or equivalent with instructor's permission. Student option grading.

MUSIC 270  
Private Instruction - Classical Voice (2)  
Students continue to receive one-on-one mentoring to nurture artistic goals and improve vocal technique. Students sing in a variety of languages, prepare for and give public performances. This course enables the vocal music major to transfer two years of applied study to universities, colleges, and conservatories. Previously MUSIC 270. Prerequisite: Placement by audition and enrollment in SCC choral ensemble. Instructor approval required. Mandatory decimal grading.

MUSIC 280  
Private Instruction - Classical Piano (2)  
Students continue to receive one-on-one instruction on piano technique and piano literature from the Baroque, Classical, Romantic and Contemporary periods. Students prepare for and give public performances. Previously MUSIC 272. Prerequisites: Intermediate reading knowledge of piano music. Permission of instructor. Mandatory decimal grading.

MUSIC 284  
Private Instruction Popular Voice (2)  

MUSIC 291  
Special Topics In Music (1)  
Classes focusing on specific issues and/or topics of interest in music. Previously MUSIC 263.

MUSIC 292  
Special Topics In Music (2)  
Classes focusing on specific issues and/or topics of interest in music. Previously MUSIC 264.

MUSIC 293  
Special Topics In Music (3)  
Classes focusing on specific issues and/or topics of interest in music. Previously MUSIC 265.

MUSIC 294  
Special Topics In Music (4)  
Classes focusing on specific issues and/or topics of interest in music. Previously MUSIC 266.

MUSIC 295  
Special Topics In Music (5)  
Classes focusing on specific issues and/or topics of interest in music. Previously MUSIC 267.

MUSIC 296  
Private Instruction Instrumental (2)  
Private instruction on selected musical instruments. Permission required. Previously MUSIC 271 through MUSIC 294.

MUSIC 297  
Individual Project In Music (1)  
Individual project in a specific area of music. By arrangement with instructor. Previously MUSIC 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

MUSIC 298  
Individual Project In Music (2)  
Individual project in a specific area of music. By arrangement with instructor. Previously MUSIC 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

MUSIC 299  
Individual Project In Music (3)  
Individual project in a specific area of music. By arrangement with instructor. Previously MUSIC 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

MUSIC TECHNOLOGY 100  
Vocational Music Seminar (2)  
A seminar to assist the student in career exploration and development. Factual information is presented by professionals working in all areas of music-related careers. Student option grading.

MUSIC TECHNOLOGY 101  
Survey of Music Recording/Publishing Business (2)  
The course provides techniques for successful operation of businesses focusing in the area of music recording and publishing. Cash flow is tracked and evaluated throughout the industry. Artist royalties, broadcast royalties, contract negotiation and studio ownership. Previously MUSTC 104. Student option grading.

MUSIC TECHNOLOGY 102  
Rights and Methods In Multimedia (2)  
Overview of development and marketing of a variety of multimedia products. Introduction to legal issues relating to content including copyright, trademark law, publicity and privacy rights, unions and other related organizations. Previously MUSTC 105. Student option grading.

**MUSIC TECHNOLOGY 121**  
First-Year Audio Recording 1  (3)  
Students gain a working knowledge of signal flow in a modern multi-track recording facility through the study and application of acoustics, decibels and microphones. This course is the first of a structured three-course sequence. Previously MUSTC 220. Student option grading.

**MUSIC TECHNOLOGY 122**  
First-Year Audio Recording 2  (3)  
Students gain a deeper understanding of signal flow in a modern multi-track recording facility through the study and usage of audio recorders, amplifiers and speakers. This course is the third of a structured three-course sequence. Previously MUSTC 221. Prerequisite: MUSTC 121 or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 123**  
First-Year Audio Recording 3  (3)  
Students gain a deeper understanding of signal flow in a modern multi-track recording facility through the study and usage of audio recorders, amplifiers and speakers. This course is the third of a structured three-course sequence. Previously MUSTC 222. Prerequisite: MUSTC 122 or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 131**  
Digital Audio Production 1  (3)  
Provides students with a working understanding of basic digital audio production technology. Topics include sampling, laser theory, compact disc production, video and film applications, satellite broadcast, and digital signal processing. Previously MUSTC 226. Student option grading.

**MUSIC TECHNOLOGY 132**  
Digital Audio Production 2  (3)  
Provides students with a basis in multitrack digital audio production as it relates to the Pro Tools III digital audio workstation. Topics covered include multitrack audio recording, editing, signal processing and mixing in a random-access, hard disk recording environment. Previously MUSTC 227. Prerequisite: MUSTC 131 or equivalent with permission of instructor. Student option grading.

**MUSIC TECHNOLOGY 133**  
Digital Audio Production 3  (3)  
A continuation of topics discussed in MUSTC 132, with an emphasis on application of digital audio technologies as used in audio post-production environments, multimedia production and an integrated analog/digital multitrack studio. Previously MUSTC 228. Prerequisite: MUSTC 132 or equivalent with permission of instructor. Student option grading.

**MUSIC TECHNOLOGY 143**  
Introduction to Pop and Commercial Music Theory  (3)  
This course begins a process of study in ear training, harmony, rhythm, melody, nomenclature, and production skills necessary for success in pop and commercial music styles. Previously MUSTC 103. Prerequisite: MUSIC 102 or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 151**  
Introduction to MIDI  (2)  
This course introduces the student to MIDI music production using synthesizers, sequencers, drum machines, samplers, personal computers and various controllers. Instruction is balanced between demonstration and hands-on learning opportunities. Previously MUSTC 230. Student option grading.

**MUSIC TECHNOLOGY 152**  
MIDI Sequencing I  (2)  
Demonstration/hands-on instruction in modern MIDI sequencing using the Macintosh computer. Detailed exploration of Mark of the Unicorn's 'Digital Performer' sequencing software provides the core of the course work. It is recommended the courses are taken sequentially. Previously MUSTC 231. Student option grading.

**MUSIC TECHNOLOGY 153**  
MIDI Sequencing II  (2)  
Demonstration/hands-on instruction in modern MIDI sequencing using the Macintosh computer. Detailed exploration of Mark of the Unicorn's 'Digital Performer' sequencing software provides the core of the coursework. It is recommended the courses are taken sequentially. Previously MUSTC 241. Student option grading.

**MUSIC TECHNOLOGY 161**  
MIDI Sampling  (2)  
Sampling technology is presented in a demonstration/hands-on course covering introductory to advanced techniques. Previously MUSTC 232. Prerequisite: MUSTC 151 and/or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 162**  
MIDI Synthesis  (2)  
Synthesis technology is presented in a demonstration/hands-on course covering introductory to advanced techniques. Previously MUSTC 233. Prerequisite: MUSTC 151 and/or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 163**  
MIDI Drum Programming  (2)  
Demonstration/hands-on instruction in MIDI drum programming covering hardware and software based technology. Instruction moves through equipment operation into successful programming in various musical styles. Previously MUSTC 234. Prerequisite: MUSTC 151 and/or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 171**  
Digital Performer I: Beginning Digital Audio  (5)  
Students learn the Digital Performer application with an emphasis on the digital audio component of the application software. Students will demonstrate and develop projects simulating a commercial recording studio environment. Previously MUSTC 236. Student option grading.

**MUSIC TECHNOLOGY 172**  
Digital Performer II: Static Sound Design  (5)  
Students learn the Digital Performer application as it applies to audio post-production of static sound design elements such as software graphical-user-interface (GUI), on-line audio and book-on-tape, simulating a commercial recording studio environment. Previously MUSTC 237. Prerequisite: MUSTC 171. Student option grading.

**MUSIC TECHNOLOGY 173**  
Digital Performer III: Film/Video Sound Design  (5)  
Students learn the Digital Performer application as it applies to audio post-production of film and video sound design elements such as dialog, sound effects and sound tracks simulating a commercial recording studio environment. Previously MUSTC 238. Prerequisites: MUSTC 172. Student option grading.

**MUSIC TECHNOLOGY 206**  
Live Sound Reinforcement  (3)  
Students learn the concepts, techniques, and vocabulary needed to setup and operate sound reinforcement systems. Examine basics of assembling a system and securing employment in the live sound industry. Prerequisite: MUSTC 121 and 122 or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 221**  
Multitrack Music Production 1  (3)  
Students learn the operation of a multitrack recording studio and work as engineers on a variety of projects. Instruction combines demonstration and hands-on learning opportunities. Previously MUSTC 223. Prerequisite: MUSTC 123 or instructor permission. Student option grading.

**MUSIC TECHNOLOGY 222**  
Multitrack Music Production 2  (3)  
Students expand their understanding of the multitrack recording process from the initial recording to production. Emphasis on the development of a student recording portfolio. Instruction is balanced between demonstration and hands-on learning opportunities. Previously MUSTC 224. Prerequisite: MUSTC 221 or equivalent with permission of instructor. Student option grading.

**MUSIC TECHNOLOGY 223**  
Multitrack Music Production 3  (3)  
Students study advanced topics in multitrack production. Emphasis is on the development of an expanded student portfolio. Instruction combines demonstration and hands-on learning opportunities. Previously MUSTC 225. Prerequisite: MUSTC 222 or equivalent with permission of instructor. Student option grading.

**MUSIC TECHNOLOGY 231**  
Audio Post Digital Music Production  (5)  
Provides students with a working understanding of advanced non-linear digital production of music using digital audio workstations in a recording studio environment. Portfolio materials demonstrate music recording, mixing and mastering techniques. Previously MUSTC 246. Prerequisite: MUSTC 131, MUSTC 132, MUSTC 133 and VCT 124 or Instructor Permission. Student option grading.
MUSIC TECHNOLOGY 232
Audio Post II - Digital Radio Production (5)
Advanced radio broadcast-oriented commercial, public service, short- and long-form programing non-linear digital production using digital audio workstations in a recording studio environment, based upon a broadcast paradigm (quick turnaround, high-volume production of time sensitive audio content). Previously MUSTC 241. Prerequisite: MUSTC 131, MUSTC 132, MUSTC 133, MUSTC 231 and VCT 124, or Instructor Permission. Student option grading.

MUSIC TECHNOLOGY 233
Audio Post III - Digital Audio for Video (5)
Design music, sound effects, & other creative audio components for existing video material, taken from DVD, video tape or film-transfer, using advanced production techniques on a non-linear digital audio workstation. Learn standards & practices used in the post-production industry in a recording studio environment. Previously MUSTC 248. Prerequisite: MUSTC 231, MUSTC 132, MUSTC 133, MUSTC 232, and VCT 124 or instructor permission. Student option grading.

MUSIC TECHNOLOGY 241
Pop and Commercial Music Theory I (4)
Application of music theory concepts to 'real-life' situations of pop and commercial music. Basic ear training, harmony, rhythm, melody, arranging, and production techniques examined. Designed primarily for students enrolled in Music Technology Program. Previously MUSTC 216. Prerequisite: MUSTC 241 or equivalent.

MUSIC TECHNOLOGY 242
Pop and Commercial Music Theory II (4)
Application of music theory concepts to pop and commercial music. Intermediate ear training, harmony, rhythm, melody, arranging, & production techniques examined. The course is designed primarily for students enrolled in the Music Technology Program. Previously MUSTC 217. Prerequisite: MUSTC 242 or equivalent permission of instructor. Student option grading.

MUSIC TECHNOLOGY 243
Pop and Commercial Music Theory III (4)
Application of music theory concepts to 'real-life' situations of pop & commercial music. Advanced ear training, harmony, rhythm, melody arrangement, & production techniques examined. Designed primarily for students enrolled in Music Technology Program. Previously MUSTC 217. Prerequisite: MUSTC 242 or equivalent permission of instructor. Student option grading.

MUSIC TECHNOLOGY 274
MIDI Portfolio Development (2)
Creation and compilation of a professional demo package which will include master recordings of the student's own compositions and productions. Portfolio materials will demonstrate student work on a wide variety of equipment and musical styles and will be tailored to the specific vocationally related ambitions of each student. Previously MUSTC 249. Prerequisite: Second year standing: completion of advanced MIDI courses, or equivalent with instructor permission. Student option grading.

MUSIC TECHNOLOGY 294
Special Topics In Music Technology (4)
Classes focusing on specific issues and/or topics of interest in music technology. Previously MUSTC 284.

MUSIC TECHNOLOGY 297, 298, 299
Individual Project In Music Technology (1, 2, 3)
Individual project is a specific area of music technology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

NURSING 067
Fundamentals of Caregiving (2.5)
This course meets the Washington State requirements for 'Fundamentals of Care Giving' certificate in order to be employed in community caregiving settings. Mandatory P/NC grading.

NURSING 068
Receiving Nurse Delegation (1)
This course prepares the student to receive delegation of selected nursing tasks under the Washington State Nurse Delegation regulations. Mandatory P/NC grading.

NURSING 069
Nursing Assistant Training (6.5)
This course prepares the student to be a nursing assistant. Federal and state requirements for taking the Nursing Assistant Certification Examination will be included. Mandatory P/NC grading.

NURSING 070
Comprehensive Nursing Assistant Training (10)
This course prepares the student to be a nursing assistant for the care of residents of community and long term care facilities. Requirements for 'Fundamentals of Care Giving,' 'Nurse Delegation,' and federal and state requirements for taking the Nursing Assistant Certification examination will be included. Mandatory P/NC grading.

NURSING 094
Success Strategies for Nursing Students (2)
Support for academic success in Nursing. Includes reading, study, and test-taking skills, working in culturally diverse groups, drug dosage computation, and campus support services. An optional course recommended for those interested in improving academic skills or for whom English is not the native language. Previously NURS 091. Prerequisite: Admission to the Nursing program. Concurrent enrollment in NURS 121 or permission required. Mandatory P/NC grading.

NURSING 095
Critical Thinking In The Nursing Process (2)
An optional problem-solving seminar designed to assist students in developing their critical thinking skills in relationship to the nursing process. Emphasis will be on case studies. Previously NURS 092. Prerequisite: Concurrent enrollment in NURS 152 or permission. Mandatory P/NC grading.

NURSING 121
Communication In Nursing (2)
Provides the student with the opportunity to apply basic principles of communication and human relations to health care situations. Includes identification of problems in human relationships and techniques for working successfully with clients, families, co-workers, and others in the health care environment. Previously NURS 130. Prerequisite: Admission to the Nursing program. Mandatory decimal grading.

NURSING 131
Skills Practice Laboratory I or Communication (1)
Practice of communication skills including communicating within the health care team and with clients; group process; and responding to individuals with varying needs, ages, and problems. Techniques for managing personal stress in health care settings are explored. Prerequisites: Admission to the Nursing program. Mandatory P/NC grading.

NURSING 141
Foundations of Nursing Practice (3)
Presents the organizing framework foundational to the nursing program. Concepts include: critical thinking, nursing process, total person, homeostasis, and environment. Human needs and lifespan content regarding the older adult are explored. Roles and responsibilities of the registered nurse are emphasized. Previously NURS 152. Prerequisites: Admission to the Nursing Program. Mandatory decimal grading.

NURSING 142
Nursing Practice and Common Health Disturbances (5)
Nursing care for persons with common health disorders related to: immobility, malnutrition, infection, inflammation, healing, pain, post-operative care, unconsciousness, dementia, diabetes, integumentary and musculoskeletal disorders. Cultural needs, grief response and needs of the dying child and their family. Previously NURS 140. Prerequisite: NURS 121, 131, 141, 151, 161. Mandatory decimal grading.

NURSING 143
Nursing Practice & Complex Health Disturbances I (6)
Third course in the nursing sequence with emphasis on hospitalized patients with complex health disturbances. Focus is on the surgical experience, fluid, electrolyte and acid-base balance, respiratory, cardiac, neurological, immunological, cancer, gastrointestinal, endocrine, and sensory problems. Previously NURS 150. Prerequisite: NURS 142, 162, 152 or advanced placement LPN entry. Mandatory decimal grading.

NURSING 151
Nursing Foundations Practicum (4)
Taken concurrently with NURS 141, provides opportunity for student to apply the nursing process, communication abilities, and basic nursing skills in a long-term care setting. Previously NURS 134. Prerequisite: Admission to the Nursing Program. Mandatory P/NC grading.
COURSE DESCRIPTIONS

NURSING 152
Common Health Disturbances Practicum (4)
Provides the opportunity to expand the use of nursing process and technical skills when caring for hospitalized persons. Emphasizes medication administration, health teaching and interpersonal communication. Taken concurrently with NURS 142, 162. Previously NURS 142. Prerequisite: NURS 121, 131, 141, 151, 161. Mandatory P/NC grading.

NURSING 153
Complex Health Disturbances I Practicum (5)
Students provide care for hospitalized individuals with complex health disturbances with special emphasis on those related to fluid, electrolyte, and acid-base imbalance, cancer, immune, gastrointestinal, respiratory, cardiovascular, endocrine, and eye and ear dysfunction and on individuals undergoing surgery. Concurrent enrollment in NURS 143 required. Mandatory P/NC grading.

NURSING 161
Skills Practice Laboratory I (1)
Taken concurrently with NURS 151, provides on-campus experience practicing basic nursing skills. Previously NURS 133. Prerequisite: Admission to the Nursing Program.
Mandatory P/NC grading.

NURSING 162
Skills Practice Laboratory II (1)
Provides progression in the practice of nursing skills in an on-campus laboratory setting. Taken concurrently with NURS 142 and 152. Previously NURS 141. Prerequisites: NURS 121, 131, 141, 151, 161. Mandatory P/NC grading.

NURSING 163
Skills Practice Laboratory III (1)
Third level in the Nursing sequence where students practice and demonstrate nursing skills in an on-campus laboratory setting. Previously NURS 152. Prerequisites: NURS 142, 162, 152 or permission. Mandatory P/NC grading. Concurrent enrollment in NURS 143 required.

NURSING 221
Nurs Practice and Complex Health Disturbances II (2.5)
Fourth course in the Nursing sequence, with emphasis on care of the person with complex health disturbances. Includes emphasis on neurologic, biliary, genitourinary, renal and reproductive system dysfunctions. Nursing role with toxins and bioterrorism is included. Previously NURS 230. Prerequisite: NURS 131, 143, 163. Mandatory P/NC grading.

NURSING 222
Nursing Practice and the Childbearing Family (3)
Provides knowledge related to physiological and psychological changes occurring during the childbearing experience. Major focus is homeostasis for mother, newborn, and family unit. Explores cultural implications and diverse approaches and attitudes regarding childbearing. Taken concurrently with NURS 232. Previously NURS 240. Prerequisites: NURS 221, 231, 241, 251. Mandatory P/NC grading.

NURSING 223
Nursing Practice & Complex Health Disturbances III (3)
Final course in the nursing sequence focusing on nursing care of persons throughout the life span with complex health disorders related to hematopoietic disorders; acute renal, cardiac, and respiratory disorders, trauma, severe burns and the hospitalized child. Pharmacology is integrated. Previously NURS 270. Prerequisite: NURS 222, 232, 242, 252. Mandatory P/NC grading.

NURSING 231
Complex Health Disturbances II Practicum (5)
Students provide care for hospitalized individuals with complex health disturbances with special emphasis on those related to neurological, liver organ system, reproductive system dysfunction and disorders related to the effects of toxic agents on the body while integrating understanding of psychosocial disorders. Prerequisites: NURS 121, 131, 143, 163, 153. Mandatory P/NC grading.

NURSING 232
Nursing and Childbearing Family Practicum (4)
Expands use of the nursing process and advanced skills to the care of the childbearing family unit with emphasis on antepartum, intrapartal and postpartal care of mothers and newborns in both acute care and community settings. Taken concurrently with NURS 222. Previously NURS 241. Mandatory P/NC grading.

NURSING 233
Complex Health Disturbances III Practicum (4)
Clinical nursing practice in an acute care setting in which students are to apply theory attained in all previous levels as well as theory of Nursing 270. Focuses on transition to registered nurse role. Taken concurrently with NURS 223. Previously NURS 271. Prerequisite: NURS 222, 232, 242, 252. Mandatory P/NC grading.

NURSING 241
Nursing Practice and Psychosocial Disturbance (2.5)
Concepts of mental health, psychopathology, treatment modalities, psychopharmacology and the effect of culture and development on mental health status, and the mental health system and its effect on individuals are explored. Principles of psychosocial nursing and work with the interdisciplinary team are emphasized. Previously NURS 232. Prerequisites: NURS 121, 131, 143, 163, 153. Mandatory P/NC grading.

NURSING 242
Nursing Practice and Health Promotion (3.5)
Provides knowledge related to maintaining and promoting optimal health for individuals and families. Discusses health disparity as it relates to power / privilege. Emphasis is on supporting client self-determination and self-care in the home and community. Prerequisite: NURS 221, 231, 241, 251. Mandatory P/NC grading.

NURSING 243
Managing Nursing Care In the Health Care System (3)
Presents basic management theory applied to nursing and the management of patient/client care. Explores the challenges, issues, and trends affecting the nursing profession and the health care system of today. Provides information relative to legal issues surrounding nursing practice. Previously NURS 272. Prerequisite: NURS 220, 221, 231, 252 or permission. Mandatory P/NC grading.

NURSING 251
Psychosocial Disturbance Practicum (2)
Provision of care for individuals with psychiatric disturbances in a variety of settings. Working with interdisciplinary team is emphasized. Concurrent enrollment in NURS 241 required. Previously NURS 233. Prerequisites: NURS 143, 163, 153. Mandatory P/NC grading.

NURSING 252
Nursing and Health Promotion Practicum (1.5)
Clinical practice in ambulatory and community settings. Major focus is on use of nursing process and promoting health and self determination with consideration of underserved populations. Previously NURS 243. Prerequisite: NURS 221, 231, 241, 251 or instructor’s permission. Mandatory P/NC grading.

NURSING 253
Managing Nursing Care Practicum (2)

NURSING 290
Leadership Experience In Nursing (2)
An elective course that focuses on support for students in leadership positions in organizations. Emphasizes developing skills for group leading, recruitment of others into the organization’s programs, organizing and planning events, fund raising, and managing conflict within organizations. Mandatory P/NC grading.

NURSING 291
Special Topics In Nursing (1)
Classes focusing on specific issues and/or topics of interest in nursing. Previously NURS 281.

NURSING 292
Special Topics In Nursing (2)
Classes focusing on specific issues and/or topics of interest in nursing. Previously NURS 282.

NURSING 293
Special Topics In Nursing (3)
Classes focusing on specific issues and/or topics of interest in nursing. Previously NURS 283.
COURSE DESCRIPTIONS

NURSING 294
Special Topics In Nursing (4)
Classes focusing on specific issues and/or topics of interest in nursing. Previously NURS 284.

NURSING 295
Special Topics In Nursing (5)
Classes focusing on specific issues and/or topics of interest in nursing. Previously NURS 285.

NURSING 297, 298, 299
Individual Project In Nursing (1, 2, 3)
Individual project in a specific area of nursing. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student’s educational and work experience.

NURSING 10-QTR 095
Success Strategies I - 10 Qtr (1)
Support for academic success in nursing. Includes reading, study, and test-taking skills, working in culturally diverse groups and campus support services. An optional course recommended for students interested in improving academic skills or who are non-native English speakers. Prerequisite: Current enrollment in 10 Quarter Nursing Program. Mandatory P/NC Grading.

NURSING 10-QTR 121
Communication In Nursing - 10 Qtr (3)
Students apply basic principles of communication and human relations to health care settings. Includes identification of problems in human relationships and techniques for working successfully with clients, families, co-workers, and others of diverse backgrounds in the health care environment. Equiv. to NURS 121. Prerequisite: Admission to the 10 quarter option of the nursing program. Mandatory deci- mal grading.

NURSING 10-QTR 131
Communication Skills Lab - 10 Qtr (1)
Practice of communication skills including communicating within the health care team and with clients; group process; and responding to individuals with varying needs, ages, and problems. Techniques for managing personal stress in health care settings are explored. Instructor approval required. Equiv. to NURS 131. Prerequisite: Admission to the 10 quarter option of the Nursing Program. Mandatory P/NC grading.

NUTRITION & 101/101W
Nutrition (5)
A general study of nutrients in food, its digestion, absorption and metabolism. Course also deals with energy balance, weight control, nutritional assessment and improvement of general well-being. Previously NDF 110/NDF 110W. Student option grading.

NUTRITION 293
Special Topics In Nutrition (3)
Classes focusing on specific issues and/or topics of interest in nutrition. Previously NDF 283. Student option grading.

NUTRITION 297
Individual Project In Nutrition (1)
Individual project in a specific area of nutrition. By arrangement with instructor. Previously NDF 297. Prerequisite: Instructor permission based on evaluation of student’s educational & work experience. Student option grading.

NUTRITION 298
Individual Project In Nutrition (2)
Individual project in a specific area of nutrition. By arrangement with instructor. Previously NDF 298. Prerequisite: Instructor permission based on evaluation of student’s educational & work experience. Student option grading.

NUTRITION 299
Individual Project In Nutrition (3)
Individual project in a specific area of nutrition. By arrangement with instructor. Previously NDF 299. Prerequisite: Instructor permission based on evaluation of student’s educational & work experience. Student option grading.

OCEANOGRAPHY & 101
Introduction to Oceanography (5)
Study of the sea floor features, earth’s interior, ancient sea levels and climates, pollutants, nutrients, ocean currents, waves, beaches, tides and habitats. Labs on rocks, charts and navigation, sea water and organisms of the sea. Optional field trips. Previously OCEAN 101. Student option grading.

OCEANOGRAPHY 174
Underwater Photography (2)
Fundamentals of taking pictures underwater. Suitable films, cameras and underwater housings are demonstrated. The properties of light under water and special lighting effects are discussed. Pictures taken underwater are then critiqued in class. Previously OCEAN 174. Prerequisite: PE 120. Student option grading.

OCEANOGRAPHY 297
Individual Project In Oceanography (1)
Individual project in a specific area of oceanography. By arrangement with instructor. Previously OCEAN 297. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Student option grading.

OCEANOGRAPHY 298
Individual Project In Oceanography (2)
Individual project in a specific area of oceanography. By arrangement with instructor. Previously OCEAN 298. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Student option grading.

OCEANOGRAPHY 299
Individual Project In Oceanography (3)
Individual project in a specific area of oceanography. By arrangement with instructor. Previously OCEAN 299. Prerequisite: Instructor permission, based on evaluation of students educational and work experience. Student option grading.

PARENT EDUCATION 114
Parent Cooperative Preschool (2)
Lecture/lab for parents of children to one year olds; PARED 114, 115, 116 together cover parenting the 0-1 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 110. Mandatory P/Z grading.

PARENT EDUCATION 115
Parent Cooperative Preschool (2)
Lecture/lab for parents of children to one year olds; PARED 114, 115, 116 together cover parenting the 0-1 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 111. Mandatory P/Z grading.

PARENT EDUCATION 116
Parent Cooperative Preschool (2)
Lecture/lab for parents of children to one year olds; PARED 114, 115, 116 together cover parenting the 0-1 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 112. Mandatory P/Z grading.

PARENT EDUCATION 124
Parent Cooperative Preschool (2)
Lecture/lab for parents of 1-2 year olds; PARED 124, 125, 126 together cover parenting the 1-2 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 120. Mandatory P/Z grading.

PARENT EDUCATION 125
Parent Cooperative Preschool (2)
Lecture/lab for parents of 1-2 year olds; PARED 124, 125, 126 together cover parenting the 1-2 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 121. Mandatory P/Z grading.

PARENT EDUCATION 126
Parent Cooperative Preschool (2)
Lecture/lab for parents of 1-2 year olds; PARED 124, 125, 126 together cover parenting the 1-2 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 122. Mandatory P/Z grading.
PARENT EDUCATION 127
Parent Co-Op Preschool (2)
Lecture/lab for parents of 2-3 year olds: 1-day/week option to accommodate child or family needs. PARED 127, 128, 129 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 125. Mandatory P/Z grading.

PARENT EDUCATION 128
Parent Co-Op Preschool (2)
Lecture/lab for parents of 2-3 year olds: 1-day/week option to accommodate child or family needs. PARED 127, 128, 129 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 126. Mandatory P/Z grading.

PARENT EDUCATION 129
Parent Co-Op Preschool (2)
Lecture/lab for parents of 2-3 year olds: 1-day/week option to accommodate child or family needs. PARED 127, 128, 129 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 127. Mandatory P/Z grading.

PARENT EDUCATION 134
Parent Cooperative Preschool (2)
Lecture/lab for parents of 2-3 year olds: 2-day/week option to accommodate child or family needs. PARED 134, 135, 136 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 130. Mandatory P/Z grading.

PARENT EDUCATION 135
Parent Cooperative Preschool (2)
Lecture/lab for parents of 2-3 year olds: 2-day/week option to accommodate child or family needs. PARED 134, 135, 136 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 131. Mandatory P/Z grading.

PARENT EDUCATION 136
Parent Cooperative Preschool (2)
Lecture/lab for parents of 2-3 year olds: 2-day/week option to accommodate child or family needs. PARED 134, 135, 136 together cover parenting the 2-3 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 132. Mandatory P/Z grading.

PARENT EDUCATION 144
Parent Cooperative Preschool (3)
Lecture/lab for parents of 3-4 year olds: PARED 144, 145, 146 together cover parenting the 3-4 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 140. Mandatory P/Z grading.

PARENT EDUCATION 145
Parent Cooperative Preschool (3)
Lecture/lab for parents of 3-4 year olds: PARED 144, 145, 146 together cover parenting the 3-4 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 141. Mandatory P/Z grading.

PARENT EDUCATION 146
Parent Cooperative Preschool (3)
Lecture/lab for parents of 3-4 year olds: PARED 144, 145, 146 together cover parenting the 3-4 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 142. Mandatory P/Z grading.

PARENT EDUCATION 154
Parent Cooperative Preschool (3)
Lecture/lab for parents of 4-5 year olds: PARED 154, 155, 156 together cover parenting the 4-5 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 150. Mandatory P/Z grading.

PARENT EDUCATION 155
Parent Cooperative Preschool (3)
Lecture/lab for parents of 4-5 year olds: PARED 154, 155, 156 together cover parenting the 4-5 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 151. Mandatory P/Z grading.

PARENT EDUCATION 156
Parent Cooperative Preschool (3)
Lecture/lab for parents of 4-5 year olds: PARED 154, 155, 156 together cover parenting the 4-5 year old: child development, influences on development, guidance and discipline, health, nutrition, play, language, and literacy development. Sequence of topics is by instructor discretion. Instructor approval required. Previously PARED 152.

PARENT EDUCATION 291
Special Topics In Parent Education (1)
Classes focusing on specific issues and/or topics of interest in Parent Education. Previously PARED 281.

PHILOSOPHY 101
Introduction to Philosophy (5)
Examination of the theories and arguments of historically significant philosophers on issues of lasting significance. Topics include such questions as: Does God exist? What is truth? Do we possess souls? What is the best way to live? What is consciousness? What is the nature of social justice? Previously PHIL 100. Prerequisites: Recommend successful completion of ENGL 100 or placement into ENGL& 101. Student option grading.

PHILOSOPHY 102
Contemporary Moral Problems (5)
Students will use basic ethical theory methods of diverse cultures to investigate and critically examine such contemporary moral issues as capital punishment, war and violence, animal rights, environmental degradation, abortion, racial and ethnic discrimination, and injustices related to gender and sexuality. Prerequisite: Recommend successful completion of ENGL 100 or placement into ENGL& 101. Student option grading.

PHILOSOPHY 106
Introduction to Logic (5)
Rigorous examination of logical theory emphasizing the formal languages and proof systems of modern truth-functional and quantification- al logic. With applications to computers, classic philosophical debates, and realistic logical problems and puzzles. Previously PHIL 120. Prerequisite: MATH 099 (2.0 or better) or MATH 097 AND MATH 098 (2.0 or better) or a score of 85 or higher on the Algebra COMPASS test (or equivalent score on SAT, ACT or ASSET) Student option grading.

PHILOSOPHY 115
Critical Thinking (5)
The theory and practice of critical thinking as first developed by the ancient Greek philosopher Socrates, with emphasis on application of the Socratic Method to one’s own beliefs and values. Students will also critically evaluate claims encountered in the media, in advertising, in school, and in politics. Student option grading.
PHILOSOPHY 210  
Comparative Religion  (5)  
A survey course in the history of world reli-
gions which analyzes the beliefs and practices of
the major religions embraced by humanity.  
Student option grading.

PHILOSOPHY 230  
Philosophical Issues In World Affairs  (5)  
Topics will include issues of affluence, impover-
ishment, hunger, global environmental degra-
dation, violence and non-violence.  The views of
philosophers from Latin America, Africa and
Asia will be analyzed and interpreted, in rela-
tion to shifts in the international order.  
Previously PHIL 167.  Prerequisites:  
Recommend successful completion of ENGL
100 or placement into ENGL& 101.  Student
option grading.

PHILOSOPHY 240  
Introduction to Ethics  (5)  
Ethics is the examination of right and wrong,
good and bad, and associated issues, using the
distinctive methods of philosophy. This course-
critically examines historically significant theo-
ries of ethics along with applications to real-
world ethical problems and debates. ENGL&
101 or equivalent recommended. Student
option grading.

PHILOSOPHY 248  
Ethical Issues In Criminal Justice  (5)  
Discussion of the philosophical, psychological,
moral and ethical underpinnings of human
behavior in the criminal justice system.  Looks
at ethical concerns regarding the police, court,
punishment and corrections and how ethical
decisions are made. Dual listed as CJ 248.
Mandatory decimal grading.

PHILOSOPHY 267  
Introduction to Philosophy of Religion  (5)  
Philosophy of religion is the examination of
fundamental questions pertaining to religion
using the distinctive methods of philosophy.
Topics include philosophical questions about
the existence and nature of God, life after
death, the soul, science and religion.
Recommended: ENGL 100 or placement into
ENGL& 101.  Student option grading.

PHILOSOPHY 295  
Special Topics In Philosophy  (5)  
Courses focusing on specific issues and/or topics
of interest in philosophy.  Previously PHIL
285.

PHILOSOPHY 297, 298, 299  
Individual Project In Philosophy  (1, 2, 3)  
Individual project in a specific area of philoso-
phy. By arrangement with instructor.
Prerequisite: Instructor permission, based on
evaluation of students’ educational and work
experience.

PHYSICAL EDUCATION 100  
Introduction to Fitness  (1)  
An introduction to proper use of weight train-
ing and cardio fitness equipment, fitness assess-
ment, and the development of a fitness pro-
gram. This course is designed to prepare stu-
dents to safely use the Fitness Center. Student
option grading.

PHYSICAL EDUCATION 104  
Target Archery  (1)  
History, terminology, safety, shooting tech-
niques, understanding and correcting errors,
selection, care and correct use of archery equip-
ment. Student option grading.

PHYSICAL EDUCATION 105  
Badminton  (1)  
Introduction of the rules, techniques, physical
skills, and strategies of badminton. Students
will develop their individual skills through a
series of demonstrations, drills and individual
performance tasks and reinforce their skill
through competitive games and tournament
experiences. Student option grading.

PHYSICAL EDUCATION 106  
Racquetball  (1)  
Introduction of the rules, techniques, physical
skills, and strategies of the game of racquetball.
Students will develop their individual skills
through a series of demonstrations, drills and
individual performance tasks and reinforce
their skill through competitive games.
Previously PE 110. Student option grading.

PHYSICAL EDUCATION 107  
Pickleball  (1)  
Played on a badminton court with the net
three-feet high. Short paddle and whiffle ball
make up equipment. Emphasis on condition-
ing, speed, agility, coordination and timing.
Mandatory P/0.0 or P/NC grading.

PHYSICAL EDUCATION 108  
Fencing  (1)  
An introduction to basic footwork and foil
technique based on the USFA Basic Foil syl-
labus. The concepts of ‘Distance’ and ‘Line’
will be introduced and elementary strategy and
tactics explored. The rules of foil will be
explained and applied. Previously PE 113.
Student option grading.

PHYSICAL EDUCATION 109  
Golf  (1)  
This course is designed for the beginning or
part time golfer. Subject matter includes the
full swing, short game and strategy. Rules of
the game, videotaping, practice range, and golf
course lessons will also be included. Previously
PE 114. Student option grading.

PHYSICAL EDUCATION 110  
Tennis  (1)  
Introduction to the rules, techniques, physical
skills and strategies in the game of tennis.
Students will be introduced to the technical
perspectives, learn the rules and basic strategies,
develop individual skill, single and doubles
strategies and reinforce these through competi-
tion. Previously PE 122. Student option grad-
ing.

PHYSICAL EDUCATION 114  
Karate I  (2)  
Introduction to the martial art of Karate-do
which incorporates fundamental skills required
for the development of self-defense techniques,
flexibility, speed, power, core integrity and bal-
ance. The class allows students to achieve and
develop, emotional balance, focus and an
exceptional work ethic. Previously PE 130.
Student option grading.

PHYSICAL EDUCATION 115  
Sea Kayaking  (2)  
Overview of equipment, safety, navigational
techniques and basic paddling skills necessary
for beginning sea kayaking; includes strokes,
braces and deep water rescues. Classroom and
on-water experiences. Some swimming skills
helpful. No equipment required. Previously
PE 132. Student option grading.

PHYSICAL EDUCATION 116  
Tai Chi I  (2)  
An introduction to the art of Tai Chi and its
basis in Chinese philosophy as it relates to the
development of health, fitness, strength, and
power. Students will develop basic Tai Chi
moves and learn a form of exercise based on
soft, fluid movements. Previously PE 133.
Student option grading.

PHYSICAL EDUCATION 117  
Yoga I  (2)  
A centered, grounded technique to gain better
balance, strength, flexibility and stability from
the body’s core. Using a variety of approaches
you will blend energizing effort with relaxing,
inhaling with exhaling, while quieting the
mind, toning the body and inspiring personal
confidence. Previously PE 134. Student option
grading.

PHYSICAL EDUCATION 118  
Swimming  (2)  
Swimming for all skill levels. Emphasis on tech-
ique & aerobic conditioning. Students may
meet requirements for Red Cross Cards.
Previously PE 135. Student option grading.

PHYSICAL EDUCATION 119  
Inline Skating  (2)  
Introduction to inline skating as a fitness, recre-
atonal and cross training sport. Students will
learn skills and techniques to develop physical
awareness, body strength, balance and coordi-
nation to enjoy a sense of freedom and well-
being. The course focuses on safety and fun.
Previously PE 136. Student option grading.

PHYSICAL EDUCATION 120  
Scuba Diving  (3)  
Open water dive scheduled for those who quali-
fy and elect to participate. Equipment
required provided by student (mask, fins,
snorkel, boots, gloves, dive tables, dive logs,
and textbook. Approximate cost for equipment
is $275.00). Intermediate swimming ability
required. Previously PE 140. Student option
grading.

PHYSICAL EDUCATION 124  
Mountain Biking  (2)  
An activity-based course for those who would
like to learn how to ride a mountain bike over
various types of terrain and surfaces. Includes
proper techniques, individualized goals, and
training exercises. Previously PE 117. Student
option grading.
PHYSICAL EDUCATION 125
Introduction to Wilderness Recreation (3)
A lecture based course designed to provide an overview of the many aspects involved in a wilderness/hiking experience. Includes units on clothing, equipment, cooking, land navigation, environmental issues, shelter, first aid, back-country leisure activities and conditioning. Previously PE 115. Student option grading.

PHYSICAL EDUCATION 130
Jogging for Fitness and Leisure I (2)
Body mechanics, running fundamentals, equipment selection, training programs, diet, weight control, conditioning exercises and psychological factors. Previously PE 111. Student option grading.

PHYSICAL EDUCATION 134
Step Aerobics I (2)
A co-ed class designed for the development of cardiovascular fitness using bench/step training, the most popular trend of this decade. Uses 4-10 inch step bench. Previously PE 123. Student option grading.

PHYSICAL EDUCATION 135
Water Aerobics I (2)
Understanding, developing and maintaining fitness with emphasis on cardiovascular development through water aerobics. No swimming skill required. Previously PE 124. Student option grading.

PHYSICAL EDUCATION 136
Weight Training and Cardio Fitness I (2)
A combination of strength and cardiovascular training techniques allowing the student to develop and experience a personal well-balanced fitness program. Previously PE 127. Student option grading.

PHYSICAL EDUCATION 137
Aerobic Cross Training I (2)
Introduction to cardiovascular fitness training, physical conditioning, and relaxation and fitness program development. Student will be introduced to several training regimens, the elements of fitness and principles of overall body conditioning using a variety of aerobic machines. Previously PE 128. Student option grading.

PHYSICAL EDUCATION 138
Weight Training I (2)
Understanding, developing and maintaining muscular fitness through participation in an individual program utilizing a variety of strength and endurance exercises. Previously PE 129. Student option grading.

PHYSICAL EDUCATION 139
Body Conditioning/Resistance Training I (2)
Designed to improve musculoskeletal fitness levels through resistance exercise, using lightweight equipment and the body through resistance and stretching exercise. Class promotes improvements in muscular strength and endurance, flexibility and body composition. Proper exercise mechanics, nutrition, weight control will be discussed. Previously PE 131. Student option grading.

PHYSICAL EDUCATION 140
Hip Hop Jazz I (2)
A beginning level, co-ed educational class designed to combine traditional Jazz movements with contemporary street dance to music of the same style. Includes isolation, active warm-up, progression strengthening exercises, stretching and dance. Previously PE 118. Student option grading.

PHYSICAL EDUCATION 144
Jazz Dance I (2)
Co-ed class designed to encourage students to express themselves physically through the use of popular dance music combined with jazz/funk movements. Includes isolations, active warm-up, strengthening exercises, stretching and dance. Previously PE 119. Student option grading.

PHYSICAL EDUCATION 145
Modern Dance I (2)
Emphasis on basic skills, conditioning and improvisation. Student learns to choreograph and perform. Previously PE 120. Student option grading.

PHYSICAL EDUCATION 146
Aerobic Dance I (2)
Co-ed class designed for the development of cardiovascular fitness using aerobic dances. Sections on types of aerobic workouts, components of aerobic dance, body toning, stretching, nutrition, and body composition. Previously PE 121. Student option grading.

PHYSICAL EDUCATION 147
World Dance: Pacific Rim (3)
Class will explore various Pacific Rim cultures through the medium of dance. Lecture, demonstration and film viewing will be followed by the physical experience of learning dances from around the world. It will provide dynamic learning through a combination of intellectual and experiential activities. Dual listed as HUM 164. Previously PE 161. Student option grading.

PHYSICAL EDUCATION 148
Basketball I (2)
Introduction to conditioning and basic skills (passing, shooting, ball handling and rebounding) as they relate to basketball. It also includes individual and team strategy, skills and techniques, rules of the game, scoring procedures and officiating. Previously PE 108. Student option grading.

PHYSICAL EDUCATION 149
Voice-Dance Performance Techniques I (2)
Students develop the ability to sing and move simultaneously while preparing them to perform on stage in musical roles. This course is dual listed as MUSC 167. Previously PE 167. Student option grading.

PHYSICAL EDUCATION 150
Voice-Dance Performance Techniques II (2)
Students develop further skills in moving and singing simultaneously, including part singing and complex dance combinations. This course is a continuation of MUSC 167 or PE 149 for the more advanced student & is dual listed as MUSC 268. Previously PE 168. Prerequisites: Completion of MUSC 167, PE 149 or equivalent with instructor’s permission. Student option grading.

PHYSICAL EDUCATION 152
Soccer I (2)
Introduction to techniques, physical skills, & strategies of soccer. Learn origins & rules, develop individual skills through a series of demonstrations, drills & individual performance tasks & reinforce those skills through competitive games. Previously PE 102. Student option grading.

PHYSICAL EDUCATION 153
Baseball I (2)
Introduction of the mental and physical strategies as they relate to baseball. It involves individual and team strategy (both offensive and defensive), strength and conditioning enhancement, and injury management and prevention. Previously PE 116. Student option grading.

PHYSICAL EDUCATION 154
Softball I (2)
Introduction to conditioning and basic skills (throwing, catching, fielding, batting, base running and bunting) as they relate to both fast and slow pitch softball. It also includes individual and team strategy, skills and techniques, rules of the game, scoring procedures and umpiring. Previously PE 112. Student option grading.

PHYSICAL EDUCATION 155
Volleyball I (2)
Introduction to conditioning and basic skills (passing, setting, spiking and blocking) as they relate to volleyball. It will also include individual and team strategy, skills and techniques; rules of the game; scoring procedures and procedures. Previously PE 126. Student option grading.

PHYSICAL EDUCATION 156
Snowboarding I (2)
An activity-based course for those who would like to learn how to snowboard. Includes sections on technique and individualized goals and training. Previously PE 155. Student option grading.

PHYSICAL EDUCATION 157
Skiing I: Down Hill (2)
Skiing for all skill levels. Previously PE 125. Student option grading.
PHYSICAL EDUCATION 166
Cross Country Skiing I (2)
This course is an introduction to conditioning and basic skill techniques as they relate to cross country skiing. Materials covered in this course will include: winter survival, equipment and style of dress, map and compass work, avalanche dangers, the classic cross ski, uphill skills, and alpine technique. Telemark and touring. Previously PE 145. Student option grading.

PHYSICAL EDUCATION 170
Basketball Officiating I (2)
Introduction to the fundamentals of basketball officiating including rules, mechanics, movement, professionalism, judgment and career applications. Includes game experience. Successful completion of course satisfies Association apprenticeship requirements. Previously PE 106. Student option grading.

PHYSICAL EDUCATION 174
Circuit Performance: Balance and Motion (3)
Expand dramatic and kinesiathetic abilities. Learn juggling, rope walking and other circus skills. Study and practice theories of balance and motion. Develop historical and international perspectives on performance art. Create a dramatic performance as a final project. Excellent training for actors. Previously PE 171. Dual listed as DRMA 174.

PHYSICAL EDUCATION 200
Fitness Lab (3)
Pursue your fitness goals in an informal supervised setting while earning college credit. Gain practical experience while participating in your personal fitness program. Prerequisites: PE 101, or any of the following PE 127, PE 128, PE 129, PE 227, PE 228, PE 229. Mandatory P/NC grading.

PHYSICAL EDUCATION 204
Target Archery II (2)
Level II of shooting techniques, understanding and correcting errors, selection, care and correct use of archery equipment. Prerequisite: PE 104 or instructor permission. Student option grading.

PHYSICAL EDUCATION 205
Badminton II (2)
Advanced study of the rules, techniques, physical skills, and strategies of the game of badminton. Students will develop their individual skills through a series of demonstrations, drills and individual performance tasks and reinforcing their skill through competitive games and tournament experiences. Prerequisites: PE 105 or permission. Student option grading.

PHYSICAL EDUCATION 206
Raquetball II (1)
Advanced study of the rules, techniques, physical skills, and strategies of the game of raquetball. Students will develop their individual skills through a series of demonstrations, drills and individual performance tasks and reinforcing their skill through competitive games. Previously PE 210. Prerequisite: PE 106 or permission. Student option grading.

PHYSICAL EDUCATION 207
Pickleball II (1)
Level II with an emphasis on advanced conditioning, speed, agility, coordination and timing. Mandatory P/NC grading.

PHYSICAL EDUCATION 208
Fencing II (2)
Advanced footwork and foil technique based on the USFA Basic Foil syllabus. The concepts of ‘Distance’ and ‘Line’ will be continued and advanced strategy and tactics explored. The rules of foil will be applied. Previously PE 213. Student option grading.

PHYSICAL EDUCATION 209
Golf II (2)
This course is designed for the intermediate or advanced golfer. Subject matter includes the full swing, short game and strategy. Rules of the game, videotaping, practice range, and golf course lessons will also be included. Previously PE 214. Prerequisites: PE 109 or permission. Student option grading.

PHYSICAL EDUCATION 210
Tennis II (2)
An introduction to advanced tennis. Students will learn the game from the technical perspective in a variety of areas including advanced skill development; singles and doubles strategies; the rules of the game, and will reinforce each in competition. Previously PE 222. Prerequisite: PE 110 or permission. Student option grading.

PHYSICAL EDUCATION 214
Karate II (2)
Level II of running fundamentals, equipment selection, training programs, diet, weight control, conditioning exercises and psychological factors. Previously PE 230. Student option grading.

PHYSICAL EDUCATION 215
Total Body Training (3)
Class involves cardiovascular exercise, resistance training, flexibility training and contemporary movement to music to promote a healthier lifestyle. Includes nutrition, body image, eating disorders, acceptance of self and others, the components of fitness, and appropriate goal setting. Previously PE 232. Student option grading.

PHYSICAL EDUCATION 216
Tai Chi II (2)
An advanced level class that builds on and focuses on mastery of basic skills, techniques, and philosophy of Tai Chi, and expressed in Chinese culture. Students will be introduced to advanced skill and movements. Previously PE 233. Student option grading.

PHYSICAL EDUCATION 217
Yoga II (2)
A centered, grounded technique to gain better balance, strength, flexibility and stability from the body’s core. Using a variety of approaches you will blend energizing effort with relaxing, inhaling with exhaling, while quieting the mind, toning the body and inspiring personal confidence. Previously PE 134. Student option grading.

PHYSICAL EDUCATION 218
Swimming II (2)
Advanced skill levels in swimming. Emphasis on technique and aerobic conditioning. Previously PE 235. Student option grading.

PHYSICAL EDUCATION 219
Inline Skating II (2)
Advanced study of inline skating as a fitness, recreational and cross training sport. Students will learn skills and techniques to develop physical awareness, body strength, balance and coordination to enjoy a sense of freedom and well-being. The course focuses on safety and fun. Previously PE 136. Student option grading.

PHYSICAL EDUCATION 224
Mountain Biking II (2)
An activity based course for those who would like to learn advanced mountain biking. Includes proper techniques, individualized goals, and training exercises over varied terrain and on varied surfaces. Previously PE 217. Student option grading.

PHYSICAL EDUCATION 225
Alpine Hiking (2)
An activity based course for those who would like to explore the basics of human-powered backcountry travel. Includes sections on clothing, equipment, physical requirements, techniques, the natural environment, and safety strategies. Previously PE 215. Student option grading.

PHYSICAL EDUCATION 230
Jogging for Fitness and Leisure II (2)
Level II of running fundamentals, equipment selection, training programs, diet, weight control, conditioning exercises and psychological factors. Previously PE 211. Student option grading.

PHYSICAL EDUCATION 234
Step Aerobics II (2)
A co-ed class designed for the development of cardiovascular fitness using bench/step training, the most popular trend of this decade. Uses 4-10 inch step bench. Previously PE 223. Student option grading.

PHYSICAL EDUCATION 235
Water Aerobics II (2)
An activity based course for those who would like to learn advanced mountain biking. Includes proper techniques, individualized goals, and training exercises over varied terrain and on varied surfaces. Previously PE 224. Student option grading.

PHYSICAL EDUCATION 236
Weight Training and Cardio Fitness II (2)
Advanced combination of strength and cardiovascular training techniques allowing the student to develop and experience a personal well-balanced fitness program. Previously PE 127. Student option grading.
PHYSICAL EDUCATION 237  
Aerobic Cross Training II (2)  
Advanced study of cardiovascular fitness training, physical conditioning, and relaxation and fitness program development. Student will be introduced to several training regimens, the elements of fitness and principles of overall body conditioning using a variety of aerobic machines. Previously PE 128. Student option grading.

PHYSICAL EDUCATION 238  
Weight Training II (2)  
Level II of developing and maintaining muscular fitness through participation in an individual program utilizing a variety of strength and endurance exercises. Previously PE 229. Prerequisites: PE 138 or permission. Student option grading.

PHYSICAL EDUCATION 239  
Body Conditioning/Resistance Training II (2)  
Class will improve fitness levels through resistance exercise and stretching exercise. Promotes improvements in muscular strength and endurance, flexibility and body composition. Proper exercise mechanics, nutrition, weight control will be discussed. Previously PE 231. Student option grading.

PHYSICAL EDUCATION 240  
Hip Hop Jazz II (2)  
An advanced study of the combination of traditional Jazz movements with contemporary street dance to music of the same style. Includes isolation, active warm-up, progression of strengthening exercises, stretching and dance. Previously PE 218. Prerequisite: PE 140 or permission. Student option grading.

PHYSICAL EDUCATION 244  
Jazz Dance II (2)  
Co-ed class designed to encourage students to express themselves physically through the use of popular dance music combined with jazz/funk movements. Includes isolations, active warm-up, strengthening exercises, stretching, and dance. Previously PE 219. Student option grading.

PHYSICAL EDUCATION 245  
Modern Dance II (2)  
Level II of skills, conditioning and improvisation. Student learns to choreograph and perform. Previously PE 220. Student option grading.

PHYSICAL EDUCATION 246  
Aerobic Dance II (2)  
Co-ed class designed for the development of cardiovascular fitness using aerobic dance. Sections on types of aerobic work - outs, components of aerobic dance, body toning, stretching, nutrition and body composition. Previously PE 221. Student option grading.

PHYSICAL EDUCATION 254  
Soccer II (2)  
This course is an advanced study of the rules, techniques, physical skills, and strategies of the game of soccer. Students will be introduced to the game from historical and technical perspectives: learning its origins and rules, then developing their individual skills through a series of demonstrations, drills and individual performance tasks and reinforcing their skill through competitive games. Previously PE 202. Prerequisite: PE 154 or permission. Student option grading.

PHYSICAL EDUCATION 255  
Basketball II (2)  
Advanced study of rules, techniques, physical skills and offensive and defensive strategies of the game of basketball. Basic physical skills are refined through game related drills; students are introduced to more advanced and technically demanding skills, offensive and defensive systems. Previously PE 208. Prerequisite: PE 155 or permission. Student option grading.

PHYSICAL EDUCATION 256  
Softball II (2)  
Advanced study of rules, techniques, physical skills, offensive and defensive strategies of slow and fast pitch softball. Basic physical skills are refined through games related drills; students are introduced to more advanced and technically demanding skills, and offensive and defensive systems. Previously PE 212. Student option grading.

PHYSICAL EDUCATION 257  
Baseball II (2)  
Advanced study of the mental and physical strategies of baseball. It involves individual and team strategy (both offensive and defensive), strength and conditioning enhancement, and injury management and prevention. Previously PE 216. Student option grading.

PHYSICAL EDUCATION 258  
Volleyball II (2)  
Advanced study of the rules, techniques, physical skills and strategies of the game of volleyball. Skills are refined through game related drills; students are introduced to more advanced and technically demanding skills, multiple hitting attacks and variable defensive systems. Previously PE 226. Prerequisites: PE 158 or permission. Student option grading.

PHYSICAL EDUCATION 260  
Fitness Participation (1)  
Fitness experience designed for the student who already has knowledge in a team or individual sport, or lifetime fitness activity and is interested in continuing participation in that activity. Grade based on attendance and participation only. No written assignments. Prerequisite: 100 or 200 level of the specific activity course required.

PHYSICAL EDUCATION 264  
Snowboarding II (2)  
An activity-based course for those who would like to learn advanced snowboarding skills. Includes sessions on technique and individualized goals and training. Previously PE 255. Prerequisites: PE 164. Student option grading.

PHYSICAL EDUCATION 265  
Skiing II: Down Hill (2)  
Skiing for all skill levels. Previously PE 225. Student option grading.

PHYSICAL EDUCATION 266  
Cross Country Skiing II (2)  
Advanced study of conditioning and skill techniques in cross country skiing. Class includes: winter survival, equipment and style of dress, map and compass work, avalanche dangers, the classic cross ski, uphill skills, and alpine technique, skiing and racing. Previously PE 245. Prerequisites: PE 166 or permission. Student option grading.

PHYSICAL EDUCATION 270  
Basketball Strategies (3)  
For the highly skilled athlete. Individual and team strategies. Advanced conditioning. Previously PE 251. Prerequisite: PE 155. PE 255 or instructor’s permission. Student option grading.

PHYSICAL EDUCATION 274  
Baseball Strategies (3)  
For the highly-skilled athlete. Individual and team strategies. Advanced conditioning. Previously PE 252. Prerequisite: PE 157, PE 257 or instructor’s permission. Student option grading.

PHYSICAL EDUCATION 275  
Tennis Strategies (3)  
Prepares the advanced level skier to teach all ability levels. Previously PE 253. Prerequisite: PE 110, PE 210 or instructor permission. Student option grading.

PHYSICAL EDUCATION 276  
Volleyball Strategies (3)  
For the highly skilled athlete. Individual and team strategies. Advanced conditioning. Previously PE 257. Prerequisite: PE 158, PE 258 or instructor’s permission. Student option grading.

PHYSICAL EDUCATION 277  
Soccer Strategies (3)  
For the highly skilled athlete. Individual and team strategies. Advanced conditioning. Previously PE 258. Prerequisite: PE 154, PE 254 or instructor’s permission. Student option grading.

PHYSICAL EDUCATION 278  
Softball Strategies (3)  
For the highly-skilled athlete. Individual and team strategies. Advanced conditioning. Previously PE 259. Prerequisite: PE 156, PE 256 or instructor permission. Student option grading.

PHYSICAL EDUCATION 279  
Wellness (3)  
PHYSICAL EDUCATION 280  
Cardio-Pulmonary Resuscitation (1)  
CPR for the Professional Rescuer. Includes adult, infant and child rescue breathing, choking and CPR, as well as two-person CPR, pocket mask and bag-valve mask skills. Previously PE 191. Student option grading.

PHYSICAL EDUCATION 284  
First Aid and Safety (3)  
Comprehensive review of the knowledge and skills required by the non-professional emergency responder. Successful completion may earn first aid and CPR acknowledgment. Previously PE 292. Student option grading.

PHYSICAL EDUCATION 285  
Athletic First Aid I (3)  

PHYSICAL EDUCATION 287  
Archery Instructor Certification (3)  
Class teaches advanced archers how to instruct a beginning archery class. Includes lecture, demonstration, and practical teaching. Upon successful class completion, a NAA Level II Archery Instructor Cert. will be awarded. Instructor permission and NAA membership required. Previously PE 262. Prerequisite: PE 285 or permission. Student option grading.

PHYSICAL EDUCATION 288  
Ski Instructor Training (2)  
Prepares the advanced level skier to teach all ability levels. Previously PE 275. Prerequisite: PE 165, PE 265 or instructor permission. Student option grading.

PHYSICAL EDUCATION 290  
Special Topics In Physical Education (0.5)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 280. Student option grading.

PHYSICAL EDUCATION 291  
Special Topics In Physical Education (1)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 281. Student option grading.

PHYSICAL EDUCATION 292  
Special Topics In Physical Education (2)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 282. Student option grading.

PHYSICAL EDUCATION 293  
Special Topics In Physical Education (3)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 283. Student option grading.

PHYSICAL EDUCATION 294  
Special Topics In Physical Education (4)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 284. Student option grading.

PHYSICAL EDUCATION 295  
Special Topics In Physical Education (5)  
Classes focusing on specific issues and/or topics of interest in physical education. Previously PE 285. Student option grading.

PHYSICAL EDUCATION 296  
Internship-Physical Education, I, II & A (5)  
Field experience in physical education, intramurals, recreation or athletics with local agencies. An opportunity for various types of leadership experiences while exploring the profession. Previously PE 266. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

PHYSICAL EDUCATION 297, 298, 299  
Individual Project In Physical Education (1, 2, 3)  
Individual project in a specific area of physical education. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of student's educational and work experience. Student option grading.

PHYSICS 090  
Physics/Engineering Learning Center (1)  
A learning and tutorial center for students enrolled in PHYS& 121, 122, 123 and PHYS& 221, 222, 223 as well as ENGR 115 and all 200-level ENGR courses. Provides individual and small group tutorial assistance for those enrolled in those courses. Previously PHYS 100. Prerequisite: Must be enrolled in a Physics or Engineering course. Mandatory P/NC grading.

PHYSICS 110  
Concepts of the Physical World (5)  
Introduction to selected physics concepts and theories. Intended for liberal arts and other non-science majors. Prerequisite: MATH 099 (2.0 or better). Student option grading.

PHYSICS& 121  
General Physics I (4)  
Algebra-based physics for majors in health sciences, architecture, vocational and technical programs, and other majors not requiring calculus. Studies Newtonian mechanics. Previously PHYSL 114. Concurrent enrollment in PHYS& 131 required. Prerequisite: MATH & 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 122  
General Physics II (4)  
Algebra-based physics for majors in health sciences, architecture, vocational and technical programs, and other majors not requiring calculus. Studies electricity and magnetism. Previously PHYS 115. Concurrent enrollment in PHYS& 132 required. Prerequisite: PHYS& 121 (previously PHYS 114) and MATH& 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 123  
General Physics III (4)  
Algebra-based physics for majors in health sciences, architecture, vocational and technical programs, and other majors not requiring calculus. Studies waves, heat and light. Previously PHYS 116. Concurrent enrollment in PHYS& 133 required. Prerequisites: PHYS& 121 (previously PHYS 114) and MATH& 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 131  
General Physics Lab I (1)  
Laboratory for PHYS& 121. Concurrent enrollment in PHYS& 121 required. Previously PHYS 114. Prerequisite: MATH& 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 132  
General Physics Lab II (1)  
Laboratory for PHYS& 123. Concurrent enrollment in PHYS& 123 required. Previously PHYS 115. Prerequisites: MATH& 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 133  
General Physics Lab III (1)  
Laboratory for PHYS& 125. Concurrent enrollment in PHYS& 125 required. Previously PHYS 116. Prerequisites: MATH& 142 (previously MATH 120). Mandatory decimal grading.

PHYSICS& 221  
Engineering Physics I: Mechanics (4)  

PHYSICS& 222  
Engineering Physics II: Electromagnetism (4)  
Calculus-based physics for majors in physical sciences, engineering, pre-medicine, mathematics. Studies electricity and magnetism. Previously PHYS 123. Concurrent enrollment in PHYS& 232 required. Prerequisite: PHYS& 221 (previously PHYS 121) and MATH& 163 (previously MATH 126). Mandatory decimal grading.

PHYSICS& 223  
Engineering Physics III: Waves, Heat & Light (4)  
Calculus-based physics for majors in physical sciences, engineering, pre-medicine, mathematics. Studies fluids, waves, sound, thermodynamics and light. Previously PHYS 122. Concurrent enrollment in PHYS& 233 required. Prerequisite: PHYS& 221 (previously PHYS 121) and MATH& 152 (previously MATH 125). Mandatory decimal grading.

PHYSICS& 231  
Engineering Phys Lab I: Mechanics (1.5)  
Laboratory for PHYS& 221. Concurrent enrollment in PHYS& 221 required. Previously PHYS 121. Prerequisites: MATH& 151 (previously MATH 124). Mandatory decimal grading.
COURSE DESCRIPTIONS

PHYSICS & 232
Engineering Physics Lab II: Electromagnetism (1.5)
Laboratory for PHYS& 222. Concurrent enrollment in PHYS& 222 required. Previously PHYSL 123. Prerequisites: MATH& 163 (previously MATH 126). Mandatory decimal grading.

PHYSICS & 233
Engineering Physics Lab III: Waves, Heat & Light (1.5)
Laboratory for PHYS& 223. Concurrent enrollment in PHYS& 223 required. Previously PHYSL 122. Prerequisites: MATH& 152 (previously MATH 125). Mandatory decimal grading.

PHYSICS 297, 298, 299
Individual Project In Physics (1, 2, 3)
Individual project in a specific area of physics. By arrangement with instructor. Prerequisite: Instructor permission based on evaluation of student's educational and work experience. Student option grading.

POLITICAL SCIENCE & 101
Introduction to Political Science (5)
Key concepts, principles and theories of political science are explored. Emphasis is upon understanding the nature, purpose, process and practice of politics in both its democratic and non-democratic forms. An interdisciplinary approach will be used, as well as stressing multi-cultural and multi-national global issues. Previously POLSC 101. Mandatory decimal grading.

POLITICAL SCIENCE & 202
Introduction to American Government and Politics (5)

POLITICAL SCIENCE & 203
International Relations (5)
Study of power politics as it applies to the relations of nations. Other subjects discussed include law, international government, arms, disarmament, diplomacy, and the Cold War. Previously POLSC 203. Prerequisite: ENGL& 101 is recommended. Mandatory decimal grading.

POLITICAL SCIENCE 221/221W
American Foreign Policy (5)
Study of the evolution of American foreign policy with concern for its legal bounds, principal creators, and cold war developments. Previously POLSC 221/POLSC 221W.

POLITICAL SCIENCE 276
State and Local Government and Administration (5)

POLITICAL SCIENCE 291
Special Topics In Political Science (1)
Classes focusing on specific issues and/or topics of interest in political science. Previously POLSC 281.

POLITICAL SCIENCE 292
Special Topics In Political Science (2)
Classes focusing on specific issues and/or topics of interest in political science. Previously POLSC 282.

POLITICAL SCIENCE 293
Special Topics In Political Science (3)
Classes focusing on specific issues and/or topics of interest in political science. Previously POLSC 283.

POLITICAL SCIENCE 294
Special Topics In Political Science (4)
Classes focusing on specific issues and/or topics of interest in political science. Previously POLSC 284.

POLITICAL SCIENCE 295/295W
Special Topics In Political Science (5)
Classes focusing on specific issues and/or topics of interest in political science. Previously POLSC 285/POLSC 285W.

POLITICAL SCIENCE 297
Individual Project In Political Science (1)
Individual project in a specific area of political science. By arrangement with instructor. Previously POLSC 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

POLITICAL SCIENCE 298
Individual Project In Political Science (2)
Individual project in a specific area of political science. By arrangement with instructor. Previously POLSC 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

POLITICAL SCIENCE 299
Individual Project In Political Science (3)
Individual project in a specific area of political science. By arrangement with instructor. Previously POLSC 299. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

PSYCHOLOGY & 100
General Psychology (5)
Introduction to the scientific study and understanding of human behavior in a variety of settings. Physical and biological, as well as social perspectives will be presented. Previously PSYCH 100. Mandatory decimal grading.

PSYCHOLOGY & 200
Lifespan Psychology (5)
A survey of human development from conception through late adulthood. Physical, emotional, cognitive and psychosocial development will be explored. Previously PSYCH 204. Mandatory decimal grading.

PSYCHOLOGY 202
Biopsychology (5)
This course explores the basic question: How does our biology influence how we think, feel, and act? Topics include the nervous system, sensation, learning, memory, sex, drugs, language, mental illness, and practical factors affecting brain development and functioning. A prerequisite for UW psychology majors. Previously PSYCH 202. Prerequisite: PSYC& 100 or equivalent with instructor permission. Mandatory decimal grading.

PSYCHOLOGY 206
Developmental Psychology (5)
An analysis of psychological development of the child in relation to biological, physical and sociological antecedent conditions from infancy through adolescence. Previously PSYCH 206. Prerequisite: PSYC& 100 or equivalent with instructor permission. Mandatory decimal grading.

PSYCHOLOGY 207
The Psychology of Excellence (5)
This course focuses on the application of psychological theories & research to enhancing performance in a variety of life settings. Topics include: self-regulation, goal setting, visualization, stress management, attention control, time management, effective communication, & conflict resolution. Previously PSYCH 207. Mandatory decimal grading.

PSYCHOLOGY 208
Adulthood, Aging and Development (5)
A study of the basic concepts and issues in adult aging and development. Exploration of the developmental patterns and problems characteristic of the adult years from a cultural perspective. Formerly EDS 103 and HMDEV 103. Previously PSYCH 208. Mandatory decimal grading.

PSYCHOLOGY 209
Fundamentals of Psychological Research (5)
This course covers the key themes and concepts of psychological research and is a foundation course for students planning to take additional courses in psychology. Students will also learn how to critically evaluate scientific findings and claims made by the popular press. A prerequisite for UW psychology majors. Previously PSYCH 209. Prerequisite: PSYC& 100 or equivalent with instructor permission. Mandatory decimal grading.

PSYCHOLOGY 210
Psychology of Sexuality & Relationships (5)
Survey of social, psychological and biological influences on patterns of human sexual behavior. Sexual dysfunction and therapy, contraception, and venereal disease will also be considered. Previously PSYCH 210. Mandatory decimal grading.

PSYCHOLOGY & 220
Abnormal Psychology (5)
Introduction to the field of psychopathology. A survey of the symptoms, causes and treatment of deviant behaviors will be considered. Previously PSYCH 205. Prerequisite: PSYC& 100, or equivalent with instructor permission. Mandatory decimal grading.
PSYCHOLOGY 236
Introduction to Personality (5)
Introduction to the psychology of personality, including personality theories and theorists, personality assessment, and personality constructs. Previously PSYCH 236. Prerequisites: PSYC& 100 or equivalent with instructor permission. Mandatory decimal grading.

PSYCHOLOGY 245
Social Psychology (5)
Introduction to the scientific study of individual human beings acting in a social setting regulated by culture. Social psychology brings something distinctive to the basic questions of life; empirical and especially experimental evidence. Previously PSYCH 245. Mandatory decimal grading.

PSYCHOLOGY 293
Special Topics In Psychology (3)
Classes focusing on specific issues and/or topics of interest in psychology. Previously PSYCH 285.

PSYCHOLOGY 295
Special Topics In Psychology (5)
Classes focusing on specific issues and/or topics of interest in psychology. Previously PSYCH 285.

PSYCHOLOGY 297
Individual Project In Psychology (1)
Individual project in a specific area of psychology. By arrangement with instructor. Previously PSYCH 297. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

PSYCHOLOGY 298
Individual Project In Psychology (2)
Individual project in a specific area of psychology. By arrangement with instructor. Previously PSYCH 298. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

PSYCHOLOGY 299
Individual Project In Psychology (3)
Individual project in a specific area of psychology. By arrangement with instructor. Previously PSYCH 299. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience. Mandatory decimal grading.

SOCIAL SCIENCES 100
Business, Government and Society (5)
Survey of the role of business in a modern market economy, its growth, influence and relationship to social responsibility. This course will include, but will not be limited to, a study of business objectives, internal and external functions and organizational management problems. Dual listed as BUS& 101. Mandatory decimal grading.

SOCIAL SCIENCES 297, 298, 299
Individual Project In Social Science (1, 2, 3)
Individual project in a specific area of social science. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience.

SOCIOLOGY 101
Introduction to Sociology (5)
Description and explanation of the basic principles of sociocultural relationships. Emphasis upon human beings as products of society and culture. Course content may vary according to instructor. Previously SOC 110. Mandatory decimal grading.

SOCIOLOGY 112
Introduction to Criminology (5)

SOCIOLOGY 201
Social Problems (5)
Analysis of the processes of social and personal desorganization and reorganization of selected social problem areas such as crime, delinquency, alcoholism, minority group relations, and population problems. Student option decimal grading. Previously SOC 270.

SOCIOLOGY 250/250W
Sociology of Families (5)
Examine the institution of the family in various cultures in the United States and globally. Explore evolution of families in relation to changes in the larger social structure over time, its dynamics, and development of relationships. Previously SOC 252/SOC 252W. Student option grading.

SOCIOLOGY 288/288W
Sociology of Minority Groups (5)
Use of sociological theories and research to examine the current and historical issues confronting American ethnic and racial minority groups. The course evaluates the socio-cultural context of group environments. Dual listed as IASTU 288. Mandatory decimal grading.

SOCIOLOGY 289
Special Topics In Sociology (5)
Classes focusing on specific issues and/or topics of interest in Sociology. Previously SOC 285.

SOCIOLOGY 297, 298, 299
Individual Project In Sociology (1, 2, 3)
Individual project in a specific area of sociology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students' educational and work experience.

SPANISH 100
Practical Spanish for Law Enforcement (3)
Fast-paced beginning Spanish course. Students will learn a practical vocabulary. Focus on police survival topics - arrest and legal phraseology, anatomy, wounds and fractures, First Aid, missing persons reports, narcotics. Outreach Community resources, tapes and simulated presentations. Does not replace SPAN& 121. Student option grading.

SPANISH 105
Spanish for Health Care Delivery Personnel (5)
Fast-paced beginning Spanish course. Students are immersed in learning a practical vocabulary for health care providers working with Spanish-speaking patients. Focus on language and cultural information related to health care in Spanish speaking cultures. Not a health care or certified interpreting course. Previous study of Spanish helpful, but not required. Student option grading.

SPANISH& 121
Spanish I (5)
Fast-paced beginning course in Spanish: listening, speaking, reading and writing. Topics include greetings, family, food and clothing vocabulary and the present tense. Cultural studies include social amenities, proverbs and exposure to Hispanic art, music and history. Previously SPAN 101. Student option grading.

SPANISH& 122
Spanish II (5)
Continuation of SPAN& 121. Fast-paced course. Topics include both past tenses, direct and indirect object pronouns and reflexive verbs. Cultural studies continue. Previously SPAN 102. Prerequisite: SPAN& 121 or equivalent with instructor's permission. Student option grading.

SPANISH& 123
Spanish III (5)
Continuation of SPAN& 122. Fast-paced course. Topics include the subjunctive mood, commands, conditional and future tenses. Cultural studies continue. Continued development of oral skills. Previously SPAN 103. Prerequisite: SPAN& 122 or equivalent with instructor permission. Student option grading.

SPANISH& 221
Spanish IV (5)
Class conducted in Spanish. Major emphasis on increased vocabulary and review of grammatical structures. Development of ability to create imaginative dialogue. Weekly conversation groups. Introduction to the study of literature through articles and short stories. Previously SPAN 201. Prerequisite: SPAN& 123 or equivalent with instructor's permission. Student option grading.

SPANISH& 222
Spanish V (5)
Continuation of SPAN& 221. Class conducted in Spanish. Continues review of grammar, development of practical vocabulary and discussion of articles/short stories. Weekly conversation groups. Previously SPAN 202. Prerequisite: SPAN& 221 or equivalent with instructor's permission. Student option grading.

SPANISH& 223
Spanish VI (5)
Continued in Spanish. Conversation class for advanced-intermediate students. Integration of skills developed in previous quarters. Emphasis on group work and conversational skills/techniques. Presentations in Spanish. Previously SPAN 203. Prerequisite: SPAN& 222 or equivalent with instructor's permission. Student option grading.
SPANISH 297, 298, 299  
Individual Project in Spanish (1, 2, 3)  
Individual project in a specific area of Spanish.  
By arrangement with instructor.  Prerequisite:  
Instructor permission, based on evaluation of  
students’ educational and work experience.  
Student option grading.

SPEECH COMMUNICATION  
Due to common course numbering, “Speech  
Communication” is now known as “Communication Studies.”

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 100  
Normal Communication Across the Life Span (5)  
This is the foundation course in the Speech-  
Language Pathology Assistant program.  
Normal development of communication  
including speech, language and hearing is pre-  
sent.  The major focus is the rapid develop-  
ment of communication skills from birth  
through 18 years.  Prerequisite: ENGL& 101  
and/or permission of the instructor.  Student  
Option Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 101  
Overview of Communication Disorders (5)  
This course introduces students to speech, lan-  
guage, fluency, and voice disorders.  Students  
will learn to distinguish between normal and  
disordered communication.  This course  
includes study of the oral and vocal mechanism  
and the neurological system related to speech  
and language.  Prerequisite: SLP 100, concu-  
rent enrollment in SLP 100, or permission of  
the instructor.  Mandatory Decimal Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 110  
Auditory Discrimination and Phonetics (5)  
This course introduces students to the  
International Phonetic Alphabet.  Students  
learn to distinguish individual speech sounds  
and transcribe normal and disordered sponta-  
enous speech.  Prerequisite: SLP 101 or con-  
current enrollment in SLP 101.  Mandatory  
Decimal Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 150  
Computer Skills for SLPA (3)  
This course will prepare the student to identify  
and use appropriate hardware and software that  
are routinely employed in speech pathology  
activities.  Both administrative and therapeutic  
activities will be covered.  Prerequisites: CIS  
105, or permission of the instructor.  
Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 210  
Therapeutic Methods for Articulation (5)  
Students will learn techniques to correct speech  
disorders.  Data collection, reporting progress  
and management of the therapy interaction will  
be introduced.  Prerequisite: SLP 101, SLP 110  
and ENGL& 101.  Mandatory Decimal  
Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 215  
Therapy Procedures for Development  
Language Dis. (5)  
Discuss how language deficits vary according to  
diagnosis and specific populations including  
the influence of culture and language differences.  
Students will acquire therapy techniques appro-  
priate for language delays/disorders for children  
of all ages.  Previously SLP 211.  Prerequisite:  
SLP 101, ENGL& 101 or instructor permis-  
sion.  Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 216  
SLPA’s Role In Acquired Language Disorders (5)  
This course explores the SLPA role in rehabilita-  
tive communication therapy.  Stroke, traumati-  
c brain injury, degenerative neurological condi-  
tions and disease can negatively affect commu-  
nication.  Specific therapy techniques appropri-  
ate for these acquired language disorders will be  
explored.  Previously SLP 212.  Prerequisites:  
SLP 101, and ENGL& 101 or permission of  
the instructor.  Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 217  
Behavioral Analysis and Management (5)  
Students learn normal and disordered behaviors  
that are common among individuals with dis-  
abilities.  Methods of modifying behavior, data  
collection, charting methods, and ethical issues  
used in speech pathology activities will be pre-  
sented.  Previously SLP 213.  Prerequisites:  
SLP 101, or permission of the instructor, and  
ENGL& 101.  Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 220  
Introduction to Audiology (3)  
This course will provide an introduction to  
audiology and the physics of sound.  This class  
will cover audiometric testing and screenings,  
types and causes of hearing loss, and will intro-  
duce hearing aids, cochlear implants and assist-  
tive listening devices as options for managing-  
hearing loss.  Prerequisite: SLP 100 and 101 or  
by permission.  Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 224  
Therapy for Hearing Loss (3)  
This course will provide an overview of the  
communication and educational impact of a  
hearing loss in children and adults.  This course  
will include instructional strategies and assistive  
technology used with individuals with hearing  
loss.  Prerequisite: SLP 100, 101 and 220 or  
by permission.  Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 225  
Ethics, Scope of Practice & Internship Prep-SLPA (5)  
This course explores codes of ethics and the  
many laws and regulations that dictate the  
scope of practice for the SLPA.  A major focus  
will be the many state and federal regulations  
that affect speech pathology services offered in  
the public schools.  Prerequisite: Completion  
of 30 credits in courses required in the SLP  
Assistant program.  Mandatory Decimal  
Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 250  
Introduction to Assistive Technology (3)  
Students will learn to use computer hardware  
and software that has been adapted for disabled  
individuals.  Technology that allows the disabled  
to be mobile, to use computers and to commu-  
nicate will be explored.  Prerequisites: SLP 101,  
SLP 150, or permission of the instructor.  
Mandatory decimal grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 266  
SLPA Internship Preparation (4)  
Students observe speech pathologists in various  
settings working with a variety of communica-  
tion disorders.  Classroom discussion focuses on  
student observation reports, aspects of speech  
pathology, information regarding finding jobs,  
and a review of therapy techniques.  
Prerequisite: 30 credits from SLPA classes.  
Mandatory Decimal Grading.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 291  
Special Topics In Speech Language  
Pathology (1)  
Classes focusing on specific issues and/or topics  
of interest in speech language pathology.  
Previously SLP 281.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 292  
Special Topics In Speech Language  
Pathology (2)  
Classes focusing on specific issues and/or topics  
of interest in speech language pathology.  
Previously SLP 282.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 293  
Special Topics In Speech Language  
Pathology (3)  
Classes focusing on specific issues and/or topics  
of interest in speech language pathology.  
Previously SLP 283.

SPEECH/LANGUAGE PATHOLOGY  
ASSISTANT 294  
Special Topics In Speech Language  
Pathology (4)  
Classes focusing on specific issues and/or topics  
of interest in speech language pathology.  
Previously SLP 284.
SPEECH/LANGUAGE PATHOLOGY
ASSISTANT 295
SLPA Internship In Schools or Clinic (3)
SLP 295 is the culmination of the SLPA program. Students will participate in a minimum of 12 hours per week working with a supervising SLP in a school or clinic setting. Concurrent enrollment in SLP 296. Previously SLP 267. Prerequisite: 30 credits in SLPA including SLP 266. Mandatory P/NC grading.

SPEECH/LANGUAGE PATHOLOGY
ASSISTANT 296
SLPA Professional Development Seminar (3)
Students participate in self-evaluation of skills and issues related to their internship. Students review job hunting, resumes, and interviews. Students share their work experience with other students and participate in problem-solving related to internship. Previously SLP 268. Prerequisite: 30 credits in SLPA Program, completion of SLP 266 and concurrent enrollment in SLP 267. Mandatory Decimal Grading.

SPEECH/LANGUAGE PATHOLOGY
ASSISTANT 297, 298, 299
Individual Project In Speech Language Pathology (1, 2, 3)
Individual project in a specific area of speech language pathology. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience.

STUDY SKILLS 099
College Study Skills (1)
Information and skills related to college study: positive learning attitudes, study environment, learning styles, time management, concentration, memory, vocabulary, textbook reading, listening, notetaking and passing exams. Mandatory P/NC grading.

STUDY SKILLS 100
Academic Success Strategies (5)
Students learn techniques for studying in their college classes: how to learn from textbooks, lectures and technology. Strategies of reading, information-gathering, note-taking, writing-to-learn and improving memory are taught. The emotional aspects of learning are covered. Students will practice these skills using materials from their other classes. Prerequisites: Students need ASSET scores of 35 in Reading and 33 in Language Usage or have passed English 080 to take this class. Registration requires the signature of an approved advisor. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 101
Graphic Design I (5)
Concept development procedures in visual communication problem solving involving letter-forms, illustrative material, typography and general graphic design. Basic principles of selection, organization, and production techniques are introduced. Dual listed as ART 201. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 102
Graphic Design II (5)
Continued study of concept development procedures in visual communication problem solving including letter forms, illustrative material, typography and general graphic design. Stresses principles of selection, organization, production techniques and introduction to mechanical art requirements. Dual listed as ART 202. Prerequisite: VCT 101, ART 201 or equivalent with instructor’s permission. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 103
Graphic Design III (5)
Procedures in visual communication problem solving: topics are letterforms, illustrative matter, market analysis and general graphics. Principles of selection, organization and production are stressed. Course is demanding in both time and quality of product. Dual listed as ART 203. Prerequisite: ART 202 or VCT 102, or instructor permission. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 111
Survey of Current Image Production (4)
Students explore various production processes for print including file evaluation, workflow integration, and troubleshooting and correction for output to inkjet, offset and toner-based printing. Mandatory decimal grading.

VISUAL COMMUNICATION
TECHNOLOGY 124
Basic Macintosh Systems Operations (2)
Introduction to the fundamental operations and uses of the Macintosh computer, operating systems, file formats as related to visual communications design and production. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 125
Intro to Image Construction, Editing & Output (3)
This course introduces current information, tools and techniques used for creation of digital materials for a variety of visual communications applications. It is an Introductory course in digital image construction methods including: creation, editing, storage, retrieval and output. Student Option Grading.

VISUAL COMMUNICATION
TECHNOLOGY 128
Desktop Publishing Using InDesign (3)
This is an intro to desktop publishing design, concepts and skills using page-layout programs. Projects include single and multiple page layouts such as letterhead and brochure design. Issues involving basic graphic design principles, software integration, and preparation for offset printing will be addressed. Previously VCT 131. Prerequisite: VCT 124/125 or instructor approval. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 134
Digital Illustration & Design With Illustrator (3)
This course develops a fundamental understanding of the design and creation of computer graphics for press, web, and multimedia, using vector-based applications. Problem-solving skills related to illustration techniques, software usage/compatibilities and related concerns will also be addressed. Previously VCT 132. Prerequisite: VCT 124/125 or instructor approval. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 135
Digital Imaging (4)
Digital imaging focuses on digital image acquisition, input, editing and output for a variety of visual media applications. It incorporates detailed exploration into image enhancement, image creation, and image restoration and output resolutions for a variety of media. Previously VCT 140. Prerequisite: VCT 124, VCT 125, or portfolio review. Instructor permission required. Mandatory Decimal Grading.

VISUAL COMMUNICATION
TECHNOLOGY 136
Photoshop Introduction/ Image Construction (3)
Photoshop for commercial, fine art and photo applications. Includes image acquisition, file preparation, importing as well as the alteration, manipulation and enhancement of images. Emphasis is on image construction for concept development including strategies for use with web, multimedia, print and video production. Previously VCT 129. Prerequisite: VCT 124 and VCT 125 or skills test. Instructor permission required. Mandatory decimal grading.

VISUAL COMMUNICATION
TECHNOLOGY 144
Digital Photography for Industry (4)
This introductory course explores the modes and roles of digital photography. Explore the possibilities of the medium, explore creative and aesthetic concerns. Students will use digital image capture and output and work in both black and white and color through assignments, lectures, and critiques. Previously VCT 141. Prerequisite: VCT 124/VCT 125, VCT 136 or portfolio review. Instructor permission required. Mandatory Decimal Grading.

VISUAL COMMUNICATION
TECHNOLOGY 145
Digital Image Correction and Retouching (4)
Students learn how to evaluate digital images, make corrections to tone, contrast and color as well as eliminating scratches and repairing image damage. Prerequisite: VCT 124, VCT 125, VCT 136 or concurrent enrollment with instructor permission or portfolio review. Mandatory decimal grading.
VISUAL COMMUNICATION

TECHNOLOGY 154
Printing Processes: Offset (4)
Students explore production-based offset printing processes. This in-depth course includes equipment, materials selection, workflow, troubleshooting, large format print production and print quality, mounting and finishing for a variety of applications. Previously VCT 112. Prerequisite: VCT 111 or concurrent enrollment with instructor permission or portfolio review. Mandatory decimal grading.

VISUAL COMMUNICATION

TECHNOLOGY 155
Printing Processes: Ink Jet (4)
Students explore inkjet printing processes. This in-depth course includes equipment, materials selection, workflow, troubleshooting, large format print production and print quality, mounting and finishing for a variety of applications. Previously VCT 113. Prerequisite: VCT 111, 124, 125, 136 or concurrent enrollment with instructor permission or portfolio review.

VISUAL COMMUNICATION

TECHNOLOGY 156
Printing Processes: Toner-Based (3)
Students explore toner-based printing processes. This in-depth course includes equipment, materials selection, workflow, troubleshooting, large format print production and print quality. Previously VCT 116. Prerequisite: VCT 124, VCT 125, VCT 128 or concurrent enrollment with instructor permission or portfolio review.

VISUAL COMMUNICATION

TECHNOLOGY 157
Electronic Prepress & Publishing (4)
Students prepare camera-ready art and digital files for print. Multiple-page, multiple-signature formats are used for digital and mechanical copy. The course also addresses customer relations, time management, materials selection, workflow, file preparation, and print coordination. Previously VCT 122. Prerequisite: Completion of VCT 101, VCT 111, VCT 136, VCT 128 and instructor signature or instructor permission with portfolio review.

VISUAL COMMUNICATION

TECHNOLOGY 158
Desktop Video Production With Final Cut (3)
Introduction to nonlinear video editing. Students learn to edit digital video, add text and graphics to video, perform color keying, add animation and edit audio. Complete projects will be exported to tape, CD, DVD or the web. Previously VCT 264. Prerequisite: VCT 124/125, VCT 136, instructor permission. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 170
Introduction to Web Design W/Dreamweaver (3)
Introduction to interactive design in internet publishing. Addresses site creation, management and interface design. Covers concept development, resolution, color theory, layout, fonts, file format, server interaction, Web browser plug-ins and multimedia applications. Previously VCT 138. Prerequisite: VCT 124 and VCT 125, VCT 136 recommended or portfolio review. Instructor permission required. Mandatory decimal grading.

VISUAL COMMUNICATION

TECHNOLOGY 174
Interface Design With Flash (3)
This course introduces students to interactive screen design with an emphasis on user interface design for multi-dimensional ‘New Media’ such as CD, DVD, VHS tape and web. Students gain experience with technologies and software while focusing on visual communication concepts and project development. Previously VCT 139. Prerequisites: VCT 124/125, Art 130, VCT 136 or portfolio review. Instructor permission required. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 175
3-D Rendering With Maya (3)
An entry-level course in construction, illustration and rendering of 3D images. The course addresses organization of resources and applied procedures to produce high quality 3D images for publication as multimedia, web-based video. The course introduces the use of the 3D modeling and rendering software. Previously VCT 134. Prerequisites: VCT 124 and 125, VCT 136 and VCT 128 or instructor permission with portfolio review.

VISUAL COMMUNICATION

TECHNOLOGY 177
New Media Design With Flash (3)
This course focuses on the design of interactive functions used in multi-dimensional New Media. With current technologies and software, students use interface design to create a series of user responsive/directed interactivity applicable for a variety of output options: CD, DVD, VHS tape and web. Previously VCT 207. Prerequisite: VCT 136, VCT 174 or portfolio review. Instructor permission required. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 190
Internship In Visual Communications (5)
Apply skills in a commercial work environment. Interpersonal communication skills, cost awareness, time management and quality assurance are seminar topics. Specialization in graphic design, photography, production web and printing. Site approval must be obtained by student. Course may be repeated. Variable 2-5 credit. Previously VCT 212. Prerequisite: See instructor for registration. Additional hours to be arranged. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 199
Visual Communications Study Center (5)
Students complete supplemental study projects in Visual Communications Technology computer lab to support their progress in the VCT program. This course may be taken multiple times for credit. Previously VCT 099. Prerequisite: VCT 124 and VCT 125, Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 201
Graphic Design IV (4)
Students work on portfolios showing visual communication problem solving. Critical analysis of design solutions using art elements and principles. Teaches strategies, group design team concepts, research techniques and resource development for the selection, organization, process and production of visuals. Project deadlines simulate industry. Prerequisite: Completion of VCT 103 or equivalent education and experience with instructor permission. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 202
Graphic Design V (4)
Individual portfolio development. Features audience and market analysis, continues instruction in research techniques and resource development for the selection, organization, process and production of visuals. Project deadlines simulate industry. Media specialization is individual. A portfolio presentation and display of fifteen pieces of exemplary work, a resume and personal business cabinet of papers. Prerequisite: Completion of VCT 201 or equivalent with instructor’s permission. Student option grading.

VISUAL COMMUNICATION

TECHNOLOGY 203
Portfolio and Resume Preparation (4)
The advanced VCT student will design, develop and produce a portfolio which represents developed skills and abilities using media appropriate to the developer’s areas of expertise. The student will design, develop and produce a comprehensive resume for presentation. This course may be repeated for credit. Previously VCT 222. Prerequisites: Completion of VCT foundation curriculum and area of specialization. Ability to design and develop a portfolio in appropriate format for area of specialization. Instructor permission required. Mandatory decimal grading.

VISUAL COMMUNICATION

TECHNOLOGY 224
Adv Desktop Publishing Using Indesign (3)
This intermediate desktop publishing course incorporates design, image acquisition and electronic assembly and manipulation of test and graphics in creating multiple-page documents. Issues involving design principles, concept development, software integration, and preparation for offset printing will be emphasized. Previously VCT 133. Prerequisite: VCT 101, 111, 131 and permission. Student option grading.
VISUAL COMMUNICATION
TECHNOLOGY 234
Adv. Digital Illustration Using Illustrator (4)
Students develop advanced skills in creating vector graphics, illustration techniques, software features, and output for a variety of uses. Projects may include scientific, prototype and infographic illustration. Previously VCT 232. Prerequisite: VCT 124/125, 136, 134 and ART 131 or instructor permission. Mandatory deci-
mal grading.

VISUAL COMMUNICATION
TECHNOLOGY 236
Advanced Photoshop (3)
Continuation of VCT 136. Complex image construction using Photoshop. Advanced production techniques used to create images for use in multimedia, print media and web design. Previously VCT 229. Prerequisite: VCT 136 or equivalent with instructor permis-
sion. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 241
Advanced Digital Photography for Industry (4)
This course examines shooting and digital software techniques in the evolution of digital images. Focus is on the purposes and intentions of alteration of photographic images and how this is used in creative expression. Emphasis is on digital technology to solve photo-imaging problems. Prerequisite: VCT 129, VCT 141 or portfolio review, instructor permission required. Mandatory Decimal Grading.

VISUAL COMMUNICATION
TECHNOLOGY 254
Offset Printing Procedures IV (4)
This course simulates the work experience of a commercial printing concern. Students work independent of the instructional staff on routine skill accomplishments. Production skills and cost estimation skills are strengthened to industrial standards. Course may be repeated. Previously VCT 211. Prerequisite: VCT 154 or equivalent with instructor permission. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 255
Offset/Graphic Production Portfolio (4)
Offset printing and prepress production stu-
dents are instructed in job search skills, resume preparation, personal presentation and interview techniques. Portfolio presentation includes student sample work, a resume and a business cabinet. Work is displayed as both realia and fake format. Previously VCT 213. Prerequisite: VCT 154. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 257
Adv Electronic Prepress & Publishing (4)
Students learn digital file preparation for On Demand and Offset printing. The course covers prepress, post-print bindery and finishing as well as skills for refining of trapping, imposi-
tions and pagination. Troubleshooting file formats for digital output and workflow management is addressed. Previously VCT 123. Prerequisite: VCT 157 and instructor signature or instructor permission with portfolio review.

VISUAL COMMUNICATION
TECHNOLOGY 264
Adv Desktop Video Production W/Final Cut (3)
Students plan and develop strategies for com-
posite video and still images to create anima-
tions, mattes, and add special effects to video using a variety of techniques. Students acquire skills to incorporate audio and output using appropriate compression software for multiple applications (such as CD, DVD, Video Tape and Streaming Web Media). Previously VCT 265. Prerequisites: Completion of VCT 164 and permission of instructor.

VISUAL COMMUNICATION
TECHNOLOGY 266
Video Editing & Post Production (5)
Learn how to edit video/film. Study the tech-
niques, history and theory of video/film editing using Avid XpressDV, a professional non-linear edit system. Create projects in a variety of styles including narrative and documentary. New, emerging technologies are also discussed. Dual listed as Film 266. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 267
Advanced Video Editing & Post Production (5)
Interested in professional video editing? In this class, study advanced video editing post-pro-
duction using professional software such as Avid XpressDV to create various longer video projects including narrative, documentary and experimental styles. Emerging technologies are discussed. Dual listed as Film 267. Prerequisite: Film/VCT 266. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 270
Advanced Web Design With Dreamweaver (4)
An advanced course addressing concept, design and usability issues for web development. Current technologies for web applications are explored through lecture and hands-on projects that involve the exploration of human comput-
er interaction through dynamic graphics ele-
ments and structure. Previously VCT 238. Prerequisite: VCT 170. Mandatory Decimal Grading.

VISUAL COMMUNICATION
TECHNOLOGY 275
3D Animation W/Maya (3)
This entry-level course focuses on the applica-
tion of 3D images to a conceptualized and planned high quality animation for use in mul-
timedia, web and video applications. Motion, camera and lighting are applied in project development using the 3D modeling and ren-
dering software. Previously VCT 135. Prerequisite: VCT 175, instructor signature or instructor permission with portfolio review. Mandatory decimal grading.

VISUAL COMMUNICATION
TECHNOLOGY 277
Adv New Media Design With Flash (4)
This course focuses on developing New Media for teaching and learning. Emphasis is on using instruc-
tional design theory to create multi-
dimensional/level user driven media. Students have the opportunity to build structured teach-
ing and learning projects for a variety of media such as CD, DVD, VHS tape and web. Previously VCT 208. Prerequisite: VCT 177 or portfolio review. Instructor permission required. Student option grading.

VISUAL COMMUNICATION
TECHNOLOGY 291
Special Topics In VCT (1)
Classes focusing on specific issues and/or topics of interest in visual communications technology. Previously VCT 281.

VISUAL COMMUNICATION
TECHNOLOGY 292
Special Topics In VCT (2)
Classes focusing on specific issues and/or topics of interest in visual communications technology. Previously VCT 282.

VISUAL COMMUNICATION
TECHNOLOGY 293
Special Topics In VCT (3)
Classes focusing on specific issues and/or topics of interest in visual communications technology. Previously VCT 283.

VISUAL COMMUNICATION
TECHNOLOGY 297, 298, 299
Individual Project VCT (1, 2, 3)
Individual project in a specific area of VCT. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience. Student option grading.

WOMEN STUDIES 205
Gender and Global Justice (5)
Explores how globalization affects gender rela-
tions and the relative status of women and men in various global contexts. Investigates the insti-
tutional status of women in national and inter-
national systems of healthcare, justice, econom-
ics, politics, family, and development. Dual listed as INTST 205. Prerequisite: Placement in ENGL 100 or higher. Student option grad-
ing.

WOMEN STUDIES 215/215W
Women In U.S. History (5)
Examines US history from pre-colonial times to the present from the perspectives of women of various racial, ethnic, religious, and socioeconomic backgrounds, and explores how women helped shape US history. Topics may include colonization, slavery, wars, western migration, employment, immigration, reform, and gender. Previously WOMEN 240/WOMEN 240W. Dual listed with HIST& 215. Mandatory deci-
mal grading.
COURSE DESCRIPTIONS

WOMEN STUDIES 284/284W
Gender, Race and Class (5)
This course explores the ways in which one’s gender, race, class and sexual orientation affect access to, participation in, and treatment by a variety of social institutions. We study the legal system, education, and the media as well as actions to confront systems of oppression in the U.S. Dual listed as IASTU 284. Student option grading.

WOMEN STUDIES 285/285W
Gender, Violence and Social Change (5)
Study of current research and issues on the social, psychological, legal and political implications of gendered abuse, and instances when women are the majority of victims. Areas of study include child abuse, rape, domestic violence, and sexual harassment. Dual listed as IASTU 285. Formerly Women and Abuse. Previously WOMEN 282/WOMEN 282W. Prerequisite: Recommend ENGL& 101. Student option grading.

WOMEN STUDIES 286/286W
Women of Power (5)
Students will study the relationship between women and power. Topics include barriers to acquiring power, strategies for obtaining power, and uses of power. Students will research several powerful women. Emphasis is on class discussion and collaboration. Open to women and men. Dual listed as IASTU 286. Previously WOMEN 283/WOMEN 283W. Prerequisites: Recommend ENGL& 101. Student option grading.

WOMEN STUDIES 291
Special Topics In Women’s Studies (1)
Classes focusing on specific issues and/or topics of interest in womens studies. Previously WOMEN 281.

WOMEN STUDIES 292
Special Topics In Women’s Studies (2)
Classes focusing on specific issues and/or topics of interest in womens studies. Previously WOMEN 282.

WOMEN STUDIES 293
Special Topics In Women’s Studies (3)
Classes focusing on specific issues and/or topics of interest in womens studies. Previously WOMEN 283.

WOMEN STUDIES 294
Special Topics In Women’s Studies (4)
Classes focusing on specific issues and/or topics of interest in womens studies. Previously WOMEN 284.

WOMEN STUDIES 295
Special Topics In Women’s Studies (5)
Classes focusing on specific issues and/or topics of interest in womens studies. Previously WOMEN 285.

WOMEN STUDIES 297, 298, 299
Individual Project In Women’s Studies (1, 2, 3)
Individual project in a specific area of womens studies. By arrangement with instructor. Prerequisite: Instructor permission, based on evaluation of students’ educational and work experience.

ZERO ENERGY TECHNOLOGY 110
Intro Energy/Sustainability In Built Environment (5)
Overview of energy issues from multiple perspectives, including resource & species depletion, climate impacts and public energy policy decisions, processes, & strategies. Mandatory decimal grading.

ZERO ENERGY TECHNOLOGY 120
Solar Electric Design & Applications (5)
Explore the use of sunlight to produce electricity. Practical & economical design of photovoltaic power systems, site analysis, system sizing, equip. specs & component selection, code requirements, economics of PV systems, and energy efficiency and conservation impacts on system design will be covered. Mandatory decimal grading.

ZERO ENERGY TECHNOLOGY 130
Solar Thermal Space/Hot Water Design & Install (5)
Learn theory, setting, design, procurement & techniques required to install & maintain a solar hot water system. Examine passive/active, unglazed/glazed, & evacuated tube technologies, optimal designs, alternative space heating, building codes, utility conservation programs, and site & federal incentives. Mandatory decimal grading.

ZERO ENERGY TECHNOLOGY 180
Blueprint Reading Level I (3)
A competency-based introduction to blueprint reading. Students will learn the essential content of blueprints, including drawing types, drawing content, theory of projection, dimensioning systems, revision blocks, and all associated nomenclature. Instructor permission required. Previously MACHT 182. Mandatory decimal grading.

ZERO ENERGY TECHNOLOGY 200
Zero Energy Building Design (5)
Covers principles behind design & building residential/commercial low rise structures that approach or exceed net zero energy use over lifecycle. Examines historical/contemp. methods for optimal year-round comfort, reduced energy consumption, air quality improvement & environmental impacts. Mandatory decimal grading.

ZERO ENERGY TECHNOLOGY 290
Renewable Energy/Solar Internship (5)
This course provides students with work experience in the Renewable Energy industry. Mandatory decimal grading.
Trustees, Administration & Faculty

Board of Trustees

DICK STUCKY; Chair
SHOUBEE LIAW; Vice Chair
ROGER OLSTAD
JERRY SMITH
GIDGET TERPSTRA
LORI YONEMITSU
Secretary to the Board of Trustees

Administration

LEE D. LAMBERT
President; The Evergreen State College, B.A. in Liberal Arts; Seattle University School of Law, JD in Law

JOHN P. BACKES
Vice President for Academic Affairs; St. Olaf College, B.A. in History, Political Science; University of Washington, M.L.S.

PETER J. CALKINS
Director, AutomotivE; A.A.S. in Automotive Technology, Arapahoe Community College in Littleton, CO

DARYL J. CAMPBELL
Vice President for Administrative Services; B.S. in Nutrition Sciences, University of Vermont; R.D., Brigham and Women's Hospital in Boston, MA; M.B.A., University of Phoenix in San Francisco, CA

CATHERINE A. CHUN
Special Assistant to the President for Diversity, Equity and Student Leadership; University of Washington, B.A. in Political Science, M.Ed. in Leadership & Policy Studies in Higher Education

TONYA M. DRAKE
Vice President for Student Success; B.A. in Business Administration, University of Washington; M.Ed. in Leadership & Policy Studies, and Ph.D. in Education Leadership & Policy Studies, Arizona State University

NORMA W. GOLDESTINE
Academic Dean; Connecticut College, B.A. in English, M.A.T. in Education, English; Wesleyan University, C.A.S. in Liberal Studies; Dartmouth College, M.A.L.S. in American Literature; University of Rhode Island, Ph.D. in British and American Literature

THEODORE F. HAASE
Director, Financial Aid; Western Washington University, M. Ed. in Adult Education Administration; Lutheran School of Theology, M.A. in Religion/Theology; University of Tennessee, B.A. in Psychology

EUGENE “JIM” HILLS
Special Assistant to the President for Communications & Marketing; B.A. in Editorial Journalism, University of Washington

SUSAN H. HOYNE
Academic Dean; University of Massachusetts, B.A. in English, Spanish & Education; University of Washington, M.Ed. in Second Language Acquisition & Linguistics, Ph.D. in Human Development and Cognition

JIM JAMES
Director of Institutional Effectiveness & Strategic Planning; University of Washington, B.A. in Political Science, M.A. in Communication

MARY E. KELEMEN
Director, Auxiliary Services; Western Michigan University, B.A. in Education

KENNETH G. LAWSON
Academic Dean; B.S. & M.A. in Political Science, University of Utah; Ph.D. in Political Science, University of Washington

GILLIAN D. LEWIS
Academic Dean; University of Nottingham, B.S.; University of Washington, M.Ed.

CHRISTINE LINEBARGER
Director, Recruitment & Enrollment Services; B.A. in English & History, University of Nevada at Las Vegas

ALBERTA B. LLOYD
Dean, Workforce Education; University of Washington, B.A. in Sociology; Whitworth College, M.Ed. in Guidance and Counseling

BARBARA A. LONEY
Director, Workforce Education Programs; B.A. in Psychology, University of Washington; M.S. in Human Resource Management, University of Utah

RITVA A. MANCHESTER
Director, Annual Giving, Community & Alumni Relations; B.A. in Psychology, Western Washington University

CHARLOTTE “CHRIS” MELTON
Registrar, Shoreline Community College, general studies

THALIA R. SAPDL
Executive Director, International Programs; Seattle University, B.A. in Community Services

STEPHEN P. SMITH
Vice President for Human Resources & Legal Affairs; B.A. in Liberal Arts, The Evergreen State College; J.D., University of Washington

WILLIAM N. SPERING
Director of ABE, ESL and GED Programs; B.A. in English & M.Ed., University of Washington

YVONNE TERRELL-POWELL
Director of Advising, Counseling & High School Programs; Langston University, B.A.Ed. in Social Science; Columbia University, M.A. in Psychology; Teachers College, Columbia University, M.Ed. in Psychological Counseling; The Pennsylvania State University, Ph.D. in Counseling Psychology

KIMBERLY A. THOMPSON
Director, Special Services; B.A. in Psychology, Seattle University, M.S.W., University of Washington

Faculty

AMELIA D. ACOSTA
Spanish; St. Olaf College, B.A.in English & Spanish; University of California at Santa Barbara, M.A. in Spanish

BRUCE A. AMSTUTZ
Art, Visual Communication Technology; University of Washington, B.F.A., M.F.A., Drawing & Painting

GLORIA B. ANDERSON, RHIA, CCS
Health Care Information; Northeastern University, B.S. in Health Information Administration; Antioch University, Seattle, M.A. in Education

JULIET N. ANDERSON
Mathematics; University of Washington, B.S. in Mathematics; University of Puget Sound, M.S. in Mathematics

EMANUELA A. BAER
Earth Sciences, Geology; University of Rome, Laurea Degree (B.S. + Master equivalent) in Geological Sciences; University of Rome and University of Perugia, Doctorate in Earth Sciences (Volcanology)

MARIANNE BAKER, R.D.H.
Dental Hygiene; University of Washington, B.S.; Seattle University, M.Ed.

LINDA D. BARNES, R.N.C., ANCC
Nursing; Case Western Reserve University, B.A. in Psychology, Frances Payne Bolton School of Nursing @ Case Western, B.S. in Nursing; University of Washington, M.N. in Perinatal Nurse Specialist Pathway

VINCENT G. BARNES
English as a Second Language; Western Washington University, B.A. in English/Writing, B.A. in Secondary Education; University of Washington, M.A.T., ESL

ELIZABETH F. BARNETT
Education and Human Services; Seattle University, B.A. in Psychology & French; University of Washington, M.Ed. in Early Childhood/Special Education; Ph.D. in Multicultural Education

MARYROSE C. BELLERT
Dental Hygiene; University of Washington, B.S. in Dental Hygiene

CHRISTINE BERNSTEN
Nursing; University of Washington, M.N. Nursing; Marquette University, B.S.N. in Nursing

ROBERT W. BIESIEDZINSKI
Automotive, Honda; Wyoming Technical Institute, Automotive Technology Training

DONNA L. BISCAY
English as a Second Language; Western Washington University, B.A. in Journalism; School for International Training, M.A. in Teaching
RUTHANN B. DUFFY
English as a Second Language; University of Maine, B.S. in Secondary Education & Literature; Seattle University, M.A. in English as a Second Language & Adult Basic Education

PAMELA A. DUSENBERY
Developmental English; The Evergreen State College, B.A. in Journalism; Columbia University, M.I.T. in Learning Disabilities, M.Ed. in Special Education Instructional Practice

BARRY K. EHRlich
Music; San Francisco State University; B.M.; California State University at Hayward, M.A. in Music

NANCY C. FIELD
Counselor; University of Washington, B.A. in Cultural Anthropology, M.Ed. in Educational Psychology

SHANNON L. FLYNN
Mathematics; Western Washington University, B.S. in Mathematics; University of Washington, M.A. in Mathematics

MATTHEW A. FORDHAM
Audio Engineering; Berklee College of Music, B.F.A. in Music

LINDA S. FORST
Criminal Justice; Florida Atlantic University, B.A.A. in Criminal Justice, M.Ed. in Community College Education, Ed.D.

ROBERT M. FRANCIS
Economics; San Jose State University, B.A., M.A. in Economics

LEONID G. GINES
Biology; Washington State University, B.S. in Biology; University of Montana, M.S. in Microbiology

STEPHEN C. GOETZ
Biological Sciences; Antioch College, B.A. in Biology; University of Washington, M.S. in Zoology, Ph.D. in Higher Education Policy, Governance & Administration

THOMAS “GUY” HAMILTON
Biotechnology, Biology; Indiana University, B.S. in Microbiology; University of Oregon, Ph.D. in Biology

HELEN M. HANCOCK
Mathematics; University of Florida, B.S. in Mathematics; Western Carolina University, M.A. in Education (Mathematics & Education Supervision)

MARK A. HANKINS
Automotive GST; Pittsburgh State University, B.S. in Industrial Education; Oregon State University, M.Ed. in Industrial Education

ELIZABETH R. HANSON
English; University of Washington, B.A. in English; University of Montana, M.F.A. in Creative Writing

EDWARD W. HARKNESS
English; University of Washington, B.A. in English; University of Montana, M.F.A. in Communication Studies

CAROL M. “MIMI” HARVEY
Speach Communication; University of Victoria, B.A. in Pacific & Asian Studies, M.A. in Curriculum Studies; University of Iowa, Ph.D. in Communication Studies

GARY “DUTCH” HENRY
English; Montana State University, B.A. in English; University of Washington, M.A., Ph.D. in English

PAUL W. HERRICK
Philosophy; University of Washington, B.A. in Economics & Philosophy, M.A., Ph.D. in Philosophy

LISA F. HIRAYAMA
Advising, International Programs; Oberlin College, B.A. in East Asian Studies & Sociology/Anthropology; University of Pittsburgh, M.Ed. in Counselor Education

CARLA A. HOGAN, C.P.A.
Accounting; California State University, B.S. in Business Administration; U.C.L.A., M.A. in Economics

P. NIKKI HONEY, D.D.S.
Dental Hygiene; Albright College, B.S. in Biochemistry; University of Washington, M.S. in Zoology & Physiology

KATHERINE M. HUNT
English, Humanities; Indiana University, B.A. in English & German, University of Arizona, M.A. in English, Education

JEANNETTE IDIART
English Composition, Literature; University of California, B.A. in English; University of Washington, M.A. in English: American Literature

RICHARD A. JACOBS
American Sign Language; Gallaudet University, B.S. in Recreation & Leisure Studies; Lewis & Clark College, M.A. in Special Education for the Deaf and Hard-of-Hearing

ERNEST B. JOHNSON
Multicultural Studies; University of Hawaii, B.A. in Psychology; University of Kurthom, M.A. in African Studies; University of Washington, Ph.D. in Linguistics

JEFFREY K. JUNKINSMITH
Music Theory; Occidental College, B.A. in Music; University of Iowa, M.A., Ph.D. in Music Composition

CYMBREE M. KAWAMURA
Nursing; University of Washington at Bothell, B.S.N. and M.N.

DANIEL F. KING
Accounting; Eastern Washington University, B.A. in General Studies, M.B.A.

KATHRYN S. KING
Mathematics; University of Idaho, B.S., M.S. in Mathematics

AMY J. KINSEL
History; University of Puget Sound, B.A. in History; Cornell University, M.A., in History, Ph.D. in US History

DIANA E. KNAUF
Psychology; Western Washington University, B.A. in Poltical Science; Fordham University, M.A., Ph.D. in Applied Developmental Psychology

KAREN J. KREUTZER
Chemistry, Chemistry Technology, Hazardous Materials; University of Washington, B.S. in Chemistry, M.S. in Analytical/Environmental Chemistry

FREDERIC C. KUCZMORSKI
Mathematics; University of Pennsylvania, B.A. in Mathematics & Computer Science, Ph.D. in Mathematics
LINDA L. KUEHNERT
Chemistry; University of Washington, B.A., M.S. in Chemistry.

MELINDA S. LANE, R.D.H.
Dental Hygiene; University of Washington, B.S. in Dental Hygiene

ALISON P. LEAHY, R.D.
Dietetic Technology; California Polytechnic University, B.S. in Foods & Nutrition; University of Washington, M.S. in Nutritional Sciences

SARAH A. LEYDEN
Mathematics; Washington State University, B.S. in Mathematics & Psychology; Western Washington University, M.S. in Mathematics

MARICIA R. LIAM
Business Administration, Business Technology; Western Washington University, B.A. in Business Education; University of Washington, M.A. in Business Education

LOUISE M. LINDENMEYER
Physical Education; University of Washington, B.A. in Physical Education

MATTHEW T. LOPER
Chemistry, Environmental Science; University of Washington, B.A., B.S. in Botany & Chemistry; Cornell University, Ph.D. in Plant Physiology

SCOTT A. MAIN
Automotive, General Motors; Shoreline Community College, AAAS, A.S.E. Certification - General Motors

STEPHEN P. MALOTT
Audio Post Production; University of Washington, B.A. in Psychology

KRISTIN E. MARRA
Adult Basic Education, GED, English as a Second Language; Montana State University, B.S. in Sociology; Antioch University, M.A. in Education

NANCY L. MATESKY
Music; University of Arkansas, B.S.E. in Music (Piano), M.Ed. in Music Education

STEPHEN J. MCCLOSKEY
Business Administration/Law; Lake Forest College, B.A. in Business/International Relations; Maxwell School of Citizen & Public Affairs at Syracuse University, M.A. in International Relations/Trade; Syracuse University; College of Law, JD in Public/Private International Law

BRUCE R. MCCUTCHEON
English as a Second Language; California State University, Dominguez Hills, B.A. in English & Linguistics; University of Washington, M.A. in Teaching English as a Second Language

JOANNA MCENTIRE
English as a Second Language; Manchester University, B.A. in History, Postgraduate Certificate in Education

THOMAS J. MORAN
Public Service, Distance Learning Services Librarian; The Evergreen State College, B.A.; University of Washington, M.L.S.

MOLLY R. MORSE, MT (ASCP), CLS, (NCA)
Medical Laboratory Technology; University of Oregon, B.S., M.S. in Biology; University of Oregon Health Sciences Center, B.S. in Medical Technology

CLAIRE L. MURATA
Information Literacy Librarian; Evergreen State College, B.A. in Liberal Arts; University of Washington, M.L.I.S.

MILFORD B. MUSKETT
American Indian Studies/Multicultural Studies; Calvin College, B.A. in Geography; Western Michigan University, M.A. in Geography; University of Wisconsin, Ph.D. in Land Resources/Environmental Studies

LINDA SUE NELSON
Counselor; The Evergreen State College, B.A. in Human Development; Seattle University, M.Ed.

CYNTHIA L.W. OKAWARA
Advising, International Programs; University of Washington, B.A. in Elementary Education & English; Western Washington University, M.Ed. in Student Personnel Administration for Higher Education

DAVIS OLDHAM
English Composition/World Literature; Connecticut College, B.A. in Anthropology; University of Washington, M.F.A in Fiction, PhD in American Literature

MARTIN P. OLSEN
Counselor; University of Washington, B.A. in Sociology, M.Ed.

PATRICIA A. OLSEN
Nursing; University of Washington, Bothell, B.S. in Nursing, M.N. in Leadership, Education & Research

MATTHEW J. ORLANDO
Counselor; Boston College, B.A. in Psychology; University of Washington, M.S.W in Health & Mental Health

GARY A. PARKS
English; University of Montana, B.A., M.A. in English Literature & Creative Writing; Seattle University, TESL Certificate

TIMOTHY K. PAYNE
Economics; Washington State University, B.A. in Business Administration, M.A. in Economics

BETTY A. PEACE-GLADSTONE
Education; Colorado State University, B.A. in Social Work, M.S. in Human Development & Family Studies

JUDY MEIER PENN
Biology, Microbiology; Concordia College, B.A. in Biology; Louisiana State University, M.S. in Botany

BETTE S. PERMAN, R.N., CCRN
Nursing; University of Oregon, B.S.N., M.N. Cardiovascular Nursing Clinical Specialty

DAVID E. Phippen
Chemistry, Chemistry Technology; Seattle University, B.S. in Chemistry; University of California at Los Angeles, Ph.D. in Physical Chemistry

GEORGIA S. PIERCE, R.N.
Nursing; University of Virginia, B.S.N.; University of Washington, M.N.

LAURA B. PORTOLESE DIAS
Business Administration; University of Montana, B.S. in Business Administration & Marketing; City University, M.B.A in Consumer Behavior; Argosy University, Ph.D. in Marketing City University, M.B.A.

LESLIE J. POTTER-HENDERSON
Information Services Librarian; University of Washington, B.A. in History, M.L.S.

DANIEL A. PRAY
Physical Education; University of Washington, B.A. in Physical Education, M.S.P.E. in Athletic Administration

TASLEEM T. QASIM
Education; Chicago State University, B.A. in Psychology; University of Colorado, M.A. in Developmental Psychology

JAMES R. REDDIN
Digital Imaging, Bowling Green State University; B.S. in Art Education; Western Washington University, M. Ed. in Art

DOUGLAS REID
Instrumental Music; North Texas State University, B.A. in Music; City University, M.Ed. in Music Technology

GRACE A. RHODES
Director, Writing and Learning Studios; The Evergreen State College, B.A. in Adult Basic Education; Pacific Lutheran University, M.A. in Social Sciences

IRENE E. RIDDELL, R.N., ARNP
Nursing; California State University at Bakersfield, B.S. in Nursing; University of Washington, M.N.

AURA A. RIOS ERIKSON
Advising; University of Utah, B.A. in Economics, B.A. in Spanish Literature, M.A. in Spanish Literature, M.P.A. in Public Administration

T. SEAN RODY
English; University of Hawaii at Manoa, B.A. in English; University of Nevada - Reno, M.A. in Composition & Rhetoric

DIANA L. SAMSON
Counselor; Gonzaga University, B.A in English Literature; M.A. in Counseling Psychology

LAUREN M. SANDVEN
Mathematics; St. Olaf College, B.A. in Mathematics, Music; University of Washington, M.A. in Mathematics

NIRMALA S. SAVAGE
Mathematics; Claremont McKenna College, B.A. in Mathematics, University of Washington, M.S. in Mathematics

SUEANNE SEEGER
Medical Laboratory Technology; Albright College, B.S. in Biology/Psychology

MARY M. SEGLE
Physical Education; University of Washington, B.A. in Physical Education; Seattle University, M.M.

CHRISTINE M. SHAFFNER
Computer Graphics, Multimedia; University of Michigan, B.F.A in Sculpture, M.F.A in Medical & Biological Illustration

ANNA E. SHANKS, R.N., ARNP
Nursing; Eastern Washington State University, B.S. in Nursing; University of Washington, M.N.

ROBERT C. SHIELDS
Computer Applications; Hampden-Sydney College, B.A. in Psychology; Virginia Polytechnic Institute, M.S. in Computer Science; University of Washington, Ph.D. in Business Administration (Information Systems)

CHRISTOPHER J. SIMONS
Photography; University of Nevada, B.A. in Painting. Washington State University, M.F.A in Graphic Design (Photography)

KEITH B. SMITH
Manufacturing Technology; Sacramento City College, A.A. in Metals Technology
TRUSTEES, ADMINISTRATION & FACULTY

DAINA M. SMUIDRINS
English as a Second Language; University of Washington, B.A. in Studio Art; School for International Training, M.A. in Teaching; TESL

SONJA O. SOLLAND
Anthropology; University of Washington, B.A. in Anthropology, M.A. in Anthropology/Archaeology, Ph.D. in Anthropology/Social Anthropology

PETER D. SPARKS
Psychology; Michigan State University, B.S., in Biochemistry & Psychology; New York University, M.A., Ph.D. in Experimental Psychology

SUSAN E. SPARKS
Speech-Language Pathology Assistant; California State University, B.A., M.A. in Speech-Language Pathology

BRUCE SPITZ
Music; University of Nebraska, B.M.E.; University of Florida, M.M.

MATTHEW N. SPitzer
Automotive, Toyota; Shoreline Community College, Toyota T-Ten Automotive Technology Program Studies; A.S.E. Certification - Toyota

DAVID A. STARR
Retail Management; General Business; Central Washington University, B.A. in Distributive Business Education, M.S. in Occupational Education

MAYUMI STEINMETZ
Japanese, Multicultural Education; University of Delaware, B.A.in History; University of Oregon, M.A. in Asian Studies

SHARON J. STEWART, R.N.
Nursing; Wayne State University, B.S. in Nursing; University of Washington, M.N.

JEAN E. STRIECK
Academic Advisor; University of Washington, B.A. in Music; Antioch University, M.A. in Psychology

KEITH A. TAKECHI
Art History/Studio Art; California State University, B.A. in Art and Art History; B.A. in Asian Humanities, M.A. in Japanese Art History

LEWIS H. TARRANT
Anthropology; University of Washington, B.A. in Anthropology, Ph.D. in Physical Anthropology

TERRY L. TAYLOR
Intra-American Studies & Social Sciences; Austin College, B.A. in Political Science & History; University of Illinois, M.A. in History

ROBERT B. THOMPSON
Psychology; Hampden-Sydney College, B.A. in Psychology, College of William and Mary, M.A. in General Psychology

PHYLLIS E. TOPHAM
Computer Information Systems; Muhlenberg College, B.S. in Mathematics; University of Washington, M.S. in Computer Science

KAREN A. TORESON
Business Technology; Eastern Washington University, B.A., M.A. in Business Education

LISA J. VonHORNE
Speech-Language Pathology Assistant; Luther College, B.A. in Interdisciplinary Studies; Colorado State University at Ft. Collins, M.S. in Communication Disorders

NEAL K. VASISHTH
English Composition; University of Washington, B.A. in English Literature & Political Science; New York University, M.A. in English & American Literature

LYNN A. VonSCHLIEDER
Nursing; Defiance College, B.S. in Nursing; McKendee College, B.S.N.; University of California at San Francisco, M.S. in Nursing Administration

ERIN N. WALKER
International Programs; University of Idaho, B.M. in Vocal Performance; University of Idaho, M.M. in Vocal Performance

LINDA L. WARREN
Philosophy; University of Washington, B.S. in Biochemical Nutrition, M.S. in Nutritional Sciences, B.A. in Philosophy; State University of New York at Binghamton, M.A., Ph.D. in Philosophy

HERMIEN B. WATKINS, ARNP, R.N.-C.
Nursing; California State University, B.S. in Nursing; University of Washington, M.N.

KIRA L. WENNSTROM
Biology; Oregon State University, B.S. in Biology; University of Texas at Austin, PhD in Zoology

ARTHUR K. WEST
Physics; Washington University, A.B. in Physics; University of Maryland, Ph.D. in Physics

DONNA J. WILDE, R.H.I.A.
Health Information Management; Seattle University, B.S. in Medical Record Science; Boise State University, M.P.A.

LAUREN G. WILSON
English as a Second Language; Macalester College, B.A. in Dramatic Arts; School for International Training, M.A. in Teaching; TESOL

TROY T. WOLFF
English Composition, Literature; Baylor University, B.A., M.A. in English Literature

AMAR YAHIAOUI
Chemistry; University of Algiers, B.S. in Chemistry; University of Washington, M.S. in Chemical Engineering, Ph.D. in Polymer Science, Chemistry

BROOKE G. ZIMMERS
Speech Communication; University of Colorado, B.A. in Speech Communication; University of Washington, M.A. in Speech Communication

ALICIA K. ZWEIFACH
Academic Advisor; University of Washington, B.A. in Psychology; Seattle University, M.A. in Counseling
