CHRYSLER “CAP” ADVISORY COMMITTEE MEETING
December 19, 2007

CHAIR:

James Zerhire from Dwayne Lane Dodge

WELCOME and INTRODUCTIONS:

Dale Johnsen from the Portland Training Center

REPORT ON BUILDING EXPANSION

Peter Calkins

COMBINED TECHNICAL CURRICULM AND CAP MEETING

The CAP class is full and should have one student graduating at the end of winter quarter. The remaining students will graduate in the 2009/2010 class.

There are two new students needing sponsors. The service managers wanted to talk with Ken after the meeting to set up interviews.

Dale Johnsen presented the new curriculum to the service managers and their respective dealership personnel. Dale gave an explanation of the new courses being required of technicians and dealerships. Dale expressed a concern that technicians and dealerships need to upgrade to the new courses so that the technicians didn’t loose factory certifications.

Dale Johnsen explained the credit earned by CAP students.

BUDGET FOR CAP

DaimlerChrysler Fund sent $8,000.00 to Shoreline Community College’s CAP program. The Shoreline Community College, CAP program will use these funds to better the students learning, recruitment and for additional tool storage.

CAP STUDENTS FACTORY CREDITS

Dale Johnsen explained that the new courses will be taught to CAP students. The CAP students receive the same course numbering as regular technicians do. They will receive the new courses that will come out in the 2008 year.
AYES REPORT

Report on the growth of AYES in the state of Washington. There are more schools coming on line in our state. Dealerships were encouraged to become involved in their local high schools.
