GM-ASEP ADVISORY COMMITTEE MEETING

PROGRAM: GM-ASEP  DATE: February 18, 2010
PLACE: GM Classroom  TIME: 8:00 a.m.

Present:
Chuck Merritt, Speedway Chevrolet
Rick Shelton, Chuck Olson Chevrolet
Ron Olson, AYES Manager
Gary Main, Past GM Instructor

College Representatives:
Scott Main, GM-ASEP Instructor
Patrick Koenen, GM STC
Don Schultz, Interim Director

Meeting opened at 8:00 a.m.

Scott Main opened the meeting with a brief explanation of the NATEF mid-point review process and the grading system/values.

The committee reviewed each standard item by item and determined strengths and weaknesses. Solutions were found for any weaknesses.

One of the items of concern is placement. Because of the economic challenges, jobs are becoming harder to find. A solution by advisory member, Rick Shelton, is to present it at the GM Service and Parts meeting. The group talked about the need for experienced technicians and to plan for them now. This will help open the doors to employment opportunities.

Another item of concern was equipment inventory. The solution was to use the GMSPx website program to control the special tools. This will be looked into and should be implemented by the next advisory meeting.

The meeting was adjourned at 10:00 a.m.

Respectfully submitted,

Scott Main
GM Instructor
